ABOUT THE PRIX VERSAILLES

Architecture and intelligent sustainability

Presented each year at UNESCO since 2015, the Prix Versailles is a series of architectural competitions that shine a light on the finest contemporary projects around the world.

At the intersection between multiple disciplines, the members of the Prix Versailles World Jury are tasked with awarding 24 World Titles from amongst the 96 finalists shortlisted by the World Selections (in the categories of Airports, Campuses, Passenger Stations and Sports) or recognized as Continental Laureates (in the categories of Shops & Stores, Shopping Malls, Hotels and Restaurants).

The Official List – which pays tribute to innovation, creativity, reflections of local heritage, ecological efficiency and the values of social interaction and participation which the United Nations holds in high regard – is in line with the principles of intelligent sustainability, taking the projects' ecological, social and cultural impacts into consideration.

"Dialogue and interconnections between the different aspects of the human environment - from ecology to social relations to culture - pave the way for intelligent sustainable development. More than a mere goal, this offers a wonderful promise of the ability to meet the latest challenges facing the world today."

TOWARDS A CULTURAL RENAISSANCE OF THE ECONOMY

June 2020

With the Prix Versailles, architects, chefs, Nobel laureates in Economics, heads of international organisations call for a cultural renaissance of the economy.

“Architecture and design can help to reinvent an urbanized world which espouses ecology, sociability and beauty.”
