# OUTLINE HISTORY OF NEW JERSEY.

Within the limits of what is now the State of New Jersey, aside from any evidences of the presence of prehistoric man in the "Trenton Gravels," the original inhabitants of the commonwealth were Lenni Lenape, or Delaware, Indians. This subdivision of the great Algonkin family occupied the river valleys of the State, had made some progress in agriculture and in elementary arts, were peaceable but small in numbers, and at last have become totally extinct in this portion of the United States.

In its settlement, New Jersey was not an English colony. The claims of the Crown, based upon early discovery and various grants, were totally ignored by two great commercial nations of Europe-Holland and Sweden. It was not until 1664, practically a half century after the first occupancy of New Jersey by a white man, that England had aught more than a slight influence upon the destinies of the State. In settlement, Holland was first to send out planters, under the auspices of the Dutch West India Company, Claiming both the valleys of the Hudson and the Delaware, by virtue of the explorations of Hudson and Mey, land was taken up upon the banks of the Hudson. Passaic, Hackensack, Raritan and smaller streams tributary to New York harbor, as well as at Gloucester upon the Delaware. By 1630 these claims were well established by occupancy, and by the creation of a centre of local government in what is now New York city. Upon the rapidly growing influence of Holland, Sweden looked with jealous eye. Gustavus Adolphus, in his plan to make Sweden a world-power, saw the Dutch to be dangerous rivals in America. In 1638 there was equipped a Swedish expedition to settle the valley of the Delaware, What is now the State of Delaware, the valley of the Schuylkill and isolated portions of the west bank of the Delaware River were occupied, civil and military government was established, and the colony of farmers and traders entered upon a brief career of prosperity. The death of Gustavus Adolphus, internal dissentions in Sweden, the inherent weakness of the Delaware settlements, and the constantly increasing power of Holland brought matters to a crisis. In 1655 New Sweden was conquered by New Netherlands,

and for nine years the soil of New Jersey was absolutely under Dutch control

Emerging from the interregnum of the Cromwells, the restoration of the House of Stuart brought peace to England. On the 12th of March, 1664, Charles II., with royal disregard for previous patents, grants and charters, deeded to his brother James. Duke of York, a vast tract embracing much of New England. New York and all of what is now New Jersey. This was accompanied by active preparations to drive the Dutch from America, as they, in alien claims to New Jersey, practically separated the New England colonies from Virginia, Maryland and the Carolinas. In the summer of 1664 armed vessels appeared in New York harbor. After negotiations, the Dutch surrendered and the power of Holland in North America became simply a matter of history. In the meantime James. Duke of York, transferred to two favorites of the House of Stuart-John, Lord Berkeley, and Sir George Carteretpractically what is now the State of New Jersey. In honor of Carteret's defense of the Island of Jersey (Caesarea) during the Parliamentary wars, the territory was called New Jersey (Nova Caesarea).

Carteret and Berkeley, in granting a liberal frame of government and extolling the advantages of their colony so well located for agriculture, commerce, fishing and mining, attracted settlers not only from England, but from Scotland and New England, particularly Long Island and Connecticut. These planters were largely Calvinists, from Presbyterian and Congregational communities, and mainly occupied land in Newark, Elizabeth and upon the north shore of Monmouth county. The valley of the Delaware remained unsettled. The Calvinists brought into East Jersey distinctive views upon religious and civil matters. Early legislatures punished many crimes by death. the penalties being similar to those of the Jewish dispensation, while the "town-meeting" strengthened the individual action of the small communities. There was an intense individualism in every phase of political and religious development, the life of the people centering around the church and the school house, the head of both, as in New England, being the minister.

In 1676 a division of the interests of Carteret and Berkeley occurred. In the meantime Berkeley had disposed of his rights to a company of English Quakers, a conflict had ensued, and to establish the claims of all parties concerned, the two colonies of East and West Jersey came into existence. A line was drawn from a point in Little Egg

THE STATE CAPITOL OF NEW JERSEY.

Harbor to the Delaware Water Gap, Berkeley and his assigns retaining West Jersey as their moiety, Carteret obtaining East Jersey.

By Berkeley's transfer the dominant influence in West Jersey was that of the Society of Friends. Salem was settled in 1675, Burlington, Gloucester and the site of Trenton about five years later, while within ten years thereafter the "shore" communities of Cape May and Tuckerton came into existence. The Society of Friends established in West Jersey a series of communities in which the life of the people was different from that of East Jersey. As East Jersey resembled New England in civil government, so West Jersey resembled Virginia. The political and social centres of the large plantations were the shiretowns, slave owning was common, a landed aristocracy was established, prominent families intermarried, and under the advice of William Penn and his friends good faith was kept with the Indians. Capital punishment was practically unknown and disputes were settled frequently by arbitration.

Two elements of discord marked the genesis of East Jersey and of West Jersey. One, external, was the attitude of the Duke of York after he became James II. In 1673 New Jersey was recaptured by the Dutch, who held the colony until the early spring of 1674. A question arose as to the Duke of York's title after 1674, reconveyances were made, but in spite of past assurances, James II. claimed the proprietary right of government. To that end Sir Edmund Andros was commissioned Governor of New Jersey, and a climax was reached in 1680 when the proprietary governor of East Jersey was carried prisoner to New York. In 1681 the Crown recognized the justice of the proprietors' contention, and local government was re-established, but not before the seeds of discontent were sown that bore fruit in the Revolutionary War.

An internal disturbance was a contest between the Boards of Proprietors and the small land owners. Both in East and West Jersey, Carteret and Berkeley and their assigns had transferred to wealthy combinations of capitalists—most of whom were non-residents—much of the broad acreage of the colonies. With the land went the right of selection of Governors and of members of Executive Councils, which right Berkeley and Carteret had derived from the Crown. This, with "quit-rent" agitations in East Jersey, led to much bitterness. Finally, disgusted with turmoil, and viewing a sentiment of revolt on the part of the people, the Boards of Proprietors sur-

rendered to the Crown, in 1702, their rights of government, retaining only their interest in the soil, East and West Jersey were united, and the two provinces became the

royal colony of New Jersey.

From 1702 until the outbreak of the Revolution the political history of the colony was quite uneventful. Throughout the period of seventy-five years there was almost constant friction between the Legislature and the Governor and his Council. The governors, in the main, were Crown favorites sent over the sea without a personal knowledge of the colony and with but an ill-concealed ambition to wrest from the people as much money as could be secured for the support of themselves and the executive office. The Councils, composed of wealthy land owners of the Society of Friends and rich merchants from East Jersey, were quiescent, and even the members of the popular branch of the Legislature were chosen by those possessing property qualifications. The small non-voting farmers raised the cry of "aristocracy," and the equivalent of "taxation without representation," and while loyal to the Crown were open in their expressions of dissatisfaction to the personal attitude of their governors. In 1738 New Jersey, in recognition of this sentiment, was given a governor separate from the one appointed jointly for the colonies of New York and New Jersey.

During this period the farm was the centre of the activities of the life of the people; particularly was this true in the western part of the colony, where favoring climate and soil, slave labor and the proximity of Philadelphia led to abundant crops and a good market. In East Jersey a commercial spirit was more active. Perth Amboy threatened to rival New York, and Jersey ships from Newark, Elizabeth and the Monmouth villages were to be found from Boston to Charleston. The repressive economic policy of the Crown precluded the development of manufactures. In the southern part of the State, sand and unlimited forests of oak and pine led to the development of glass making, while "bog iron," with abundance of lime from oyster shells, gave an impetus to the erection of forges and bloomaries. These, as well as the copper mines of the trap rock region, were throttled by adverse Parliamentary legislation. Ship building was a recognized industry, and cedar was extensively "mined" from the sunken forests of the tide-water district. Whaling and other fisheries were unhampered, and were profitable, as was also the trade in skins and in hay from the salt meadows of the coast.

Throughout the years from 1702 to 1776 gold and silver and copper money was scarce. In obedience to the demand of the English merchants that competition should be crushed, legislation was enacted to draw "hard" money away from the colony. An inflated paper currency, first issued in 1707 to provide ways and means to aid the Canadian expedition against the French, poured from the printing presses. Trade was reduced to barter, and gold, silver and copper were practically at a premium for nearly three generations.

Of the more prominent incidents during the period were the organized attempts to suppress piracy in New York and Delaware bays, the growth of a well-defined system of transportation by land and water between New York and Philadelphia, the establishment of ferries and post roads, the reclamation of waste land, the injection of Hugenot, Scotch-Irish and Palatinate German elements into the settled population, the chartering of Princeton University and Rutgers College, the religious revival led by Whitefield, the propogation of abolition doctrines by Wooiman, the erection of a series of barracks owing to the French and Indian war, and what is probably of supreme importance, the growth of a sentiment of independence fostered by the stupid policy of the Crown, and carried from hamlet to hamlet, as much by itinerant hawkers and by "Redemptioners," who had served their time, as by any other cause.

The opening of the Revolution found New Jersey's sentiment unevenly crystalized. Few, if any, were favoring absolute independence. There were three elements. One. the Tory party, was led by Governor William Franklin, the illegitimate sen of Benjamin Franklin. This conservative class embraced nearly all the Episcopalians, a vast proportion of the non-combatant members of the Society of Friends and some East Jersey Calvinists. Another element was composed of men of various shades of belief. some in favor of continual protest, others desirous of compromise. This included at the outbreak of the struggle most of the Calvinists, some few Quakers of the younger generation, and the Scotch-Irish. The third party drew its support from a few bold, aggressive spirits of influence whose following included men who believed that war for independence would benefit their fortunes.

The part played in the Revolution by New Jersey has been frequently told. Events passed rapidly after the affairs of Trenton and Princeton; Monmouth and Red Bank will never be forgotten, while the raids at Salem, Springfield, Elizabeth, in the valley of the Hackensack, and the winter at Morristown are a part of national history. Occupying a position between New York and Philadelphia, its soil was a theatre where the drama of war was always presented. At no time was the Tory element suppressed, finding its expression in open hostility, or in the barbaric cruelties of the "Pine Robbers" of Monmouth, Burlington, Gloucester and Salem counties. Though under suspicion, the Society of Friends were neutral, for conscience sake, remaining close to the teachings of their creed.

The close of the struggle found the people of New Jersey jubilant and not disposed to relinquish their sovereignty. The Articles of Confederation were weak and had become a by-word and a jest. There was much State pride and much aristocratic feeling among the old families who continued to dominate State politics. The Constitution of 1776, adopted by New Jersey as a makeshift war measure, provided that all State officers of prominence should be elected by a Legislature, which was chosen by voters possessing property qualifications. As in the colony, the Governor was Chancellor, and class distinctions were closely drawn. In spite of agitation, all proposed changes were rejected, and a strong federal union with the other States was viewed with dislike and suspicion. The State, in a quarrel with New York, at one time refused to obey the requests of Congress, and, in the exercise of her sovereignty, established a Court of Admiralty and coined money.

While the spirit of "State rights" was dominant, it was recognized by leaders of public thought that New Jersey was too weak to stand alone. She entered the Annapolis convention called to revise the Articles of Confederation, and whose lasting monument was the present Federai Constitution adopted in Philadelphia in 1787. Upon the 15th of June of that year the "New Jersey Plan" was presented, which, while lost as a measure, led to the famous compromise upon representation, whereby in the Senate of the United States the States were given equal vote, with a representation based on population in the House.

The adoption of the Constitution of the United States led to the rapid growth of political parties in New Jersey as elsewhere. In spite of the intense conservatism of the State, led by the Quakers of West Jersey, who were Federalists almost to a man, the anti-Federalist sentiment developed rapidly, spurred by a virulent party press, the death of men who had been trained in colonial methods of thought and the democratic tendency of the Methodist Episcopal Church, which grew in strength in West Jersey.

In the eastern part of the State there was among the individualistic Calvinists a strong anti-Federal spirit. This, in 1800, led to the election of Thomas Jefferson as President of the United States, and in 1801 the election of his political ally, Joseph Bloomfield, as Governor of the State of New Jersey. The death of Hamilton at the hands of Burr, and the death of Livingston, the "war" Governor, tore down the strongest pillars of Federalism in New Jersey, and led to the absolute domination of the State by the anti-Federalists, who held power until the outbreak of the second war with England.

The period from 1790 to 1812 in New Jersey was marked by a demand for internal improvements and better transportation. The agitation concerning the Delaware and Raritan Canal, Stevens' experiments in 1802 with steam, along the lines laid down in 1785 by Fitch, the project of the Society for Establishing Useful Manufactures at Paterson as early as 1791, and highways conducted through the northwest portion of the State, indicate the trend of public sentiment.

The second war with England was not altogether a popular measure in New Jersey. The Federalists, the "Peace Party," secured control of the Legislature and elected their Governor. Nevertheless the State furnished her quota of troops. The one permanent effect of the struggle upon the State was indirect. Owing to the movement of supplies and the necessity of quick transportation between Philadelphia and the exposed port of New York, the wagon roads between Bordentown and Perth Amboy, and between Trenton, New Brunswick, Metuchen, Rahway, Elizabeth and Newark, were improved and their advantages as "short routes" demonstrated. Upon these lines two later railroads, now a part of the Pennsylvania Railroad system, were constructed.

The era following the close of the war of 1812 until the opening of the Civil War was one of stupendous activity. Interrupted only by the financial depressions of 1817 and 1837, and slightly retarded by the Mexican War, the progress of the State was beyond the wildest dreams of the enthusiast, Alexander Hamilton. In the eastern part of the State, aided by a constantly increasing foreign population, Jersey City rose from the marshes, Newark grew toward her present greatness, Paterson became a centre of industry, while in the west, Camden was recognized as an available site for manufactures. The public school system was established and extended, reforms in the caring for the criminal, defective, delinquent and dependent

classes were instituted, railroads were reaching every town of size, in the vicinity of New York and Philadelphia, ferries were erected, banks established, post offices opened and newspapers printed. In 1844, when social unrest was most marked, the present State Constitution was adopted by a large popular majority and needed reforms tending to elevate the legal position of married women, imprisoned debtors and bankrupts were adopted.

The year 1860 brought a termination to the then impending conflict. While every other State north of Mason and Dixon's line by 1850 had set the black man free, there were still 236 negroes in bondage in New Jersey. The abolition movement made slow progress and an anti-war party had a decided following. But when the die was cast New Jersey responded to the call for men and money. She furnished 88,305 men, or within 10,501 of her cntire militia. For organizing, subsisting, supplying, supporting and transporting her troops she paid \$2,894,385, and upon the field sustained the reputation for bravery she had won during the days of Trenton and Monmouth.

Since the Civil War New Jersey has become the centre of marvelous activity in nearly every line of human progress. Her mills clothe multitudes; within her borders are found the termini of every railroad system of the United States, with one exception, penetrating the South and West; her market gardens feed 5,000,000 people; a series of cities arisen upon the desolate sands of the sea shore furnish health and pleasure to hundreds of thousands of visitors; her mines supply iron, zinc and copper; her fisheries are world-famous, and her farms and dairies are models.

# DECLARATION OF INDEPENDENCE

# UNITED STATES.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuits of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundations on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly, all experience hath shown that mankind are more disposed to suffer. while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having. in direct object, the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

19

He has forbidden his Governors to pass laws of immediate and pressing importance, unless suspended in their operations till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the Legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing, with manly firmness, his invasions on the rights

of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the State remaining, in the meantime, exposed to all the dangers of invasions from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose, obstructing the laws for the naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice, by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance.

He has kept among us in times of peace, standing armies, without the consent of our Legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined, with others, to subject us to a jurisdiction foreign to our constitutions, and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment, for any murders which they should commit on the inhabitants of these States;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefit of trial by jury;

For transporting us beyond seas to be tried for pretended offenses:

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies:

For taking away our charters, abolishing our most valuable laws, and altering, fundamentally, the forms of our governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burned our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrection among us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions, we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in our attentions to our British brethren. We have warned them, from time to time, of attempts by their Legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inev-

itably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace, friends.

We, therefore, the representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these United Colonies are, and of right ought to be. Free and Independent States: that they are also absolved from all allegiance to the British crown, and that all political connection between them and the State of Great Britain, is, and ought to be, totally dissolved; and that, as Free and Independent States, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which Independent States may of right do. And, for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other, our lives, our fortunes and our sacred honor.

# STATE CONSTITUTION.

A CONSTITUTION agreed upon by the delegates of the people of New Jersey, in convention begun at Trenton on the fourteenth day of May, and continued to the twenty-ninth day of June, in the year of our Lord one thousand eight hundred and forty-four, ratified by the people at an election held on the thirteenth day of August, A. D. 1844, and amended at a special election held on the seventh day of September, A. D. 1875, and at another special election held on the twenty-eighth day of September. A. D. 1897.

We, the people of the State of New Jersey, grateful to Almighty God for the civil and religious liberty which He hath so long permitted us to enjoy, and looking to Him for a blessing upon our endeavors to secure and transmit the same unimpaired to succeeding generations, do ordain and establish this Constitution:

# ARTICLE I.

### RIGHTS AND PRIVILEGES.

1. All men are by nature free and independent, and have certain natural and unalienable rights, among which are those of enjoying and defending life and liberty; acquiring, possessing and protecting property, and of pursuing and obtaining safety and happiness.

2. All political power is inherent in the people. Government is instituted for the protection, security and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may re-

quire it.

3. No person shall be deprived of the inestimable privilege of worshiping Almighty God in a manner agreeable to the dictates of his own conscience; nor, under any pretense whatever, to be compelled to attend any place of worship contrary to his faith and judgment; nor shall any person be obliged to pay tithes, taxes or other rates for building or repairing any church or churches, place or places of worship, or for the maintenance of any minister or ministry, contrary to what he believes to be right, or has deliberately and voluntarily engaged to perform. 4. There shall be no establishment of one religious sect in preference to another; no religious test shall be required as a qualification for any office or public trust; and no person shall be denied the enjoyment of any civil right

merely on account of his religious principles.

5. Every person may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right. No law shall be passed to restrain or abridge the liberty of speech or of the press. In all prosecutions or indictments for libel, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libelous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

6. The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched

and the papers and things to be seized.

7. The right of a trial by jury shall remain inviolate; but the legislature may authorize the trial of civil suits, when the matter in dispute does not exceed fifty dollars, by a

jury of six men.

8. In all criminal prosecutions the accused shall have the right to a speedy and public trial by an impartial jury; to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel in his defense.

9. No person shall be held to answer for a criminal offense, unless on the presentment or indictment of a grand jury, except in cases of impeachment, or in cases cognizable by justices of the peace, or arising in the army or navy; or in the militia, when in actual service in time of

war or public danger.

10. No person shall, after acquittal, be tried for the same offense. All persons shall, before conviction, be bailable by sufficient sureties, except for capital offenses, when the proof is evident or presumption great.

11. The privilege of the writ of habeas corpus shall not be suspended, unless in case of rebellion or invasion the

public safety may require it.

12. The military shall be in strict subordination to the civil power.

13. No soldier shall, in time of peace, be quartered in

any house without the consent of the owner; nor in time of war, except in a manner prescribed by law.

14. Treason against the State shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

15. Excessive bail shall not be required, excessive fines shall not be imposed, and cruel and unusual punishments

shall not be inflicted.

16. Private property shall not be taken for public use without just compensation; but land may be taken for public highways as heretofore, until the legislature shall direct compensation to be made.

17. No person shall be imprisoned for debt in any action, or on any judgment founded upon contract, unless in cases of fraud; nor shall any person be imprisoned for a militia

fine in time of peace.

18. The people have the right freely to assemble together, to consult for the common good, to make known their opinions to their representatives, and to petition for redress of grievances.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation what-

ever.

21. This enumeration of rights and privileges shall not be construed to impair or deny others retained by the people.

# ARTICLE II.

## RIGHT OF SUFFRAGE.

1. Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this State one year, and of the county in which he claims his vote five months, next before the election, shall be entitled to vote for all officers that now are, or hereafter may be, elective by the people; provided, that no person in the military, naval or marine service of the United States shall be considered a resident in this State, by being sta-

tioned in any garrison, barrack, or military or naval place or station within this State; and no pauper, idiot, insane person, or person convicted of a crime which now excludes him from being a witness unless pardoned or restored by law to the right of suffrage, shall enjoy the right of an elector; and provided further, that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof, shall be deprived of his vote by reason of his absence from such election district; and the legislature shall have power to provide the manner in which, and the time and place at which, such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.

2. The legislature may pass laws to deprive persons of the right of suffrage who shall be convicted of bribery.

# ARTICLE III.

# DISTRIBUTION OF THE POWERS OF GOVERNMENT.

1. The powers of the government shall be divided into three distinct departments—the legislative, executive and judicial; and no person or persons belonging to, or constituting one of these departments, shall exercise any of the powers properly belonging to either of the others, except as herein expressly provided.

# ARTICLE IV.

### LEGISLATIVE.

#### Section L.

1. The legislative power shall be vested in a senate and general assembly.

2. No person shall be a member of the senate who shall not have attained the age of thirty years, and have been a citizen and inhabitant of the State for four years, and of the county for which he shall be chosen one year, next before his election; and no person shall be a member of the general assembly who shall not have attained the age of twenty-one years, and have been a citizen and inhabitant of the State for two years, and of the county for which he shall be chosen one year next before his election; provided, that no person shall be eligible as a member of either house of the legislature, who shall not be entitled to the right of suffrage.

3. Members of the senate and general assembly shall be elected yearly and every year, on the first Tuesday after the first Monday in November; and the two houses shall meet separately on the second Tuesday in January next after the said day of election, at which time of meeting the legislative year shall commence; but the time of holding such election may be altered by the legislature.

#### Section II.

1. The senate shall be composed of one senator from each county in the State, elected by the legal voters of the counties, respectively, for three years.

2. As soon as the senate shall meet after the first election to be held in pursuance of this constitution, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the first year; of the second class at the expiration of the second year; and of the third class at the expiration of the third year, so that one class may be elected every year; and if vacancies happen, by resignation or otherwise, the persons elected to supply such vacancies shall be elected for the unexpired terms only.

#### Section III

1. The general assembly shall be composed of members annually elected by the legal voters of the counties, respectively, who shall be apportioned among the said counties as nearly as may be according to the number of their inhabitants. The present apportionment shall continue until the next census of the United States shall have been taken, and an apportionment of members of the general assembly shall be made by the legislature at its first session after the next and every subsequent enumeration or census, and when made shall remain unaltered until another enumeration shall have been taken; provided, that each county shall at all times be entitled to one member; and the whole number of members shall never exceed sixty.

#### Section IV.

1. Each house shall direct writs of election for supplying vacancies, occasioned by death, resignation, or otherwise; but if vacancies occur during the recess of the legislature, the writs may be issued by the governor, under such regulations as may be prescribed by law.

2. Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of

each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties, as each house may provide.

3. Each house shall choose its own officers, determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds,

may expel a member.

4. Each house shall keep a journal of its proceedings, and from time to time publish the same; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

5. Neither house, during the session of the legislature, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which

the two houses shall be sitting.

- 6. When a Senate bill shall be returned, amended by the House of Assembly, the sections of the bill so amended, together with the amendments, shall be read by the Secretary for a first reading and be entitled to a second reading without special motion, at which reading the proposed amendments shall be open to the action of the Senate. And if, at its third reading, upon the question being put by the President, "Will the Senate concur in the House amendment to Senate bill No. -?" a majority of the whole Senate should, by a vote of years and nays, concur, the question shall then be upon ordering the bill to be re-printed. The House shall, if appealed to, decide on the case, but without debate; if there be no appeal, the decision of the Chair shall be submitted to. - 20. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him. All motions to excuse a member from voting shall be made before the House divides, or before the call of the yeas and nays is commenced; any member requesting to be excused from voting may make a brief verbal statement of the reasons for such request, and the question shall then be taken without further debate.
- 21. Petitions, memorials and other papers addressed to the House shall be presented by the Speaker, or by a member in his place; a brief statement of the contents thereof shall be made by the introducer, and, if called upon, he shall declare that it does not, in his opinion, contain any indecent or reproachful language, or any expressions of disrespect to the House, or any committee of the same.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away from the rest may stand entire for the decision of the House; a motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendment nor a motion to strike out and insert.

All incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

# STATE INSTITUTIONS.

#### THE STATE CAPITOL.

This edifice, a massive structure, erected at sundry times and various periods, is located on West State street, at the corner of Delaware street, running thence westerly along State street to the grounds of the late ex-Chancellor Green, and southerly to the Water Power. The location is a good one, and although the style of the building is not modern, yet it answers the purposes for which it was intended, even if it does not present a very imposing appearance.

The seat of Government was fixed at Trenton by an act of the Legislature, approved November 25th, 1790. James Cooper, Thomas Lowery, James Ewing, Maskell Ewing, George Anderson, James Mott and Moore Furman were appointed commissioners to select, purchase or accept so much land as was needed, and to erect thereon suitable buildings for the use of the Legislature. They purchased the present site, centaining about three and three-quarters acres-a frontage on Second street (now West State street) of 247 feet and 6 inches, and a depth from the front to low water line of the Delaware river of 666 feet-at a cost of £250 5s. The old State House was a plain, bare-looking. rought-cast building, and was erected at a cost of £3,992 3s. 4d. By an act of March 4th, 1795, a building was erected to serve as an office for the Secretary of State, and for the preservation of the public records, at a cost of £620 19s, 10d. Numerous improvements and repairs were made, and on March 3d, 1806, an act was passed appointing commissioners to make certain repairs to the State House, to provide and hang a suitable bell, &c. This was done, and the bell was used for informing the members of both houses, as well as the courts, of the hour of meeting. The bell was eventually discarded, and an American flag substituted. which waves from the building unto this day, when the Legislature is in session, and upon holidays and State occasions. In 1848, the State House was altered by the removal of the rough-casting, and changing the front to the style of the Mercer County Court House, placing neat porticoes over the front and rear entrances, and erecting two additional buildings adjoining the main one, as offices for the Clerks of the Chancery and Supreme Courts. The rotunda

was also erected, and the grounds fenced, graded, laid out and shade trees planted, all at a cost of \$27,000. The commissioners under whose directions the work was completed, were Samuel R. Gummere, Samuel R. Hamilton and Stacy A. Paxson. In 1863, '64 and '65, appropriations were made and expended in building additions for the State Library, Executive Chambers, &c. In 1871, Charles S. Olden, Thomas J. Stryker and Lewis Perrine were appointed commissioners to cause a suitable addition to be built-more commodious apartments for the Senate and Assembly, &c. The sum of \$50,000 was appropriated, and the buildings for the Legislature were ready for occupancy in time for the meeting of the Legislature in 1872. In 1872. \$120,000 was appropriated for completing the building, \$3,000 for fitting up the Executive Chamber, \$4,000 for fitting up the Chancery and Supreme Court rooms, and \$2,000 for fitting up the offices on the first floor of the east wing. In 1873, the sum of \$43,000 was appropriated for the improvement of the front of the building, completing unfinished repairs and improvements, and for fitting up the Library, &c. On March 18th, 1875, the sum of \$15,000 was appropriated for the purpose of putting a new three-story front to the building, and to fit up offices on the second floor for the Clerks of the Court of Chancery and Supreme Court, and for providing a suitable museum for geological specimens, and the battle-flags of New Jersey volunteer regiments, carried during the war of the Rebellion.

On March 21st, 1885, the front portion was destroyed by fire, and the Legislature appropriated \$50.000 for rebuilding, and, in 1886, an additional appropriation of \$225,000 was

granted.

The new building was finished in 1889. It is of rectangular shape and of the Renaissance style of architecture, with a frontage of one hundred and sixty feet on State street, a depth of sixty-seven feet, and three and a half stories high, with a rotunda thirty-nine feet across, which connects the new section of the Capitol with the original part. The rotunda is surmounted by a dome one hundred and forty-five feet high.

The building has about sixty feet more frontage than the former one, and approaches about ten feet nearer the street.

The walls are constructed of solid, fire-proof, brick masonry, faced with a light-colored stone from Indiana, known as Salem Oolitic, with foundations and trimmings of New Jersey free stone, from the Prallsville quarries, in Hunterdon county. The portico, door-head and trimmings

about the door are of the same material. The portico, with balcony, is supported by massive pillars of polished granite and surmounted by the coat of arms of the State.

The apartments used for offices are very spacious, fitted throughout in the most approved modern style, and each department is supplied with one or more of the finest fire-proof vaults. The first and second stories are set aside for offices, and the entire third story is used for the State Library.

The old State Library apartments have been improved and extended, and are now used as offices for the Attorney-General, State Superintendent of Public Instruction and Commissioner of Banking and Insurance. A new story was added, which is used for the Geological Museum and State offices.

In 1891, a new Assembly Chamber was erected. The old one was too small and poorly ventilated, and besides, there was a lack of suitable committee rooms. The Legislature of 1891 passed a Joint Resolution, which was approved on March 20th, authorizing the Governor "to provide a suitable chamber and committee rooms for the use of the General Assembly of this State," &c., and also, "to make such additions and alterations as will afford the necessary accommodations for the Supreme Court and Court of Errors and Appeals, or for other State offices, and sufficient money is hereby appropriated for that purpose, to be paid by the Treasurer of this State on the warrant of the Comptroller, after approval by the Governor."

The new chamber was built by James W. Lanning, of Trenton, from plans prepared by James Moylan, of Jersey City, and under the superintendency of Bernard J. Ford, of Newark. It covers the site of the former chamber, and extends beyond it to Delaware street on the east and to the water power on the south. It has a frontage on Delaware street of 120 feet and a depth of 75 feet. The exterior finish and design of the building are similar to the adjoining portion of the Capitol. The foundation is of brown stone, from the Stockton quarries, and the trimmings of light Indiana stone. The interior is finished in Trenton tile, quartered oak and Italian statuary marble. It is a fire-proof building throughout, and is specially ventilated. The committee rooms are ample and convenient, and the interior design, arrangement and finish make it a model legislative chamber. It cost the State \$140,500. The cost of the steam heating and ventilating systems was about \$25,000.

The other new addition to the Capitol provides a consul-

tation room for the Judges of the Supreme Court and the Court of Errors and Appeals and a private room for the Governor, a room for the Museum of the Geological Survey, and other offices, and cost \$34.500.

An electric light apparatus was also placed in the Capitol, which cost \$23,000. Every department in the building

is now lighted by electricity.

A new Otis elevator has been placed in the front part of the building, which gives easy access to all the upper floors.

In 1900 the Legislature appropriated \$96,000 for additions and alterations to the Capitol, which included the cost of an electric light plant.

## THE STATE LIBRARY.

This valuable collection of books is located on the third floor of the State Capitol. The old saying, "Great oaks from little acorns grow," most appropriately applies to this institution.

The first library of the State was a case ordered to be procured by Maskell Ewing, Clerk of the House of Assembly, for the keeping and preservation of such books as belonged to the Legislature. It was ordered by a resolution passed March 18th, 1796. This was the nucleus of the present extensive library. On February 18th, 1804, William Coxe, of Burlington; Ezra Darby, of Essex, and John A. Scudder, of Monmouth, were appointed a Committee on Rules, and to make a catalogue; they reported that there were 168 volumes belonging to the State, and presented a code of seven rules, which was adopted. On February 10th, 1813, an act (the first one) was passed, entitled "An act concerning the State Library." Up to 1822 it appears that the Clerk of the House had charge of the books, as Librarian, and, on November 16th, 1822, an act was passed for the appointment of a State Librarian, annually, by joint meeting. In 1846, on April 10th, an act was passed making the term of office three years. The Law Library at that time belonged to the members of the Law Library Association. The only persons allowed the use of the Library were members of the Association, the Chancellor, and the judges of the several courts. Stacy G. Potts was Treasurer and Librarian of the Association. The Law Library was kept in the Supreme Court room until 1837, when the Legislature authorized the State Librarian to fit up a room adjoining the Library for the care and reception of the books and papers belonging to the State Library.

Thus the two Libraries were consolidated. On March 13th, 1872, \$5,000 per year for three years was appropriated for the Library by the Legislature, and by the act of March 15th, 1876, the sum of \$2,500 was appropriated for finishing and refurnishing the Library room. In 1890, the Library was removed to the third story of the new part of the Capitol.

## THE STATE ARSENAL.

The building now used as the State Arsenal was formerly the old State Prison. It is situate on Second street, in the Sixth Ward of the city of Trenton, and has on its front the following inscription:

Labor, Silence, Penitence,
The Penitentiary House.
Erected by Legislative Authority.
Richard Howell, Governor.
In the XXII. Year of American
Independence, MDCCXCVII.
That Those Who Are Feared for Their
Crimes May Learn to Fear the Laws
And be Useful.
Hic Labor, Hoc Opus.

In the messages of Governors P. D. Vroom and S. L. Southard, recommending the erection of the new prison, it was proposed that the old one be converted into an Arsenai for the safe keeping of the arms and military property of the State, which, previous to that time, had been kept in the old State Bank, corner of Warren and Bank streets, with accoutrements and camp and garrison equipage at the State House. After the removal of the State convicts from the old prison, permission was given to the county of Mercer to occupy it as a jail until its jail, then in course of completion, was finished, and when it was again vacated it was converted into an arsenal.

Among the stores, &c., at the Arsenal are one bronze gun, French, of the date of 1758; two bronze guns, English, four-pounders, and two iron six-pounders. There is also one gun captured at the battle of Trenton, December 26th, 1776, and two guns captured at Yorktown, October 19th, 1781. There are also a large quantity of fire-arms, ammunition, ordnance, tents, clothing, blankets, &c.

### STATE HOSPITAL.

## Trenton.

This institution is located on the right bank of the Delaware River, about two miles northwest of the City Hall. The buildings are constructed of reddish sandstone, obtained from quarries near the hospital, and are located on an elevation of about seventy-five feet above the river. The front of the Main or Administration Building is ornamented by a handsome porch of Ionic architecture, designed by the celebrated Notman, from which may be obtained one of the finest landscape views in the State.

In 1844, after repeated and unsuccessful attempts to cause action to be taken by the Legislature for the building of a State institution for the special care and treatment of the insane, a commission was appointed, chiefly through the earnest efforts of Dr. Lyndon A. Smith, of Essex, and Dr. Lewis Condict, of Morris, and the eminent philanthropist, Miss D. L. Dix, to select a site. An appropriation of \$35,000 was made to purchase the land, and to commence the erection of the building. The present site was selected by the commissioners from among many that were offered in various sections of the State because of the large spring of excellent water found on the place. This spring was developed, and furnished a daily supply of about one-half millions of gallons of pure water for many years. In the severe drought of 1880 the supply was greatly diminished, falling off nearly two hundred and fifty thousand gallons, and it has never regained its full and former capacity. The spring is now supplemented by driven wells, three in number, and each one over three hundred feet deep. These with the spring, are capable of supplying daily a half million gallons of excellent water. In 1896 a standpipe for storing water and securing a fire pressure was erected, with a capacity of five hundred thousand gallons.

Work was commenced on the main building in November of 1845, and the hospital was opened for the reception of patients on the 15th day of May. 1848. Numerous additions have been made from time to time to the building, increasing its capacity from fifty patients, in 1848, to eight hundred and fifty patients, in 1898.

In 1887, the Legislature passed an act appropriating \$100,000 for providing additional accommodations. The new building is a handsome structure of red sandstone, and similar to that used in the main building. This is five

hundred feet long, three stories in height, and capable of accommodating three hundred patients, one hundred and fifty of each sex. The building is designed to accommodate the chronic incurable class, and was a great relief from the overcrowded state that existed in the main building prior to its completion. The building was completed within the appropriation, and opened for the reception of patients in the month of October, 1889.

Since the opening of the institution in May, 1848, there have been received and treated 9,860 patients. At the close of the fiscal year, October 31st, 1900, there were under care in the hospital 1.117 patients. Much has been done for the comfort and pleasure of the patients. A green-house has been erected for the purpose of furnishing plants and flowers for the patients' corridors, handsome pictures adorn the walls, and everything about the hospital presents

a comfortable and homelike appearance.

The institution possesses a library, one of the largest, if not the largest, in this country connected with a hospital for the insane. The books are accessible to all members of the household. They have been freely used, and do much to relieve the monotony of many an hour of hospital life. The library now consists of about 4,000 volumes. and is the result of the bequest of a former nurse (Anne Robinson), who, by will, bequeathed her earnings for several years as a nurse and attendant in this hospital. She made the bequest, as she herself expressed it when making her will, for the purpose of purchasing books to be used for the pleasure and benefit of those to whom she had. for so many years, endeavored to minister.

During the year 1898, a handsome amusement room, capable of seating about four hundred, was finished; also, a large and commodious chapel, in which religious exercises are held from time to time; various clergymen, without regard to denominational preference, officiate every Sunday. The new chapel is capable of seating about five hun-

dred patients.

## STATE HOSPITAL.

## Morris Plains.

In order to relieve the crowded condition of the Trenton Asylum, and make further provision for the increasing number of the insane, commissioners were appointed by the Legislature of 1871 to select a site and build an institution in the northern portion of the State. About 408 acres of land were purchased, at a cost of \$78.732.36, in Hanover township, Morris county, and a site for the institution was selected on the foot hills of the Watnong range of the Blue Ridge Mountains, at an elevation of 520 feet above the sea level. The location is ideal for an institution of its kind, being unsurpassed in this particular by any similar institution in this country. A magnificent view of the surrounding country is commanded. The air is cool and balmy in summer, and crisp and stimulating in winter.

The institution is a four-story building, of granite quarried on the premises, and trimmed with brown sandstone. The total length is 1,243 feet, and the depth, from the front of the main center building to the rear of the extreme wings, is 542 feet, constituting at present the largest institution for the insane under one roof in the world, and one of the finest buildings of its kind in the United States.

The building was planned and constructed to accommodate 800 patients, but at present has a population of more than 1.250 insane. The total cost was about \$2.250,000. It was first occupied by patients on August 17th, 1876.

The Legislature of 1895 appropriated \$125,000 for additional buildings and improvements. The foundation of the new building was laid to accommodate 600 patients, and provide suitable laboratory facilities for the further prosecution of scientific work. An appropriation was also made for the extension of the water-supply, and an additional tract of land was purchased, bringing the total extent of the hospital's property up to about 720 acres. On a portion of this land an additional reservoir, with a capacity of 6,500,000 gallons, has since been built. The Legislature of 1898 appropriated \$150,000, enabling the management to give out contracts looking to the completion of the administration portion of the building, the north wing, associate dining-rooms, amusement hall, and pathological laboratories.

The barns and outbuildings belonging to the institution are in excellent condition, and the farm is in a high state of cultivation.

## NORMAL AND MODEL SCHOOLS.

These schools are the property of the State, and are located at the junction of Perry street and Clinton avenue, Trenton. There are two buildings, the one for the schools located on the west side of Clinton avenue, the other, containing the boarding halls and dormitories, situated on the east side of the avenue. These schools were established in

1855 by an act of the Legislature. The purpose of the Normal School was defined to be "the training and education of its pupils in such branches of knowledge, and such methods of teaching and governing, as will qualify them for teachers of our common schools." The Model School was designed to be a place where "the pupils of the Normal School shall have opportunity to observe and practice the modes of instruction and discipline inculcated in the Normal School, and in which pupils may be prepared for the Normal School."

The following figures show the original cost and present valuation of the Normal School property:

Original cost of the Normal and Model School

The Principals of the schools have been as follows: William F. Phelps, A. M., October 1st, 1855, to March 15th, 1865; John S. Hart, LL. D., March 15th, 1865, to February 7th, 1871; Lewis M. Johnson, A. M., February 7th, 1871, to July 1st, 1876; Washington Hasbrouck, Ph. D., July 1st, 1876, to February 10th, 1889; James M. Green, Ph. D., February 10th, 1889, to the present.

## THE STATE HOME FOR BOYS.

"The New Jersey State Reform School" was established by act of the Legislature approved April 6th, 1865. A farm of 490 acres was purchased for the purpose near Jamesburg, Middlesex county.

The first boy was received July 6th, 1867. Its first Superintendent was Rev. Luther H. Sheldon, who was in office from April 10th, 1867, till April 1st, 1874, and was succeeded by James H. Eastman, who was Superintendent from April 1st, 1874, till September 15th, 1884. Upon his withdrawal Ira Otterson was made acting Superintendent, and on December 10th, 1884, he was unanimously elected Superintendent, and is still the executive head of the institution.

From the opening of the school till the close of the fiscal year (October 31st. 1899), there had been received by commitment into the care of the school, 3,236 boys.

Owing to the probable opening at an early date of the State Reformatory, for an older class, it was thought best by the Legislative Committee on The Reform School, of the session of the Legislature of 1900, to change the name of The Reform School to "The State Home for Boys," so as to avoid confusion in matters of business, and unjust reflection upon boys going out with honorable parole from the institution.

Since founding the school, beside the Administration building, there have been erected on the campus seven family buildings (one of them a double building), capable of accommodating fifty boys each, a chapel, hospital, store and cook house, industrial building, electric light, heat and power generating station, and farm buildings, all of brick, many of the buildings constructed with bricks manufactured by the boys on the place.

Beside domestic and farm labor, all boys are instructed in the rudiments of an English school education, and many receive instruction in different mechanical branches and band music.

In 1900 there was erected by boys' labor, under regular instructors, a building 40 by 100 feet, two stories high, in which are established schools for trade teaching. While in the past, so far as the accommodations would permit, a number of boys have received instruction in mechanical trades, and with the accommodations furnished in the new building, it is hoped a greater number of boys may receive a more thorough knowledge in lines of skilled

handicraft, which will the better prepare them to become good citizens.

The members of the Board of Trustees realizing the needs of the boys, and deeply interested in the future welfare of these wards of the State, devote much time to the conduct of its affairs, and in consideration of that which will promote its greatest good. Their services are given without compensation, their actual expenses being paid by the State.

## STATE HOME FOR GIRLS.

This institution is located on the line of the Trenton Branch of the Delaware and Bound Brook Railroad, in Ewing township, near the Trenton Lunatic Asylum, and is located on a farm of about 79 acres of land. A substantial building was erected, at a cost of \$23,334, and other improvements made, which bring the value of the place, with furniture, &c.. up to \$37,740. Previous to the erection of the new building, the school was at "Pine Grove," in the Sixth Ward of the city of Trenton. This place had been leased so as to afford room for persons sentenced under the act of April 4th, 1871. The Legislature of 1900 appropriated \$30,000 for the erection of an additional building.

## THE STATE PRISON.

The New Jersey State Prison, situated on the block enclosed by Federal, Third, Cass and Second streets, in the city of Trenton, is one of the finest institutions of its kind in the country. Its erection was authorized by an act of the Legislature passed February 13th, 1832, and it was completed in the year 1836, having 150 cells, at a cost of \$179,657.11. It was built of red sand-stone, from the Ewing quarries, and the style of its architecture is Egyptian, having four Egyptian columns in front of the main entrance, on Third street. It consists of a main building, used as a residence for the Keeper and as reception rooms and offices. From time to time the prison has been enlarged, and although there is not sufficient room to afford separate confinement for each prisoner, as required by law, the provisions of the act are carried out as far as possible. The rules and regulations now in force have brought the internal affairs of the institution, as to cleanliness, discipline, victualing, &c., to a much higher standard than was ever before reached, and a visit thereto will

convince the visitor that the management is as perfect as can be.

On March 4th, 1847, \$5,000 was appropriated to build an additional wing to the original building. On March 25th, 1852, \$15,000 was granted for the erection of a new wing for hospital purposes. On March 22d, 1860, the sum of \$17,000 was voted for the purpose of building an additional wing for cells, and on February 16th, 1861, a further sum of \$2.243.01 was appropriated to complete the same. On April 16th, 1868, \$6,000 was appropriated for the building of an additional wing to provide room for female convicts. An act passed April 2d, 1869, provided for the appointment of commissioners to extend the grounds of the prison to the wall of the State Arsenal, to build an additional wing and work shops, and made an appropriation of \$50,000 for that purpose, and in the same month \$9,734 was appropriated for the purpose of completing the wing of the female department. On April 4th, 1871, the sum of \$75,000 was appropriated for the purpose of completing the new or east wing, and on April 4th, 1872, a further sum of \$28,700 was appropriated for the completion of the same. March 3d, 1874, \$12,000 was voted for the construction of gas works for the supply of illuminating gas for the prison. On March 8th, 1877, the sum of \$100,000 was appropriated for the enlargement of the prison and the purchase of a burial ground for deceased convicts. The north wing was remodeled out of this last appropriation, and a burial ground purchased. The Legislature of 1895 appropriated \$150,000 for the enlargement and improvement of the prison. The Legislature of 1899 appropriated \$14,000 for alterations in the women's wing of the prison.

Previous to the year 1798 there was no State Prison, and prisoners were confined in the county jails. On March 1st. 1797, Jonathan Doane was appointed by an act of the Legislature as an agent to purchase a lot of land from Peter Hunt, situate at Lamberton, containing six and a half acres, and to erect suitable buildings thereon. This was done at an expense of £9,852 0s. 3d., and what is now the State Arsenal, at Second and Cass streets, is the result. Solitary confinement was not practiced previous to 1836, in which year the old prison was vacated and the present one occupied.

## SOLDIERS' HOME.

This institution is located in Kearny township, Hudson county, to which place it was removed from Newark in 1888. It was organized under a joint resolution of the Legislature approved April 12th, 1862. The Home in Newark was opened July 4th, 1866. The Legislatures of 1886 and 1887 appropriated \$175,000 for the erection of a new Home, under the direction of Commissioners appointed by the Legislature. The present site, consisting of 17½ acres, was selected, and six new and commodious buildings were erected thereon. The Home has a frontage of 600 feet on the Passaic river, and contains over three hundred inmates.

## SCHOOL FOR DEAF-MUTES.

This institution, which is located at Trenton, is a part of the public school system of the State, and is open to deaf residents of the State between the ages of eight and twenty-one years. The pupils are instructed in the branches of common-school education, and are also trained in some handicraft. Speech is taught to all who can acquire it, and with such success that in some classes it becomes the principal means of communication.

The industrial department is larger and better equipped than in most schools of this kind. From the printing office is issued monthly a paper, the Silent Worker, which, in point of mechanical execution and of quality of contents, ranks as the best issued from any institution in the country. All the work on this paper is performed by pupils of the school.

The wood-working department, under the charge of a graduate of a technical school of high rank, has a course in which theory and practice are united in an unusual degree.

A course of kindergarten work, especially adapted to the deaf child, has been worked out in the school, and has been followed by some of the best schools of the kind in this country.

A building for hospital purposes, designed in accordance with the best modern practice and ample to meet any possible need, was opened in 1899.

The attendance of pupils has risen from 125 in June, 1896, until at the present time it is about 150.

The school possesses a well chosen library, which at present contains about 1,500 volumes, and is rapidly growing.

## INSTITUTION FOR FEEBLE-MINDED WOMEN.

Vineland.

This institution was established under an act of March 27th, 1888, with the late Prof. S. O. Garrison, who drafted the original law, as the first superintendent. On November 15th of the same year he was succeeded by Mary J. Dunlap, M. D. It is one of the most admirably situated public buildings in the State. Lying opposite the New Jersey Training School for Feeble-Minded Children, and facing Landis avenue, Vineland's main street of several miles in length, it enjoys facilities of the city yet surrounded by acres of fruit, vineyards and orchards. The main building is well arranged, and a large annex was erected in the winter of 1891-92. It is a home for females, of whom there are nearly 100. Extensive additions have recently been made, giving hospital and other accommodations.

## TRAINING SCHOOL FOR FEEBLE-MINDED CHILDREN.

Vineland.

This public institution is an outgrowth of a private one, which Prof. S. Olin Garrison established in Millville, Cumberland county, on September 1st, 1887. It was opened at Vineland, on March 1st, 1888, with an enrollment of ten inmates. Adjacent properties were soon acquired and a handsome building, costing about \$18,000, was erected in 1890-91. There are nine cottages, besides a hospital, large barn, shops and manual training-rooms, located on a farm of 120 acres. The school has a fine assembly hall, seating over 600, and also containing seven (7) school-rooms, an armory, drill-room and a gymnasium.

The plan and scope of training and education by the school, require fourteen teachers in English, Kindergarten, Military, Music, Physical Culture and Manual Trades departments, thereby indicating the special and comprehensive fields of instruction. There is also a custodial department for the idictic, and a hospital department for epileptics.

The property is worth over \$150,000, real and personal, with a debt of only \$8,000. Besides very good property acquisitions at low cost, at least \$50,000 have been donated to the school since its organization, to aid in the current expenses, in improvements and new buildings.

On May 24th, 1900, there were 233 boys and girls in the institution.

## STATE VILLAGE FOR EPILEPTICS.

Skillman, Somerset County.

This village is located in Montgomery township, Somerset county, about one mile from Skillman Station, on the line of the Philadelphia and Reading Railroad. The location is one of the most beautiful and healthful in the State, and is admirably adapted for the purposes of this kind of an institution. The managers have secured three adjoining farms containing in all about five hundred acres.

The three farm houses are now being used, one for the Administration building, one for male and one for female

patients.

In 1884 Dr. John W. Ward, Superintendent of the State Hospital at Trenton, realizing the necessity of separating the epileptics from the insane, went before a legislative committee and strongly urged the appropriation of \$50,000 to erect a building upon the grounds of that institution for the proper care of the epileptics. The late Prof. S. Olin Garrison, Principal of the New Jersey Training School for Feeble-Minded Children, at Vineland, early recognized the necessity of separate provision for the epileptics in that institution, and was indefatigable in his efforts to establish the present village.

For a number of years the subject was agitated, and in 1895, in accordance with a resolution passed by the Legislature, the Governor appointed a commission to investigate the number and condition of epileptics in the State, report of the commission was presented to the Legislature of 1896 and a bill was introduced for the establishment of a colony on a plan recommended by the commission. The bill failing to become a law, the New Jersey State Medical Society, by resolution at their annual meeting in 1896, endorsed the necessity of such legislation. In 1897 the President. Dr. Thomas J. Smith, of Bridgeton, most ably presented the necessity of providing for the epileptics, and urged that the State authorities be importuned most earnestly to revive the movement initiated the year before to establish an industrial epileptic colony in our State. The Society reaffirmed its position, and appointed a committee to urge the matter further.

Through the combined efforts of those interested and with the zealous co-operation of Senator Stokes, of Cumberland, who had charge of the legislation, an act was passed by the Legislature of 1898, and promptly signed by Acting Governor Voorhees, making the necessary provi-

sions for the establishment of the institution. The sum of \$15,000 was appropriated for the purchase of a site and to pay for the equipment and maintenance of the village. The "Maplewood Farm," containing about 187 acres, was purchased for \$11,500, and the village was opened for the reception of male patients November 1st, of the same year.

The Legislature of 1900 appropriated \$30,000 for the erection of two cottages for patients, and \$16,000 for the purchase of two farms adjoining the property. As the Legislature provides the buildings, all epileptics of either sex, over five years of age, and not insane, will be admitted.

## PARTY PLATFORMS.

#### REPUBLICAN.

(Adopted at the State Convention held at Trenton, Thursday, September 22, 1898.)

The representatives of the Republican party of New Jersey, assembled in convention, September 22d, 1898, hereby resolve and declare:

That we affirm our adhesion and devotion to the fundamental principles of the National Republican party as set forth in the platform adopted at the St. Louis convention in 1896.

That we specially declare our undying opposition to any proposition to debase the national currency, a proposition so repugnant to the honest voters of New Jersey that when it was presented to them in all its bare iniquity in 1896, they promptly buried it under an unprecedented majority of 87,000, and declared in favor of representatives of national honor and honesty, McKinley and Hobart.

We heartily approve and endorse the administration of President McKinley. His treatment of domestic questions has more than fulfilled all expectations, and the wisdom of his foreign policy and the firmness and dignity with which it has been maintained have won for him not only the confidence and approbation of our own people, but the highest respect of the civilized world. Involved without due preparation in a war in the interests of humanity, he pursued a course which commanded united support at home and effectively silenced the assaults of interested diplomacy abroad. In three months this conflict was brought to a practical end with a smaller percentage of loss from battle and disease than in any war of modern times, and with the result of freeing a suffering people from a reign of cruelty and oppression; of acquiring new and valuable territory; of opening to our people new avenues of trade and commerce; furnishing new outlets and demands for the agricultural and industrial products of our people, and, above all, providing millions of our fellowcreatures an open door to those blessings of education and of civil and religious liberty which have for a hundred years followed the advance of the American flag.

We take a special pride as Jerseymen that the eminent citizen whom this State gave to the national administration, elected in 1896, has been so singularly capable and potential in the office of Vice-President, and has invested that station with rare dignity and influence.

We approve the annexation of the Hawaiian Islands, and view this act as an important step in the advance of American civilization.

We repose entire confidence in the wisdom and patriotism of the President, and the commission appointed by him to negotiate such a treaty of peace as will meet the just expectations of our people, by insisting on an adjustment in which the interests of this Republic, and of civilization and humanity, will be secured, as far as possible, as the fruits of the valor of our soldiers and sailors in the war with Spain. Called to the Presidency in a time of national bankruptcy, caused by the administration of the Democratic party, William McKinley was commissioned by the American people to restore confidence, to re-establish a tariff system under which American labor and capital might recover from the blighting effects of the Wilson bill: to save our financial system from the dangers of Brvanism, so that American enterprise might go boldly forward to the development of our resources. Under his administration business has revived, labor has found employment, and prosperity is returning. These things have been accomplished notwithstanding the fact that in his effort to execute the people's mandate the President has been shackled with a hostile Senate. How much more can be accomplished if for the remainder of his term the President and his administration have the support and sympathy of a Congress friendly in both branches.

During the present Congress this State has enjoyed a commanding influence by having a Republican Senator and a delegation in the Lower House unanimously of the same faith. They have been most diligent and successful in their labor for the best interests of our State and nation, and we cordially endorse their work and thank them in the name of the people of New Jersey.

That we heartily endorse the conduct of our State affairs by Governor John W. Griggs during his incumbency, which illustrated the highest ideal of an executive and fully met the expectations of a purified administration which his election raised in the people of New Jersey, and we hold it to be a subject of pride to our State that he has been summoned by the President to assume as a patriotic duty the charge of one of the most important and responsible departments of the National Government. The brilliant record he has made as Attorney-General of the United

States during an unexpected and most trying emergency has given our State renewed occasion for gratification.

We heartily endorse and approve the brief but brilliant administration of Acting Governor F. M. Voorbees. Coming to the executive chair from a long experience in the legislative branch of the government, he was peculiarly fitted to discharge the civil duties thus unexpectedly thrust upon him, and it is known of all men that his diligence, idelity, and a sincere desire for the public welfare, have characterized his every executive act. We especially commend him for his untiring devotion to the interests of our soldiers. Whether encamped in this or in other States, they never were beyond the Acting Governor's watchful eve nor outside the zone of his efficient care.

We tender our thanks to the citizens of this and other States who, inspired by a patriotic impulse, have left their homes and occupations to sustain the arms of the State and the nation. We recognize their devotion to duty, whether in camp or on the field of combat; and we pledge ourselves to the full and liberal recognition of all the proper claims of our patriotic heroes, and if by the misconduct or incompetency of any officials their health or their lives have been unnecessarily sacrificed or endangered, we feel assured that the President and his Constitutional advisers will make such investigations as will bring the offenders, regardless of past or present political affiliation, to punishment.

We recognize the special revenue law as a necessary war measure, and recommend its repeal as soon as will be justifiable by the reduced expenses of the government.

Three years ago we appealed to the voters of New Jersey to unite in rescuing the State from the grasp of a political oligarchy which had brought every department and institution of the State, the internal affairs of our cities and towns and even the morals of this Commonwealth, into subserviency to their ends.

They squandered the State revenue by the creation of useless offices and by falsifying bills of supply, and sought to prostitute every branch of the State Government to partisan and personal purposes. With splendid majorities the people of almost every county in the State responded to our appeal and committed the legislative and executive branches of the government to the care of the Republican party. We promised them a clean, honest and economical administration of State Government, in the interest and for the welfare of the whole people. This promise has been faithfully kept. Having blotted from the statute-

books the laws under which the most infamous form of race-track gambling had brought ignominy and disgrace upon the State, we have embodied in the Constitution an amendment forever prohibiting a re-enactment of such laws; we have banished partisanship from statutes and delivered the several State institutions, boards and commissions from political control. In offices of the State. and the larger counties, we have substituted reasonable salaries for the fee system, and thus converted into the public treasury, for the benefit of the people, large sums which were formerly used for political purposes.

We have doubled the annual appropriation for the support of our free school system. We have relieved the taxpayers of the several counties by distributing amongst them annually more than \$200,000 of the tax received by

the State from railroad corporations.

We have increased the appropriation for good roads. We have made liberal appropriations for the support and proper care of the insane, the feeble-minded and other unfortunate defectives of the State. We have paid off over half a million of the public debt. We have expended in the necessary construction and extension of State institutions over \$1,600,000, and, notwithstanding these disbursements for the public benefit, we are able, through a rigid and judicious economy, to show an increase in the balance in the State Treasury of \$200,000, as compared with 1893, the year in which the voters of New Jersey set the seai of condemnation upon Democratic misrule.

We have codified and condensed many of the cumbersome and complex State statutes, and this important and neces-

sary work will be continued to completion.

The full list of the beneficent legislative acts since the State passed under Republican control is too long to be recited here, but the statute-books and public records of the State are filled with evidences of the faithfulness with which we have redeemed the pledges made three years ago.

We here and now renew these pledges. We promise a continuance of the policy of rigid economy in every department of the State Government, liberal appropriations for purposes of public necessity and welfare, continued opposition to extravagant and wasteful use of the public money, legislation for the benefit and elevation of the laboring people, for the promotion of the agricultural and industrial interests of the State and the general good and well being of all.

The time has again come for the people of the State to rally around the standard of good government, and we appeal to all the patriotic voters of New Jersey to give their voices and votes to avert dire calamity, which would result from relegating the State again to the hands of the political jobbers and unscrupulous ringsters who are seeking to regain their lost control.

#### DEMOCRATIC.

(Adopted at the State Convention held at Trenton, Wednesday, September 28th, 1898.)

We, the representatives of the Democratic party in State Convention assembled, re-affirming our devotion to all the great and vital principles of the Democratic party on national issues, and believing, however, that the coming State campaign should be fought out on State issues, and for the redemption of the State from Republican extravagance, corruption and misrule, declare the paramount issues in the coming campaign to be:

Equal taxation, home rule, honest State and municipal government, the abolition of useless and expensive State commissions, the reduction of the large present expenses of the State Government to the economical standard maintained for years under Democratic rule, the reduction of official salaries, the abolishment of the fee system and the placing of all officials on a salary basis, the enactment of laws in the interest of organized labor and for the protection of the wage-workers of the State, the repeal of all laws that abridge the right of juries to fix the amount of damages in cases where the death of a person is caused by wrongful act, and the release of the administration of State affairs from the control of corporations and their restoration to the authority of the people.

We demand that the tax laws of this State be amended to provide for the equal taxation of all property, real and personal, not used for religious, charitable or educational purposes, in accordance with the mandates of the Constitution, which says:

"Property shall be assessed for taxes under general laws, and by uniform rules, according to its true value."

We charge the Republican party, which has had complete control of all branches of the State Government during the past three years, with having violated the pledges it made to the people before being entrusted with power.

We charge the Republican party with having created useless and needless State commissions at the expense of thousands of dollars to the people of this State, and pledge the Democratic party to the enactment of laws that will secure their abolishment.

We charge that the Republican party has been guilty of gross extravagance in the administration of State affairs, and that the expenses of the State Government under Republican rule have been increased nearly half a million dollars annually and are now largely in excess of what they should be for an honest and economical administration of the government, and beyond the annual revenues of the State by thousands of dollars. We pledge the Democratic party to a reduction of expenses and an economical and business-like administration of the affairs of the State.

We charge that the salaries of public officials are far in excess of what they should be, and pledge the Democratic party to the enactment of laws that will secure the reduc-

tion of the same.

We pledge the Democratic party to the enactment of laws that will abolish the fee system in all State and county offices and place all such officials on a salary basis, thereby saving to the people of this State thousands of dollars, which will revert to the public treasury instead of the pocket of the office-holder.

We condemn the action of the recent Republican Legislatures which refused almost every request made for legislation in the interest of organized labor and repealed acts passed by Democratic Legislatures for the protection of the wage-workers of New Jersey; and we pledge our party to give proper consideration to the views adopted by the councils of organized labor.

We charge Foster M. Voorhees, the Republican candidate for Governor, with being an enemy of organized labor, and that he has proved his hostility by his official acts while

acting as Governor of the State.

We favor the repeal of all laws abridging the right of juries to fix the amount of damages in cases where the death of a person is caused by wrongful act, and condemn the brutal opinions filed by Republican judges in construing such laws.

We favor an amendment to the laws of the State providing severe penalties for discrimination in the fixing of rates for the transportation of freight in anywise injurious

to the farmers or other people of this State.

We charge that the Republican party is under the domination and control of the corporations and trusts of this State, and refer the voters to the numerous acts passed by recent Republican Legislatures for the benefit of corporations, foreign and domestic, at the expense of the people; and to the railroad acts, passed ostensibly in the interests of the boroughs and villages, but really in the interests of

the corporations; and also call attention to the silence of the platform adopted by the recent Republican convention upon all questions in anywise affecting the interests of trusts and corporations.

We declare that the State of New Jersey owes every child within its borders an education unsurpassed by any other State. We demand for our school children ample and suitable accommodation in every city, town and village, so that every child may attend school the whole of every school day; the establishment of a thorough kindergarten system for the younger children, and a compulsory education law which will require attendance by every healthy child of school age.

We advocate the passage of a State law which will require the State Treasurer to become the custodian of the Teachers' Retirement Fund, without expense to that fund. We congratulate the teachers upon their successful effort to care for the members of their profession in old age or sickness out of their own fund.

We favor the construction of good roads and of proper State aid therefor.

We declare that the thanks of the people of the State and nation are due to the soldiers and sailors of the army and navy of the United States, who have imperiled their lives in defense of their country, and in vindication of the honor of its flag in the recent Spanish war; that the nation owes to them permanent recognition of their patriotism and their valor, and ample and permanent provision for those of their survivors who have received disabling and honorable wounds in the service of the country, and that the memories of those who have fallen in its defense shall be held in grateful and everlasting remembrance; that the State should make suitable provision for additional pay to our New Jersey Volunteers. While we rejoice and feel thankful to them for their great victories on land and sea, we denounce the gross, open, criminal incompetency of those placed and defiantly kept in charge of the affairs of the War Department of the present administration of the Government of the United States, resulting in the needless loss of thousands of American soldiers' lives, and the infliction of horrible suffering and tortures upon thousands of the brave defenders of the country's honor; and we charge the present administration of the Government of the United States with being solely responsible for the horrible results of this incompetency of government officials, continued even after the appalling results were repeatedly brought to the attention of the President of the

United States and his official advisers; and we call the attention of the people of the State to the fact that up to this time not a single example has been made of a government official responsible for these monstrous wrongs.

We deplore the spectacle of an ex-Governor of this State, now a member of that Cabinet, apearing at a public convention of his party as the apologist and defender of Algerism and its results.

We invite and cordially welcome the co-operation and support of the honest and patriotic citizens of all parties, and the independent press of the State, however differing from us in other respects, in support of the principles herein declared, and pledge our hearty support to the candidate nominated by this convention, and affirm that he will not resign if elected until the pledges herein made are fulfilled.

# GOVERNOR OF NEW JERSEY.

#### FOSTER M. VOORHEES.

Governor Voorhees was born at Clinton, Hunterdon county, New Jersey, November 5th, 1856, his father being the cashier of the bank there established and who comes of Dutch-English ancestors. The Governor was graduated from Rutgers College in 1876 and studied law at Elizabeth with the Honorable William J. Magie, now Chancellor of New Jersey. He was licensed as an attorney-at-law in 1880 and as a counselor in 1884. His success in his profession was instantaneous and his high standing at the bar is evidenced by the fact that although of different political faith from the appointing power, he was nominated by Governor Werts in 1894 to the office of Circuit Court Judge. He declined the honor on the ground that he owed his first allegiance to his constituents who had elected him to the office of Senator. This was during the exciting and memorable session of 1894, and the sacrifice he made in this instance saved the State Senate to the Republican party and made possible the enactment of reform measures of which the Governor himself was the foremost champion.

Governor Voorhees has always been an ardent, sincere and conscientious Republican. At the same time, his fairness and conservatism have won for him the admiration of the Independents and Democrats as well as the members of his own party. He has never been an offensive partisan, and his whole career has been an exemplification of the truth of President Hayes' famous declaration, "He serves his party best who serves his country best."

Mr. Voorhees was a School Commissioner of Elizabeth for four years, from 1884 to 1888, and during that time was instrumental in inaugurating a number of educational reforms. He was a member of the House of Assembly during the years '88, '89 and '90, and was the leader of the Republican minority in the two latter years, receiving the Republican vote for Speaker in both of these sessions. His ability as a parliamentarian and a debator won for him a State reputation. The year 1889 was one of partisan legis-

lation on the part of the Democratic majority, and notwithstanding the tactics it employed to carry through its measures, Mr. Voorhees so skillfully led the minority that the opposition were even in danger of defeat, and on one occasion the Democrats were compelled to leave their seats in the Assembly and break a quorum in order to save themseives from parliamentary rout. In these trying emergencies he achieved a reputation for wisdom, courage and readiness in action which commanded the respect of his friends and foes alike, and which at once ranked him among the Republican leaders of the State. Indeed, in the year following, the Republican State Convention commended by resolution the course of the Republican minority under his leadership.

In 1890 Governor Voorhees served as a member of the special committee of the House and Senate to prepare a ballot reform law. This law to-day bears evidence of his judgment and wisdom. His popularity with the voters was evinced in 1890, when he ran in a district which had given Governor Abbett a plurality of 613, but which he carried by 163; and again in 1893, when he was elected to the Senate from Union county by a plurality of 1,144. In 1894 the Senate was Republican by a majority of one, and the Democrats attempted to control the organization of that body and to prevent a number of the Republican Senators from taking their seats. The forcible seizure of the Senate Chamber and the parring of its doors on that occasion are matters of recent history. In this crisis Senator Voorhees, by his counsel and action, averted what might have been a scene of conflict and riot and placed his party in such a position that the Supreme Court eventually decided the controversy in favor of the Republicans. In the work of reform, which was a conspicuous feature of that session of the Legislature, Senator Voorhees was always courageous, always progressive and always statesmanlike. Notwithstanding the fact that the partisan feeling had been stimulated by the unlawful tactics of the minority, no extreme or retaliatory measures were enacted by the Republican Legislature. This was in marked contrast to the partisan legislation of the previous years under Democratic control, and was due largely to the influence of Senator Voorhees. The year 1895, however, was destined to bring him more conspicuously into the public favor. Prior to the organization of the Legislature in 1895 rumors of official corruption and malfeasance were current throughout the State. When the Legislature met, a select committee was appointed from the Senate, consisting of Senators Voorhees, Ketcham.

Skirm, Herbert and Daly, of which Senator Voorhees was chairman to investigate the charges of extravagance on the part of certain public officials. This committee disclosed a degree of official extravagance and corruption which startled the citizens of the State, and which was perhaps the most instrumental factor in determining the gubernatorial contest in the fall of that year. The work of this committee was so skillfully done, so free from prejudice and partisan bias and so convincing in its disclosures, that its verdict was accepted without question by the members of both political parties. In the special session of 1895 Senator Voorhees followed up the work of the investigating committee by introducing a large number of reform measures, calculated to remedy the then existing ills and to prevent the recurrence of such evils in the future. Conspicuous among these was the preparation of an annual appropriation bill. Heretofore the appropriations had been made by separate bills and the total appropriation was known only to a few. Senator Voorhees provided for an annual budget, itemizing the several appropriations, and yet collecting them in one act, so that the aggregate could be comprehended at a glance, not only by the legislators but by the public at large. In the fall of the same year his friends urged his name as a candidate for the Republican nomination for Governor. A gallant fight was made for the young leader from Union, but was unsuccessful, Hon. John W. Griggs receiving the nomination. Senator Voorhees loyally supported his successful competitor during the campaign, and he was then proclaimed by the prophets as the successor of Governor Griggs. In 1896 Governor Griggs offered him the position of Clerk in Chancery, which he generously declined in order that some of his friends might receive appointments rather than himself. In 1898 he was elected President of the Senate without opposition. and upon the appointment of Governor Griggs as Attorney-General of the United States he became Acting Governor of the State. In that capacity he fulfilled the expectations of his friends. He displayed a courage of conviction and an executive capacity and a devotion to duty that added to his already brilliant reputation as a public man. His administration fell upon troublous times. War was declared with Spain and he became the War Governor of New Jersey. In this capacity he won new laurels,

Following the precedent established by those noble war Governors, Olden and Parker, Governor Voorhees entered enthusiastically into the active work of preparing New Jersey's quota for the war with Spain. Realizing the difficulties that arise in an emergency of this nature, he sought to restrain, by wise and prudent counsel, all whose absence would entail privation and suffering upon those depending upon them for support, and urged others, whose interests were not likely to suffer, to offer their services. He watched with careful scrutiny each detail of the equipment of the ferce and endeavored to make efficient organizations of New Jersey's contingent in the service of the United States. His success in this mobolization was quick and pronounced.

His care for and interest in the soldiers, however, continued even after they were mustered into service, and he gave his time and influence to the promotion of their welfare and comfort, even after they had left the borders of the State

His long public service and his record as Acting Governor of the State, at once brought him to the front as a prominent candidate for the Republican nomination for Governor, and when the Republican State Convention assembled in September, at Trenton, he was selected as the standard-bearer by acclamation, an honor that has fallen on no other man, in recent years, in the State of New Jersey. He was elected by a plurality of 5,499 over Elvin W. Crane, the Democratic candidate, after an exciting campaign.

Voorhees, Rep., 164,051; Crane, Dem., 158,552; Landon, Pro., 6,893; Maguire, Soc.-Lab., 5,458; Schrayshuen, Peop., 491.

# UNITED STATES SENATORS.

### WILLIAM J. SEWELL, Camden.

Senator Sewell was born in Ireland in 1835. He came to this country at an early age. At the outbreak of the Civil war he was mustered into the United States service as Captain in the Fifth New Jersey Regiment, August 28th, 1861, and participated in all the engagements in which his regiment took part, down to the battle of Spottsylvania, in May, 1864. In the battle of Chancellorsville, General Mott was disabled by a severe wound, and Sewell assumed charge of the brigade. At a critical point in the engagement he led it forward in a resistless charge and achieved one of the most brilliant successes of the war. He captured eight colors from the Confederates, and retook the regimental standard of a New York regiment. His services were scarcely less brilliant at Gettysburg and other im-

portant points. He was wounded twice, at Gettysburg and Chancellorsville. He was made Lieutenant-Colonel of the Fifth Regiment, July, 1862, and Colonel three months later. In September, 1864, after recovering from illness, ne became Colonel of the Thirty-eighth Regiment, and remained with it in the field until the close of the war.

He was made Brevet Brigadier-General of Volunteers April 5th, 1866, for "gallant and meritorious conduct in the battle of Chancellorsville," and Major-General at the close of the war, for meritorious services. When Joel Parker became Governor, General Sewell was appointed a member of his personal staff. During the railroad strikes of 1877, he was sent by Governor Bedle to the most critical point in New Jersey (Phillipsburg) with the Sixth and Seventh Regiments, and was appointed Provisional Commander of the forces at that point. He guarded his post so well that not a ripple of trouble occurred. He has been for several years commander of the Second Brigade, National Guard of New Jersey, and is now Division Commander.

He was elected to the State Senate from Camden county for three successive terms of three years each, and in the years 1876, '79 and '80 he was President of that body. His career as a legislator was one of brilliant usefulness, and his record is remarkable for strict integrity, honorable bearing and dignified deportment. When he was elected to the United States Senate by the Legislature of 1881, and on severing the ties of friendship which bound him to those on both sides of the Chamber, an impressive scene occurred, when Democrats as well as Republicans vied with each other in complimenting him upon the high honor which had been conferred on him, and expressing regret that the State was about to lose so valuable a member of its law-making body. Appropriate resolutions were unanimously passed, and Senator Sewell took his leave a few days before the meeting of the United States Senate, on the 4th of March, 1881. He was elected in joint meeting over his predecessor, Hon. Theodore F. Randolph, by a strict party vote. He was a delegate to the Republican National Conventions of 1876 and 1880. He was chairman of the New Jersey delegation to the Republican National Convention at Chicago, in 1884, and was a staunch supporter of Blaine for the Presidency. In 1888 he was also chairman of the New Jersey delegation to the Republican National Convention, when he supported General Harrison for the Presidency; and again in 1892, when he took a similar position. In 1896 he also served as chairman of the New Jersey delegation to the National Republican Convention held at St.

Louis, and again in 1900 he was chairman of the New Jersey delegation to the National Republican Convention which was held in Philadelphia. He was succeeded by Rufus Blodgett as United States Senator in 1887. In 1895, being the choice of the Republican caucus, he was elected to succeed John R. McPherson in the United States Senate. His term will expire on March 3d, 1901.

On May 4th, 1898, Senator Sewell was appointed by President McKinley a Major-General of U. S. Volunteers, but at the earnest request of his Republican colleagues to retain his seat in the Senate, where his services to his country were much needed, he declined the honor on May 18th. He was nominated by Governor Voorhees on February 15th, 1899, as Major-General of the National Guard of New Jersey, and without the usual reference to a committee, he was promptly confirmed by a unimous vote. The nomination was made to fill the vacancy caused by the resignation of Major-General Plume.

#### JOHN KEAN, Elizabeth.

Senator Kean was born at Ursino, Union county, New Jersey, in the house where he now resides, on December 4th, 1852. The house is historic, being known as "Liberty Hall," and was erected by Governor Livingston in 1772. Washington held many conferences with his Generals within its walls, and Alexander Hamilton studied law there. And in the same house John Jay was married to one of the daughters of the Governor. Another home, at 3 East Fifty-sixth street, New York city, also belongs to Mr. Kean, where he spends much of his time during the winter.

When a young boy the Senator was sent to a boarding-school in Stockbridge, Mass., and was transferred from there to a private academy at Sing Sing on the Hudson, where he received a much higher education than was necesary for him to enter Yale College, which he did in 1872. He afterward took a course in the Columbia College Law School, and was admitted to the bar of New Jersey in 1877.

Mr. Kean was elected to Congress in 1882, and again in 1886. In 1892 he was defeated for Governor by his Democratic opponent, George T. Werts.

The Senator is a prominent business man, and is engaged in numerous manufacturing, mercantile, railroad and financial enterprises, which furnish employment to a large number of mechanics and artisans, especially in the city of Elizabeth, where he is so well and favorably known. He has helped materially in promoting the growth of that city, and to him, more than to any other person, is due its present prosperity. He fills many positions of honor and trust in the banking and commercial communities. He is President of the National State Bank, of Elizabeth, and a director in the Elizabeth Banking Company. He is also President of the Elizabeth Water Company and the Gas Light Company of the same city. He holds the largest interest in the Elizabeth Street Railway Company, and his latest undertaking was the construction of a trolley line from Elizabeth to Plainfield, for the franchise of which he paid a large sum of money.

The Senator has always been an active Republican, and for several years he served as the Treasurer of the State Cemmittee of his party. He was the unanimous choice of the Republican caucus for United States Senator in January, 1899, and received the full vote of his party when he was elected to that office in a joint meeting of the Legislature, held soon afterward, his Democratic opponent being the then incumbent, James Smith. Senator Kean was elected for a term of six years, which will not expire until March 4th, 1905.

ALLAN LANGDON MeDERMOTT.

(Dem., Jersey City.)

Mr. McDermott was born in South Boston, Mass., on the 30th of March, 1854. His father was Hugh Farrer McDermott, who, to use the language of the memorial resolutions adopted by the New York Press Club, on his decease, in 1890, "in the wide scope of his literary labors, as journalist, dramatist, author and poet, made a conspicuous place and earned enduring fame for himself." His mother's maiden name was Annie J. Langdon, and she was of one of the oldest families in New England. In 1870 the subject of this sketch determined to follow journalism, and, as a preliminary step, learned to set type and run a press. A few verses published in a Boston paper, and reprinted in the New York Telegram, in 1870, show that Mr. McDermott had a very narrow escape from a literary tomb. In 1876 he entered the law school of the University of the City of New York, and was graduated the following year, delivering an essay on "The Sanction of the Law," at the commencement exercises held at the Academy of Music in June, 1877. The same year he was admitted to the bar of New Jersey, becoming a counselor in 1880. While he was a student in the office of the late Leon Abbett there was formed a friendship between preceptor and pupil which had grown with the years, and had on more than one occasion evidenced a steadfastness which is rarely found in the harsh lines of political association. In 1878 Mr. McDermott was defeated as a candidate for Assembly from the Fourth District of Hudson county, but was elected in 1879 and 1880, and in 1881 was the Democratic candidate for Speaker of that body.

From 1878 to 1883 he was Corporation Attorney of Jersey City, resigning that position when appointed Judge of the Second District Court by Governor Ludlow. In 1884 Governor Abbett appointed Mr. McDermott a member of the State Board of Assessors. In that position he formulated the rules which have ever since been followed in the taxation of railroad property and corporate franchises in New Jersey. In 1886 Governor Abbett nominated him as Clerk in Chancery, and he was confirmed by the Senate. In communicating the fact to the Legislature, the late ex-United States Senator Cattell, also a member of the State Board, wrote: "The Hon, Allan L. McDermott, one of the original members of the Board, was during the last session of the Legislature appointed and confirmed as Clerk in the Court of Chancery, and on the 1st of April resigned as a member of this Board to enter upon his new position. Much of the success of the early work of this Board is due to the intelligent and faithful service of Mr. McDermott, largely supplemented by his legal knowledge, which was invaluable. The Board parted with him most regretfully, and we are free to say that in our judgment it will be difficult to find one who will in all respects fill his place." In 1884, '85 and '86 Mr. McDermott was President of the Board of Finance and Taxation of Jersey City. Upon his retirement from that position the Argus said: "The withdrawal of Allan L. McDermott from the management of our municipal finances is a public calamity. His clear head, his honesty of purpose and untiring energy have rendered him of inestimable value to our city. He has introduced and enforced rigid principles of economy in our local expenditures, and has, with the aid of his colleagues, established an admirable financial system, which has placed our credit above cavil or suspicion." He was renominated for Clerk in Chancery, in 1891, by Governor Abbett, and he was again confirmed by the Senate. In 1892 Mr. McDermott was, because of dissatisfaction with the existing local government, defeated in a canvass for the Mayoralty of Jersey City. In 1894 he was nominated by Governor Werts as a member of the commission appointed to revise the State Constitution. He was chairman of the State Democratic Committee from 1886 until 1896, and drafted every platform. with one exception, adopted by a State Democratic Convention during that time.

In 1898 he was appointed by Mayor Hoos Corporation Counsel of Jersey City. In that year he was elected to the State Senate by a plurality of 9,528. He served two years in that body, and resigned the office in the fall of 1900. He

was nominated for Congress to fill the unexpired term of the late William D. Daly, and he was also nominated for a full term, with small opposition in his own party. He was elected for the short term by a plurality of 3,426 and for the long term by a plurality of 3,241 over Marshall Van Winkle, the Republican candidate.

1898—Daly, Dem., 30,270; Pangborn, Rep., 20,162; Brown, Pro., 258; Herrschaft, Soc.-Lab., 1,723. Daly's plurality,

10,108.

His early education was received in St. Mary's Parochial School, Hoboken, from which he graduated. He then attended the public schools of Hoboken, graduating in 1885. He obtained employment in a broker's office in New York city, where he remained but a short time, and then worked in a wholesale drug house for a year. He was afterward employed by the Western Union Telegraph Company as a messenger, and rapidly advanced to the position of receiving and delivery clerk in the Maritime Exchange office, which position he held until 1890, when he resigned because of ill health and a desire for outdoor employment. He then entered the employ of the Metropolitan Life Insurance Company of New York as an agent in the Hoboken district, which position he occupied for one year, when he was promoted to the position of assistant superintendent, which he held for four years. In 1892 he enrolled as a student in the Metropolis Law School, which has recently been merged with the University Law School of the City of New York, attending the evening sessions and graduating therefrom in 1895.

Subsequent to his admission to the bar the officers of the insurance company offered him the position of superintendent, which offer was declined by Mr. Fallon, he having determined to practice law, and in February, 1896, he severed his connection with the company and formed a copartnership with ex-Judge William E. Skinner and ex-Assemblyman John J. Marnell, under the firm name of Skinner, Marnell & Fallon. This partnership continued for two years, when the same became dissolved. J. Coyle Association. Last year he served on the Committees on Riparian Rights and School for Deaf-Mutes.

#### KILIAN V. LUTZ.

(Dem., Guttenberg.)

Mr. Lutz was born in Germany the 10th day of November, 1859, and received his education in the public schools of his native town. In 1874 he came to this country, and in 1876 he enlisted in the regular army and was assigned to the 5th U. S. Cavalry. In 1877 he made application to be discharged for the purpose of entering the special service until 1878. At the expiration of that time he re-enlisted and served until 1881, when he was honorably discharged on a surgeon's certificate because of injuries received in the service.

Mr. Lutz's entire military experience was in the line of active service, being stationed on the frontier, where he took part in the campaign against the Sioux Indians in 1876; the Cheyennes in 1878 and '79, and the Utes in 1879-80.

Upon leaving the army in 1881, Mr. Lutz went to Brooklyn, N. Y., where he was engaged in the lumber business, and remained there until 1888. In 1889 he moved to New Jersey, taking up his residence in Guttenberg, where he organized The Lutz Company, of which he is President. This company is a corporation engaged in the manufacture of drawing instruments and artists' materials. Ever since taking up his residence in Guttenberg Mr. Lutz has taken an active interest in politics. He served as President of the Board during the years he was elected as a member.

Although loath to assume any burdens in addition to his educational duties, in 1898, in response to an almost universal demand, Mr. Lutz consented to be a candidate for the Town Council, to which office he was elected for a term

of two years. As a member of the Board of Education and Town Council, Mr. Lutz devoted all his energies to the securing of a new school house for Guttenberg—a most crying need. His entire career in these municipal bodies has been marked by a singleness of purpose; every other object has been made subservient to this one—the building of a new school house—and largely as a result of his untiring efforts its accomplishment is nearing fulfillment, as a sixteen-room brick structure is now rapidly nearing completion.

Peter Vredenburg, father of the present Judge, was a prominent jurist in both State and nation. He served two terms as an Associate Justice of the New Jersey Supreme Court, being first appointed by Governor Price, in 1855, and again by Governor Olden in 1862. After his admission, young Vredenburgh began the practice of his profession at Freehold, his native town, and has continued to carry on the law business there ever since, with the exception of about a year, 1864, when he was located at Eatontown, to continue the business of his brother, Major Peter Vredenburgh, Jr., who was absent in the military service, and who was killed September 19th, 1864, at the battle of Winchester, Va., at the head of his regiment.

In 1865 Mr. Vredenburgh formed a law partnership with Philip J. Ryall, which continued for about five years, until Mr. Ryall's failing health compelled his retirement from practice. In the exciting general election of 1884, Mr. Vredenburgh was nominated by the Republicans of Monmouth county for State Senator, and was only defeated by the retirement of the regular Democratic candidate a few days before the election and the fusion of the Democrats and Prohibitionists, and by a very narrow majority.

In 1897 he was one of the special Commissioners to consider the question of railroad taxation, whose report became enacted into the body of the tax laws.

In November, 1897, he was appointed a Judge of the Court of Errors and Appeals by Governor Griggs, to fill a vacancy caused by the death of Judge Dayton. His masterly conduct of the impeachment proceedings in the case of Prison Keeper Patrick H. His argument before the Supreme Court in 1888, in support of the constitutionality of the Local Option law, won for him a favorable decision, and the statute was not disturbed. With other eminent lawyers as his associates, he distinguished himself in the famous controversy over the organization of the State Senate in 1894, when a full bench of the Supreme Court sustained his interpretation of the constitutional law bearing on the case. He at once received orders to join the U.S.S. Lancaster, the flagship of the European squadron, then commanded by Captain (now Rear-Admiral) Bancroft Gherardi. General A. C. In 1886 he was appointed Major and Engineer on the staff of Major-General William J. Sewell, then commanding the Second Brigade, National Guard of New Jersey, and later was made Colonel and Inspector of Division.

### State Board of Assessors.

FOR THE ASSESSMENT AND TAXATION OF RAIL-ROAD AND OTHER CORPORATE PROPERTY.

Bird W. Spencer, President; Robert S. Green, Stephen J. Meeker, Amos Gibbs. Irvine E. Maguire, Secretary: George William Barnard, Assistant Secretary.

This department of the State Government was created under an act of the Legislature entitled "An act for the taxation of railroad and canal property," approved April 10th, 1884.

The work of the Board was increased during the same year by the passage of another act, entitled "An act to provide for the imposition of State taxes upon certain corporations, and for the collection thereof," approved April 18th. 1884.

By an act of the Legislature of 1900 (taking effect January 1st, 1901), this Board is further charged with the assessment and apportionment of the municipal franchise tax to be paid by persons, copartnerships, associations or corporations using or occupying public streets, highways, roads or other public places.

The report of the Board for the year 1900 shows that 117 railroad and canal companies within the State are subject to taxation. These companies represent about 2,300 miles of railroads and 173 miles of canals.

The following table is a summary of the valuation and assessment of railroad and canal property for the year 1900, subject to review by the Board, which review is now in progress:

In addition to the duties assigned to the Board by the act under which it is constituted, it has charge of the execution of the laws for the prevention of the spread of contagious diseases of animals, for regulating the sale of petroleum, for preventing the sale of contaminated milk, for regulating maritime quarantine, for conducting the State laboratory of hygiene and for preventing the sale of diseased meat and other unwholesome foods.

Besides its special work the Board is constantly consulted by local health authorities concerning methods for restricting the spread of preventable diseases, the abatement of nuisances, the prevention of the pollution of streams, and for the improvement of sanitary administration.

As a Bureau of Vital Statistics the Board receives and records all marriages, births and deaths which occur in the State, and tabulates these records for use in proving descent; in the relations of guardians and wards; in the disabilities of minors; in the administration of estates; the settlement of insurance and pensions; the requirements of foreign countries concerning residence, marriages and legacies; for proving marriages in our own country; in voting and in the jury and militia service; in the right to admission and practice in the professions and in public office; in the enforcement of the laws relating to education and to child labor; the determination of the "age of consent," &c.

The following table shows the number of marriages, births, still-births and deaths registered each year since the establishment of the Bureau of Vital Statistics, and also the number of recorded marriages which occurred among non-residents:

### Road Improvement in New Jersey for the Year 1900.

Through the ages it has been the history of all reforms that to make them continuous it was necessary to constantly add line upon line and precept upon precept in order to persuade the people to a high religious, moral and physical development. In the matter of road improvement in the State of New Jersev it does not seem necessary to use any of the modern or ancient modes of persuading action in this direction. The numerous miles of hard roads that can now be seen in any portion of the State, and the enjoyment that most any citizen can have from them is inducing all of our communities to take measures to have many more miles paved with stone or gravel. The fervor for hard roads is spreading so widely that next year we will have several counties on our list which have not heretofore been candidates. Warren, Sussex, Cape May and Ocean counties have petitioned for and are preparing to advertise for improved roads, and there is a possibility of Hunterdon and Bergen counties being claimants for State bounty. This year, 1900, has been the first that Hudson and Union counties have enjoyed State aid, and they have been quite liberal in their expenditures. Such is the zeal of the older counties in road building it is almost impossible to restrain them. Many of them are building up to the full limit of the law. Mercer, Monmouth, Middlesex, Morris and Burlington have this year constructed up to the full extent of the one-fourth of one per cent, of their ratables, while they, with Essex and Passaic, have built beyond the limit of the State appropriation, all showing the need of a larger revenue both from the State and counties in order that the desires and needs of the people may be more rapidly gratified.

The people seem to be so wonderfully impressed with the idea that by good roads the value of lands will be increased, transportation cheapened, travel and business attracted, school houses and churches filled, and civilization advanced, that they are praying as earnestly for them as for great riches. Consequently, the pressure for new roads is so great it seems almost impossible to hold the people back. They are so anxious they are not willing to confine themselves within the limit of the State and county appropriations. They are constantly insisting upon building ahead of the State appropriation so they can enjoy them new, so that, although the law, on account of the increased expense of construction, will not allow this year for the

payment of more than eighty miles of roads, there have been and are about one hundred and forty miles under construction. Many of these miles were not completed by October 31st, the end of the State's fiscal year. These will be candidates for next year's appropriation. With this condition of things existing, it would seem proper that our State should at least increase its appropriation fifty thousand dollars, making the total two hundred thousand dollars, and that the State aid law should be so amended as to allow the counties to raise one-half instead of onequarter per cent, upon their ratables. Our last Legislature, at the urgent request of many farmers, passed this amendment, the people being willing to stand the greater taxation in order to secure what they now pelieve an absolute necessity; but the Governor thought it the better part of wisdom to wait a while before such an amendment should be approved. From numerous sources we hear there will be pressure brought upon our Legislature the coming winter to increase the tax upon the ratables to onehalf of one per cent, and to increase the State appropriation, and this will be justified by the condition of our treasury and what the census reveals of our growth, for New Jersey makes a most gratifying showing in the new census. Its rate of increase, 30.3 per cent, in the last decade, is matched by no State east of the meridian of Texas and Minnesota. The rate of increase for the entire country is less than twenty-one per cent., so New Jersey's increase is almost one-third above the average. Much of this increase is no doubt due to its many miles of hard roads attracting population along their lines.

In area New Jersey is one of the least of the States of the Union, ranking forty-second—Delaware, Rhode Island and Connecticut being the only States smaller than New Jersey. By the census of 1880 New Jersey ranked eighteenth in population. Its gain of 438.736 people in the last decade has carried it above Virginia and Alabama, and made it the sixteenth State in point of population. In spite of its extensive pine barrens, New Jersey has ranked third in density of population since 1870, and that rank it still retains, Rhode Island and Massachusetts being the only States having more people to the square mile than New Jersey.

### CONTINUOUS LINES.

Although it has been at more than usual expense, we have been wonderfully successful this year in completing many of the various links that are necessary to make continuous lines north and south, east and west throughout the State. In the vicinity of Hightstown, New Jersey, which seems to be at the "crossing of the ways," there have been about twenty-five miles of roads macadamized in the counties of Mercer, Middlesex and Monmouth, at a cost of about one hundred and fifty thousand dollars. These improvements connect many of the different settlements in these and other counties, making continuous lines south to Atlantic City and north to Jersey City; also west to the seaside resorts of the Atlantic ocean.

Having now one system virtually complete north and south, east and west across the State, we are building links in three other systems north and south, and several other roads in many directions to act as feeders to these systems; thus nearly all the citizens of our State will soon have the use of hard roads over all or part of the distance they are forced to travel to reach their cities or market towns.

### ROAD MAP.

We have prepared a map to accompany our report, upon which all the improved roads of the State are marked. The free roads are marked in blue and the toll roads are dotted in the same color.

This map gives at a glance the extent of road improvement in New Jersey, and gives the intended traveler an opportunity to select his routes of travel. By means of this the owners of automobiles, bicycles and pleasure carriages of all kinds can intelligently travel through any portion of our State. No doubt it will guide many from the outside world by our beautiful farms and magnificent scenery, and may be the means of inducing some of them to settle upon our hills and in our valleys.

We hope it will be an instructive addition to our report.

# SECOND ANNUAL MESSAGE OF GOVERNOR VOORHEES.

Gentlemen of the Senate and General Assembly:

The legislative session upon which you now enter is the first of the new century. The result of your labors will equal in importance that of the men who met to make the laws for the State a hundred years ago. In many ways your duties are more trying. Affairs of larger import invite your attention. In number the people have increased nearly tenfold. Their wants are more numerous; their interests are more conflicting. Problems equally delicate, if not more important, demand consideration and solution at your hands.

The Union then comprised sixteen States. Our State was thirteenth in point of area and ranked tenth in population. Now the forty-second in size, it is the sixteenth in number of its people, and in density it is third. Its people then were mainly engaged in the pursuits of agriculture. Governmental needs were few and simple. The thirteen counties, sparsely settled, were divided into 110 townships, with a government common to all, simple in form and differing only slightly in details. Few were the cities or towns, and, such as they were, they were not large in population. Now two of cur cities each outnumber in population that of the entire State at that time. The counties have increased to twenty-one, and the municipalities now number 425.

The varying forms of government have each their peculiar needs or interests, and preferences demanding your special consideration. The laws for 1801 were fifty-two in number. In 1900 they were 198, notwithstanding the exercise of a watchful care against all useless legislation.

At the beginning of the century the needs of the State government were limited, and the number of officers and departments small. Only \$25,000, or thereabouts, were sufficient for the needs of the State. This came from taxes directly imposed on the people, the only method then known. We find our supply in other sources. Direct taxes are now levied only for the support of free public schools. How vastly in amount the revenues have increased will appear from the following table:

RECEIPTS OF STATE FUND, 1900.

A total for the year ending October 31, 1900, of..\$3,453,295 71

With an increase in number of the different departments of government, each requiring its quota of officials, and with a rapid growth in the number of objects for which expenditures are demanded by a higher and more complex form of government, the amount annually expended to meet the needs of the State has enormously increased. Last year the public moneys were paid on 105 different accounts, comprising 460 different items, all connected with the orderly management of the State's affairs.

THE ORDINARY DISBURSEMENTS OF STATE FUND For the year ending Oct. 31, 1900, amounted to....\$2,102,113 85

Besides these disbursements there were special and unusual expenses, which were first anticipated in the year preceding, or were incurred in the erection of new or the improvement of old buildings and property of the State. The amount of these expenditures and the purpose for which devoted will appear in the following statement:

### RECEIPTS OVER DISBURSEMENTS.

31, 1900, were	\$3,453,295 71
The gross disbursements for the same year	were 2,701,226 97

ments for the year of	\$752.068 74

This excess, together with the previous balance which the State fortunately possessed, forms a large fund with which it may meet its future liabilities. The size of the fund may be understood from the next statement and the remarks that follow.

The Comptroller estimates that the receipts during the coming year will be \$3,009,370. This amount, added to the above balance, will furnish the fund from which to pay the appropriations for 1901, made at the last session, and amounting to \$2,234,940.32, and the supplemental appropriations, if any, which you may make.

### STATE'S OUTSTANDING INDEBTEDNESS.

Aside from the liability last mentioned, the indebtedness of the State is only \$119,000. To meet this it has funds the market value of which is \$505,716, and further assets valued at \$207,526.45, which constitute a sinking fund.

The comparison of the State's present financial condition with that at the beginning of the century will afford some degree of satisfaction. In due time, when the policy adopted by it is understood, and ignorance and prejudice give way to a clearer and less passionate consideration, the full measure of praise will be accorded to those who have directed and shaped its policy in this regard, and judicicusly husbanded its resources.

### SOME ITEMS CAUSING INCREASE.

As will be seen, the increase in cost of State government has been great. But we are not justified in hastily concluding that there has been an extravagant or unwarranted expenditure. Some explanation for the larger amount required is found in the increase of people, in the greater number of officers now necessary for the efficient conduct of affairs, and in the gradual growth in number of multiplying objects calling for payment. Many of these were unknown at the beginning of the century, and found no place in government. Now they are accepted as necessary for the safe and orderly administration of a progressive State. To abolish some would meet with general disapproval; to discontinue the support of others would either be impossible, or result in disorganization. Enlightened selfishness demands their continuance.

A few may be used to illustrate the proposition, and at the same time indicate how steady has been the progress of the State in all that characterizes a humane, a generous and an enlightened people. The work done, the expense thereof to the State, and the condition of the departments chosen for this purpose will at the same time be seen.

Free common schools throughout the entire State were first established in the year 1871. To-day all children, of

parents foreign or native, may (and between the years of seven and twelve must) avail themselves of the education there accorded. Three hundred and twenty-two thousand five hundred and seventy-five children attended these schools during the year, and \$2,333,550 were raised and spent for their education. Nearly \$50,000 were spent for the Normal and Model schools, where those intending to teach are taught. The fund—the income of which is used for school purposes—derived from various sources, amounted to \$3,690,682,62 at the close of the year.

The School for the Deaf was founded in 1882. At the close of the year 133 pupils were receiving the special training there given, at a cost to the State for the year of \$43,000.

For the purposes of industrial education the outlay was \$43,192.80.

When the century began the insane were housed in hovels and huts, with little and insufficient care for their well-being and physical comfort. Slight or little regard was had for their restoration. They were not then the wards of the State. Now they are confined in asylums and are given the care which humanity demands. The State maintains the indigent. They numbered in October last, in both the State and County Asylums, 4,423, and cost the State the sum of \$357,216.79. The buildings where they find shelter and comfort were improved or repaired at the expense of \$132,891.76.

In 1801, convicted criminals were, happily, few in number. Whether those confined and unconfined are now greater in proportion to the population is a matter about which opinions differ. Whatever may be the truth, the State then paid less than \$6.000 each year for keeping those who were confined. The total number of prisoners last year was 1,591. During the year 500 were discharged, and 1.091 remained at its close within the prison walls. For the support of those convicted there were spent \$193.065.65, and for furnishing and repairs to the prison buildings, \$11,880.28. The cost was reduced by \$91,634.40, which sum represents the earnings of the inmates under the wise and careful management of the prison officials.

The gradual introduction of a more rational and humane treatment of its criminals strikingly indicates the advance of the State along the lines of progress. Now, the purpose of confinement is twofold, protection with punishment, and reformation, if possible. The State separately confines its younger criminals and incorrigibles of both sexes in institutions especially provided. It established the State Home for Boys in the year 1865, and the State Home for Girls in the year 1871. At the close of the year the inmates in the

Home for Boys numbered 378, and in the Home for Girls, 115. For the maintenance of the former, the State paid \$57,194.97, and spent \$5,000 for improvements. The Home for Girls cost \$24,735.90, and a new and much-needed building required \$15,600.

For the completion of the Reformatory at Rahway it gave \$260,000.

On account of the feeble-minded children and the feeble-minded women, and for the support and education of the blind, the payments during the fiscal year amounted to about \$90,000.

One of the largest items of expenditure was that in aid of State roads. Annually \$150,000 is spent on this account. The money so used insures comfort in travel and an ease of communication in marked contrast to that which prevailed at the commencement of the century. Few States have shown equal progress in this respect. The example shown by New Jersey has encouraged a movement for better roads throughout the Union, and its plan is being widely followed. The State first loaned its aid in 1892, and its contributions amount to \$865,318.55. With the help so given there have been built 520 miles of roads. In the year just closed \$3.29 miles were built, and 64.99 miles were in process of construction or under contract for building. Application has been made for aid in the construction of 136 additional miles.

Mention may also be made of the payments on account of the homes for the veteran soldiers, amounting to a little more than \$40,000; for the treatment of epileptics, amounting to about \$47,000, and to payments more especially in the interest of those engaged in agriculture, on account of the Agricultural Experiment Station, and the State Board of Agriculture, which amounted to about \$24,000.

The foregoing are a few only of the many objects which did not exist at the beginning of the century, and for which large annual payments are now necessary and, in most instances, desirable. They are not presented as excuses for a reckless or extravagant disposition of the public funds, but as illustrations of the nature and growth in amount of some of the disbursements. They serve at the same time as a warning. An income so great and so easily collected encourages a tendency to liberality in expenditure. Claims, fancied or real, keep springing up, and are urged with a persistency hard to withstand. An abundant surplus makes extravagance easy. Prudence and a wise foresight demand, in this hour of plenty, a regard for the future. We cannot safely assume that the sources of our

income will be always so bountiful. The liberality of the State should be measured by actual wants. Wisely gencrous it should be, but only in directions strictly limited to the legitimate needs of government.

A balance, reasonable in amount, and of such size as a conservative policy demands, should be retained by the State. All beyond this should be wisely used in reducing burdens of local taxation. The manner in which this can be done is hereinafter indicated, and your favorable action in accordance with the suggestions made with reference thereto is asked.

The purposes and field of work of the various departments of government of the State, and of its boards and commissions and institutions, have been described with minute detail in messages previously communicated. With these you are sufficiently familiar, and a particular description thereof at this time is for that reason deemed unnecessary. A full account of what has been done, and of prevailing conditions and requirements, are fully set out in the several reports which will be laid before you. They furnish all information necessary for your guidance. In the main, they disclose an excellent state of affairs and good results accomplished. This condition is due to the zeal and efficiency of those who are charged with the duty of administration. The promotion of public rather than partisan interests seems now to be the standard of conduct in public service, and as a result thereof great benefit has come

Beyond what will be required to provide for the ordinary affairs of the State there seems to be no pressing need for any great amount of legislation. From one point of view this is a condition upon which we are to be congratulated. A people prosperous and satisfied with things as they are do not ask for many laws. Preceding Legislatures seem to have established nearly, if not quite, all of the reforms and changes for which there has been any urgent demand.

It is best to let well enough alone. Policies and methods of government which have been recently inaugurated are entitled to a fair trial in order to test the wisdom of their adoption. They should not be abandoned until it be conclusively shown that better can be substituted.

### RECOMMENDATIONS.

There are, however, some matters touching the weifare of the State which may well be the subject of your deliberations. Your attention to these, and to the recommendations respecting the same, is invited, and your careful thought and favorable action thereon is urged. It is grate-

fully remembered that the suggestions made to the preceding Legislature were accorded a generous consideration by that body.

### BUILDING AND LOAN ASSOCIATIONS.

Wisely conducted, these associations encourage and make possible the building of many homes, promote habits of thrift and economy, and afford to the 129,131 shareholders—mainly persons of small means—an opportunity for the profitable investment of their earnings.

These associations are 342 in number, and their net assets or net worth was \$47,561,890, of which more than \$9,500,000 represented profits to the shareholders. The so-called local associations were paid last year on account of stock more than \$8,000,000, and the State and Nationals nearly \$1,500,000. In addition to these sums nearly \$3,000,000 were paid to both classes for premiums, fines and fees, making the total amount received by them in one year more than \$12,500,000.

In the sixteen State and National Associations the payments for salaries, commissions, etc., were \$198,637, and in the 326 local associations they were \$147,099. The ratio of such expenses to the total receipts in the former was slightly over 19 per cent., and in the latter, about 1.4 per cent. Payments on account of interest, premiums, fines and fees, constitute practically all the items of earnings.

Based upon these, the expenses on salary and commission account average about 6 per cent. in the local and over 54 per cent, in the State and Nationals,

It is not herein intended to adversely criticise associations which are conducted fairly and honestly and with a due regard to the safety of their members, but it is apparent that any system which involves heavy expenses works to the disadvantage of the shareholders. Their just returns are diminished and the burdens which they have assumed are unjustifiably increased.

The employment of paid agents to solicit business and the maintenance of costly establishments, with a corps of high salaried officers and managers, are features of some of the associations. These clearly have no place in the true building loan scheme.

In some of these associations there are so-called "Expense Fund Contracts." These are contracts made between the associations and one or more of its officers or managers, whereby, in addition to their stated salaries, the latter receive a certain proportion of the payments made by the members.

In one instance the contract provided for the payment to the president of all premiums paid on the sale of a certain class of stock, and a commission equal to 3 per cent. per annum on all stock payments made by the members on all classes of stock.

Not only have the earnings been exhausted in expenses, but the stock payments have been drawn upon to meet the drain. Consequently when a member has desired to withdraw, or apply the value of his shares in part payment of his loan, he has found that the amount to his credit has been reduced by expense deductions to a sum much below even what he has paid in as dues on his stock. This has been done apparently by authority of the by-laws or articles of association, the true meaning and effect of which have been misunderstood or intentionally misrepresented to the joining member in the zealous effort to increase membership.

As a result of these methods there are frequent instances of hardship and injustice. They are so clearly wrong in principle and injurious in their consequences that legislation ought to be enacted to effectually break them up.

Three associations have already been placed in the hands of receivers for insolvency, the result of excessive expenses for salaries, etc., coupled with bad investments.

Again, the shareholders' meetings in the State and National Associations cannot, in the nature of the case, be truly representative. The members are scattered throughout the State (and elsewhere, in the National Associations) and as a rule cannot afford to take the time or incur the expense of attendance upon the home office, where these meetings are usually held. A large majority of the shareholders are there represented only by proxy, usually held and voted by a director or officer. Some associations have what is generally termed "Permanent Capital Stock." This is only held by members of the Board of Management and such other persons as they may approve, and only those who hold the stock can be elected directors. An easy method is thus afforded to the directors and officers to perpetuate themselves in office, and the associations become in the full sense "close corporations," the main body of the members being practically shut out from any participation in the management. The principle of mutual association underlying the building loan scheme is thus entirely lacking.

The exorbitant rates of premium charged borrowers in some associations is a just cause for criticism. The borrower pays not only a gross premium—which is "deducted

from the loan," included in the mortgage, and is to be liquidated when his shares reach their full par value—but he pays an instalment premium also. Thus premium is charged on premium.

Such a contract, if not usurious, is something very closely akin to it. In any event, it is a most expensive and burdensome arrangement for the borrower. No individual would knowingly enter into it, unless his necessities were great. Unfortunately for their sakes, a great number of shareholders do not and cannot understand the nature of this undertaking, and, of necessity, rely upon the specious and misleading representations of the willing agents of those who promote these associations for their own profit.

Manifestly the statutes under which these corporations are formed are in some instances being perverted, the powers conferred abused, and the interests of the shareholders subordinated to those of the managers. The present laws are loosely drawn, and appear to permit the formation of every variety of such association, with few restrictions of any value. As a result, concerns of doubtful utility, and possessing but few of the characteristics of the genuine building and loan associations, have been organized for the sole purpose of enriching their promoters at the expense of the unfortunate shareholders.

These abuses should be remedied at once, and the provident and thrifty of our State protected. The present statutes should be repealed, and in their stead a new law enacted which will insure a safe, equitable and economical conduct of business, and make impossible the abuses above complained of.

### PUBLIC LIBRARY COMMISSION.

The last Legislature passed an act to promote the establishment and efficiency of free public libraries, in accordance with the provisions of which Dr. Ernest C. Richardson, William C. Kimball, M. Taylor Pyne, Dr. Everett T. Tomlinson and Frank P. Hill, were appointed members of the New Jersey Public Library Commission, The first report of the Commission has been received and will be transmitted to you.

The Legislature failed to provide funds to meet even the incidental expenses for stationery and printing, and the Commission are "unable to make such a report of results accomplished as should be possible, in view of the field that is before them and condition of public library affairs in New Jersey." In the cities of the State, great interest

has recently been shown in the subject of public libraries. The work projected by the Commission lies within the smaller towns, of which New Jersey has 129, with a population exceeding 750, that are without a public library of any kind. The financial aid to be extended under the act of 1900 is by no means the most important. The Commission will give advice as to the organization of public libraries, the selection and purchase of books, and to library administration generally.

The suggestion of the report that the financial aid to be given to the towns may be limited to \$1,500 a year, and be extended over a number of years, will make the expense so small as scarcely to be felt, and if the commission shall succeed in approaching the record made by Massachusetts and New Hampshire, the benefits to the State cannot fail to be great. If it is to be continued a small appropriation is recommended for incidental expenses to enable it to begin work during the present fiscal year, and consideration should be given to its further needs.

# THE SCHOOL LAW AND APPORTIONMENT OF SCHOOL MONEYS.

The revised school law has proven generally satisfactory. Unfortunately, however, it was passed after the appropriations for the then coming year had been made in many districts, and for this reason its provisions in this respect have not had a trial in all of the districts of the State. There seems to be a diversity of opinion as to the operation and correct interpretation of the sections relating to the selection of members of boards of education in municipalities divided into wards. The law should be so amended as to make its language more explicit. The State Superintendent reports that wherever the law has been duly executed in its entirety it has worked smoothly and is giving complete satisfaction.

The present method of apportioning the State school moneys is unsatisfactory. The Commission on Revision of the School Law, in its report presented to the Legislature at its last session, recommended that the taking of the annual school census be abandoned, and that the portion of State school moneys now apportioned among the districts on the basis of school census, be apportioned on the basis of actual days' attendance of the pupils enrolled in the public schools.

The school census is expensive and unreliable, and is not an equitable basis of apportionment. That proposed by the

commission is inexpensive and reliable, and would give to each district the money to which it was justly entitled for work performed. A most important reason for apportioning the school moneys on the basis of actual days' attendance, is that it would prove the best compulsory attendance law that can be devised. The recommendation of the commission is commended to your favorable consideration.

### STATE HOME FOR GIRLS.

Present accommodations at this home, for school purposes, make impossible a division into classes such as that adopted in the public schools of the State. Such a gradation is necessary in order to obtain good results. Inmates are now assembled for instruction in two rooms only.

The erection of the school building for which the trustees ask ought to be authorized. It would enable those in charge of the home to establish grades and permit the promotion of the inmates as progress in their studies warranted.

The report of the Board of Managers discloses the fact that good work is being done at this school, and that the conditions now prevailing there are most excellent. The course pursued by the management and those in authority in withstanding the unreasonable and unreasoning elamor of a year ago has been fully vindicated.

### RAHWAY REFORMATORY.

In 1899 the Legislature appropriated a sum sufficient to make the Reformatory at Rahway available for the reception and care of not less than 240 inmates. The Commissioners report that this has practically been done, and that the institution is now ready for occupancy.

Provision must be made by your honorable bodies for the employment of necessary officers if the buildings are to be used before the close of the year. If nothing be done at this session the opening will be delayed for at least eighteen months, and the beginning of the new method here to be tried in treating juvenile and first offenders, will be put off for the same length of time. The proposed plan has been in operation elsewhere and has shown results most surprising in the work of reformation.

The law under which the Commission has acted has been sufficient for its purposes, but it needs revision in order to insure a practical scheme. It is crudely drawn, lacks the necessary provisions, and is obscure and conflicting in details. A new and more comprehensive act should be substituted

### PALISADES INTERSTATE PARK.

Grateful acknowledgment is due to the gentlemen who have acted as "Commissioners of the Palisades Interstate Park" for the very sensible and efficient discharge of their duties.

Those appointed on behalf of the State of New York were Nathan F. Barrett, George Walbridge Perkins, D. McNeely Stauffer, Ralph Trautman and J. DuPratt White; and those on behalf of this State were Abram DeRonde, Abram S. Hewitt, Franklin W. Hopkins, William A. Linn and Edwin A. Stevens. They have labored with energy and discretion, and a measure of success gratifying and unexpected has attended their efforts. They now present a plan for the preservation of the Palisades which recommends itself as practical and capable of accomplishment without excessive cost.

The subject has aroused widespread interest in the past, and has received repeated consideration at the hands of previous Legislatures. Nothing practical or feasible was suggested or accomplished until the present Commission undertook the work. Now, for the first time, the project seems capable of realization, if reasonable aid be given by the States especially interested.

On the part of New Jersey I respectfully urge such legislation and assistance as will facilitate the work so auspiciously begun.

### PAN-AMERICAN EXPOSITION.

In accordance with the request of the authorities in charge of the Pan-American Exposition to be held at Buffalo, New York, during the year 1901, I have appointed as commissioners for New Jersey, Mrs. Henry Elliott Mott, Dr. Mary J. Dunlap, Mr. Richard C. Jenkinson and Mr. Oberlin Smith

Representatives of the Exposition urged co-operation and assistance on the part of the State before the Legislature at its last session. No action was then taken, because the character and success of the undertaking was not fully assured, and it seemed to be one largely local in interest and purpose. Since then, however, a progress has been made such as to justify its friends in the belief that the Exposition will equal and in many respects surpass all those previously held.

The enterprise is purely American in purpose and scope, and has received substantial aid and encouragement from

the governments of the United States and other countries of the western continent. Several States have signified their intention to take part therein.

The advantages to our own State in having a suitable exhibition of its resources and products are manifest, and to defray the expenses thereof a suitable appropriation is recommended.

### REVISION OF THE STATUTES.

A recommendation for the revision of the general statutes, which is so necessary, has heretofore been withheld, because the codification of laws relating to various subjects was in progress. Many of these have been prepared and enacted into laws by preceding Legislatures.

The gentlemen comprising the several commissions have done excellent work. They have harmonized conflicting statutes, caused needless or obsolete laws to be repealed, and combined similar acts with slightly differing provisions. They have secured a clearness and directness in style of expression which is highly commendable.

These condensed and tersely stated acts have been prepared and put into the form of laws since the volumes containing the general statutes were published. Much contained in those volumes is now useless or misleading, and the time has come when a new revision of the laws should be made.

Judging by the work already done, it is believed that the three volumes, on the 3,700 pages of which are to be found many laws now obsolete, repealed, conflicting or declared unconstitutional, could be reduced to a single book. The republication would afford accuracy and convenience.

It is, therefore, respectfully recommended that a Commission be appointed with full power to do this work, and that a suitable compensation be authorized.

It would be well to start on the twentieth century with a creditable digest of the laws of New Jersey.

### JUDICIARY AMENDMENTS.

Repeated efforts have been made during the last few years to adopt amendments to the Constitution providing for the reorganization of the higher courts. These attempts have, unfortunately, failed, because of differences of opinion as to the manner in which the reorganization should be accomplished. Proposed amendments, intended to bring about this result, will be laid before you. The need of reorganization is generally admitted. It is not

intended to suggest what form the amendments should take, but it is important that the changes should be made without lessening the dignity and influence of the courts. At the same time the proposed system should insure methods less cumbersome and more expeditious than those now prevailing. It is earnestly hoped that amendments in some form, and embodying in the main these features, will be adopted.

### DISTRIBUTION OF SURPLUS.

Your attention has already been called to the condition of the State treasury and the balance therein at the close of the fiscal year. It is difficult to tell exactly how much of this may be strictly termed a surplus, as it is subject to the charges for appropriations made by the Legislature for expenses of the State government. After deducting these appropriations, however, there is still a balance left in the treasury. Opinions differ as to the best way of disposing of this surplus.

Under Chapter 69 of the Laws of 1897 we are distributing to the municipalities annually about \$205,000 of the moneys received from railroad taxation, which used to form part of the State's income. Under Chapter 195 of the Laws of 1900 we shall this year begin to remit between \$150,000 and \$200,000 of the revenues formerly received from the tax on tranchises of quasi-public corporations. The annual amount appropriated for school purposes has been increased \$100,000.

It is doubtful, however, if any of these methods have relieved the burdens of local taxation. This result, it is believed, can be best accomplished by distributing the surplus in the treasury in accordance with the provisions of Section 190 of the Act Establishing a System of Public Instruction passed last year. Under it the Legislature may appropriate, from year to year, any sum not less than \$100,000 toward the payment of the State's school tax. Whatever amount it may thus appropriate will be actually deducted from the tax bill of every individual taxpayer. He will receive an immediate and direct benefit therefrom. When it is considered that in some of the rural districts the State school tax amounts to one-third of the actual taxation, the wisdom of reducing this item is at once apparent.

You are, therefore, respectfully urged to make as large an appropriation for this purpose as you may think the condition of the treasury will warrant.

### THE POLLUTION OF RIVERS AND STREAMS.

Within the past few years the attention of the Legislature has been called to this subject frequently. The condition of the rivers and streams in several localities demands attention. Especially is this true of the valley of the Passaic. The citizens and property-owners in that valley have become alarmed at the foul and polluted condition of the waters of the river. These are now the receptacle and conduit of all the sewerage of the cities, towns and villages in the territory which it drains, and of all of the refuse of the numerous factories and manufacturing establishments along its banks.

The valley teems with population, and is by far the most important manufacturing district within the State. The foul condition of the river affects the value of property and threatens the public health. Alarmed by existing conditions, the Board of Trade of the city of Newark has recently selected a committee of representative men from that organization to suggest additional legislation and present the matter for your consideration. Similar action has been taken by other bodies of like character. The subject is worthy of your most earnest consideration.

Under the limitations of our Constitution, it is impracticable for the State to give financial aid to any local improvement of this character.

The State Sewerage Commission, established under the act of March 24, 1899, has general supervision of this subject within the State. Its powers were extended by the amendments to the act, approved March 21, 1900, but they are not broad enough to meet existing conditions.

The inefficiency of the present legislation seems to arise from two causes:

(1.) The impracticability of securing united action by the different municipalities constituting a single drainage or sewerage district.

(2.) Inadequate provision for obtaining the necessary means to carry out a work of the required magnitude.

To remedy these defects additional legislation is advised, authorizing the creation of sewerage and drainage districts with quasi-municipal power, the appointment within such districts, when created, of commissioners with ample authority to investigate methods, adopt plans, and perform the work—giving the State Board the power of supervision and approval—authorizing the bonding of those municipal divisions for the purpose of providing the necessary means to carry the work into execution, and provid-

ing for the payment of the bonds by the imposition of a tax upon the property within the districts created.

Permit me to ask for the suggestions herein contained your careful consideration, believing, as I do, that favorable action thereon will advance the common good.

Recalling with pleasure the harmonious relations that have existed between this department and preceding Legislatures, I beg to extend to you my best wishes for the satisfactory and successful discharge of your duties, assuring you of my willingness to render assistance in every proper way, whenever such help may be invited.
