8:57-4.3 Medical exemptions

(a) A child shall not be required to have any specific immunization(s) which are medically contraindicated.

(b) A written statement submitted to the school, preschool, or child care center from a physician licensed to practice medicine or osteopathy or an advanced practice nurse (certified registered nurse practitioner or clinical nurse specialist) in any jurisdiction of the United States indicating that an immunization is medically contraindicated for a specific period of time, and the reason(s) for the medical contraindication, based upon valid medical reasons as enumerated by the Advisory Committee on Immunization Practices (ACIP) of the United States Public Health Service or the American Academy of Pediatrics (AAP) guidelines, will exempt a pupil from the specific immunization requirement for the stated period of time.

1. The guidelines identified in (b) above are available as follows:

i. Advisory Committee on Immunization Practices, U.S. Public Health Service, Centers for Disease Control and Prevention, Atlanta, GA 30333; and

ii. American Academy of Pediatrics, Committee on Infectious Diseases, PO Box 927, Elk Grove, IL 60009-0927.

(c) The physician's or an advanced practice nurse's (certified registered nurse practitioner or clinical nurse specialist)

statement shall be retained as part of the child's immunization record and shall be reviewed annually by the school, preschool, or child care facility. When the child's medical condition permits immunization, this exemption shall thereupon terminate and the child shall be required to obtain the immunization(s) from which he or she has been exempted.

(d) Those children with medical exemptions to receiving specific immunizations may be excluded from the school, preschool, or child care facility during a vaccine-preventable disease outbreak or threatened outbreak as determined by the Commissioner, Department of Health and Senior Services or his or her designee.

(e) As provided by N.J.S.A. 26:4-6, "Any body having control of a school may, on account of the prevalence of any communicable disease, or to prevent the spread of communicable diseases, prohibit the attendance of any teacher or pupil of any school under their control and specify the time during which the teacher or scholar shall remain away from school." The Department of Health and Senior Services shall provide guidance to the school of the appropriateness of any such prohibition. All schools are required to comply with the provisions of N.J.A.C. 8:61-1.1 regarding attendance at school by pupils or adults infected by Human Immunodeficiency Virus (HIV).

8:57-4.4 Religious exemptions

(a) A child shall be exempted from mandatory immunization if the parent or guardian objects thereto in a written statement submitted to the school, preschool, or child care center, signed by the parent or guardian, explaining how the administration of immunizing agents conflicts with the pupil's exercise of bona fide religious tenets or practices. General philosophical or moral objection to immunization shall not be sufficient for an exemption on religious grounds.

(b) Religious affiliated schools or child care centers shall have the authority to withhold or grant a religious exemption from the required immunization for pupils entering or attending their institutions without challenge by any secular health authority.

(c) This statement will be kept by the school, preschool, or child care center as part of the child's immunization record.

(d) Those children with religious exemptions from receiving immunizing agents may be excluded from the school, preschool, or child care center during a vaccine-preventable disease outbreak or threatened outbreak as determined by the

Commissioner, Department of Health and Senior Services or his or her designee.

(e) As provided by N.J.S.A. 26:4-6, "Any body having control of a school may, on account of the prevalence of any communicable disease, or to prevent the spread of communicable diseases, prohibit the attendance of any teacher or pupil of any school under their control and specify the time during which the teacher or scholar shall remain away from school." The Department of Health and Senior Services shall provide guidance to the school on the appropriateness of any such prohibition. (e) Those children transferring into a New Jersey school, preschool, or child-care center from out-of-State or out-of-country shall be allowed a 30-day grace period in order to obtain past immunization documentation before provisional status shall begin.
