## Weather Signals

No. 1.  
White Flag.

No. 2.  
Blue Flag.

No. 3.  
Black Triangular Flag.

No. 4.  
White Flag with  
black square in  
centre.

Clear or fair weather.

Rain or snow.

Temperature signal.

Cold wave.

No. 1, white flag, six feet square, indicates clear or fair weather. No. 2, blue flag, six feet square, indicates rain or snow. No. 3, black triangular flag, four feet at the base and six feet in length, always refers to temperature; when placed above No. 1 or 2 it indicates warmer weather; when placed below No. 1 or 2 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary more than five degrees from the temperature of the same hour of the preceding day from June to August, inclusive, seven degrees from November to March, inclusive, and not more than six degrees for the remaining months of the year. No. 4, white flag, six feet square, with black square in centre, indicates the approach of a sudden and decided fall in temperature, and is usually ordered 24 hours in advance of the cold wave. When No. 4 is displayed, No. 3 is always omitted.

When displayed on poles, the signals should be arranged to read downward; when displayed from horizontal supports, a small streamer should be attached to indicate the point from which the signals are to be read.

# The New Jersey Gazette Almanac and Year-Book

**T**HE call for a Almanac giving the seasons' data in large, easily-read type primarily lead to the publication of this Book. Blank spaces are left alongside each month for memoranda purposes, a useful and convenient addition to the original plan. The other features—the Year-Book, giving the New Jersey vote in detail, the United States' vote by States, etc., and the State Directory of the Real Estate Dealers in New Jersey—were suggested by the evident needs of the situation. It is not pretended that this little Book is superior to any other publication in general merit. Our only claim is that it is unique in one respect—namely, that it is the only publication in the state giving a reasonably full and accurate list of the dealers in realty in New Jersey. In fact, it is the only publication of the kind of which we have any knowledge.

We especially urge all our readers to mention the Almanac and Year Book when writing to any of the advertisers whose cards are found herein. We feel safe in recommending all such, as we have taken care to exclude those who are known to be untrustworthy.

J310

(1897)

## Free Legal Service to Patrons

**W**E have made arrangements with our attorney to answer all questions concerning real estate law free, providing they do not require elaborate research and brief. In such cases an estimate of the cost will be furnished in advance. Address all inquiries to "Real Estate Department," New Jersey Gazette, Camden, N. J., always enclosing a stamped and addressed envelope for reply.

This service is free only to our patrons. All others will be denied the privilege. Questions to be answered must be plainly stated and pertain directly to dealings in realty.

\* \* \* \*

**T**HE Publisher will be glad to be of any service at his command to those who have shown their interest in this publication by placing their business cards therein. He will give estimates on all kinds of printing, and answer requests for bids in person, if necessary. He will also, on request, furnish special lists of reliable dealers in real estate in different parts of the State, who are known to him personally. We will also give the rating of local dealers, when desired. But in every case the person asking for special lists or ratings must be an advertiser in this Book.

First Month.

31 Days.

Correspondence solicited.

**A Well Spent**  
**Quarter of a Century**

We read almost every day of anniversaries celebrated or to be celebrated, of various benevolent and beneficent societies, institutions, etc. Some of these are twenty-five, some fifty, some a hundred or more years old, and all are celebrating years of usefulness and well doing.

One of the most beneficent of these institutions, though a private one, has entered upon its twenty-fifth year of usefulness, having accomplished wonders of healing in diseases of long standing, many of them pronounced incurable, relieving and curing an incredible number of physical ills, such as Colds, Catarrh, Consumption, Asthma, Rheumatism, Dyspepsia, Debility and Nervous Prostration.

Naturally this remedy is no longer an experiment; its healing virtues are widely known, and it is only necessary to call the attention of the public to its importance.

DOCTORS STARKEY and PALEN, the sole proprietors of the COMPOUND OXYGEN TREATMENT, are ever ready to furnish unimpeachable evidence and information required, free of charge, on application.

If you write them, giving an account of your case, they will give you a candid opinion. If it is a desperate one, even for COMPOUND OXYGEN, they will tell you so. Whether you decide to try the remedy or not, there is no charge for consultation. Book of 200 pages sent FREE.

of Georgia.

#### THE REPUBLICAN PLATFORM

Adopted at St. Louis, 1896.

**T**HE platform was presented and adopted as follows:

The Republicans of the United States, assembled by their representatives in national convention, appealing for the popular and historical justification of their claims to the matchless achievements of 30 years of Republican rule, earnestly and confidently address themselves to the awakened intelligences, experience and conscience of their countrymen in the following declaration of facts and principles:

For the first time since the civil war the American people have witnessed the calamitous consequences of full and unrestricted Democratic control of the government. It has been a record of unparalleled incapacity, dishonor and disaster. In administrative management, it has ruthlessly sacrificed indispensable revenue, entailed an unceasing deficit, eked out ordinary current expenses with borrowed money, piled up the public debt by \$262,000,000 in time of peace, forced an adverse balance of

trade, kept a perpetual menace hanging over the redemption fund, pawned American credit to alien syndicates and reversed all the measures and results of successful Republican rule. In the broad effect of its policy, it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced work and wages, halted enterprise and crippled American production while stimulating foreign production for the American market. Every consideration of public safety and individual interest demands that the government shall be rescued from the hands of those who have shown themselves incapable to conduct it without disaster at home and dishonor abroad, and restored to the party which for 30 years administered it with unequalled success and prosperity. And in this connection, we heartily indorse the wisdom and patriotism and success of the administration of President Harrison.

The Tariff—We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American policy and prosperity. This true American policy taxes foreign products and encourages home industry. It puts the burden of revenue on foreign goods. It secures the American market for the American producer. It upholds the American standard of wages for the American workingman. It puts the factory by the side of the farm and makes the American farmer less dependent on foreign demand and price. It diffuses general thrift and founds the strength of all on the strength of each. In its reasonable application it is just, fair and impartial, equally opposed to foreign control and domestic monopoly, to sectional discrimination and individual favoritism.

We denounce the Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise. We demand such an equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the necessary expenses of the government, but will protect American labor from degradation to the wage level of other lands. We are not pledged to any particular schedules. The question of rates is a practical question to be governed by the conditions of the time and of production. The ruling and uncompromising principle is the protection and development of American labor and industry. The country demands a right settlement, and then it wants rest.

Reciprocity—We believe the repeal of the reciprocity arrangements negotiated by the last Republican administration was

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

(Continued from page 10.)

a national calamity, and we demand their renewal and extension on such terms as will equalize our trade with other nations, remove the restrictions which now obstruct the sale of American products in the ports of other countries and secure enlarged markets for the products of our farms, forests and factories.

Protection and reciprocity are twin measures of Republican policy and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established—protection for what we produce, free admission for the necessaries of life which we do not produce, reciprocal agreements of mutual interests which gain open markets for us in return for our open market to others. Protection builds up domestic industry and trade and secures our own market for ourselves. Reciprocity builds up foreign trade and finds an outlet for our surplus.

Sugar—We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar which the American people use and for which they pay other countries more than \$100,000,000 annually.

Wool—To all our products—to those of the mine and the field as well as to those of the shop and the factory, to hemp, to wool, the product of the great industry of sheep husbandry as well as to the finished wools of the mill—we promise the most ample protection.

Merchant Marine—We favor restoring the early American policy of discriminating duties for the upbuilding of our merchant marine and the protection of our shipping in the foreign carrying trade, so that American ships—the product of American labor, employed in American shipyards, sailing under the stars and stripes and manned, officered and owned by Americans—may regain the carrying of our foreign commerce.

Money—The Republican party is unservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1879, and since then every dollar has been as good as gold.

We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are therefore opposed to the free coinage of silver except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained the existing gold standard must be preserved. All our silver and paper currency must be maintained at parity with gold, and we favor all measures designed to maintain

inviolably the obligations of the United States and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth.

Pensions—The veterans of the Union army deserve and should receive fair treatment and generous recognition. Whenever practicable, they should be given preference in the matter of employment, and they are entitled to the enactment of such laws as are best calculated to secure the fulfillment of the pledges made to them in the dark days of the country's peril. We denounce the practice in the pension bureau so recklessly and unjustly carried on by the present administration of reducing pensions and arbitrarily dropping names from the rolls as deserving the severest condemnation of the American people.

Foreign Relations—Our foreign policy should be at all times firm, vigorous and dignified and all our interests in the western hemisphere carefully watched and guarded. The Hawaiian Islands should be controlled by the United States, and no foreign power should be permitted to interfere with them. The Nicaraguan canal should be built, owned and operated by the United States, and by the purchase of the Danish islands we should secure a proper and much needed naval station in the West Indies.

Armenian Massacres—The massacres of Armenians have aroused the deep sympathy and just indignation of the American people, and we believe that the United States should exercise all the influence it can properly exert to bring these atrocities to an end. In Turkey, American residents have been exposed to the gravest dangers and American property has been destroyed. There and everywhere, American citizens and American property must be absolutely protected at all hazards and at any cost.

Monroe Doctrine—We reassert the Monroe doctrine in its full extent, and we reaffirm the right of the United States to give the doctrine effect by responding to the appeals of any American state for friendly intervention in case of European encroachment. We have not interfered and shall not interfere with the existing possessions of any European power in this hemisphere, but those possessions must not on any pretext be extended. We hopefully look forward to the eventual withdrawal of the European powers from this hemisphere and to the ultimate union of all English speaking parts of the continent by the free consent of its inhabitants.

Cuba—From the hour of achieving their own independence, the people of the United States have regarded with sympathy the struggles of other American people to

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

free themselves from European domination. We watch with deep and abiding interest the heroic battle of the Cuban patriots against cruelty and oppression, and our best hopes go out for the full success of their determined contest for liberty. The government of Spain, having lost control of Cuba and being unable to protect the property or lives of resident American citizens or to comply with its treaty obligations, we believe that the government of the United States should use its influence and good offices to restore peace and give independence to the island.

**The Navy**—The peace and security of the republic and the maintenance of its rightful influence among the nations of the earth, demand a naval power commensurate with its position and responsibility. We therefore favor the continued enlargement of the navy and a complete system of harbor and seacoast defenses.

**Foreign Immigration**—For the protection of the quality of our American citizenship and of the wages of our workingmen against the fatal competition of low-priced labor, we demand that the immigration laws be thoroughly enforced, and so extended as to exclude from entrance to the United States, those who can neither read nor write.

**Civil Service**—The civil service law was placed on the statute books by the Republican party, which has always sustained it, and we renew our repeated declarations that it shall be thoroughly and honestly enforced and extended wherever practicable.

**Free Ballot**—We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot, and that such ballot shall be counted and returned as cast.

**Lynching**—We proclaim our unqualified condemnation of the uncivilized and barbarous practice known as lynching or killing of human beings suspected or charged with crime without process of law.

**National Arbitration**—We favor the creation of a national board of arbitration to settle and adjust differences which may arise between employers and employees engaged in interstate commerce.

**Homesteads**—We believe in an immediate return to the free homestead policy of the Republican party, and urge the passage by congress of the satisfactory free homestead measure which has already passed the house and is now pending in the senate.

**Territories**—We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interests of the people of the territories and of the United States. All the federal officers appointed for the territories

should be elected from bona fide residents thereof, and the right of self government should be accorded as far as practicable.

**Alaska**—We believe the citizens of Alaska should have representation in the congress of the United States, to the end that needful legislation may be intelligently enacted.

**Temperance**—We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

**Rights of Women**—The Republican party is mindful of the rights and interests of women. Protection of American industries includes equal opportunities, equal pay for equal work and protection to the home. We favor the admission of women to wider spheres of usefulness, and we esteem their co-operation in rescuing the country from Democratic and Populist mismanagement and misrule.

Such are the principles and policies of the Republican party. By these principles we will abide and these policies we will put into execution. We ask for them the considerate judgment of the American people. Confident alike in the history of our great party and in the justice of our cause, we present our platform and our candidates in the full assurance that the election will bring victory to the Republican party and prosperity to the people of the United States.

### THE PROHIBITION PLATFORM

Adopted at Pittsburg, 1896.

**W**E, the members of the Prohibition party, in national convention assembled, renewing our declaration of allegiance to Almighty God as the rightful Ruler of the universe, lay down the following as our declaration of political purpose:

The Prohibition party, in national convention assembled, declares its firm conviction that the manufacture, exportation, importation and sale of alcoholic beverages have produced such social, commercial, industrial and political wrongs, and is now so threatening the perpetuity of all our social and political institutions that the suppression of the same by a national party organized therefor, is the greatest object to be accomplished by the voters of our country, and is of such importance that it of right ought to control the political action of all our patriotic citizens until such suppression is accomplished.

The urgency of this course demands the union without further delay of all citizens who desire the prohibition of the liquor traffic; therefore be it

Resolved, That we favor the legal prohibition by state and national legislation

of the manufacture, importation and sale of alcoholic beverages; that we declare our purpose to organize and unite all the friends of Prohibition into one party, and in order to accomplish this end, we deem it of right to leave every Prohibitionist the freedom of his own convictions upon all other political questions, and trust our representatives to take such action upon other political questions as the changes occasioned by Prohibition and the welfare of the whole people shall demand.

### THE DEMOCRATIC PLATFORM

Adopted at Chicago, 1896.

**W**E, the Democrats of the United States, in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded and which the Democratic party has maintained from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law and the faithful observance of constitutional limitations.

During all these years, the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance and teachings, the great principle of local self government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

The constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The Democratic party has always been the exponent of political liberty and religious freedom, and it renews its obligations and reaffirms its devotion to these fundamental principles of the constitution.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the federal constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution, made the silver dollar the unit of value, and admitted gold to free coinage at a ratio measured by the silver dollar unit.

We declare that the act of 1873, demonetizing silver without the knowledge or

approval of the American people, has resulted in the appreciation of gold, and a corresponding fall in the prices of commodities produced by the people, a heavy increase in the burden of taxation and of all debts, public and private, the enrichment of the money lending class at home and abroad, paralysis of industry and impoverishment of the people.

We are unalterably opposed to the single gold standard, which has locked fast the prosperity of an industrious people in the paralysis of hard times. Gold monometalism is a British policy, founded upon British greed for gain and power, and its general adoption has brought other nations to financial servitude to London. It is not only un-American, but anti-American, and it can be fastened upon the United States only by the stifling of that indomitable spirit and love of liberty which proclaimed our political independence in 1776 and won it in the war of Revolution.

We demand the immediate restoration of the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender equally with gold for all debts, public and private, and we favor such legislation as will prevent the demonetization of any kind of legal tender money by private contract.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin.

We are opposed to the issuing of interest-bearing bonds of the United States in times of peace, and condemn the trafficking with banking syndicates, which, in exchange for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of gold monometalism.

Congress alone has the power to coin and issue money, and President Jackson declared that this power could not be delegated to corporations or to individuals.

We therefore denounce the issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts, or which is receivable for duties to the United States, shall be issued by the government of the United States and shall be redeemable in coin.

We hold that tariff duties should be levied for purposes of revenue, such duties to be so adjusted as to operate equally throughout the country and not discriminate between class or section, and that taxation should be limited by the needs of

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

the government, honestly and economically administered. We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people in national elections and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets. Until the money question is settled, we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to make up the deficit in revenue caused by the adverse decision of the supreme court on the income tax.

There would be no deficit in the federal revenue but for the annulment by the supreme court of a law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for nearly 100 years, that court having sustained constitutional objections to its enactment which had been overruled by the ablest judges who had ever sat on that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the burdens of taxation may be equally and impartially laid, to the end that wealth may bear its due proportion of the expenses of the government.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactures, and as labor creates the wealth of the country, we demand the passage of such laws as may be necessary to protect it in all its rights.

We are in favor of the arbitration of differences between employers engaged in inter-state commerce and their employees, and recommend such legislation as is necessary to carry out this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems and the formation of trusts and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such restrictions and guarantees in the control of railroads as

will protect the people from robbery and oppression.

We denounce the profligate waste of the money wrung from the people by the oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We demand a return to that simplicity and economy which best befit a democratic government, and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

We denounce arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States, and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression by which federal judges, in contempt of the laws of the states and rights of citizens, become at once legislator, judge and executioner, and we approve the bill passed at the last session of the United States senate and now pending in the house relative to contempts in federal courts and providing for trials by jury in certain cases of contempt.

No discrimination should be indulged by the government of the United States in favor of any of its debtors. We approve of the refusal of the fifty-third congress to pass the Pacific Railroad funding bill, and denounce the effort of the present Republican congress to enact a similar measure.

Recognizing the just claims of deserving Union soldiers, we heartily indorse the rule of the present commissioner of pensions that no name shall be arbitrarily dropped from the pension roll, and the fact of enlistment and service should be deemed conclusive evidence against disease or disability before enlistment.

We favor the admission of the territories of New Mexico, Oklahoma and Arizona into the union as states, and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which the duties are to be performed. The Democratic party believes in home rule, and that all public lands of the United States should be appropriated to the establishment of free homes for American citizens.

We recommend that the territory of Alaska be granted a delegate in congress.

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

(Continued from page 18.)

and that the general land and timber laws of the United States be extended to said territory.

The Monroe doctrine, as originally declared and as interpreted by succeeding presidents, is a permanent part of the foreign policy of the United States, and must at all times be maintained.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

We are opposed to life tenure in the public service. We favor appointments based upon merit, fixed terms of office and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness.

We declare it to be the unwritten law of this republic, established by custom and usages of 100 years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man should be eligible for a third term of the presidential office.

The federal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient importance to demand aid of the government, such aid should be extended upon a definite plan of continuous work, until permanent improvement is secured.

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declaration of principles and purposes to the considerate judgment of the American people. We invite the support of all citizens who approve them and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.

### THE NATIONAL PLATFORM

Adopted at Pittsburg, 1896.

**T**HE National party, recognizing God as the author of all just power in government, presents the following declaration of principles, which it pledges itself to enact into effective legislation when given the power to do so.

1. The suppression of the manufacture and sale, importation, exportation and transportation of intoxicating liquors for beverage purposes. We utterly reject all plans for regulating, or compromising with this traffic, whether such plans be called local option, taxation, license or public control. The sale of liquors for medicinal and other legitimate uses, should be conducted by the state, without profit, and

with such regulations as will prevent fraud or evasion.

2. No citizen should be denied the right to vote on account of sex.

3. All money should be issued by the general government only, and without the intervention of any private citizen, corporation or banking institution. It should be based upon the wealth, stability and integrity of the nation. It should be a full legal tender for all debts, public and private, and should be of sufficient volume to meet the demands of the legitimate business interests of the country. For the purpose of honestly liquidating our outstanding coin obligations, we favor the free and unlimited coinage of both silver and gold, at the ratio of 16 to 1, without consulting any other nation.

4. Land is the common heritage of the people and should be preserved from monopoly and speculation. All unearned grants of land, subject to forfeiture, should be reclaimed by the government, and no portion of the public domain should hereafter be granted except to actual settlers, continuous use being essential to tenure.

5. Railroads, telegraphs and other natural monopolies should be owned and operated by the government, giving to the people the benefit of service at actual cost.

6. The national constitution should be so amended as to allow the national revenues to be raised by equitable adjustment of taxation on the properties and incomes of the people, and import duties should be levied as a means of securing equitable commercial relations with other nations.

7. The contract convict labor system, through which speculators are enriched at the expense of the state, should be abolished.

8. All citizens should be protected by law in their right to one day of rest in seven, without oppressing any who conscientiously observe any other than the first day of the week.

9. The American public schools, taught in the English language, should be maintained, and no public fund should be appropriated for sectarian institutions.

10. The president, vice-president and United States senators should be elected by direct vote of the people.

11. Ex-soldiers and sailors of the United States army and navy, their widows and minor children, should receive liberal pensions, graded on disability and term of service, not merely as a debt of gratitude, but for service rendered in the preservation of the Union.

12. Our immigration laws should be so revised as to exclude paupers and criminals. None but citizens of the United States should be allowed to vote in any

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

state, and naturalized citizens should not vote until one year after naturalization papers have been issued.

13. The initiative and referendum, and proportional representation, should be adopted.

14. Having herein presented our principles and purposes, we invite the co-operation and support of all citizens who are with us substantially agreed.

### THE POPULIST PLATFORM

Adopted at St. Louis, 1896.

**T**HE following platform was adopted: Preamble—The People's Party, assembled in national convention, reaffirms its allegiance to the principles declared by the founders of the republic, and also to the fundamental principles of just government as enunciated in the platform of the party in 1892, but recognizes that through the action of the present and preceding administrations, the country has reached a crisis in its national life, as predicted in our platform four years ago, and at present prompt and patriotic action is the supreme duty of the hour. We realize that while we have political independence, our financial and industrial independence is yet to be attained by restoring to the people's government the constitutional control and exercise of the functions necessary to that end, which functions have been basely surrendered by our public servants to corporate monopolies. The influence of European money changers has been more potent in shaping legislation than the voice of the American people. Executive power and patronage have been used to corrupt our legislatures and defeat the will of the people, and plutocracy has thereby been enthroned upon the ruins of Democracy. To restore the government of the fathers and for the welfare and prosperity of this and future generations, we demand the establishment of our economic and financial system which shall make us masters of our own affairs and independent of European control by the adoption of the following declaration of principles:

**Finance**—We demand a national currency, safe and sound, issued by the general government only, a full legal tender for all debts, public and private, and without the use of banking corporations, an honest, equitable and efficient means of distribution direct to the people and through the lawful disbursements of the government.

We demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1 by the United States without waiting for the consent of foreign nations.

We demand that the volume of circulating medium be speedily increased to an

amount sufficient to meet the demands of the business and population of this country and to restore the just level of prices of labor and production and thereby establish prosperity and happiness for the people.

We denounce the sale of bonds and the increase of the public interest bearing debt made by the present administration as unnecessary and without authority of law, and we demand a law absolutely prohibiting the sale of bonds and increase of the public debt, except in accordance with an act or acts of congress, authorizing the same.

We demand such legislation as will prevent the demonetization of the lawful money of the United States by private contract.

We demand that the government, in payment of its obligations, shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and preceding administrations for surrendering this option to the holders of government obligations.

We demand a graduated income tax, to the end that aggregated wealth shall bear its just proportion of taxation, and we denounce the recent decision of the supreme court in regard to the income tax law as a misinterpretation of the constitution and an invasion of the rightful powers of congress over the subject of taxation.

We demand that postal savings banks be established by the government for the safe deposit of the savings of the people and to facilitate exchange.

A true policy demands that the national and state legislation shall be such as will ultimately enable every private and industrious man to own a home, and therefore the land should not be monopolized for speculative purposes. All agricultural and grazing lands now held by railroad corporations, in excess of their actual need, should by lawful means be reclaimed by the government and held for actual settlers only, and private land monopoly should be prevented by appropriate state and national legislation.

We condemn the frauds. The land grant of the Pacific Railroad company through the connivance of the interior department robbed multitudes of actual and bona fide settlers of their homes and miners of their claims, and we demand legislation by congress which will enforce the exception of mineral land from such grants after as well as before patent.

**Direct Legislation**—We hold that all governments derive their just powers from the consent of the governed, and in order that the consent of the governed may be clearly ascertained, we favor direct legislation under proper constitutional safeguards, so that a 5 percentage of the

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

(Continued from page 22.)

citizens shall have the right of initiating, framing and preparing laws and of compelling the submission thereof and of all important laws, whether proposed by national, state or local legislatures, to a direct vote of the people for their approval or rejection.

Transportation being a means of exchange and a public necessity, the government should own and operate railroads in the interests of the people, to the end that all men may be accorded the same treatment in transportation and that the tyranny and political power now exercised by the great corporations, which result in the impairment if not the destruction of the political right and personal liberty of the citizen, may be destroyed. Such ownership is to be accomplished gradually, in a manner consistent with sound public policy.

The interest of the United States in the public highways built with public moneys and the proceeds of extensive grants of land, known as the Pacific Railroads, should never be alienated, mortgaged or sold, but guarded and protected for the general welfare, as provided by the laws organizing said Pacific Railroads. The foreclosure of the subsisting liens of the United States on these roads should at once follow default in the payment thereof by the debtor companies, and that at the foreclosure of said roads, the government shall purchase the same, if it becomes necessary to protect its interests therein or if the same can be purchased at a reasonable price, and the government shall operate said railroads as public highways for the benefit of the people and not in the interest of the few, under suitable provisions for protection of life and property, giving to all transportation interests equal privileges and equal rates for fares and freights.

We denounce the present infamous schemes for refunding these debts and demand that the laws now applicable thereto be executed and administered according their true intent and spirit.

The telegraph, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

### NATIONAL DEMOCRATIC PLATFORM

Adopted at Indianapolis, 1896.

**T**HIS convention has assembled to uphold the principles upon which depend the honor and welfare of the American people, in order that Democrats throughout the Union may unite their patriotic efforts to avert disaster from their country and ruin from their party.

The Democratic party is pledged to

equal and exact justice to all men, of every creed and condition; to the largest freedom of the individual, consistent with good government; to the preservation of the Federal Government in its constitutional vigor, and to the support of the states in all their just rights; to economy in the public expenditures; to the maintenance of the public faith, and sound money; and it is opposed to paternalism and all class legislation.

The Chicago Fallacies—The declarations of the Chicago Convention attack individual freedom, the right of private contract, the independence of the judiciary and the authority of the president to enforce federal laws. They advocate a reckless attempt to increase the price of silver by legislation, to the debasement of our monetary standard, and threaten unlimited issues of paper money by the government. They abandon for Republican allies the Democratic cause of tariff reform to court the favor of protectionists to their fiscal heresy.

In view of these and other grave departures from Democratic principles we cannot support the candidates of that convention nor be bound by its acts. The Democratic party has survived many defeats, but could not survive a victory won in behalf of the doctrine and policy proclaimed in its name at Chicago.

The Devotees of Class Legislation—The conditions, however, which make possible such utterances from a national convention are the direct result of class legislation by the Republican party. It still proclaims, as it has for years, the power and duty of government to raise and maintain prices by law, and it proposes no remedy for existing evils, except oppressive and unjust taxation.

The National Democracy here convened therefore renews its declaration of faith in Democratic principles, especially as applicable to the conditions of the times. Taxation, tariff, excise or direct, is rightfully imposed only for public purposes, and not for private gain. Its amount is justly measured by public expenditures, which should be limited by scrupulous economy.

The sum derived by the treasury from tariff and excise levies is affected by the state of trade and volume of consumption. The amount required by the treasury is determined by the appropriations made by congress. The demand of the Republican party for an increase in tariff taxation has its pretext in the deficiency of revenue, which has its causes in the stagnation of trade and reduced consumption, due entirely to the loss of confidence that has followed the Populist threat of free coinage and depreciation of our

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

money and the Republican practice of extravagant appropriations beyond the needs of good government.

**Populists Arraigned**—We arraign and condemn the Populistic conventions of Chicago and St. Louis for their co-operation with the Republican party in creating these conditions, which are pleaded in justification of a heavy increase of the burdens of the people by a further resort to protection.

We therefore denounce protection, and its ally, free coinage of silver, as schemes for the personal profit of a few at the expense of the masses, and oppose the two parties which stand for these schemes as hostile to the people of the Republic, whose food and shelter, comfort and prosperity, are attacked by higher taxes and depreciated money. In fine, we reaffirm the historic Democratic doctrine of tariff for revenue only.

**Liberal Shipping Policies**—We demand that henceforth modern and liberal policies toward American shipping shall take the place of our imitation of the restrictive statutes of the eighteenth century, which have been abandoned by every maritime power but the United States, and which to the nation's humiliation, have driven American capital and enterprise to the use of alien flags and alien crews, have made the Stars and Stripes an almost unknown emblem in foreign ports, and have virtually extinguished the race of American seamen. We oppose the pretense that discriminating duties will promote shipping. That scheme is an invitation to commercial warfare upon the United States, un-American in the light of our great commercial treaties, offering no gain whatever to American shipping, while greatly increasing ocean freights on our agricultural and manufactured products.

**Relations of Gold and Silver**—The experience of mankind has shown that, by reason of its natural qualities gold is the necessary money of the large affairs of commerce and business, while silver is conveniently adapted to minor transactions, and the most beneficial use of both together can be secured only by the adoption of the former as a standard of monetary measure and the maintenance of silver at a parity with gold by its limited coinage under suitable safeguards of law.

Thus, the largest possible enjoyment of both metals is gained with a value universally accepted throughout the world, which constitutes the only practical bi-metallic currency, assuring the most stable standard, and especially the best and safest money for all who earn their livelihood by labor or the products of husbandry. They cannot suffer when paid in the best money known to man, but are

the peculiar and most defenseless victims of a debased and fluctuating currency, which offers continual profits to the money-changer at their cost.

**The Party's First Principles**—Realizing the truths demonstrated by long and public inconvenience and loss, the Democratic party, in the interests of the masses, and of equal justice to all, practically established by the legislation of 1834 and 1853 the gold standard of monetary measurement, and likewise entirely divorced the government from banking and currency issues. To this long-established Democratic policy we adhere, and insist upon the maintenance of the gold standard, and of the parity therewith of every dollar issued by the government, and are firmly opposed to the free and unlimited coinage of silver and to the compulsory purchase of silver bullion.

But we denounce also the further maintenance of the present costly patchwork system of national paper currency, as a constant source of injury and peril. We assert the necessity of such intelligent currency reform as will confine the government to its legitimate functions, completely separated from the banking business, and afford to all sections of our country a uniform, safe and elastic bank currency under governmental supervision, measured in volume by the needs of business.

**The President's Fidelity**—The fidelity, patriotism and courage with which President Cleveland has fulfilled his great public trust, the high character of his administration, its wisdom and energy in the maintenance of civil order and the enforcement of the laws, its equal regard for the rights of every class and every section, its firm and dignifying conduct of foreign affairs, and its sturdy persistence in upholding the credit and honor of the nation, are fully recognized by the Democratic party, and will secure to him a place in history beside the fathers of the republic.

We also commend the administration for the great progress made in the reform of the public service, and we endorse its effort to extend the merit system still further. We demand that no backward step be taken, but that the reform be supported and advanced until the undemocratic spoils system of appointments shall be eradicated.

**Economy, Arbitration, Pensions**—We demand strict economy in the appropriations, and in the administration of the government.

We favor arbitration for the settlement of international disputes.

We favor a liberal policy of pensions to

## PLATFORMS NATIONAL POLITICAL PARTIES, 1896

Continued from page 26.)

deserving soldiers and sailors of the United States.

**Defending the Supreme Court**—The Supreme Court of the United States was wisely established by the framers of the Constitution as one of the three co-ordinate branches of the government. Its independence and authority to interpret the laws of the land without fear or favor must be maintained. We condemn all efforts to degrade that tribunal, or impair the confidence and respect with which it has been deservedly held. The Democratic party ever has maintained and ever will maintain the supremacy of law, the independence of its judicial administration, the inviolability of contract, and the obligations of all good citizens to resist every illegal trust, combination or attempt against the just rights of property and the good order of society, in which are bound up the peace and happiness of our people.

Believing these principles to be essential to the well-being of the republic, we submit them to the consideration of the American people.

### SILVER PARTY PLATFORM

Adopted at St. Louis, 1896.

**T**HE National Silver party of America, in Convention assembled, hereby adopts the following declaration of principles:

First, the paramount issue at this time in the United States is indisputably the money question. It is between the British gold standard, gold bonds and bank currency on the one side, and the bimetallic standard, no bonds, government currency (and an American policy) on the other.

**Free Silver**—On this issue we declare ourselves to be in favor of a distinctively American financial system. We are unalterably opposed to the single gold standard, and demand the immediate return to the constitutional standard of gold and silver, by the restoration by this government, independently of any foreign power, of the unrestricted coinage of both gold and silver into standard coinage at the ratio of 16 to 1, and upon terms of exact equality as they existed prior to 1873—the silver coin to be of full legal tender, equally with gold, for all debts and dues, public and private; and we demand such legislation as will prevent for the future the destruction of the legal-tender quality of any kind of money by private contract.

**Paper Currency**—We hold that the power to control and regulate a paper currency is inseparable from the power to coin money; and hence that all currency intended to circulate as money should be issued, and its volume controlled by the general government only, and should be a legal tender.

**Against Bonds**—We are unalterably opposed to the issue by the United States of interest-bearing bonds in time of peace, and we denounce as a blunder worse than a crime the present treasury policy concurred in by a Republican House of plunging the country into debt by hundreds of millions in the vain attempt to maintain the gold standard by borrowing gold, and we demand the payment of all coin obligations of the United States as provided by existing laws, in either gold or silver coin, at the option of the government and not at the option of the creditor.

The demonetization of silver in 1873 enormously increased the demand for gold, enhancing its purchasing power and lowering all prices measured by that standard, and since that unjust and indefensible act the prices of American products have fallen upon an average of nearly fifty per cent., carrying down with them proportionately the money value of all other forms of property.

Such fall of prices has destroyed the profits of legitimate industry, injuring the producer for the benefit of the non-producer, increasing the burden of the debtor, swelling the gains of the creditor, paralyzing the productive energies of the American people, relegating to idleness vast numbers of willing workers, sending the shadows of despair into the home of the honest toiler, filling the land with tramps and paupers, and building up colossal fortunes at the money centres.

**The Bond Issues**—In the effort to maintain the gold standard the country has within the last two years, in a time of profound peace and plenty, been loaded down with \$262,000,000 of additional interest-bearing debt, under such circumstances as to allow a syndicate of native and foreign bankers to realize a net profit of millions on a single deal.

It stands confessed that the gold standard can only be upheld by so depleting our paper currency as to force the prices of our products below the price of production, or even below the Asiatic level, to enable us to sell in foreign markets, thus aggravating the very evils of which our people so bitterly complain, degrading American labor and striking at the foundation of our civilization itself.

The advocates of the gold standard persistently claim that the cause of our distress is over-production, that we have produced so much that it made us poor, which implies that the true remedy is to close the factory, abandon the farm and throw a multitude of people out of employment—a doctrine that leaves us unnerved and disheartened and absolutely without hope for the future.

**No Overproduction**—We affirm it to be

unquestioned that there can be no such economic paradox as over-production and at the same time tens of thousands of our fellow-citizens remaining half clothed and half fed, and who are piteously clamoring for the common necessities of life.

Over and above all other questions of policy we are in favor of restoring to the people of the United States the time-honored money of the constitution—gold and silver, not one, but both—the money of Washington and Hamilton and Jefferson and Monroe and Jackson and Lincoln, to the end that the American people may receive honest pay for an honest product; that the American debtor may pay his just obligations in an honest standard, and not in a dishonest and unsound standard, appreciated one hundred per cent. in purchasing power and no appreciation in debt-paying power, and to the end, further, that silver-standard countries may be deprived of the unjust advantage they now enjoy in the difference in exchange between gold and silver, an advantage which tariff legislation cannot overcome.

We therefore confidently appeal to the people of the United States to hold in abeyance all other questions, however important and even momentous they may appear; to sunder, if need be, all former party ties and affiliations, and unite in one supreme effort to free themselves and their children from the domination of the money power—a power more destructive than any which has ever been fastened upon the civilized men of any race or in any age. And upon the consummation of our desires and efforts we invoke the aid of all patriotic American citizens and the gracious favor of divine providence.

For Bryan and Sewall—Inasmuch as the patriotic majority of the Chicago Convention embodied in the financial plank of its platform the principles enunciated in the platform of the National Silver Party, promulgated at Washington, D. C., January 22, 1896, and herein reiterated, which is not only the paramount but only real issue in the pending campaign, therefore recognizing that their nominees embody these patriotic principles, we recommend that this convention nominate William J. Bryan of Nebraska, for president, and Arthur Sewall of Maine, for vice-president.

A German patent costs \$100, this sum covering also the tax for six years.

It is computed that in marching soldiers take seventy-five steps per minute, in quick marching 108, and in charging 160 steps.

Most shoes worn in Japan are made of straw or wood. In the entire country there is but one factory where leather shoes are made.

SEASONS LAWFUL TO KILL

Hare, Rabbit, Quail—Between the 10th of November and the 1st of January, inclusive. Fine \$20.

Woodcock—The month of July, and from the 1st of October to the 10th of December, inclusive. Fine, \$20.

Gray, English or Wilson Snipe—The months of March April and September. Fine \$20.

Ruffed Grouse and Partridge, European Grouse, Partridge and Pheasant—The 1st of October to the 10th of December, inclusive. Fine, \$20.

Reed Bird, Rail Bird and Marsh Hen—The month of September. Fine, \$20.

Gray Fox or Black Squirrels—The month of September, and from the 10th of November to the 10th of December, inclusive. Fine, \$20.

Grass or Upland Plover and Dove—The months of August and September. Fine, \$20.

Dealers have thirty days after the close of the season in which to dispose of the above-mentioned game. The following game and fish may be sold at any time throughout the state, provided the capture did not take place within the closed season:

Deer—Between the 25th of October and the 5th of November, inclusive. Fine, \$100.

Geese, Duck and other web-footed wild fowl—Between the 30th of September and the 1st of May, inclusive; but at no time from vessels propelled by steam or sail. Fine, \$20.

Brook Trout—Between the 1st of April and the 15th of June. Fine \$20.

Black Bass—Between the 30th of May and the 1st of December. Fine \$20.

Pickereel—Between the 1st of May and the 20th of February. Fine, \$20.

(The penalties are for each animal unlawfully taken or had in possession. In case of non-payment of fines and cost the convicted are subject to imprisonment.)

In no other country on the face of the globe is the railroad mileage anywhere near as large relatively to the number of inhabitants as in the United States. To see this, one has only to turn to the latest statistics on the subject. The chief nations of Europe have one mile of railroad to an average of 2600 people, while in this country the average is 380 inhabitants to one mile of road. This is the result of the competition between different railroad companies. In Iowa, where the fight is perhaps bitterest, the number of inhabitants to one mile of road is only 243, while Germany, with very nearly the same amount of mileage, has 1895 inhabitants to the mile, a number nearly eight times as great.—Washington Times.

# National Park

OPPOSITE LEAGUE ISLAND NAVY YARD  
GLOUCESTER COUNTY, NEW JERSEY.....

## ON THE DELAWARE

### NATIONAL PARK.....

Is designed to be a moral suburban town after the pattern of Ocean Grove and Ocean City. The deeds are all iron-clad covenant deeds, with title guaranteed by the West Jersey Title Company. Thirty acres of beautiful chestnut and oak grove for camp meetings, assemblies, etc. Thirty acres of large tulip chestnuts, oaks, birch, maples, etc., along the river for Sunday school picnics, etc. High ground; large lots for a large city for sale by the association.

#### NATIONAL PARK

Is located opposite Philadelphia, five miles from William Penn's statue, in a direct line; four miles below Camden, two miles from Woodbury, two miles south of Washington Park, one mile across the river from that great navy yard, where in full view Uncle Sam's navy in part is always floating, and will soon be the greatest navy yard in the world.

#### NATIONAL PARK

Is on the historic battle ground of old Fort Mercer. This great Revolutionary battle was fought in the River Grove October 22, 1777. Here Count Donop fell; here the monument was erected in 1829; here the ramparts still remain. The United States government owns 50 acres adjoining the park

#### NATIONAL PARK

Was organized October 22, 1894, on the anniversary of the above battle. National Park was incorporated May 2, 1895, and opened to the public August 13, 1895. The first camp meeting, August 15-23, 1895. The first anniversary services were held August 13, 1896, Rev. John Handley, D.D., preaching the anniversary sermon.

Thus one year of actual existence has been passed. We are on our second year and behold what has been done. National Park has become a fixed star in the firmament of moral and camp meeting resorts.

Decoration Day was appropriately celebrated and the old monument decorated for the first time. The Fourth of July was celebrated in a marked manner. Two steamers ran all day. Rev. Bishop Foss, Rev. Dr. S. M. Vernon delivered orations; Col. Wm. H. Cooper of the 6th Regiment N. G. N. J. Vol. conducted a sham battle. A grand display of fireworks at night. Thousands came to this first celebration of the nation's birth.

Thousands came to the camp meeting, August 12-21. Rev. Thomas Harrison, the evangelist, had charge. Many were converted and sanctified. The new auditorium, 40x80, was too small. Eight new \$300 cottages were erected; 100 camp meeting lots were sold. A special steamer had to be chartered on the last day. This was the greatest day we ever saw. The vast multitudes marched between red lights and chinese lanterns to the boat where sky rockets and magic lanterns lit the river and grove, and as the steamers moved away crowded, singing "Shall we meet?" the crowds on the pier sang "Yes, we'll meet." This camp will be memorable as the seal of God upon National Park.

The Epworth League convention August 21-24, under Rev. H. J. Zellely, the conference president, was a fine success, except as the stormy weather interfered. The Brotherhood of Andrew and Philip, of the Bethany Presbyterian church, held evangelistic services on September 10th. About 50 Sunday schools spent the day in the groves and on the river. Among the ministers taking part in the services we remember Revs. J. B. Westcott, J. R. Boblitz, D. B. Harris, presiding elder, J. L. Surtees, Dr. J. F. Spence, Miss Lizzie Sharp, E. C. Hulse, Dr. James Moore, W. E. Blackiston, Geo. VanDeuers, C. A. Dickey, Dr. J. Wilbur Chapman, D. E. Anderson, F. L. Jewett, J. M. Read, H. J. Zellely, I. Fowler, Geo. W. Ridout, G. G. Senser, J. E. Sawn, A. Lawrence, Dr. J. B. Graw, J. S. Heisler, Dr. S. M. Vernon, A. Wagg, E. C. Sunfield, Jos. Garrison, E. B. Lake, S. Wesley Lake, Dr. J. Handley, Bishop Foss.

#### NATIONAL PARK

Next year we expect to be much in advance of the past: 700 shade trees have been planted; a bridge across the cut leading up from the river has been built, avenues graded, cottages built, groves cleared up; but much more will be effected before next year opens. We expect a more elaborate program; Rev. Thomas Harrison has been engaged. Sunday schools are invited to engage the grounds for certain days. For full particulars address

Plurality ....	81116	...	...	...	...

Note.—In counties in which there are more than one assemblyman to elect the vote was obtained by adding the totals of all the assembly candidates of each party and dividing by the number, to obtain the average. Fractional parts of votes were discarded in making up the average by polling districts; the totals are averaged by themselves. Both are correct, although the polling districts when added do not always agree with the totals given by counties.

**CONGRESSIONAL VOTE, 1896**

**FIRST DISTRICT.**

## V. The Household

### TWO HINTS ABOUT COOKING

“**H**OW in the world do you manage always to have your mashed potatoes so snowy and light?” asked one woman of another, as she watched her whisking up the foamy mass that looked almost like beaten egg for whiteness and lightness.

“Shall I tell you my secret?” replied the one addressed, with a laugh, as she laid the dish down on the table. “It is very simple. I learned it years ago from a professional cook, and have used it ever since. The potatoes are boiled and mashed in the usual way, and then I add to them a little milk and butter, a pinch of baking powder, and beat them lightly with a fork, as if I were beating cake. Sometimes I heap them up in a dish and set them in the oven for a few minutes till they are delicately browned on top. They don’t taste any better for it, but it looks pretty, and is that most desirable of things—a change.

“Another thing that this same cook, who, by the way, was a man, told me, was how to boil a ham properly. Any one can put it in water and cook it the other way. The right way, however, to bring out all the sweetness and tenderness and flavor that is in the ham, is this: Put it on to boil with plenty of water early in the morning, and let it boil for a full hour longer than you are in the habit of doing. Then let it stand all day in the liquid in which it has been cooked, in a cool place. About an hour before you want to put it on the table, take it out of the liquor and skin it. Then rub it with mace and black pepper and stick it full of cloves, and bake it for an hour. The meat will be delicate

and pink. This, of course, is for an evening dinner. If it is wanted for a midday meal, it should be boiled the day before, and left to stand all night.”

### TO COOK EGGS

**B**ELOW are a few recipes that cannot fail to be liked by country housekeepers who live so far from market that fresh meat cannot be had every day:

**Breaded Eggs**—Boil eggs until hard. Remove the shells, and cut the eggs in half, lengthwise. Dip the pieces in raw egg, then in bread crumbs seasoned with pepper and salt, and fry in hot butter and lard, drain, and serve hot.

**Scotch Eggs**—Boil six eggs until hard. Remove the shell. Cook one-third cupful of crumbs and one-half cupful of milk together until it forms a paste, add to this one cupful of lean boiled ham minced fine, one-half teaspoonful of made mustard, and one salt spoonful of cayenne pepper; mix well. Cut the eggs in half lengthwise, or leave them whole, as preferred. Cover them with the mixture and fry in hot fat for two or three minutes.

**Eggs on Toast**—Boil eggs until hard. Remove the shell, cut the egg in thick slices, dip in egg, then in bread crumbs, and fry in hot butter and lard, serve hot, on toast that has been moistened with hot water and buttered.

**Egg Sauce**—Take two tablespoonfuls flour, half cupful butter, one pint boiling water. Rub the butter and flour together and add to it the boiling water. Stir until smooth. Add a half cupful of cream, and six or seven eggs boiled hard and chopped fine. Let it scald, and serve hot.

### MOON'S PHASES

☾ First Quar., 1d. 9h. 37m. M. | ☾ Last Quar., 17d. 9h. 2m. M.  
 ☽ Full Moon, 9d. 4h. 50m. M. | ☽ New Moon, 24d. 4h. 20m. M.  
 ☽ First Quar., 30d. 10h. 14m. A.

**Egg Dressing for Salad**—Take the yolk of one hard boiled egg, one teaspoonful of sugar, one-half teaspoonful of salt, one teaspoonful of mademustard and one table-spoonful of butter. Cream the ingredients and add gradually two tablespoonfuls of vinegar. Chop the white of the egg fine and add it to the salad. This is especially desirable for cabbage.

**Pickled Eggs**—Boil eggs until hard. Remove the shells, cut the eggs in half lengthwise, and pour over them vinegar seasoned with pepper and salt, or spiced, as desired.

A substitute for cream may be had by beating the yolk of an egg with a teaspoonful of sugar and a very little water. Put it in the cups before the coffee is poured into them.

CONTRIBUTED RECIPES

**Mrs. Agnes Rogers' Fruit Cake**—One pound raisins, 1 pound dates, ½ pound figs, ½ pound currants, ½ pound citron; cut dates, figs and citron fine, and mix all the fruit well together; take six eggs, 2 cups flour, 2 cups light brown sugar, and a good sized cup, 2-3 full, of butter; mix butter and sugar together, beating 1 egg into it at a time until all are beaten well together. Then add 1 shallow teaspoonful of soda which has been dissolved in ½ cup boiling water, add fruit and 1 teaspoonful of all spices which may be desired, mix well together, put in a well-greased pan and bake 3 hours.

**Spanish Cream**—One-half box of Cox's gelatine, 1 quart of milk, 2 or 3 eggs, 1½ cups of granulated sugar; flavor with vanilla or lemon or both. Dissolve the gelatine in part of the milk by setting on the back of the stove and stirring occasionally. Beat the yolks of eggs, add half

the sugar, the balance of the milk; pour all together; let boil 2 or 3 minutes, stir it often. In the meantime, prepare the whites by beating very stiff, add the sugar; then pour the boiling custard slowly on the beaten whites, stir very hard, flavor with vanilla, and let stand over night. serve with cream.—(Mrs. E. J. Birkhead.)

**Cucumber Pickles in Slices**—Pare and slice 1 dozen fresh cucumbers and three onions, sprinkle with salt and pepper, let stand about 24 hours; then drain well, put in a stone jar, pour boiling vinegar over them, close the jar and set in a warm place. Next day pour off the vinegar, boil and return. On the third day repeat the process, adding a little celery seed, if liked. Close the jar tight when cold, and keep in a cool, dry place.

**Green Tomato Pickle (Good)**—One peck of green tomatoes, 4 green and 4 red peppers, and 8 good-sized onions; slice, leaving out the seed of peppers; put in a layer of tomato, onion and pepper, and then a sprinkle of salt and so on till the jar is full; let stand over night. In the morning drain well, put in an agate kettle, cover with vinegar, and put in a tablespoonful of mustard seed, celery seed, whole cloves and pepper, and a scant ½ cup of sugar; let simmer for about fifteen minutes, and put away in stone crocks.

**Water Sponge Cake**—Two cups of sugar, 6 eggs, 2 cups of flour, 10 tablespoonfuls of water, 2 teaspoonfuls of baking powder and the juice and grated rind of 1 lemon. Beat the eggs one at a time in sugar; then add water, lemon and flour; after all are well stirred together, add baking powder.

**Mixed Pickles (Excellent)**—One-quarter peck of string beans, 1 quart of lima beans, 1 quart of small onions, 6 ears of

"The Old Reliable Office"

1897

## The Bound Brook Real Estate and Insurance Agency

OFFICE NEAR DEPOTS

E. VAN SYCKEL, Manager

OFFERS FOR SALE, Farms, Factory sites, Factory buildings, Wharf and business property, Village and Country homes, Store stands, Town sites, wholesale speculations. Bound Brook has four railroads, ship canal, and is a growing manufacture centre and New York suburban district. Fine Investment chances.

This Agency does all kinds of Insurance, LIFE, FIRE, ACCIDENT, TORNADO, Steam Boiler, Plate Glass, Employees liability, Fidelity Trust and Burglary Insurance. Issues Security Bonds, takes Casualty Chances, sells Accident Tickets for a day, week, month or year.

This Agency has long acted upon the prevailing sentiment,

"The Best Insurance is Cheapest"

and therefore writes for none other than the oldest, strongest and best Companies in the business. And among the millionaire Companies in its Fire Department is the grand old

ÆTNA OF HARTFORD, the Strongest American Company

THE PHILA. UNDERWRITERS, the next Strongest American Company

THE ROYAL OF LIVERPOOL with its Home Assets of \$58,329,339.80

THE LONDON SUN, the oldest Company in the World and strong

(Approved Insurance written throughout New Jersey.)

Correspondence solicited. Sub-Agents employed. Address

E. VAN SYCKEL, Agent, Bound Brook, N. J.

## Beverly Extension Tract

A Safe Investment that will more than DOUBLE in VALUE within a few months.

BUILDING LOTS FOR SALE

Apply to CHAS. STOKES, Agent on Premises

BEVERLY, N. J.

From \$50 Each Upward—According to Location

It is reached by the Penna. R. R. from the Ferries, foot of Market street, Phila., over the Amboy Division, and the Main Line from New York via Trenton and Camden to the popular watering places of Atlantic City and Cape May.

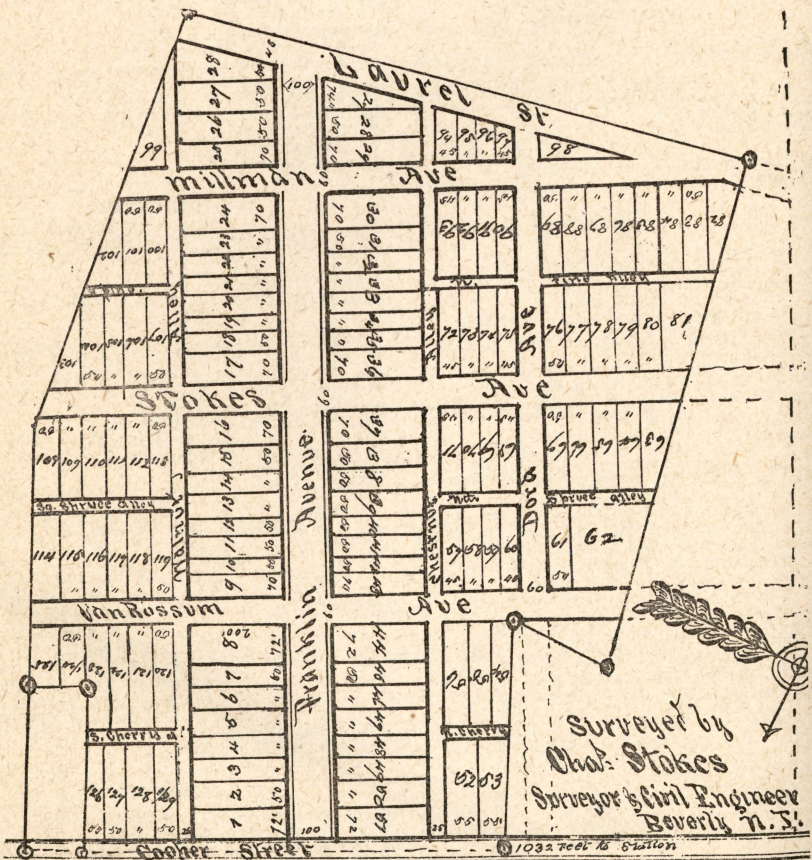

The tract is lighted with large 2000 candle-power electric lights. Telephone and telegraph service extends along the main avenue of the tract, thus affording all the modern advantages to be found anywhere.

Most excellent well water obtainable on every lot. Also city water. Corner lots on Franklin avenue are 70x72 feet frontage. All other lots 45 to 50 feet, and all have an average of 200 feet in depth, with a 20-foot alley in rear, affording excellent facilities for putting up barns, sheds or wagon houses.
