17:2-6.5 Willful negligence

(a) Willful negligence is defined as:

1. Deliberate act or deliberate failure to act; or,
2. Such conduct as evidences reckless indifference to safety; or,
3. Intoxication, operating as the proximate cause of injury.

17:2-6.6 Retirement credit

(a) A member shall receive credit toward retirement for any month or biweekly pay period in which a full normal deduction is received by the system.

(b) A member who appeals the suspension or termination of his or her employment and is awarded back pay for all or a portion of his or her employment for the period of such suspension or termination shall receive retirement credit for the period covered by the award, regardless of the amount of the back pay awarded, provided a full normal pension contribution is received from the member or deducted from the value of the award. The amount of the pension contribution will be determined by the provisions of the award. If the member receives full back pay, including normal salary increases, then the contribution will be computed on the base salaries that the employee would have earned for the reinstated suspended or terminated period. When the settlement is less than the full back pay, the pension contribution will be based upon the salary that the member was receiving for pension purposes prior to the suspension or termination of employment. In the event that the amount of back payment is insufficient to deduct the value of the normal pension contributions due, such contribution shall be paid by the member.

(c) It is the responsibility of the certifying officer to provide a letter attesting to the base salary or salaries to be used to compute pension contributions and to provide a copy of the resolution or legal document that details the terms of the settlement.

5. He will be required to appear for an examination before a physician designated to conduct such an examination for the retirement system; and
6. In the event the board finds that he is totally and permanently incapacitated for the performance of duty, he shall be granted the maximum retirement allowance, (without option) payable under the statute, if he (the member) does not file a completed "Application for

Disability Retirement Allowance” setting forth the type of allowance he desires, before his retirement goes into effect; and

1. Such report must be filed with the System before the following February 15th.

2. Failure on the part of the retirant to file a completed report with the System before February 15 shall result in the automatic suspension of the retirant’s retirement allowance for the period the report is in default.

(b) If a retirant reports employment and earnings, then the following tests shall be made by the System to ascertain:

1. If the retirant is engaged in a position subject to coverage by the System, his retirement allowance shall be cancelled and he shall be reenrolled in the system pursuant to N.J.S.A. 43:15A-44, effective as of the date of his appointment to such position.

2. If the retirant is engaged in employment and he estimates that his gross earned income for the present calendar year will exceed the difference between his pension and the salary he would have been receiving had he continued to work for his former employer (normal increment steps and salary range revisions will be considered but no promotional assumptions will be made) his pension for the period may be adjusted by such difference. If, at the close of the calendar year it is found that his earnings differ from his estimate, an appropriate adjustment will be made.

3. If such a retirant has not properly estimated his gross earned income for the calendar year and it is found at the close of the calendar year it exceeded the difference between his pension and the salary of his former position and if he does not refund the excess pension to the system within 30 days, effective April 1, his pension for the succeeding 12-month period will be reduced by the excess pension he received in the preceding calendar year.
