

New Rule, R.1993 d.513, effective October 18, 1993.  
See: 25 N.J.R. 3427(a), 25 N.J.R. 4751(b).  
Amended by R.1997 d.127, effective March 17, 1997.  
See: 29 N.J.R. 95(a), 29 N.J.R. 901(b).  
Substantially amended section.

### 13:71-23.3C Post-race blood gas testing program; punishment for failure to cooperate

In the event any owner, trainer, licensed representative of same, or any person subject to the jurisdiction of the Racing Commission, fails to cooperate in connection with the blood gas testing program authorized pursuant to N.J.A.C. 13:71-23.3A, or with regard to any procedures set forth in N.J.A.C. 13:71-23.4, or otherwise set forth in or implemented pursuant to N.J.A.C. 13:71-23.3A or 23.3B, in addition to ordering the relief set forth in N.J.A.C. 13:71-23.3A, the judges may, consistent with this chapter, impose fines or suspensions, or both, on the non-cooperating person. In determining the length of such suspension or amount of the fine, the judges may consider prior violations of N.J.A.C. 13:71-23.3A, 23.3B or this section.

New Rule, R.1993 d.513, effective October 18, 1993.  
See: 25 N.J.R. 3427(a), 25 N.J.R. 4751(b).  
Amended by R.1997 d.127, effective March 17, 1997.  
See: 29 N.J.R. 95(a), 29 N.J.R. 901(b).  
Substantially amended section.

### 13:71-23.4 Post-race testing program

(a) No drug shall be administered or applied, internally or externally, to any horse that is to be sampled after a race until the blood and/or urine samples have been obtained unless permission from the State Veterinarian is obtained.

(b) Every horse to be tested shall be taken to a detention barn, to be supplied by the association in accordance with specifications set forth by the Commission. All blood samples shall be taken by a State Veterinarian while urine samples shall be secured by the State Veterinarian or a chemical inspector of the Commission at the direction of the State Veterinarian.

(c) During the taking of any blood and/or urine sample by the veterinarian representing the Commission, from the horse entered to race, the owner, trainer, or their designated representative shall be present and witness the procedure. The sample so taken shall be immediately sealed and tagged on the form provided by the Commission and the evidence of such sealing shall be indicated by the signature of such owner, trainer or representative. It shall be the obligation of the owner, trainer or representative to cooperate fully with the State Veterinarian in obtaining any samples which may be required and to attend and witness the taking and securing of such sample.

### 13:71-23.5 Procedure following positive chemical analysis

(a) On receiving written notice from the official chemist that a specimen has been found "positive" for any drug or substance foreign to the natural horse, the steward shall proceed as follows:

1. He or she shall notify the State Police and authorize a search of the premises occupied by the stable involved.

2. He or she shall, as quickly as possible, notify the owner and trainer of the horse involved.

3. He or she shall, with the assistance of the State Police, conduct a thorough investigation, interviewing the trainer, assistant trainer and any other persons who may have pertinent knowledge of the circumstances involved.

4. During the progress of such investigation, the stable involved shall be permitted to race; save that the particular horse (or horses) involved shall not be entered or start until allowed to do so by the judges. In no event shall such a prohibition extend beyond seven days unless the stable has failed to provide all due cooperation to the Judges in the course of such investigation.

#### Case Notes

Rule cited as example of Commission's reliance on conventional law enforcement services; denial of groom's license held arbitrary as the Rehabilitated Convicted Offender Act applies to Commission's licensing function (citing former N.J.A.C. 13:71-23.17). *Maietta v. New Jersey Racing Commission*, 183 N.J.Super. 397, 444 A.2d 55 (App.Div. 1982), affirmed 93 N.J. 1, 495 A.2d 295 (1983).

### 13:71-23.6 Trainers

(a) A trainer shall be the absolute insurer of and is responsible for the condition of a horse within his care and custody.

(b) A trainer shall not enter or start a horse that has in its body any drug or substance foreign to the natural horse except as otherwise provided for in these rules and regulations.

(c) A trainer has the duty to be familiar with the medication rules of this Commission and with any drug or substances foreign to the natural horse administered to said horse at his direction or while in his care and custody.

(d) The trainer, owner, veterinarian, groom or other person charged with the custody, care and responsibility of a horse are all obligated to protect and guard the horse against administration of any drug or substances foreign to the natural horse, except as otherwise provided for in these rules and regulations by any unauthorized individual, and the administration of any unauthorized drug or substance foreign to the natural horse by any person.

#### Case Notes

District court would abstain from reaching merits of harness race-horse trainers' applications for stays of orders. *Bongiorno v. Lalomia*, D.N.J.1994, 851 F.Supp. 606, affirmed 39 F.3d 1168.

Fines and suspension of licenses and privileges for extended periods ranging from 30 months to 66 months, based on findings that trainers' horses had tested positive for drugs were not arbitrary, capricious, unreasonable; principles of "trainer responsibility" and "no medication" were clearly established in law and commission had authority to

protect integrity of horse racing. *New Jersey Racing Com'n v. Elliot*, 290 N.J.Super. 140, 675 A.2d 243 (A.D.1996).

Licenses of four trainers whose horses tested positive for fenspiride were suspended for 18 months for first occurrence and 12 months for each subsequent occurrence. *New Jersey Racing Commission v. Elliot*, 96 N.J.A.R.2d (RAC) 31.

The Racing Commission has decided, through rulemaking, to exercise strict control over the use of narcotics. *Maietta v. New Jersey Racing Commission*, 93 N.J. 1, 459 A.2d 295 (1983).

Horse trainers were properly suspended for unknowingly giving horses feed containing caffeine. *Capone v. New Jersey Racing Commission*, 96 N.J.A.R.2d (RAC) 22.

Horse trainer; race horses; suspension. *DeVitis v. New Jersey Racing Commission*, 94 N.J.A.R.2d (RAC) 55.

Trainer suspended after the horse was discovered to have a foreign substance in its system. *New Jersey Racing Commission v. Janis Gianforte*, 94 N.J.A.R.2d (RAC) 49.

Trainer violated responsibility rule; illegal drug. *New Jersey Racing Commission v. Rubin*, 94 N.J.A.R.2d (RAC) 17.

Post-race test finding of buprenorphine; trainer suspended. *Caltagione v. New Jersey Racing Commission*, 92 N.J.A.R.2d (RAC) 7.

### 13:71-23.7 Penalties

(a) Should the judges determine that any person or persons have violated any section of this subchapter, they may punish the offending party consistent with the penalties provided for in these rules and regulations.

(b) In addition thereto, the judges may penalize the owner of any horse, or any entry of which said horse is a part, that has started in any race with any drug or substance foreign to the natural horse in its body by disqualification and denial of any part of the purse with redistribution of purse moneys as in the case of a disqualification.

(c) Any individual suspended or disciplined in any fashion for a second or subsequent violation of N.J.A.C. 13:71-23.6(a), (b), (d) or any comparable rule of any other racing commission or turf governing body may be deemed a repetitive offender. A second or subsequent violation of N.J.A.C. 13:71-23.6 may constitute grounds for further disciplinary action by the Commission.

(d) Horses owned wholly or in part by persons suspended for violation of N.J.A.C. 13:71-23.6(a), (b) or (d) are ineligible to start during the period of such suspension, unless sold to a bona fide purchaser. Horses trained by a person suspended for such a violation, wherein the trainer does not have an ownership interest, are automatically eligible to start when placed in the hands of a licensed trainer approved by the judges.

(See N.J.A.C. 13:71-3 for rules concerning appeals.)

### 13:71-23.8 Administering medication to respiratory bleeders; standards for the administration of phenylbutazone

(a) The stewards may permit the administration of medication to control respiratory bleeding in animals that:

1. At any time have received a comprehensive cardiopulmonary examination at an approved equine hospital or school of veterinary medicine and as a result thereof are certified as bleeders and therefore are in need of medication in order to race; or

2. Are observed in New Jersey to bleed during the running or driving of a workout or race at a duly licensed New Jersey racetrack, or in the detention barn following such workout or race by a State or Associate State Veterinarian or by a licensed veterinarian at any time on the grounds of a racetrack and have been placed on a veterinarian's list for at least 10 days; or

3. Have been certified as respiratory bleeders in other racing jurisdictions by a veterinarian employed by that jurisdiction's regulatory body or have been placed on another racing jurisdiction's respiratory bleeder's list.

(b) All horses that are placed on the veterinarian's list shall be required to be treated by a licensed practicing veterinarian in the stall assigned to that horse on the grounds of the Racing Association or in the receiving barn. During this period the horse shall be under the care and custody of a groom or caretaker appointed by the trainer. Furosemide, a diuretic medication that is intended to control respiratory bleeding, shall be administered by a licensed practicing veterinarian and shall be limited to an intravenous dose of 0.50 milligrams (mg) per pound of body weight (1.00 mg per kilogram) or 500 milligrams (10 cubic centimeters (cc)) in a 1,000 pound horse at least four hours prior to race time. Said practicing veterinarian shall make daily reports of all said treatments and file said reports with the State Veterinarian each day.

(c) Post-race urine and blood samples may be taken by or under the supervision of the State Veterinarian from all horses treated with Lasix® (furosemide) to control respiratory bleeding pursuant to the requirements set forth above. In the event a post-race analysis of a blood sample reveals that the concentration of furosemide exceeds a level of 50 nanograms per milliliter of plasma (50 ng/ml) the trainer and/or the practicing veterinarian shall be liable to the penalties as set forth in (e) below.

(d) Any horse having bled in any jurisdiction shall be placed on the veterinarian's list for bleeding and must remain on the list for 10 calendar days, a second time bleeder must remain on the respiratory list for 30 days, and a third time bleeder must remain on the respiratory list for 90 days. A bleeder in the above categories is automatically released from the veterinarian's list after these dates; however, a horse which evidences respiratory bleeding a fourth time is barred from further racing in New Jersey.

(e) Should the stewards determine that any person or persons have violated (c) above, they shall punish the offending party as follows:
