

Commissioner's Monthly Report October 2020

Christine Beyer
Commissioner

The COVID-19 pandemic has significantly impacted all aspects of life and work in New Jersey. In the early months of the pandemic, statewide efforts focused on prevention and mitigation of community spread. Through Executive Orders, Governor Phil Murphy directed all New Jersey residents to stay home, closing schools and non-essential businesses and cancelling all gatherings.¹ In more recent months, Governor Murphy set forth a plan for New Jersey's restart and recovery.² Guided by data and improvements in public health, the State is re-opening in phased-in stages. In June 2020, the stay-at-home order was lifted.³

Like all other aspects of life in New Jersey, the child welfare system has been significantly impacted by the public health crisis. The extraordinary circumstances of the COVID-19 emergency have required DCF's operations to be responsive and evolutionary, changing the way that we conduct our work while remaining dutiful to our critical mission of service to New Jersey's children and their families. At the pandemic's onset, it was necessary to undertake swift modification in many of DCF's operations, including the closure of offices and regional & satellite schools, conversion of 6,700 staff members to remote work and implementing adapted practices and policies to guide our daily interactions with children, families and our own staff and partner providers.⁴ Just as the State has gradually re-opened, DCF is likewise resuming certain functions.

The data contained in this report shows marked shifts in measures of performance in certain areas of casework, most notably measurements related to in-person visitation and family team meetings. When reviewing this data, it is important to recognize: while the operating rules and expectations have undergone timely and significant changes, the metrics included in this report have not yet been altered to measure the practice expectations that necessarily continue to evolve as the pandemic itself continues. In other words, DCF is sharing "post-COVID-19" data using "pre-COVID-19" performance metrics. Data from the early months of the pandemic shows declines in performance associated with underlying processes that were temporarily suspended (i.e., certain types of in-person contacts) the inability of DCF's electronic case management system to capture all types of virtual contacts (i.e., video conference and phone communication,) and other technological deficiencies (i.e., lack of connectivity or technology.) More recent trends, however, show a gradual return toward "pre-COVID-19" levels of performance. It is our expectation that these upward trends will continue.

As the needs of children and families in New Jersey change in light of the health and economic impacts of the COVID-19 pandemic, DCF's operations, practice standards, policies, and resources will continue to evolve responsively and reflectively. DCF will not, however, change our commitment to continued monitoring of performance and transparent dissemination of data to the public.

 The blue bar indicates DCF performance in the current month.  The red bar indicates the difference between the current performance and the Exit Plan target.					

¹ Reported performance understates actual performance in some measures because data does not exclude all instances where an event could not occur.

² Compliance for Parent-Child Weekly Visits is measured by percent of children with weekly visits averaged over the number of weeks in the month.

³ Caseworker visits with Children in Placement (all locations) August 2020: 99% .

¹ Some children may be served by both CP&P and CSOC and are over-represented in the final count of children served in the month.

² The definition for "Youth Open with CSOC" reflects youth who are involved and eligible to receive services through CSOC.

³ FCP measures clients served in SBYSP and DV Services. Since Family Success Centers and Home Visitation programs report data in terms of families served, each family is assumed to have at least one client.

⁴ Families served by DCF includes CP&P families and FCP families. FCP families served data has a one month lag.

⁵ CSOC Children may receive multiple services and are counted multiple times.

⁶ FCP quick facts are based on new families for FSCs, but both new and ongoing clients for Home Visiting and SBYSP. DoW quick facts are based on new clients for DV Services, but both new and ongoing clients served for SAARC, Displaced Homemakers and Rape Prevention Education.

⁷ The cumulative number of human trafficking referrals between **November 2013 and August 2020 was 1,010**. This figure could change depending on when the data is extracted.

⁸ Appropriate use of shelters include 1) alternative to detention 2) short term placement of an adolescent in crisis not to extend beyond 30 days 3) a basic center for homeless youth.

OOH Behavioral Health Settings: Children Served - Excludes Youth in Detention Alternatives and Diagnostic Settings.

Effective June 2017, All DoW data is reported Monthly except for Residential DV shelters and Unmet Needs Data.

⁹ Due to system upgrades within DCF, FCP and DOW data will not be available beginning May 2019. DCF will resume reporting on these data after the new systems have been updated with these data.

¹ The data includes all 18-21 year olds who are active participants in an open CP&P case as of the end of the month.

² The terms "out-of-home" and "in-home" may not be appropriate for all 18-21 year olds. Youth identified as "in-home" can either be residing with a parent/relative, or living independently. Any of these youth may be receiving services. These definitions are currently being reviewed to better understand how we capture DCF's work with this population. The goal of this ongoing work is to create three meaningful categories for 18-21 year olds 1) Youth in a formal out-of-home placement setting, 2) Youth that achieved permanency, and 3) Youth that never achieved permanency.
