## Permit Descriptions

---

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**Notice of Rule Proposal  
Financial Assistance Programs for Environmental Infrastructure Facilities, N.J.A.C. 7:22  
Public Notice**

Take notice that the NJ Department of Environmental Protection (Department) and the NJ Environmental Infrastructure Trust (Trust) are proposing to readopt N.J.A.C. 7:22 with amendments. The Financial Assistance Programs for Environmental Infrastructure Facilities rules were set to expire on June 12, 2005. However, since the Department and the Trust filed the proposed readoption before June 12, 2005, the expiration date was statutorily extended by 180 days, until December 9, 2005. See N.J.S.A. 52:14B-5.1c. The Financing Program has provided more than \$2.6 billion worth of financial assistance since its inception in 1988. The projects financed in the past are administered under these rules and it is important to the Department and the Trust that these rules do not expire.

Amendments are also being proposed to (1) remove certain outdated federally-derived requirements that are no longer applicable (such as the evaluation of open space, revenue producing, and energy recovery opportunities during project planning, the development and implementation of a user charge system, the adoption of a sewer use ordinance and federal wage rate requirements), (2) clarify procedures related to open space land acquisition projects, (3) expand the existing provisions to facilitate the financing of emergency projects, (4) update and simplify the method used to determine allowable costs related to planning and design activities and (5) clearly state that security measures at water and wastewater facilities are allowable project costs.

In addition, the environmental review process has been made simpler and faster for projects which, by their nature, have virtually no potential to affect either the natural environment or cultural resources. Such projects include equipment purchases, televising and grouting of sanitary sewers, "in-kind" sanitary sewer replacement and water meter replacement.

The proposal is scheduled to be published in the New Jersey Register dated July 18, 2005. A copy of the proposal is available from: Scott Shymon, Rule Manager at 609-292-3859, the DEP web site at <http://www.state.nj.us/dep> and Westlaw Publishing at 1-800-808-WEST.

A public hearing concerning the proposed readoption with amendments is scheduled as follows:

August 31, 2005 at 10:00 A.M.  
NJ Environmental Infrastructure Trust Offices  
3131 Princeton Pike, Building 6, Suite 201

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE FINAL INTENT TO SETTLE**  
**FRESHWATER WETLANDS PERMIT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement that would authorize the disturbance of 0.04 of an acre of isolated freshwater wetlands for the construction of a single family home in connection with the development of 4 residential lots. The proposed project is shown on the plan, prepared by Schommer Engineering, Inc., entitled "101 Ballantine Road Block 6 – Lot 11 Borough of Bernardsville, Somerset County, New Jersey Wetlands Permit Plan Statewide General Permit No. 10A & Transition Area Buffer Averaging", dated September 28, 2001, last revised May 4, 2005. This modified plan is acceptable based upon the classification of the affected wetlands as isolated and of intermediate resource value. In addition, the Lancor Development, Inc. has agreed to deed restrict 11,500 square feet (0.26 acres) of wetland transition area as mitigation for this additional impact. Further, Lancor Development, Inc. has agreed to withdraw the appeal of the Department's June 2, 2004 notice of intent to terminate the Transition Area Waiver Averaging Plan and Statewide General Permit No. 10 referenced below and which were issued on April 2, 2002.

**NOTICE OF A PUBLIC HEARING**

**FOR THE PROPOSED ADDENDA TO THE FFY2005 PRIORITY SYSTEM, INTENDED USE  
PLAN AND PROJECT PRIORITY LIST AND THE PROPOSED FFY2006 PRIORITY  
SYSTEM DOCUMENT FOR CLEAN WATER FINANCING**

July 15, 2005

Dear Interested Party:

The New Jersey Department of Environmental Protection (Department) has determined that certain amendments are needed to the FFY2005 Priority System, Intended Use Plan and Project Priority List document. The FFY2005 Priority System document was initially made available for public comment in May 2004, with an additional public comment period in January 2005 associated with the mid-year Priority List update process first introduced in the FFY2005 document. The final FFY2005 Priority System document was sent to the United States Environmental Protection Agency (USEPA) on March 15, 2005 for their review and approval.

Subsequent to the submittal of the FFY2005 Priority System document to USEPA and based on the large number of applications received for the FFY2005 Financing Program, the Department has determined that certain funding limits need to be imposed so that the Clean Water State Revolving Fund (CWSRF) monies currently available are not depleted too rapidly. The Department is proposing to limit the amount of the Department's loan share available for "Conduit Financing" solid waste/brownfields remediation projects to \$40 million in the FFY2005 Priority System and limit the amount of the Department's loan share for any single project to \$15 million. However, the Department's share of the loan may exceed the \$15 million per project limit if the total amount of loans requested in a given fiscal year for such conduit financings is less than \$40 million. This limitation only applies to new projects in the FFY2005 Financing Program and does not apply to such projects certified in FFY2004. Additional details on this subject are included in the Proposed Addenda to the FFY2005 Priority System document.

The Proposed Addenda to the FFY2005 Priority System document also includes information on a new initiative being undertaken by USEPA in an effort to demonstrate and track the CWSRF program's positive contribution to environmental quality. USEPA has developed a small set of core measures to show how the CWSRF impacts compliance, water quality and designated uses and a one-page form that captures the reach of the CWSRF in terms of subsidy, population affected and volume of wastewater treated. Beginning with the SFY2006 Financing

Program, the Department and the project sponsors will complete the "Core Measures Project Worksheet" and the Department will submit this information to USEPA. A sample of the worksheet is included in the Appendix of this document.

In addition, the Department has developed the Proposed Federal Fiscal Year 2006 Priority System document for administration of the Clean Water State Revolving Fund (CWSRF) program. Projects eligible for assistance under the clean water program include wastewater, combined sewer and stormwater management facilities as well as nonpoint source pollution management projects (including open space land acquisition and conservation, landfill closure and construction, remedial action activities and well sealing).

**A hearing on the Proposed Addenda to the FFY2005 Priority System Document and the Proposed FFY2006 Priority System document will be held at the Department of Environmental Protection, 401 East State Street, Trenton, New Jersey, in the 4th floor large conference room on Wednesday, August 3, 2005. The hearing will commence at 10:00 a.m. and conclude at the end of testimony.** Presentations may be made orally or in writing; if written testimony is prepared, please limit any oral presentation to a summary of the text. The period for submitting written comments on the proposal will close August 15, 2005 (all comments must be postmarked by that date). All comments submitted in accordance with the deadline will be considered in the preparation of the final FFY2005 and FFY2006 Priority System documents.

The FFY2006 Priority System ranking methodology and the majority of the funding policies are consistent with those adopted under the FFY2005 Priority System document and includes the policies proposed to be added to the FFY2005 Priority System document and described above. In addition, the FFY2006 Priority System will continue the important changes made to the FFY2005 Priority System identified below:

- i. The Smart Growth Financing Package (i.e., the "75/25" funding), whereby qualifying projects receive financing at one-quarter the market rate (rather than the traditional program's half-market rate loans), has been expanded to include three additional project categories: (a) wastewater and/or stormwater infrastructure projects to serve increased populations in Transit Villages designated as such by the inter-agency Transit Village Task Force, (b) brownfields remediation projects located in Department-designated Brownfields Development Areas (BDAs) and (c) projects that involve the repair and/or replacement of individual septic systems through a Septic Management District. In addition, the Department awards 10 additional priority points to projects in BDAs and Transit Villages so that these projects will rank higher than similar projects that are not located in these smart growth areas.
- ii. The proposal includes the second chance option to accommodate project sponsors that miss the initial application deadline (October) for the funding cycle. Such projects are then given a second opportunity to participate in the current funding cycle. Sponsors are strongly encouraged to submit the required documentation by the October deadline if at all possible. Projects that meet the October deadline will be given higher priority for eligibility for long-term funding than second chance projects, and will have a better opportunity to participate in the Trust's interim financing program in the current funding cycle. In order to be considered for the second chance option, sponsors of second chance projects must submit, on or before the second chance deadline (March 6, 2006), complete planning and design documents, a loan application and proof that all applicable Department permits/approvals have been applied for.

The Department is also proposing additional provisions aimed at preserving the funding eligibility of construction costs that are incurred to undertake emergency repairs of existing infrastructure. These provisions will enable the Financing Program to provide preaward approval, and in some cases Trust interim financing for wastewater and stormwater infrastructure that is in need of immediate repair due to the unforeseen failure of the collection, conveyance and/or treatment components of the system. Such emergency projects would not need to be listed individually on an approved Priority List for the Trust to use CWSRF monies for its interim financing program. Sponsors are encouraged to contact the Municipal Finance and Construction Element in the Division of Water Quality as soon as practical in the event of such emergency situations for guidance regarding applicable requirements to insure funding eligibility of the project.

The FFY2006 Proposal also establishes a process through which the Department will be updating the FFY2006 Priority List later this calendar year. The List put forth later this year will include projects meeting the October commitment letter/planning document submittal deadline. Thus, a comprehensive list of projects pursuing financing under the traditional schedule will be available. In addition, those projects that commit to the traditional schedule will be able to receive interim financing from the Trust as early as January.

The Department is no longer distributing hard copies of the Priority System document for public review. The new format for routine distribution of the Priority System documents is via compact discs (CDs). The Priority System documents will also be posted on the Department's web site at <http://www.nj.gov/dep/dwq/cwpl.htm>. In addition to the complete Priority System, Intended Use Plan and Project Priority List, the Priority System CDs include a project description and project ranking worksheet for each listed project (historically available only at Department's offices and in the Library Information Centers). Copies of the CD will continue to be available for review at any of the Library Information Centers (see the list in the Priority System document for these locations).

In addition, please note that the Department and the Trust are proposing to readopt N.J.A.C. 7:22 with amendments. The Financial Assistance Programs for Environmental Infrastructure Facilities rules were set to expire on June 12, 2005. However, since the Department and the Trust filed the proposed readoption before June 12, 2005, the expiration date was statutorily extended by 180 days, until December 9, 2005. Amendments to the rules are also being proposed to (1) remove certain outdated federally-derived requirements that are no longer applicable (such as the evaluation of open space, revenue producing, and energy recovery opportunities during project planning, the development and implementation of a user charge system, the adoption of a sewer use ordinance and federal wage rate requirements), (2) clarify procedures related to open space land acquisition projects, (3) expand the existing provisions to facilitate the financing of emergency projects, (4) update and simplify the method used to determine allowable costs related to planning and design activities and (5) clearly state that security measures at water and wastewater facilities are allowable project costs. The environmental review process has been made simpler and faster for projects which, by their nature, have virtually no potential to affect either the natural environment or cultural resources. Such projects include equipment purchases, televising and grouting of sanitary sewers, "in-kind" sanitary sewer replacement and water meter replacement.

The proposal is scheduled to be published in the New Jersey Register dated July 18, 2005. A copy of the proposal is available from: Scott Shymon, Supervisor, Program Development and Land Acquisition Unit at 609-292-3859, the DEP web site at <http://www.state.nj.us/dep> and Westlaw Publishing at 1-800-808-WEST. A public hearing concerning the proposed readoption with amendments is scheduled for Wednesday, August 31, 2005 at 10:00 A.M. at the NJ Environmental Infrastructure Trust Offices located at 3131 Princeton Pike, Building 6, Suite 201 in Lawrenceville, New Jersey.

For project-specific questions or to request a pre-planning meeting, please contact Gautam Patel, Chief, Bureau of Financing and Construction Permits at **(609) 984-6840**. For open space land acquisition projects, please contact Scott Shymon, Supervisor, Program Development and Land Acquisition Unit at **(609) 292-3859**.

For questions regarding this notice or to request a copy of the Priority System proposal either electronically, on CD or a printed version, please contact Scott Shymon, Bureau of Program Development and Technical Services, at (609) 292-3859.

Thank you, in advance, for your input on this proposal document.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE OF PUBLIC COMMENT PERIOD**  
**FOR A SOLID WASTE LANDFILL OPERATING PERMIT**

The New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit application regarding the operation of the proposed SW Landfill Operating Permit for the Erie Landfill in North Arlington, Bergen County.

The application for a Solid Waste Facility Permit Initial Permit was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is proposing to accept waste types 13, Bulky waste; 13C, Construction and demolition waste; 23, Vegetative waste except for leaves; and, 27, Dry industrial waste. The facility will have an approved average capacity of 1,000 tons of waste per day.

The public comment period on the draft permit action begins on the date of the publication of this notice and will extend to August 22, 2005. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Frank Coolick, Assistant Director  
New Jersey Department of Environmental Protection  
Division of Solid and Hazardous Waste  
401 E. State Street, P.O. Box 414  
Trenton, New Jersey 08625-0414  
(609) 984-5950

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid and Hazardous Waste, the office of the North Arlington Clerk and the office the Bergen Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE OF PUBLIC COMMENT PERIOD**  
**ON THE PROPOSED RENEWAL OF A PERMIT UNDER**  
**THE RESOURCE CONSERVATION AND RECOVERY ACT**

The State of New Jersey, Department of Environmental Protection (NJDEP) has reviewed the hazardous waste facility permit application submitted by:

Department of the Army  
U.S. Army Fort Dix  
Fort Dix, New Jersey 08640-5501  
EPA ID No. NJ4213720275

for the renewal of a hazardous waste facility permit to continue to operate a hazardous waste container storage area with a maximum capacity of 17,700 gallons.

THE DRAFT PERMIT

The NJDEP issues hazardous waste facility permits to regulate ongoing activities involving treatment, storage, and/or disposal of hazardous waste. The NJDEP has prepared a draft hazardous waste facility permit for U.S. Army Fort Dix for public comment. Items addressed in the draft permit and the permit application include, but are not limited to, the following:

- Strict Specifications of the Activities Allowed Under the Permit
- Identification of Waste Types Handled by the Facility
- Design Specifications for all Approved Activities and Required Monitoring Systems
- A Contingency Plan
- Inspection Schedules
- Closure Plan

#### FACILITY DESCRIPTION

Issuance of a final hazardous waste facility permit renewal will authorize U.S. Army Fort Dix to continue as a hazardous waste facility involving the storage of on-site generated hazardous waste in one (1) container storage area known as Building 8131 for a maximum capacity of 17, 700 gallons. Building 8131 is constructed of concrete and insulated metal and consists of six (6) separate bays and one (1) flammable storage room which are used to store on-site generated hazardous waste. U.S. Army Fort Dix is a military command installation which provides for the command, administration, security services and support of assigned and attached U.S. Army units. Hazardous wastes are generated by routine maintenance and military operations and include used solvents and mineral spirits, dry cleaning waste, spent ammunitions, refrigeration waste, etc. In addition, non-hazardous and mixed radioactive/hazardous wastes generated at the site are also stored in Building 8131.

#### WHERE TO OBTAIN ADDITIONAL INFORMATION

Copies of the draft permit and supporting permit application are available at the NJDEP's offices in Trenton. Anyone wishing to obtain a copy of a fact sheet on the facility, the draft permit, and/or further information, or to arrange to review the administrative record should first contact:

Mr. Anthony Fontana, Chief  
Bureau of Hazardous Waste and Transfer Facilities  
Division of Solid and Hazardous Waste  
401 E. State Street  
P.O. Box 414  
Trenton, New Jersey 08625-0414  
(609) 292-9880

#### HOW TO PROVIDE YOUR COMMENTS

The public comment period on the draft permit begins today and will extend for forty-five (45) days from the date of this notice, closing on September 23, 2005. Written comments and requests for a public hearing must be submitted to Mr. Anthony Fontana at the above address.

All comments submitted during the comment period will be considered in making the final decision on permit issuance. Should the NJDEP decide to approve the permit, a response to comments document will be issued which will identify any changes from the draft version of the permit, and describe and respond to all significant issues raised during the public comment period. A notice of the decision will be sent to each person who submits written comments or who requests such notice.

#### LEGAL REFERENCES FOR THIS PROPOSAL

This permit covers ongoing hazardous waste activities that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 *et seq.* and by authority of N.J.S.A. 58:10A-1 *et seq.* The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

The existing permit authorized the facility to discharge stormwater associated with the industrial activity to surface waters of the state. The Department has determined that this permittee is eligible for permit renewal. The Department is renewing the permit without change pursuant to N.J.A.C. 7:14A-15.6(d).

Ocean County	Keith Howell  Bureau of Nonpoint Pollution Control  (609) 633-7021	II-A	South Wind Village is renewing their NJPDES-DGW permit. This facility is an existing mobile home park with 250 lots. There are no commercial or industrial operations served by South Wind's sewerage collection system. Sanitary wastewater generated by the park is treated by an on-site wastewater treatment plant. Treated wastewater is discharged to three (3) infiltration/percolation (I/P) lagoons where it infiltrates into the ground. I/P lagoons No. 1 and No. 2 are used on a rotating basis and I/P lagoon No. 3 is primarily used for overflow from lagoons No. 1 and No. 2.  The existing treatment plant has a design capacity of 45,000 gpd. Flows average 26,600 gpd with a maximum discharge of approximately 32,500 gpd. The wastewater treatment plant is an extended aeration unit which utilizes sodium hypochlorite solution for disinfection of the effluent. The bottom of each I/P lagoon consists of graded gravel covered with two (2) feet of filtered sand. Two (2) I/P lagoons provide flexibility of operations so that one remains in operation with a third lagoon used for over flow of either lagoon 1 and 2.

Washington Township MUA-ASR Well 20  NJ0147214  Ground Water	Sewell  Mantua Twp.  Gloucester County	Lisa Hoare  Bureau of Nonpoint Pollution Control  (609) 633-7021	II-A	<p>This is a new Underground Injection Control (Non-Sanitary) DGW permit action for Washington Township MUA. ASR Well #20 is a aquifer storage and recovery well used for the recharge of system water at a maximum rate of 280 gallons per minute (GPM) during long water usage, i.e., winter. Recovery of the injectate is planned during peak water usage, i.e., the summer months. The system water is closely related to the native water of the PRM aquifer. The system water will be dechlorinated with sodium bisulfite at a rate of .50 parts per minute (ppm).</p> <p>The effects of advection and dispersion are modeled in the GWPP submitted by G.P.M. Associates in November 2003. A two-dimensional analytical groundwater flow and solute transport model, Win Tran, was used to simulate the mixing of system water into the Upper PRM Aquifer as a result of cycle readings of recharge and pumping from one ASR well into the Upper PRM aquifer. Win Tran allows selection from a number of analytic functions to simulate two-dimensional horizontal ground water flow, including elliptical and circular recharge areas. Win Tran couples a steady-state ground water flow model with a contaminant transport model. Formal clarification of the modeling results was received in March 2004. Calculations of the mass balance equation conclude that the percent recaptured amounts to 72.1% and that the other 27.9% go into the PRM aquifer.</p>
