Proposed Rules on Standby Letters of Credit

The Department of Banking, pursuant to authority of N.J.S.A. 17:9A-25.2, proposes to adopt new rules concerning standby letters of credit.

Full text of the proposed rules follows:

SUBCHAPTER 9. STANDBY LETTERS OF CREDIT

3:11-9.1 Definitions of standby letters of credit

(a) A "standby letter of credit" is any letter of credit, or similar arrangement however named or described, which represents an obligation to the beneficiary on the part of the issuer: 1. To repay money borrowed by or advanced to or for the account of the account party; or 2. To make payment on account of any indebtedness undertaken by the account party; or 3. To make payment on account of any default by the account party in the performance of an obligation.

(b) As defined in subsection (a) of this Section, the term "standby letter of credit" does not include commercial or traveler's letter of credit issued pursuant to Section 25(3) of the Banking Act of 1948; such as: 1. Letters of credit used to facilitate the purchase and sale of goods; 2. Where the issuing bank has obtained, or will obtain, documents of title covering the goods; or 3. Where the credit is reasonably related to the actual value of the goods at the time of purchase and sale.

3:11-9.2 Investment limitations

(a) A standby letter of credit shall be subject to liability limitations prescribed in Article 13, Section 62 of the Banking Act of 1948, and must be combined with any other nonexempt extension of credit unless prior to or at the time of issuance: 1. The issuing bank is paid an amount equal to the bank's maximum liability under the standby letter of credit; or 2. The issuing bank has set aside sufficient funds in a segregated deposit account, clearly earmarked for that purpose, to cover the bank's maximum liability under the standby letter of credit.

3:11-9.3 Authority to issue standby letters of credit

(a) A bank may issue a standby letter of credit on behalf of its customers in the normal course of business: 1. Provided that the bank's undertaking contains a specified expiration date or be for a definite term; and 2. The bank's liability is limited to a stated amount.

THE COMMISSIONER

Proposed Revisions on Priority

The Department of Banking, pursuant to authority of N.J.S.A. 17:1-8.1 et seq., proposes to revise the rule on priority by deleting in its entirety the current text of N.J.A.C. 3:1-2.14 and adopting new text therein:

The Appellate Division of the Superior Court of New Jersey, in a recent opinion, struck down the long-standing practice of the Department of Banking of giving priority of decision, where more than one applicant applied for the same general area, to the application which was filed first, all other procedural things being equal.

In striking down this procedure the Court held that the Department's primary statutory charge in these instances was to determine which of the contemporaneous applicants best served the interests of the public, and not to base its decision on mere priority of filing. The Court recognized that some reasonable limitation as to filing would have to be worked into the formula which would form the basis of the new priority rule.

N.J.A.C. 3:1-2.14, which follows in proposal form, and which is subject to change upon receipt of comment thereon, is designed to assure that no applicant will be denied approval merely upon the happenstance of the date of filing. It has been determined that any financial institution which is considering an application for a particular locale could easily have its own application complete and filed within ten days of publication of notice that another application was filed for the same general area.

The regulation applies only to applications by State-chartered financial institutions and does not apply to unmanned limited facility branch offices, nor communication terminal branch offices.

Applications which are not diligently pursued or which are otherwise unreasonably delayed due to the action or

inaction of the applicant will either lose priority or lose standing as a contemporaneous application, whichever the case may be. Delays caused by other applicants or objectors will not negatively affect the standing of an applicant.

Pending applications for substantially the same trade areas filed and complete prior to the effective date of this regulation shall be considered together, regardless of the dates of filing.

Full text of the proposed new text follows:

3:1-2.14 Priority

(a) When it appears that two or more applications will serve substantially the same trade area, the application which was first filed and complete will receive priority of decision.

(b) All contemporaneous applications which serve substantially the same trade areas will be considered and decided together, no applicant receiving priority of filing or decision.

(c) "Applications" shall mean and include all charter, branch, minibranch, manned limited facility branch, branch relocation and interchange applications by banks, savings banks and State associations which are filed and complete.

(d) Applications for offices which will serve substantially the same trade areas shall be considered "contemporaneous" only if the subsequent applications are filed and accepted within ten days of publication of notice per N.J.A.C. 3:1-2.2 of the first application.

(e) An application with priority or an application which is considered contemporaneous may lose priority or status as a contemporaneous application if it is not diligently pursued or is otherwise unreasonably delayed as a result of its own action or inaction. Delays caused by other applicants or objectors shall not be held against an applicant.

(f) When the merits of contemporaneous applications for offices which will serve substantially the same trade areas are equal, the Department will consider the order of filing.

Interested persons may present statements or arguments, in writing, relevant to the proposed action on or before September 29, 1976, to:

Clifford F. Blaze
Deputy Commissioner
Division of Administration and Operation
Department of Banking
Trenton, N.J. 08625

The Department of Banking, upon its own motion or at the instance of any interested party, may thereafter adopt these revisions substantially as proposed without further notice.

Revisions to Rule on Interest Rates

tive Procedure Act, adopted an emergency rule which revised N.J.A.C. 3:1-1.1 concerning interest rates.

Full text of the revised rule follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

3:1-1.1 Interest rates

(a) The maximum rate of interest to be charged, taken or received, upon a loan of any money, wares, merchandise, goods and chattels, made on or after January 30, 1975, shall be eight per cent per year, except as hereinafter provided. Such interest shall be calculated in accordance with N.J.S.A. 31:1-1 [, as amended by Ch. 328, P.L. 1973].

(b) The maximum rate of interest to be charged on loans secured by real estate on which there is erected or to be erected a [one, two or three-family dwelling occupied or to be occupied by the borrower] structure containing one, two, three, four, five or six dwelling units, a portion of which structure may also be used for non-residential purposes, consummated on or after [January 30, 1975,] **July 29, 1976**, shall be 9¼ per cent per annum. Such interest shall be calculated in accordance with N.J.S.A. 31:1-1 [, as amended by Ch. 328, P.L. 1973].

(c) Contracts for the following classes or types of loans may lawfully provide for any rate of interest which the parties agree upon, and interest at any such rate may lawfully be taken;

1. Loans in the amount of \$50,000 or more, except loans where the security given is a mortgage on real property consisting of a lot of land upon which there is constructed or in the course of construction a dwelling house of three family units or less. The rate of interest stated in such contract upon the origination of such loans may be taken notwithstanding that payments thereon reduce the amount outstanding to less than \$50,000;

2. Loans or advances of credit made by savings and loan associations, banking institutions, or any Department of Housing and Urban Affairs or Federal Housing Administration approved mortgagees [for which an offer or commitment to purchase has been received and] which are subsequently purchased, in whole or in part, by the Federal Housing Administration, Veterans Administration, Farmers Home Administration, Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, and any successor thereof or by any organization authorized by the Emergency Home Finance Act of 1970 to purchase such loans or by any State or Federal governmental or quasi-governmental organizations.

3. If such loan is not purchased within 395 days from the date the loan instruments are executed, the maximum rate of interest which may be charged on such loan shall not be in excess of that authorized by the commissioner under the provisions of this Section and such rate of interest, if in excess of that rate, shall be reduced to the rate in effect at the date of the execution of the loan instruments. No such reduction shall change the maturity date of the loan without the written consent of the borrower nor shall such reduction affect the lien of the mortgage which secures the loan.

(d) The rates established herein shall be effective immediately and shall remain in force until such time as this regulation is rescinded or until said rate or rates are revised by a subsequent regulation.

An order adopting these revisions was filed and became effective on July 29, 1976, as R.1976 d.240 (Exempt, Emergency Rule).

To comply with the Rules of Court within the parameters set forth by the Attorney General's Office the following must be adhered to:

d. In the event of conflicting or inconsistent interpretations or application of the fire prevention subcode between the two officials, the construction official shall rule as to which interpretation or application shall be final.

3. The Department intends to include a system of classification of officials in Part II in order to facilitate plan review. The system will be keyed to the building subcode and will be structured as follows:

a. Construction officials and subcode officials certified (in accordance with Part IV of the regulations) as class 3 officials will be permitted to perform plan review (except where reserved to the State) for the following use groups (Section 202.0 of the building subcode):

STATE BOARD OF HIGHER EDUCATION

Proposed Standards Governing Approval of Courses Offered in Secondary Schools for Degree Credit

The State Board of Higher Education, pursuant to authority of N.J.S.A. 18A:3-13 et seq., proposes to adopt new standards governing approval of courses offered in secondary schools for degree credit.

Full text of the proposed new standards follows:

9:1-1.18(c) The Board approves in principle the offering of elementary level, credit-bearing college courses in secondary schools, provided that any specific proposal meets the following standards which are intended in the first instance to insure high quality collegiate level work and which protect the student from any tendency with such programs might have to limit his or her ultimate choice of a post-secondary institution.

1. Participation shall be limited to secondary school students who have a superior secondary academic record; that is, have demonstrated mastery of secondary school material.

2. Only courses normally taken by college freshmen may be made available.

3. Students shall be permitted to take no more than three courses each semester, but in no case more than five semester courses or 18 college credits, whichever is less, in one academic year.

4. Students shall have adequate and appropriate library resources available to them at the high school.

5. Each participating high school faculty member shall have a minimum of a master's degree in the specific academic area to be taught (for example, English, mathematics), and shall be approved by the appropriate faculty and administration at the college.

6. The college shall provide and faculty shall be required to attend an orientation program and annual evaluation seminar.

7. The college shall provide specific criteria for grading by the high school faculty to insure comparability of

student performance. Preferably, examinations given by the college to its indigenous students in the same course should be administered by the secondary school adjunct professor and graded by the regular faculty.

8. College syllabi and standard college texts shall be used.

9. The agreements between the college and the high school shall provide for random and scheduled visits by faculty from the respective colleges to evaluate the program, review examinations, student projects and reports, and to discuss any problems students or faculty might be experiencing.

10. Before matriculating, each student is to be given a written statement making clear that there is no obligation to attend the college offering the course, and making clear the credits may not be acceptable at other institutions. That statement shall be included in the application of the college to offer college level courses at high school.

11. The college shall gather follow-up data indicating the college at which the students enrolled, and the effects the program had in the students' views on academic performance in college.

12. Each college shall report annually the number of courses offered, the number of students in each, the credits gained, and such other appropriate information as shall be specified from time to time.

Proposed Revisions Concerning Determination of Household Size

Ann Klein, Commissioner of Institutions and Agencies, pursuant to authority of N.J.S.A. 44:7-6 and 44:10-3, proposes to revise certain sections within the Assistance Standards Handbook concerning roomer-boarders and the determination of household size.

Full text of the proposed revision follows (additions indicated in bold face thus; deletions indicated in brackets [thus]):

10:82-1.2(c)2. A recipient of SSI payments [other than one who is in fact purchasing a room and board arrangement (Section 422)].

10:82-4.12 Income from roomers, roomer-boarders and table-boarders

(a) The presence of roomers, roomer-boarders or boarders in the eligible unit's home constitutes a business arrangement. [Moneys received from such arrangements

shall be considered gross income to the eligible unit. Roomer-boarders only shall be counted in household size.] Such persons shall not be included in the household size. (However, see also N.J.A.C. 10:82-2.12 regarding noneligible persons who share household expenses.)

(b) Net unearned income to be entered in the client's budget shall be the amount of the monthly payment received from such business arrangement less the appropriate cost figure. (See subsection (c) of this Section regarding extensive personal services to disabled or aged adults.)

[(b)] (c) The monthly cost figures to be used in determination of net income are as follows:

1. Roomer — \$40;
2. Roomer-boarder — \$120;
3. Table-boarder — \$80.

[(c)] To determine the net income, subtract the appropriate total monthly cost figure from the monthly amount received. The difference is net unearned income to the eligible unit, to be entered on the PA-3A form under "other income." (See Section 412.2 for exception.)

(d) When the roomer, table-boarder or roomer-boarder pays an amount less than the applicable monthly cost figure, [it shall be assumed for purposes of determining the eligible unit's monthly grant that the amount paid is at least equal to the cost figure.] [T]he eligible unit should be advised that it is in fact subsidizing [this] such person(s).

(c) "Personal lines insurance" shall include casualty insurance, not of a commercial nature, issued to an individual or a husband and wife to provide coverage against loss or liability arising out of the use of ownership of real or personal property. It includes but is not limited to private passenger automobile policies, homeowner's insurance, and fire and extended coverage on household goods and personal effects.

(d) "Claim or accident reporting fees" shall include fees for preparation of proof of loss.

(e) An auto club membership sold in company with a policy shall not be considered separate coverage for the purposes of these rules.

Such circumstances would include, for example, the insured's stated intention to make more than one transfer or change in coverage during one policy period. Provisions of services to a foreign speaking insured, placement in the assigned risk or FAIR Plan, and submission of a premium financing application do not constitute exceptional circumstances.

(b) The maximum allowable charge for completing accident or claims reports shall be \$3.00.

(c) An inspection fee may only be charged on a surplus lines policy and shall not exceed two percent of the premium, or \$10.00 whichever is greater, except that the insured may be charged the actual amount paid to an unrelated firm or person for the service if said firm or person is not an agent or broker.

(d) No charge may be made for services not actually performed.

11:1-7.5 Number of charges

(a) A maximum service fee of \$10.00 may be charged upon placement of a renewal, except that an inspection fee may be charged in accordance with 11:1-7.4(c) if no inspection of the property has occurred during the three years prior to issuance of the renewal policy.

Rules on Unit Pricing of Consumer Commodities in Retail Establishments

On August 18, 1976, Virginia Long, Director of the Division of Consumer Affairs in the Department of Law and Public Safety, pursuant to authority of N.J.S.A. 56:8-21 through 56:8-25 and in accordance with applicable provisions of the Administrative Procedure Act, adopted new rules, to be cited as N.J.A.C. 13:45A-14.1 et seq., concerning unit pricing of consumer commodities in retail establishments, substantially as proposed in the Notice published June 10, 1976, at 8 N.J.R. 304(a), but the subsequent, substantive changes not detrimental to the public, in the opinion of the Department of Law and Public Safety.

A summary of the substantive changes follows:

1. The following items were deleted as regulated consumer commodities for the reason that the same are either

marketed in standard-size containers, or to require unit pricing would be impractical, unreasonably burdensome or unnecessary for adequate protection of consumers:

- i. Convenience dinners;
- ii. Chinese foods;
- iii. Dietetic supplements;
- iv. Fresh meat, poultry, fish products;
- v. Frozen dairy products;
- vi. Insecticides;
- vii. Powder mixes, drink mixes, water conditioners.

2. The unit price label requirement that the label be divided by a vertical line to create sides of substantially identical size has been modified to allow for the division of the label to create a left and right side.

3. The requirement that the size of figures on the unit price label be identical as to the unit price and retail price has been modified to require figures to be both "conspicuous" and "clear and legible". Similar requirements requiring specific sizes and colors for letterings on the label have been deleted and replaced with the requirement that the design of the label convey all required information in a clear, readable and conspicuous fashion. The changes with regard to unit price labels have essentially been incorporated as the same changes for unit price signs and unit price lists.

4. A proviso has been inserted in Section 14.10 allowing for the hand lettering of unit price signs on special displays so long as such signs contain the required disclosures.

5. A provision has been added to allow for the posting of a sign containing unit price disclosures where "proximate display is impossible". (See 14.10(a) 3.)

Section 14.13 has been added to excuse "nonintentional technical errors" arising from computer malfunction and other unavoidable errors which could not be detected by the exercise of reasonable diligence.

7. The regulations are to take effect immediately upon filing rather than 90 days subsequent thereto as proposed.

8. The requirement that the Director develop plans to educate the public as well as the requirement that persons covered by the act develop such educational plans has been deleted.

An order adopting these rules was filed and became effective on August 23, 1976, as R.1976 d.265.

HEALTH BENEFITS COMMISSION

Proposed Revisions to Various Program Rules

The Health Benefits Commission in the Division of Pensions in the Department of the Treasury, pursuant to authority of N.J.S.A. 52:14-17.27 et seq., proposes to revise certain of its rules concerning the State Health Benefits Program.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

17:9-3.1 Dependents and children defined

The following words and terms, when used in this Chapter, shall have the following meanings, unless the context clearly indicates otherwise.

"Children" includes stepchildren, legally adopted children and foster children who are wholly dependent upon the

employee for support and maintenance. This includes children in a guardian-ward, legal relationship who are living with the employee.

"Dependents" mean an employee's spouse and the employee's unmarried children [under] through the end of the calendar year in which they reach the age of 23 years who live with the employee in a regular parent-child relationship.

"Living with" shall be defined so as to include children in the case of divorce who may not actually be living with the covered parent, but where such covered parent is required to provide for the support and maintenance of such children, and the parent's application for dependent coverage is documented by a copy of an appropriate court order.

The determination as to the continuation of certain mentally retarded or physically handicapped children will be made before they attain age 23 rather than before they attain age 19, as given in the general statute.

17:9-3.5 Additional dependents

If, after having enrolled his dependent for coverage under family or parent-child coverage, an employee acquires one or more additional dependent children through birth or legal adoption and guardianship, such additional children shall be [automatically] enrolled as dependents, if they are otherwise eligible.

17:9-3.10 [Multiple coverage; children of employee and spouse] (Reserved)

[When both husband and wife have elected to enroll and be covered as employees, only one may enroll their children as dependents.]

17:9-5.9 Refunds rejected

Any request for refund not specified in Sections 7 and 8 of this Subchapter shall be denied. For example, a husband and wife may be employed in the same or in different locations, each location participating in the State Health Benefits program and both having family coverage, or both having husband and wife coverage; in spite of the apparent duplication of coverage, neither of the covered employees would be eligible for a refund. Or, the wife carries only single employee coverage under the State program while her husband is covered by a plan in private industry where the employer pays for employee and dependent coverage, no refund would be payable since both would have to have been in public employment covered by the State program. Or, if one spouse applies for Medicare reimbursement for himself and his spouse, the other shall not receive duplicate reimbursement.

17:9-6.3(c) If the pensioner moves and is no longer able to be serviced by a Health Maintenance Organization or the organization is terminated, the pensioner will have a 30-day period for the selection of coverage under another participating organization or the traditional coverage.

17:9-6.4 Disability earnings

A retiree, whose disability retirement allowance has been suspended as his income exceeded the limits established by the law, shall have his health insurance terminated upon the suspension of his allowance. Upon the reinstatement of the individual's allowance, his coverage will resume on a prospective basis only. However, where the employer is liable for the premium payment, the coverage shall be continued without interruption.

17:9-6.5 Discontinuance of allowance

When a retiree, beneficiary or their designated representative fails to furnish information which results in the discontinuance of the allowance, the retiree's or beneficiary's coverage may be terminated upon such discontinu-

ance. However, where the employer is liable for the premium payment, the coverage shall be continued without interruption. Upon the reinstatement of the individual's retirement allowance, his health insurance will be resumed and may be made retroactive. The same applies whenever an allowance is discontinued such as in cases involving possible incompetency, change of guardian or other arrangements which may temporarily cause the suspension of the payment.

17:9-6.6 Beneficiary or survivor

An eligible beneficiary or survivor will have their coverage discontinued upon the death of the retiree but will be given the opportunity to continue coverage on a prospective basis only, once they have filed proper applications for pensions. Coverage may be made retroactive for as much as six months provided the necessary premiums are paid. Any request for retroactive coverage in excess of six months shall be submitted to the secretary.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before September 29, 1976, to:

STATE HEALTH BENEFITS COMMISSION

Notice of Criteria Concerning Acceptance of Rutgers Type HMO

Take notice that the State Health Benefits Commission in the Division of Pensions in the Department of the Treasury has established criteria concerning the acceptance of a health maintenance organization of the Rutgers type organization, thereby permitting public employees in these areas to participate in such alternative to their traditional health insurance plan.

Full text of those criteria follow:

A health maintenance organization (Rutgers type) can be accepted under the State Health Benefits Program, but subject to the following conditions:

1. It is certified by the State Health and Insurance Departments.
2. Its rates are approved by the State Health and Insurance Departments.
3. Coverage includes supplemental coverage providing for major medical benefits paralleling those of the traditional program.
4. The Commission approves a waiver of the annual enrollment periods to give the organization full opportunity to contact all State and local government employers and eligible employees in the area covered by the HMO in order to present them with the information concerning the HMO alternative. It must be understood, however, that coverage will not be extended to any employee in any specific HMO

area until such time as this educational program has been completed, so that all employees in the area will be enrolled on the same effective date. This will allow for the establishment of the necessary administrative machinery in order to certify the rates, the additional deductions from salary, where necessary, and explain to employers, personnel officers, and payroll clerks the necessary administrative machinery to make the option available not only to all present employees but to new employees in the future. After the initial educational program, the annual enrollment period will again become the opportunity to alter coverage from the traditional program to the HMO option, or vice versa, and this will encompass the 30-day period during which an educational program can be activated for all eligible employees.

5. During the presentation to groups of employees, no management or union representative should appear in order to coerce or influence employees into or out of HMOs. Employees must be able to make an informed decision on their own.

6. The office of the secretary shall review and approve the material to be used in each HMO area and this will therefore require that the booklet be tailored to the particular HMO, as distinguished from groups of HMOs. We want the rates to become part of the booklet (and if a separate sheet is necessary, such sheet must accompany each booklet) so that it is clear what the employer, State or local, will be paying and what the employee will be required to pay based on the different types of coverage. The employee's deductions should be stipulated as biweekly (State) or monthly (local employers).

7. The rates will be subject to change only once a year and at the same time each year coincident with the change in rates for the traditional program.

8. Retired as well as active employees will be solicited with respect to this option.

9. All members of the family must have the same coverage so that the employee's decision pertains not only to his own coverage but to those of his family.

10. With respect to the Medicare problem, all employees, regardless of age or Medicare status, must have the opportunity to enroll in the designated HMO in their area. At present such individuals shall be permitted to pay on a fee-for-service basis covered by the traditional program, pending the issuance of final regulations by the Federal government which will permit the use of a capitation rate. The rate structure in this interim period will reflect capitation for other members of the family not covered by Medicare. The HMO must stipulate in its contract the intention to cover Medicare beneficiaries on the same basis as other individuals as soon as possible following necessary Federal action.

11. Maternity benefits are delimited to employees or spouses of employees but do not include other dependents, for otherwise the result would be to consider the coverage of grandchildren and they are not specified in the statute as eligible dependents.

12. Where the health maintenance organization electing to participate in the State Health Benefits Program could overlap an area previously covered by another HMO, already under contract with the State program, and where the nature of both HMOs are the same (group or individual practice plans) the overlapping area will continue to be covered only by the first contracting HMO.

This Notice is published as a matter of public information. The criteria above is not subject to codification and will not appear in Title 17 of the New Jersey Administrative Code.

STATE NEWS OF PUBLIC INTEREST

Based on press releases from offices involved

EMPLOYEE SUGGESTIONS SAVED

STATE ONE HALF MILLION IN YEAR

Governor Brendan Byrne announced that the State Employees Suggestion Awards Program saved the State \$502,385 in fiscal year 1975-76, a 486 per cent increase in savings over the previous year.

Administered by the Department of Civil Service, the program provides cash awards for State employees' ideas which result in more economical and efficient methods of running the government or of improving services to the public.

In making the announcement, the Governor presented a \$5,000 check to Burley Gunter of Blue Anchor, an employee at Ancora State Hospital, whose suggestion on methods of remodeling institutional beds saved the Department of Institutions and Agencies \$60,750 at Ancora alone. If the new style is implemented at other Department facilities, with a total of 3,500 beds, the savings would jump to \$283,000.

"Although the suggestions which save large amounts of money are very important to the State, we receive a much greater number of smaller savings ideas, which, when added up, are the real key to the success of this program", the Governor said.

Awards for State employees range from \$10 to a maximum of \$5,000 for each suggestion. Dollar amounts are calculated at ten per cent of the net savings to the State during the first year in which the suggestion is implemented.

Most suggestions in 1975-76 resulted in savings of less than \$100, but among those bringing substantial savings were:

- A suggestion concerning Department of Transportation right-of-way fees, which saved \$75,000 and netted Peter J. Cerenzo, a DOT employee, \$5,000.

- Two ideas on methods of recovering lapsed Federal funds for computed and salary costs, which saved DOT \$401,000 and netted Donald J. Mauer \$8,450.

- A suggestion changing the methods of notifying State agencies or annual contract awards, which eliminated extensive clerical work, saving \$20,000 and netting Treasury employee Nicholas F. Caprio \$2,000.

- A suggestion concerning Federal reimbursement for taxes on state-purchased properties for right-of-way use, which saved DOT \$35,000 and netted John R. Christian \$3,500.

CONSUMER AFFAIRS DIVISION NAMES

150 LOCAL OFFICERS ACROSS STATE

The Division of Consumer Affairs recently increased its capacity to handle consumer problems with the swearing-in of 150 county and municipal officers who have all the law enforcement powers granted under the Consumer Fraud Act.

They staff local agencies in 19 counties throughout the State, ranging from one officer in the smaller counties to 34 in Essex.

"This gives real power to the local consumer agencies in our State", said the Governor during the ceremonies at which the new officers received certificates for successful completion of a course of study prescribed by the Attorney General and the State Director of Consumer Affairs.

The local agencies have the power to receive and investigate complaints and help to insure compliance with consumer regulations. They will not have the authority to set regulations, conduct administrative hearings or grant immunity.

The Governor said the State Division of Consumer Affairs presently receives 1,500 complaints a month and previously had a staff of only 20 investigators to handle all cases.

"The vast majority of New Jersey merchants and other business people are honest and ethical in dealing with the public", said Byrne. "You will be dealing with the few who cheat the public, either intentionally or because of carelessness. It's too bad you are needed at all".

USE OF REDUCED FARES BY SENIORS AND HANDICAPPED CONTINUES TO GROW

Enrollment in New Jersey's reduced transit fare program for senior citizens and handicapped persons has been increasing despite delay by ConRail and refusal of some interstate bus operators to participate, Transportation Commissioner Alan Sagner reports.

Commissioner Sagner said that enrollment has risen steadily to its present 350,000 persons, including nearly 2,000 handicapped.

The program, which offers reduced fares during non-peak hours, is voluntary on the part of the passenger railroads and bus companies unless they are subsidized by the State.

Sagner said all bus companies operating intrastate service in New Jersey are participating. The eight bus companies which have so far declined to offer reduced fares for interstate service are: Asbury Park-New York Transit; Garden State Coachways; Short Line; Lakeland Bus; Real Transit; Rockland Coaches, Inc.; Suburban Transit Co.; and West Hunterdon Transit Co.

The delay in participation by New Jersey passenger rail lines, he explained, resulted from ConRail's takeover of the State's bankrupt passenger lines on April 1. "ConRail does intend to honor the program, but there still are a number of legal and administrative matters to be resolved," the Commissioner said.

JERSEY IS FIRST STATE WITH BROAD HEALTH PLANNING SYSTEM

Governor Brendan Byrne announced that New Jersey has become the first state in the nation to establish a complete, comprehensive system of health planning in accordance with Federal law. The State's system became effective July 1, 1976.

It includes a designated State agency (State Department of Health); a Statewide planning body (State Health Planning Council, soon to be replaced by the State Health Coordinating Council); and five regional health planning agencies (Health Systems Agencies). New Jersey is the first state to develop all three components of the health planning system.

Byrne said: "It is altogether fitting that New Jersey should lead the nation in developing a comprehensive health planning system, since several elements of the new Federal law were patterned after our own State law—the Health Care Facilities Planning Act of 1971".

The new health planning system in New Jersey will operate in a manner similar to the system it replaces. Proposals will originate at the regional level, where the new HSAs have replaced the former Comprehensive Health Planning Councils. The boundaries of the HSAs are as follows:

HSA I—Bergen and Passaic Counties.

HSA II—Essex, Morris, Sussex, Union and Warren Counties.

HSA III—Hudson County.

HSA IV—Hunterdon, Mercer, Middlesex, Monmouth, Ocean and Somerset Counties.

HSA V—Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester and Salem Counties.

STATE'S POPULATION UP ONLY SLIGHTLY

The population of New Jersey as of July 1, 1975 was 7,433,920, according to Joseph A. Hoffman, Commissioner of the State Department of Labor and Industry.

This is a growth of 3.4 per cent or 241,115 persons over a year earlier, but he added, it indicates a slowdown in New Jersey's population growth since 1970. He attributed this to both a slower New Jersey and national birth rate and depressed economic conditions.

Included in the official population release by the State are estimates for New Jersey's 21 counties and 567 municipalities. The estimates released last year as provisional have been recalculated and are now the official 1974 figures, according to Commissioner Hoffman.

The State's figures differ somewhat from U.S. Census Bureau estimates because of different methods in calculating.

POLLUTION CAN BE REPORTED AT NIGHT

Governor Brendan Byrne announced that the State Department of Environmental Protection has established a special "nightwatch" air pollution service to handle telephone complaints of smoke or odors at night and on weekends and holidays when State offices are closed.

"The 'nightwatch' operation will enable enforcement personnel to respond quickly—since the answering service will relay complaints promptly to enforcement personnel in appropriate parts of the State," the Governor said.

Numbers to call for the new air pollution night answering service are: (609) 924-2043 or (201) 747-2662.

During normal business hours air pollution complaints are handled at these four field offices: Newark, (201) 648-2075; Springfield, (201) 648-2560; Trenton, (609) 292-6706; and Pennsauken, (609) 665-0755.

FEDERAL AID TO STATE UP \$134 MILLION

Governor Brendan Byrne recently reported that New Jersey increased the amount of Federal aid it received during 1975 by \$134 million over the previous year. He said the State received \$1.6 billion in Federal grants and contracts during the fiscal year, eighth largest among the 50 states, as compared with ninth place in the previous year.

The Governor said New Jersey also moved from 42nd to 38th among the 50 states in amount of per capita Federal aid, up over the previous year from \$177 to \$222, or 25 per cent.

He attributed the increase to stepped-up efforts by New Jersey's Washington office, the State's Congressional delegation and to State Cabinet officers and their staffs.

"I intend to continue our efforts to aggressively seek the maximum amount of Federal aid available to New Jersey," said Byrne. "This is especially important at a time when we are experiencing severe budgetary problems in State government."
