In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

PUBLIC HEARING NOTICE

GREEN ACRES PROGRAM

Notice of Public Hearing on the

Proposed Sale of Surplus Property
Located at Greenwood Lake State Park

TAKE NOTICE that the State of New Jersey, Department of Environmental Protection, Green Acres Program, will hold a public hearing to seek comments on the proposed sale of the following State-owned lands:

Block 3610, Lots 27, 18 and 19 totaling 5.77 acres located in West Milford Township, Passaic County.

The subject lands were intended to be an open space recreational facility and provide access to Greenwood Lake. However, the development of residential housing within the former project area and the location of Greenwood Lake Turnpike have rendered the park project nonviable as a recreational unit. The property will be sold at public auction and the proceeds returned to the Green Acres fund for the purchase of other land with recreational potential or conservation value.

The public hearing will be held on:

August 13, 1998 at 11:00 AM at the
West Milford Township Municipal Building
1480 Union Valley Road
West Milford, New Jersey 07480

Persons wishing to make oral presentation are asked to limit their comments to a five minute time period. Presenters should bring a copy of their comments to the hearing for use by the Department.

Interested persons may submit written comments until August 20, 1998 to:

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes 30 calendar days after publication of this notice. All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Stormwater is discharged via outfall 001 into the Third River, which passes through an oil/water separator prior to discharge. The facility is eligible to maintain all existing permit requirements, including effluent limitations, monitoring frequencies and parameters sampled. The renewal of these existing permit conditions will ensure that pollutants leaving the site via stormwater discharges and entering surface waters of the State are controlled within acceptable limits, as a result of conducting these industrial activities.
Quality Materials, Inc. NJ0121444 DSW-Minor	212 Talmadge Rd Edison, NJ Middlesex	Ky Asral BNPC 609-633-7021	Tributary of Bound Brook FW2-NT	Quality Materials, Inc., is being issued a draft DSW NJPDES Permit (NJ0121444) by the Bureau of Nonpoint Pollution Control for its stormwater discharges to a tributary of Bound Brook. The facility is engaged in manufacturing of asphalt paving mixtures under the Standard Industrial Classification (SIC) code of 2951. This new permit will require the development and implementation of a Stormwater Pollution Prevention Plan in addition to sampling requirements to monitor the quality of its stormwater discharges to the tributary of Bound Brook.

Department of Environmental Protection (NJDEP) proposes to revoke and reissue the New Jersey Pollutant Discharge Elimination System (NJPDES) Discharge to Surface Water (DSW) Permit NJ0027073, in accordance with N.J.A.C. 7:14A-1 <u>et seq.</u> and by authority of N.J.S.A. 58:10A-1 <u>et seq.</u> , The above referenced facility has requested the Department to modify its NJPDES/DSW permit No. NJ0027073 to include the wastewater from the on-site Treatment Plant #2 (permitted under NJPDES/DSW permit No. NJ0027081) and the Sparta Middle School, currently under construction. Rather than modify the permit, which expires in less than two years, the Department has decided to revoke and reissue the permit for five years. The proposed combined flow from the treatment system (which will be modified) shall not be greater than 0.036 MGD and discharge to an unnamed tributary of the Wallkill River classified as FW2-TM. This permit action reflects an actual reduction in discharge flow from 0.052 MGD (0.03 MGD from NJ0027073 and 0.022 MGD from NJ0027081) to 0.036 MGD.
