SUBCHAPTER 4. TRANSFERS

17:6-4.1 Interfund transfers; other State systems

In the event a member of the fund becomes ineligible to continue in the fund by reason of a change of his employment or a transfer of his employment and when his new employment entitles him to become a member of another State-administered pension system, the commission agrees to transfer the value of reserves required by the second system in order that the second system recognize the years of service previously standing to the member's credit in the fund. In the determination of such reserves the last annual salary established by the fund will be used. Such a transfer will release the consolidated fund from any further obligation or liability to the transferring member and will establish the identical years of service credit in the retirement formula of the State-administered system which accepts the membership and transfer. Such transfer will only be possible if the member makes a timely request for transfer in accordance with N.J.S.A. 4:2-1 et seq.
