Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

Traffic at PANYNJ airports fell 2.5%. For each of our four airports, the August results represented the best monthly performance since the recession began. We are anxiously awaiting September data because advance booking data strongly suggests that at least two of our airports would show positive growth in September. Prospects for 4Q traffic look bright.
