The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.
- The arrow buttons at the top left of the screen can be used to move between pages of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act (ESSA)* accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Mathematics Assessment - Performance by Grade: Grade 4

This table shows participation and performance on the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment by end of course exam. This table shows by school and student group the number of valid test scores and the mean scale score for the school, district, and state. It also shows the percentage of students at each performance level and the percentage of students who met or exceeded expectations (Level 4 or 5) for the school and the state.

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here: <http://www.state.nj.us/education/njsmart/performance/>

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the ESSA accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school’s technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school’s LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio	Internet Speed	Recommended Internet Speed	Met Recommended Speed?	Connectivity between Schools	Recommended Connectivity	Met Recommended Connectivity?

Per-Pupil Expenditures (District Level)

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

Faculty: All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

Full-Time Equivalent: In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	52.5	17.5%
Mathematics Proficiency	55.5	17.5%
English Language Arts Growth	62.4	25.0%
Mathematics Growth	90.1	25.0%
Chronic Absenteeism	56.7	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		65.5
Summative Rating: Percentile rank of Summative Score		74.5
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile		No

Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group’s performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

Student Group	Summative Score	Cut-off Score for Targeted Support and Improvement	Requires Targeted Support and Improvement for 2016-17	English Language Arts Proficiency	Mathematics Proficiency	Chronic Absenteeism	English Language Arts Student Growth	Mathematics Student Growth	At Risk for Consistently Underperforming Student Group

 <p>Staff and Professional Learning:</p>	<p>Staff collaboration is the primary means of professional development at Franklin Township School. We build into our schedule a 30 period of common planning time for staff to coordinate lesson design and curriculum planning. In addition, we provide opportunities for staff to collaborate after school, with a particular area of focus selected each year. This year our staff is working with Rossi Consulting on implementing our STEAM (Science, Technology, Engineering, Art and Math) initiative.</p>
 <p>Student Supports and Services:</p>	<p>Franklin School has traditionally been a leader in inclusive education. We have a fully staffed Child Study Team including a Director of Student Services, Learning Disabilities/Teacher Consultant, Social Worker and Psychologist. This group works with all classified students. We also have robust measures in place to meet the needs of our ESL/ELL and Section 504 students. We provide free tutoring after school for students that qualify in grades four to sixth grades.</p>
 <p>Student Health and Wellness:</p>	<p>In addition to providing the state required 120 minutes of physical fitness instruction during the course of a week, we have recess everyday for all students. We have an active Wellness Committee dedicated to promoting healthy habits in the form of Wellness Weeks for students, staff, and community three times during the course of the year.</p>
 <p>Parent and Community Involvement:</p>	<p>We encourage parent involvement in our school through our active PTA. Our PTA meets monthly providing support in sponsoring two cultural arts activities per year, holiday parties, field day t-shirts, and Walk-a-thon fund raiser. We have a community council that meets 4 times a year consisting of a cross section of community members.</p>

 <p>Climate Surveys:</p>	<p>Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Teachers</p> <p>Recently our school took part in a climate survey through the National School Climate Center. Areas that our school rated the highest were: Sense of Physical Security, Safety Rules and Norms, and Social Support from Adults. Our overall score was 4.3 out of 5 in all areas. In fact, the Center remarked how high the school's scores were in all areas and across all stakeholders, including parents, staff and students.</p>
 <p>Facilities:</p>	<p>The Franklin Township Elementary School is a 50,000 square foot facility on a beautiful, ten-acre parcel of land. In addition to regular classrooms, the school houses specialized rooms for art, music, speech, science, therapies, PE and a computer lab. All classrooms are climate controlled and have dedicated wireless access points to support our technology program. In recent years, the district has made major upgrades in the areas of energy efficiencies, environment, and classroom design.</p>

Other Information:

The focus on school safety and security has dramatically escalated for all school administrators in recent years. Franklin Township has already invested resources into its school facility, in an effort to fortify areas that could be more easily breached by an intruder. The district has received a safety grant for FY '18, that will be used to continue these upgrades to our physical plant. In addition, training of staff on safety/security issues has become a routine part of the district's professional development program and the district has developed formalized plans for many security/safety scenarios. Franklin Township has always endorsed a policy of maintaining smaller class sizes. This personalized attention when coupled with a highly qualified/committed staff and support mechanisms like our after school homework assistance, has resulted in Franklin Township consistently demonstrating academic growth patterns well above the norm. In addition to our one-to-one computer device environment, the district also maintains an independent, hard-wired computer lab. The lab is used for focused computer instruction, on a periodic basis, and is also utilized as the testing location for NJ standardized exams, eliminating any potential complication that may arise from testing via wireless access. Recent technology enhancements for the district include: the expansion of wireless access points by 40%, the installation of new networking switches and the approval of a fiber optic upgrade and design change to the district's network cabling. The district is also testing the effectiveness of flat panel interactive boards as an alternative to the projection-type interactive white boards that the district that utilized for the last 7-8 years.
