## **Phonefiche Telephone Directories at the New Jersey State Library**

*Phonefiche* is a microfiche product of University Microfilms International (UMI) consisting of yellow and white pages telephone directories. The New Jersey State Library (NJSL) has *Phonefiche* for New Jersey from 1976-2005. This document serves as a comprehensive list of NJSL's *Phonefiche*, as well as a guide to locating *Phonefiche* for a specific NJ location and year.

The *Phonefiche Community Cross-Reference Guide* (CCRG) can be used to determine which directory(ies) a community's listings can be found in. This index is available in print, next to the *Phonefiche* cabinet on Level 4 of the New Jersey State Library. *Phonefiche* are divided into two drawers, one for white pages and another for yellow pages. Each drawer is broken up into sections that closely match directory titles.

Please note that *Phonefiche* titles for the same location can vary over time. As NJSL's copy of CCRG was published in 1992, some titles listed in the guide may be different than those that appear on the microfiche headers of different years.

Starting in 1979, *Phonefiche* were given numeric location codes. Because of the inconsistencies in *Phonefiche* titles, the following lists are sorted by location code, then by years available in descending order.

### Table of Contents

<b>Steps to Finding Phonefiche at the New Jersey State Library</b> .....	2
<b>Table Fields Explanation</b> .....	3
<b>White Pages</b> .....	4
<b>Yellow Pages</b> .....	8

## Steps to Find Phonefiche at the New Jersey State Library

1. Find the community name in the "Community Index" section of the *Phonefiche Community Cross-Reference Guide* (CCRG) available onsite at NJSL and note the corresponding directory title(s).
2. Find the location code for each directory title on page viii of *CCRG*.
3. Check the location code(s) on NJSL's *Phonefiche* list (below) to see if the desired year is available. If available, note its drawer location.
4. Double check location codes marked \*, which do not appear in NJSL's 1992 version of *CCRG*, to see if any of these directories could include the community you're researching.
5. Find the microfiche directories in the indicated drawer locations.

### Example: Finding yellow pages for Pitman, NJ for 1989.

1. According to *CCRG* (1992), Pitman, NJ can be found in *Woodbury - Gloucester Co. Area, NJ* directories.

Piscataway (part)	Somerville Area-Plainfield, NJ
Pitman	Woodbury-Gloucester Co. Area, NJ
Pittsgrove Twp (part)	Bridgeton Area-Millville, NJ
Pittsgrove Twp (part)	Salem County Area-Elmer, NJ

2. The location code for *Woodbury - Gloucester Co. Area, NJ* is 47982.

47958	Wildwood Area-Cape May
47982	Woodbury-Gloucester Co. Area

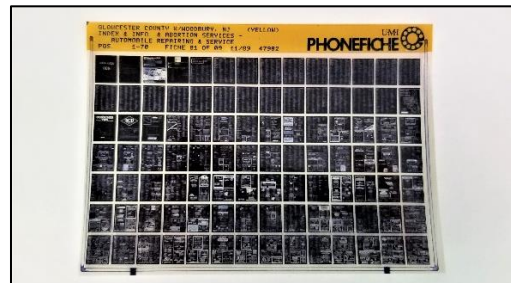

3. The directory, *Gloucester County w/ Woodbury, NJ*, with location code 47982, is available for 1989 and is in the Yellow Pages drawer under "Gloucester w/ Woodbury".

47982	Gloucester County w/ Woodbury, NJ	1989	Gloucester w/ Woodbury	
-------	-----------------------------------	------	------------------------	--

4. Another directory to check is 47136 - *South Jersey*, which is available for 1989 and covers Camden, Burlington, and Gloucester counties. Drawer location: "South Jersey".

47136*	South Jersey	1989	South Jersey	
--------	--------------	------	--------------	--

5. Look under "Gloucester w/ Woodbury" and "South Jersey" for the 1989 microfiche.

## Table Fields Explanation

Field	Explanation
Location Code	Numerical location code assigned by UMI starting in 1979. For microfiche published 1976-1978, NJSL staff have classified this fiche using the code given to that same location in 1979. Codes marked with * do not appear in the 1992 edition of <i>Phonefiche Community Cross-Reference Guide</i> .
Fiche Title	The title that appears on the microfiche's header. This may be different from the title of the scanned telephone directory.
Years Available	The publication years available in New Jersey State Library's <i>Phonefiche</i> collection.
Drawer Location	Title of the drawer section, where the microfiche is located. There are separate drawers for white and yellow pages.
Condition Notes	Notes regarding the condition of the microfiche, such as missing or duplicate pages, and discrepancies in the printed location codes.
