Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Office of Water Resource Management Coordination at (609) 777-4349. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Colleen Kokas, Director
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**Proposed Amendment to the Upper Raritan Water Quality Management Plan
Public Notice:
Sisters of Christian Charity**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Upper Raritan Water Quality Management (WQM) Plan. This proposed amendment will also modify the Morris County Future Wastewater Service Area (FWSA) Map for that portion of the County within the Upper Raritan WQM Planning Area. This proposed amendment would provide for the construction of a new Provincial Center and Chapel on the site of the Sisters of Christian Charity located on Block 2301, Lots 13 and 13.01 in Mendham Borough, Morris County.

The Sisters of Christian Charity property consists of approximately 112 acres, comprising of 44 acres within Lot 13 and 68 acres on Lot 13.01. Currently located on Block 2301, Lot 13.01 is a 165 bed Mother House, 52 bed Villa Pauline and three residential dwellings. Sanitary wastewater generated at this location is treated by six separate individual subsurface disposal/septic systems regulated under a Department NJPDES T1 Permit (No. NJG0180157). As identified on the Morris County FWSA Map, adopted on April 25, 2013, approximately 63 acres on Lot 13 and 13.01 are designated as the "Sisters of Christian Charity" individual discharge to groundwater (GWIND) sewer service area (SSA).

The proposed new development is to consist of the Provincial Center with 122 beds and a Chapel to include 80 seats. The projected wastewater flow from the proposed new development, calculated in accordance with N.J.A.C. 7:9A-7.4, is 16,880 gallons per day (gpd). The new generated wastewater to be treated by a proposed new on-site individual subsurface disposal system and the current six septic systems serving the existing structures will require a new Individual NJPDES DGW Permit regulating the entire site. Consequently, the total on-site design wastewater flow to be recognized by the new Individual NJPDES permit for both the existing and proposed on-site facilities, calculated in accordance with N.J.A.C. 7:9A-7.4 is projected to be 46,290 gpd or 0.04629 million gallons per day. Potable water for the existing and proposed development is to be provided by New Jersey American Water (NJAW).

As further describe below, as part of this proposed amendment, the currently identified 63 acres of SSA for the Sisters of Christian Charity GWIND, as adopted on the Morris County FWSA Map is to be reduced by removing approximately 7 acres, and re-delineating 57 areas acres on the project property, encompassing both the existing development and the proposed Provincial Center and Chapel.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15-5.24 and 5.25(h) and Public Law (P.L.) 2013, c.188. This preliminary notice represents the Department's determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15-5.24 and 5.25.

In accordance with N.J.A.C. 7:15-5.24(b), environmentally sensitive areas have been assessed to determine what areas are appropriately included in the proposed SSA. Pursuant to N.J.A.C. 7:15-5.24, environmentally sensitive areas are defined as contiguous areas of 25 acres or larger, alone or in combination, consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas (riparian buffer), and wetlands. These environmentally sensitive areas are not included in the proposed sewer service area except as noted below.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species (Landscape Project), version 3.1. A review of the Landscape Project indicated that the approved SSA within the project location is identified as threatened and endangered species habitat for the federally listed Indiana Bat (IB). A portion of designated IB habitat, located on the southern portion Block 2301, Lot 13.01 adjacent to Bernardsville Road, is within the 300 foot C1 riparian buffer associated with an on-site unnamed tributary to McVickers Brook. As adopted on the Morris County FWSA Map this C1 riparian buffer is within approved SSA.

As part of this amendment, approximately 7 acres, or the entire portion of the 300 foot C1 riparian buffer identified as IB habitat located on the southern portion of Block 2301, Lot 13.01 is proposed to be removed from the SSA. In addition, the 57 acres proposed as SSA is to be re-delineated to include only those portions of the site currently developed and the location of the proposed new development comprising of landscaped lawn area and small pockets of existing tree stands.

Based on the above, Department determined that pursuant to N.J.A.C. 7:15-5.24(g)2, the inclusion of the SSA for the development of the site will not impact the likelihood the nesting and breeding nor decrease the likelihood of the survival and/or recovery of the species.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, no portion of the proposed development on site is identified as within a Natural Heritage Priority Site, a special water resource protection area along C1 water, or wetlands or associated buffer.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations prohibited from extension of sewers and excluded from the proposed SSA are not applicable to this proposed amendment. Furthermore, all other ESA as defined at N.J.A.C. 7:15-5.24(c) 1-3; lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not applicable to this proposed amendment location nor are any ESA as defined at N.J.A.C. 7:15-5.24(d) 1-4; beaches, coastal high hazards area or dunes as defined under N.J.A.C.7:7E.

The Borough of Mendham, County, New Jersey has adopted a stormwater control ordinance (Ord. No. § 215-12.5). The Department has determined that this ordinance complies with the water quality and quantity standards in accordance with N.J.A.C. 7:8. Consequently, the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied.

No portion of the proposed development on site is identified as within a riparian zone as established at N.J.A.C. 7:15-5.25(g)2-5 or areas with a steep slope as required at N.J.A.C. 7:15-5.25(g)6.

In accordance with N.J.A.C. 7:15-5.25(h)3, the Department evaluated the water supply availability for the proposed project. Potable water to the proposed and existing development is to be supplied by the NJAW, Short Hills, System (PWSID# 0712001) which has an identified available surplus capacity of approximately 337 million gallons per month. Therefore, the Department determined there is sufficient water supply available within the existing water allocation permit to serve the existing and proposed new on-site development.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Upper Raritan WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department's, Office of Water Resource Management (WRM) Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of WRM Coordination at (609) 777-4349

Interested persons may submit written comments on the amendment to WQM Program Docket, Office of Water Resources Management Coordination at the Department address cited above with a copy sent to Mr. Anthony DiLodovico, Director of Regulatory Services, Omland Engineering Associates, Inc., 54 Horsehill Road, Cedar Knolls, New Jersey, 07927. All comments must be submitted within 30 days of the date of this published notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:
