

**State of New Jersey
Workforce Investment Act
Program Year 2003 Annual Report**

New Jersey is proud to submit its Program Year 2003 Workforce Investment Act (WIA) Annual Report, which is reflective of the State's commitment to building a world-class workforce development system and a record of continuous improvement. The State continued to improve its performance against the WIA standards negotiated with the U.S. Department of Labor and, again, exceeded or met all seventeen performance measures for Program Year 2003.

During the program year, New Jersey made great strides towards its goal of workforce development system consolidation. In June of 2004, the State of New Jersey enacted Public Law 2004, Chapter 39, which reorganized and consolidated the State's workforce delivery system "To Work" programs under a reorganized and renamed New Jersey Department of Labor and Workforce Development (LWD). The State's vision is to consolidate its "To Work" programs to build a coordinated system that has the ability to close the skills gap and to produce a skilled workforce. New Jersey is committed to strengthening the One-Stop Career Center System to meet the employment and career development goals of the individuals and the needs of the employer community. These changes will strengthen the workforce delivery system making it more customer-driven and accountable.

Program year accomplishments include successful integration of "to work" programs from the Departments of Education and Human Services into the aforementioned LWD to create a seamless workforce delivery system. Two cabinet level Workforce Summits were hosted by the Governor and included panel members representing government and business. Multi-agency planning meetings were hosted by the State Employment and Training Commission (SETC) to set the foundation for the consolidation and to allow partners to discuss, develop and review the consolidation efforts. Continuous improvement strategies were used to support program integration and to improve the quality of the workforce delivery system. Training was provided to local One-Stop Career Center and partner agency staff on programs, performance measures and changes in the delivery of program services. In order to meet program information and reporting requirements on all workforce system customers, the America's One Stop Operating System (AOSOS) case management system is used by One Stop Career Center and partner agency staff, including state and county welfare operations.

Showing improvement over Program Year 2002 performance results, New Jersey exceeded fourteen and met three performance measures in Program Year 2003. All four of the performance measures for the Adult Program, including the Entered Employment Rate, Employment Retention Rate, Earnings Change in Six Months and Employment and Credential Rates, were exceeded. Three performance measures for the Dislocated

Workers Program, including the Entered Employment Rate, Employment Retention Rate and Employment and Credential Rate were exceeded, while the Wage Replacement Rate measure was met. All four performance measures for the Older Youth Program were exceeded including the Entered Employment Rate, Employment Retention Rate Earnings Change in Six Months, and the Entered Employment and Credential Rates. New Jersey exceeded the three Younger Youth Program performance measures including the Skill Attainment Rate, Diploma or Equivalent Attainment Rate and the Retention Rate. Both the Customer Satisfaction Measures for Participants and Employers were met. It should be noted the results for the performance measures cohorts for the Adult, Dislocated Workers, Older Youth and Younger Youth Programs have all been exceeded.

Since the inception of the Workforce Investment Act, New Jersey has shown yearly improvement in its performance and ability to provide outstanding workforce services to the individuals and employers of the state. Improving on last year's performance, this year the results demonstrate an increasing capacity to prepare the customer for competing for and retaining employment in the labor market. Program Year 2002 was the first time the State met or exceeded all performance measures. In Program Year 2003, the number of WIA performance measures that were exceeded increased from nine to fourteen. This is a significant outcome and reflects the dedication and hard work of administration and staff at State and local levels. There are many reasons for this improvement. In addition to increased knowledge garnered with another year of experience, efforts this year included major technical assistance activities directed toward local areas where there had been ongoing performance issues. A team approach featuring representation from the Federal, State and local levels focused on isolating difficulties and implementing corrective steps needed to bring about improved performance for the WIA Adult, Dislocated Worker, Older Youth and Younger Youth Programs.

New Jersey was successful in its bid to renegotiate the Adult Earnings Change and Dislocated Worker Earnings Replacement measures for Program Year 2003 with the U.S. Department of Labor (USDOL). New Jersey demonstrated the original negotiated standards for the two measures were too high and not attainable in today's economic climate. Baseline data, the economy and the state's actual experience verified a gradual erosion of wage gains of the participants in the WIA programs consistent with slower wage gains of the general workforce. USDOL agreed to performance measure adjustments that left the State with realistic, attainable performance goals. The Adult Earnings Change performance measure was reduced from \$3,345 to \$3,200 and the Dislocated Worker Wage Replacement Rate performance measure was reduced from 100% to 93%.

In comparing Program Year 2002 and Program Year 2003 achievement levels, there are increases in the percent of goal accomplished for 13 of 17 performance measures. To illustrate these improvements, the following chart juxtaposes the State's performance measure goals and actual outcomes for the two program years.

Performance Measures	PY 2002 Goal	PY 2002 Actual	% of Goal	PY 02 Results	PY 2003 Goal	PY 2003 Actual	% of Goal	PY 03 Results

Enrollments

During Program Year 2003, 6,170 participants were served in the Adult Program, while 2,901 Adult Program participants exited. Participant exits are 47% of total enrollments. For the Dislocated Worker Program, 7,902 participants were served, while 3,652 or 46% of the enrolled number exited. The Older Youth program served 913 participants, while 344 participants exited. The Older Youth participant exits represented 37.6% of the total enrollment. The Younger Youth Program had 10,217 participants, while 2,515 or 24% exited during the program year. Although there were fewer adults and dislocated workers served in Program Year 2003, there was a higher rate of exits for those two programs than during the previous program year.

	PY 2002	PY 2002	PY 2002	PY 2003	PY 2003	PY 2003
	Participants Served	Participants Exited	% of Exits	Participants Served	Participants Exited	% of Exits
Adult Program	7,201	2,917	40%	6,170	2,901	47%
Dislocated Workers	10,059	3,638	36%	7,902	3,652	46%
Older Youth	979	327	33%	913	344	37.6%
Younger Youth	10,258	2,919	28%	10,217	2,515	24%

Placements

Of participants who exited the Adult Program during the quarters counted for performance for PY 2003, 2,449 were employed in the first quarter after exit. Of the Dislocated Workers who exited the program, 3,951 were employed in the first quarter after exit. For the Older Youth program, 266 individuals were employed in the first quarter after exit.

Program Year 2003	Participants Exited During the Program Year	Participants Employed in the 1 st Quarter After Exit	% of Participants Employed in 1 st Quarter
Adult	2,893	2,449	84.65%
Dislocated Workers	4,348	3,951	90.87%
Older Youth	324	266	82.1%

Credentials and Skill Attainment

During the quarters counted for performance in Program Year 2003, 1,674 adults who had employment by the end of the first quarter also obtained a credential by the end of the third quarter after exit. For the Dislocated Worker program, there were 2,697 individuals employed by the end of the first quarter and obtained a credential by the end of the third quarter. In the Older youth program, 204 individuals were employed by the end of the first quarter and obtained a credential by the end of the third quarter. There has been an increase in positive outcomes for the participants in the Adult and Dislocated Worker Programs on this measure. There were a higher number of participants with positive credential outcomes in all three programs.

Program Year 2003	Program Year 2002 Participants Employed in the First Quarter and Obtained a Credential by the End of the Third Quarter	% of Performance Goal Achieved	Program Year 2003 Participants Employed in the First Quarter and Obtained a Credential by the End of the Third Quarter	% of Performance Goal Achieved
Adult	1,353	108%	1,674	136.1%
Dislocated Worker	1,800	100%	2,697	114.7%
Older Youth	166	146%	204	132.4%

Younger Youth Programs

During Program Year 2003, there were 5,948 skill attainments achieved by the younger youth who participated in the program. In addition, 765 younger youth obtained a diploma or equivalency during the program year. Overall, 701 younger youth achieved positive retention results.

	PY 2002	% Goal Achieved	PY 2003	% Goal Achieved
Skill Attainments	5,503	93%	5,948	117.2%
Diploma or Equivalency	732	135%	765	124.4%
Retention	443	46.1%	701	123.2%

Expenditures and Obligations :

During Program Year 2003, New Jersey Department of Labor had expended a total of \$162,374,970 for programs under the Workforce Investment Act. This represented a decrease in funding from the previous program year. Adult programs expended \$35,174,742 from all program year resources. \$49,090,808 was spent under the Dislocated Worker Program. For the combined Older and Younger Youth Programs, New Jersey expended \$55,250,767. Additional expenditures of \$2,704,964 were made in the Rapid Response Program. The total reported for Program Year 2003 for the Statewide Activities was \$20,153,689. The figures for Program Year 2003 do not include administrative expenditures of \$24,078,865 or outstanding obligations of \$297,024.

Cost Effectiveness – Program Year 2003

During Program Year 2003, there was a total of \$162,374,970 expended cumulatively by all programs under the Adult, Dislocated Worker, Older Youth and Younger Youth Programs, including the state allowable programs. This results in a cost per participant of \$6,443.

	Total Participants Served	Cost Per Participant	Total Participants Exited	Cost Per Exit
Total Participants	25,202	\$6,443 *	9,412	\$17,251 *
Adult	6,170	\$5,701	2,901	\$12,125
Dislocated Workers	7,902	\$6,212	3,652	\$13,442
Youth	11,130	\$4,964	2,859	\$19,325

*Includes \$20,153,689 expended for statewide activities not included in the three WIA subcategories.

The One-Stop system should be measured by the total number of customers served. The system and facilities provide a continuous set of services that include many people who do not find their way into program databases. While not evident in the registrations, our One-Stop system served over 277,000 distinct individuals during the year. Their records do not show up as they may have accessed only Core workforce services. While they may not show in the final numbers, each used One-Stop resources and availed themselves of our services.

Our Response Team efforts also resulted in more client contacts. From July 2003 through June 2004, the Rapid Response team assisted approximately 16,000 individuals at 230 companies. The Rapid Response team was cited by our Governor this year for their ability to assist people in need.

B. Evaluations of Workforce Investment Act Activities

During Program Year 2003, the State of New Jersey produced a number of evaluation studies that establish, implement and use methods for continuous improvement of the workforce system. As stated above, New Jersey has embarked on a major consolidation of the “to work” programs.

Ready for the Job: Building Skills and Alliances to Meet Demand in New Jersey’s Labor Market

The Ready for the Job initiative, which was administered by the John. J. Heldrich Center for Workforce Development, was commissioned by the New Jersey State Employment and Training Commission, the New Jersey Department of Education and the New Jersey Department of Labor and Workforce Development to use existing labor market information combined with information from New Jersey employers to gain insight into the future skill and education needs of workers in eight key industries in the State. The study focused on eight industries including health care, finance and insurance, construction, utilities and infrastructure, manufacturing, tourism and hospitality, transportation and logistics, and information technology. It also analyzed seventy-three select occupations in eleven areas of work and disseminated its findings through reports and an internet website www.njnextstop.org.

Strategies for Strengthening One-Stop Partnerships and Service Delivery in New Jersey

In September of 2003, this report was prepared by the John J. Heldrich Center for Workforce Development for the New Jersey Department of Labor and Workforce Development. In order to improve the quality of the State’s workforce, all workforce related programs and services would be coordinated and consolidated under a new Department of Labor and Workforce Development. New Jersey engaged the Heldrich Center to offer recommendations and strategies for integration of workforce development programs at the local level using the One-Stop system as the primary operational entity. For this white paper, the Heldrich Center conducted a review of research that had been undertaken on welfare and workforce integration and consolidation efforts across the country. It summarizes the issues and challenges in analyzing New Jersey’s current workforce development systems and services. There are recommended strategies to strengthen services to job seekers, to strengthen services to employers and to improve One-Stop design and management.

Tables A through O were submitted electronically under separate cover.
