REPORT.

To the Governor and Commander-in-Chief :

I have the honor to submit herewith the report of the principal operations of the Quartermaster-General's Department for the fiscal year ended October 31st, 1899 :

The consolidation of the National Guard into four regiments of infantry, two troops of cavalry, two field batteries of artillery, and one signal corps, as recommended by the Commission appointed for the purpose, has been partially effected under General Order No. 6, office of the Adjutant-General, dated at Trenton, May 2d, 1899.

The uniformed militia force as now constituted consists of four regiments of infantry, two troops of cavalry, two gatling gun companies, and a hospital and ambulance corps. Additional legislation will be necessary to provide for the reorganization of the gatling gun companies into field batteries.

The uniforming, arming and equipment of this force has been practically completed since the date of my last report, and the National Guard is now in good condition for any need that might arise to require its service within the borders of the State.

SPANISH WAR CLAIMS.

Five installments of war claims, aggregating \$346,155.92, have been filed with the Auditor for the War Department at Washington for examination and settlement. Items amounting to \$15,371.77 have been allowed on these claims, for which drafts have been received and turned over to the Comptroller of the Treasury. Ordnance stores aggregating in value \$62,640 have been loaned by the General Government to the State of New Jersey and charged up to the account of above claims, leaving the net amount of unsettled claims at \$268,144.15.

Only two of the above installments have been subjected to examination. Sheets of differences arising upon such examinations have been referred to this office for explanation. The work of furnishing the

information asked for in these sheets of differences involves much clerical labor, in consequence of the varied character of the objections raised.

A large proportion of the items charged in the claims against the Government are for ordnance and ordnance stores, camp and garrison equipage, &c., taken from the National Guard supplies and used in the equipment of New Jersey's quota of volunteers, mobilized at Camp Voorhees, Sea Girt, under the several calls of the President. It has been decided that the cost of such stores will not be repaid in cash, but will probably be passed to the credit of New Jersey on account of annual quota for arming and equipping the militia of the several States and Territories, and replaced by issues in kind, upon requisitions of the Governor, pursuant to the act of Congress. Such items of pay, clothing, subsistence, transportation, clerical services, labor, &c., as are favorably passed upon by the Auditor, will be paid for by cash drafts to the order of the Governor.

STATE CAMP-GROUNDS.

There was no encampment at Sea Girt during the summer, the active work of the National Guard at the camp-grounds being devoted to rifle practice, by organizations, from July 3d to September 16th, 1899.

The long occupation of the grounds by the volunteer troops during the summer of 1898 has made necessary much expense of labor and material in the work of regrading, draining and generally improving the sanitary condition of the entire ground. Old mess-halls, costing a great deal of money annually to keep in a condition fit for use, collapsed during the severe winter of 1898-99, necessitating the building of new store-houses and wagon-sheds for storing and protecting the property of the State.

I think it in the line of my duty to suggest a few improvements. The commissary and quartermasters' store-houses, now adjacent to the main line of the New York and Long Branch railroad, along the western boundary of the camp-grounds, should be moved to a place more convenient—in the center and rear of the camp-grounds on the south. This would involve the laying of additional tracks. I have communicated with the Pennsylvania Railroad authorities, and they have made surveys and estimates. The entire cost of the extension of the siding, estimated at \$5,700, would have to be borne by the State.

The low or meadow ground, lying along Stockton lake on the south, should be filled in, graded and laid-out in trees, forming an attractive little park, and greatly enhancing the general appearance of the grounds along the road. The lake should be cleaned out, and the soil taken therefrom could be used in the filling-up of the low grounds.

In the event of a division encampment, provision will have to be made for more stable-room.

A system of jetties for the protection of the sea-shore from the ravages of the ocean should also be adopted.

The location of the sea-coast battery, built by the United States government, being in the rear of the target-butts on the rifle range, is practically isolated during the season of practice, extending over a period of nearly three months, and cannot be visited. I would recommend the purchase of an additional strip of ground on the north side for general encampment purposes, and also a strip on the south for the extension of the rifle range in that direction.

The Sea Girt Land and Improvement Company has proposed to join with the State to widen and improve the road leading from the railroad south to the ocean, along the northern boundary of the camp-grounds. If the State will dedicate a strip of land fifteen feet wide along the entire north front of its property, the Improvement Company will contribute a strip of the same width on the other side, for the purpose of widening the avenue all the way to the ocean; the sidewalks to be curbed and improved, and the road to be of gravel, making a magnificent boulevard.

RECEIPTS FROM THE UNITED STATES.

Stores to the value of \$9,447.34 have been drawn during the year, under the act of Congress for arming and equipping the militia of the several States and Territories, leaving a balance of \$4,464.39 to the credit of this State on the books of the War Department.

The balance standing to the credit of the naval militia of this State on the books of the Navy Department is \$8,270.77.

Amounts received from sales of ammunition, camp-ground receipts, settlements of officers of the National Guard, &c. :

PAYMASTER-GENERAL'S DEPARTMENT.

As Paymaster-General, it became my duty to pay to the regularly-accredited volunteers from this State during the Spanish-American War, the additional compensation allowed to them by the act of the Legislature, approved March 22d, 1899.

In order to insure a prompt presentation of discharges, a circular (of which the following is a copy) was issued from this office :

STATE OF NEW JERSEY, }
OFFICE OF PAYMASTER-GENERAL. }

(CIRCULAR.)

The following extract from an act providing additional compensation to the volunteers of this State during the Spanish-American war, one thousand eight hundred and ninety-eight, is published for the information and guidance of all concerned :

"1. There shall be paid to each of the non-commissioned officers, musicians, artificers, wagoners and privates *who were married at the time they were enlisted* in the service of the United States in the war with Spain, in any of the regiments of this state or in any of the divisions of the naval reserve of this state, at the rate of six dollars per month from the time of their enlistment and during the term of their service respectively, and to each of the non-commissioned officers, musicians, artificers, wagoners and privates *who were unmarried at the time they were enlisted* as aforesaid, at the rate of four dollars per month from the time of their enlistment and during the term of their service, respectively; *provided*, that in case of the death of any such enlisted man during the term of his service, or since his discharge, the amount so payable shall be paid to his widow, if he may have left a widow, and if not, then to his next of kin."

"2. No assignment of such state pay shall be recognized or be valid; but soldiers may designate in writing some one to whom such payment may be made, under such regulations as may be established." * * *

Approved March 22 1899.

Soldiers and seamen entitled to the provisions of this act will receive the amount of their claims promptly by complying with the following regulations :

1. Bring or mail your discharge to this office, accompanied by your present post-office address. If payment is desired to be made to any other person than yourself, please designate the name of such person, with his or her post-office address.

2. Upon receipt of the discharge, an abstract of the same, together with instructions, will be sent to you for the execution of proper receipts.

3. After proper affidavit has been made and the receipt signed, return the same to this office. If payment is to be made to another person, such person must also sign a receipt provided for on the abstract.

4. Upon such return to this office, with receipt properly executed, a check for the amount of your claim, together with your original discharge, will be mailed to you or to the person designated by you.

RICHARD A. DONNELLY,
Paymaster-General.

The discharges came in such numbers, many of them being presented in person, that the clerical force and resources of the office were speedily overtaxed, although every one worked cheerfully night and day, and

I was obliged to employ temporarily an extra force of clerks until the rush was over.

My thanks are due to Mr. Bonnell, the Custodian of the State House, who kindly fitted up and placed at my disposal in this emergency the committee-rooms and offices of the Senate Chamber, the additional clerks employed requiring more room than was afforded by our limited office space.

The total amount paid out, including amounts paid to rejected recruits, at this date amounts to \$157,106.85.

The mail continues to bring discharges from many volunteers who, at the expiration of their terms of service, re-enlisted in the regular or volunteer army and navy of the United States, and are now serving in the Philippines, Cuba, Porto Rico, Hawaii and elsewhere. Others removed beyond the bounds of the State before the passage of the act, and only learn through some friend or comrade that New Jersey has made an allowance in the way of additional compensation to her volunteers.

SPANISH WAR MEDALS.

I have the honor to report that the distribution of medals provided by the State for officers and men who served with New Jersey organizations during the Spanish-American war is progressing favorably. The joint resolution creating the decoration, as approved by the Governor, March 22d, 1899, follows :

BE IT RESOLVED by the Senate and General Assembly of the State of New Jersey :

1. The governor be and he is hereby authorized to cause a medal to be prepared and presented to each of the honorably discharged officers and men of the New Jersey volunteers in the Spanish-American war, one thousand eight hundred and ninety-eight, to commemorate their services to their country during this eventful period, the cost not to exceed five thousand dollars.

The medals were delivered to this department October 13th. They are bronze and of artistic design. Of the 5,500 provided, 3,067 already have been distributed.

Officers and men who have not received the decoration should apply to this department. If the application be by mail, return-postage should not be enclosed. The medals are delivered without expense to the applicant.

Numerous applications for the decoration are received daily, most of them being from volunteers who, since the muster-out of their regi-

ments, have left the State or the location in which their companies were organized. Many of the applicants have re-enlisted and are now stationed in the Philippines or Cuba, or at military posts in this country.

Applications by mail, when accompanied by definite addresses, are complied with promptly, when the records show that the applicants are entitled to the decoration. In order to guard more fully against imposition the signatures of applicants are compared with those on the receipts for State pay. Medals to which soldiers now dead would have been entitled are delivered to their next of kin.

Letters of thanks from many recipients indicate that the medals are appreciated highly and that they will be treasured with commendable pride.

Through the courtesy of Colonel and Brevet Brigadier-General Edward A. Campbell, medals were presented by officers of the First Regiment, N. G. N. J., to more than 1,000 members of the former First Regiment, New Jersey Volunteers, who applied for them at the Newark armory.

Colonel Robert G. Smith and the other officers of the Fourth Regiment, N. G. N. J., also very courteously delivered medals to many hundred members of the former Fourth Regiment, New Jersey Volunteers, who applied in person at the Jersey City Armory or by mail.

The companies of the Second and Third Volunteer Regiments having been organized in many different localities, aid in the distribution of the medals was solicited from former company officers. In each instance it was cheerfully extended, as it was also by the officers of companies of the Fourth Regiment, organized in the southern part of the State.

Commander Washington Irving, of the Battalion of the East, and Commander Harry R. Cohen, of the Battalion of the West, and their division officers, very kindly delivered medals to nearly all the officers and seamen of the New Jersey Naval Reserve who served with their organizations during the war.
