ABOUT THE WEEKLY BULLETIN

The DEP WEEKLY BULLETIN is an informational service provided free of charge by the N.J. Department of Environmental Protection. It contains a complete list of construction permit applications filed with or acted upon by D.E.P. Interested persons will thus be able to determine the status of applications dealing with Riparian permits, Wetlands permits, Stream Encroachment permits, Sewerage Extension permits, and CAFRA permits (Coastal Area Facility Review Act). In addition the circular provides a calendar of Events of Interest and a Schedule of Public Hearings. (The Public Hearings however, are not official DEP notices). Environmental Impact Statements and Assessments acted upon during the week are also shown. Any additional information concerning the permits may be obtained by contacting the appropriate person listed below.

USE THIS MECHANISM TO TRACK YOUR PERMIT

. . . If your construction project requires a MULTI-NUMBER of permits, the State of New Jersey has A GROUP for you . . .

The OFFICE OF BUSINESS ADVOCACY within the Department of Labor and Industry was established to provide personalized assistance in resolving the novel problems encountered when doing business in the State.

OBA will cut the red tape and get solutions to your permit problems.

OBA will designate a Permit Expediter to your project.

The Expediter will:

- Advise you of the state permits required for your project.
- Coordinate contacts with relevant state regulatory agencies.
- Monitor the progress of your permit applications.
- Assist in expeditious review of your permit application, to ensure processing of most permits within 90 days.

The Department of Environmental Protection is inviting all citizens interested in the satisfaction of their community's future water supply needs to attend 5 regional meetings to be held throughout the State for a presentation and discussion of the Statewide Water Supply Master Plan Project.

This 3 year project, to be completed in December of 1979, has been undertaken in order to assure that New Jersey will be able to meet its future water supply needs and will have a sound framework for the future planning and management of its water resources. The plan will strengthen and improve State's decision making in water supply by laying the foundations for the selection of available options to meet future needs and more efficiently utilize presently developed supplies.

At this session, which is being conducted as part of the Project's Public Participation and Inter-governmental Coordination Program, Dirk C. Hofman, Acting Deputy Director of the Division of Water Resources, will discuss the issue areas to be explored and work tasks to be carried out in the planning effort. Citizen participants, who will later represent the region in reviewing the project's work, will also be selected.
