## ASSOCIATION OF NEW JERSEY ENVIRONMENTAL COMMISSIONS

NEWARK — The Association of New Jersey Environmental Commissions, (ANJEC), together with fifteen other New Jersey environmental groups, will be presenting the 6th annual New Jersey Environmental Congress on October 20th. The Congress, which will be held at the New Jersey Institute of Technology (NJIT) offers an opportunity for the state's diverse environmental community and interested citizens to review environmental goals, hear from governmental leaders as to New Jersey's program in the pursuit of a better quality of life, and to hear experts discuss solutions to environmental problems.

The focus of this year's congress will be the effective management and implementation in the 1980's of the environmental technology and regulation developed in the past decade.

U.S. Senator Bill Bradley has been invited to open the morning session to discuss the national perspective on environmental issues in the 1980's. N.J. Senator Joseph Merlino has been invited to provide the state's perspective and Newark Mayor Kenneth Gibson, the local perspective. DEP Commissioner Jerry English has also been invited to address the environmental community. A question and answer session will follow.

Six concurrent seminars will analyze specific strategies for environmental action in the afternoon session. Participants will be asked to develop a list of legislative and administrative recommendations to submit to Governor Byrne and the appropriate agency.

The subjects of these seminars will be:

- Local Decisions in Water: Protection of Demand ?
- Solid Waste: New Jersey's Only Increasing Resource
- Transportation Planning, A Vehicle for Clear Air
- Some Call it Lobbying: How to Affect Legislation and Regulation
- Saving the Back Forty: Farmland Preservation in the 1980's
- Urban Land Use Planning: The Citizen's Role

A cafeteria lunch will be available to those who pre-register by October 1st. During this break, participants can view exhibits and/or take a short tour of environmental projects in Newark.

The Congress provides a unique opportunity for anyone concerned with the New Jersey environment to learn what groups around the state are doing and to meet with other concerned citizens. Participants will consider solutions to many of New Jersey's environmental problems to maintain and expand the gains won by the activism, legislation and regulations of the sixties and seventies.

The Congress is being co-sponsored by the American Littoral Society, Delaware and Raritan Canal Coalition, League for Conservation Legislation, Middlesex-Somerset-Mercer Regional Study Council Inc., New Jersey Audubon Society, New Jersey Conservation Foundation, New Jersey League of Women Voters, New Jersey Public Interest Research Group, Sierra Club, Soil Conservation Society, South Branch Watershed Association, Stony Brook Millstone Watershed Association, Trust for Public Land, Upper Raritan Watershed Association, and the Youth Environment Society.

Cooperating agencies include the New Jersey Department of Environmental Protection, New Jersey Department of Transportation, New Jersey Department of Energy and the United States Environmental Protection Agency.

Those interested in further information can call Jennifer Howell at 201-539-7547 or write Box 157, Mendham, N.J. 07945.

ANJEC is a private, non-profit membership organization that serves the needs of the State's over 300 environmental commissions by providing professional guidance, education, and research and by acting as a liaison with state and federal government.

All DEP Public Hearings, Administrative Hearings, and DEP  
Events of Public Interest are open to the public.

DEP Events of Public Interest include: public hearings, council meetings, workshops, public information meetings, and exams.

Public Hearings (Quasi - Legislative) - are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide, or of broad general interest.

Administrative Hearings (Quasi - Judicial) - are held between the state and a particular party involving an application, enforcement - violation or an appeal. Interest in these hearings is generally limited to those directly involved.
