PREFACE

The 1980-81 edition of Vital Educational Statistics is the seventh in a series which began in 1974-75. It is the fourth year of a revised series using data derived from re-designed instruments supported by detailed and illustrated instructions. It also is the third year the publication has been divided into two volumes. A glossary of terms and definitions was added for the first time in 1979-80.

Volume I contains school district and school data, including enrollments, dropouts, graduates and facilities data. Each of the three major sections of the publication (school districts and schools; students; and facilities) outlines the various New Jersey and federal requirements mandating data collections and explains how the data will be used. Table XVI was revised this year to reflect the "mobility status" of graduates. Tables XIX and XX were consolidated, this year, into one table reducing the total number of tables to 21.

Volume II of Vital Educational Statistics contains certificated and non-certificated staff data exclusively and is a separate publication.

This edition contains data that users will identify with the 1980 Census Year. Because this edition was anticipated to coincide with Census Year Data, district data analysts who supplied the data were asked to take special care in collecting and reporting the data. The data presented here are acceptable for use in other studies, through efforts of district, county and state data analysts.

The data presented in the Vital Educational Statistics series are descriptive and were designed to establish a core data base to assist in reporting on the condition of education in New Jersey. The back cover contains two evaluation forms on which users are invited to send comments or suggestions for improving the utility of the data.

ACKNOWLEDGEMENTS

Special appreciation is extended to Dr. Richard Mills, Deputy Assistant Commissioner for his support and guidance in the development of this publication.

We also want to acknowledge the efforts of the district data analysts who supplied the data and the following county data analysts who organized workshops and coordinated the distribution, collection and editing of the instruments at the county level: John Harris, Atlantic; Armand Palazzi, Bergen; Doreen O'Kane, Burlington; Kenneth Fetter, Camden; Helen Shropshire, Cape May; William Cervini, Cumberland; Sherilyn Poole, Essex; William Hall, Gloucester; Joseph W. Schultz, Hudson; Willa L. Cwik, Hunterdon; Vincent Acquaviva, Mercer; Bill DeFeo, Middlesex; Edward A. Miklus, Monmouth; Kay Manson, Morris; Lucille Stellatella, Ocean; Charles Lagos, Passaic; Thomas E. Anderson, Salem; Sal Abitanta, Somerset; Harry Stein, Sussex; Frank Barnhardt, Union; Al Bartolacci, Warren.

Office of Management Information staff who were responsible for editing the instruments and tables contained in this publication were supervised by Terri Bolla and Elaine Ailey. The typing was done by Marie Novembre, Denise King and Roberta Leichssenring.

Alex Aderer and Michael Paulick developed the many computer runs required to produce the reports generated in support of this publication.

The cover was designed by Debbie Csogi, an intern from the Mercer County Vocational-Technical School assigned to the Public Information Office. This volume was edited by Richard Vespucci, publications editor for the Department of Education.

INTRODUCTION

This introduction presents selected trend data characteristic of public elementary and secondary education in New Jersey between 1976-77 and 1980-81. The five sets of selected statistics show enrollment declines experienced over the past five years; the schools that housed the public elementary-secondary pupils; and characteristics of the instructional rooms available and needed. Remaining trends focus on the characteristics of dropouts and graduates during a period of declining enrollments, but also a period of large high school graduating classes.

TRENDS IN NEW JERSEY EDUCATION 1976-77 to 1980-81

Characteristics (1)	Selected School Years					Percent Change for Period (7)
	1976-77 (2)	1977-78 (3)	1978-79 (4)	1979-80 (5)	1980-81 (6)	
Enrollments						
Elementary	894,505	861,811	827,978	798,329	774,301	-13.4
Secondary	526,843	519,717	509,349	489,930	471,707	-10.4
Total	1,421,348	1,381,528	1,337,327	1,288,259	1,246,008	-12.3
Schools						
Elementary	1,972	1,953	1,942	1,913	1,896	- 3.9
Secondary	439	436	432	428	423	- 3.6
Handicapped	69	72	69	76	77	+11.6
Total	2,470	2,461	2,443	2,417	2,396	- 2.9
Instructional Rooms						
Available	69,065	69,019	69,693	69,828	69,763	+ 1.0
Needed*	2,592	2,830	2,651	2,567	3,195	+23.3
Dropouts						
Minority	8,230	8,120	7,896	8,126	8,139	- 1.1

*For excess enrollments and replacements of sub-standard instructional rooms

**After Graduation

INTRODUCTION

SYNOPSIS OF TRENDS

- Statewide enrollments decreased by 12.3 percent or an average of 2.4 percent per year. Elementary school enrollments decreased by 13.4 percent or an average of 2.7 percent per year. Secondary school enrollments decreased by 10.4 percent over the 5-year period or an average of 2.1 percent per year.
- The number of schools decreased by 74 (net figure) or 3 percent. Schools for the handicapped increased by eight (8), secondary schools decreased by 16 or 3.6 percent of those operating in 1976-77. Elementary schools decreased by 76 or 3.9 percent of those in operation 5 years ago.
- Instructional rooms available increased by 698 or one percent of the number available in 1976-77. The number of rooms needed to accommodate excess enrollments and to replace sub-standard rooms increased by 603. The additional instructional room needs in 1980-81 were 23 percent greater than reported in 1976-77.
- The total number of dropouts has hovered around the 21,000 to 22,000 level during the period. The dropout rate has increased by two-tenths of one percent since 1976-77, rising from 1.5 percent to 1.7 percent in 1980-81. The average dropout rate for the five-year period is 1.6 percent.
- Although the 1980 graduating class had fewer members than any one of the five previous classes, the graduates tended to continue education at a higher rate than in 1976. The continuing-education rate rose from 59.8 percent in 1976 to 62.9 percent in 1980.

SECTION I

DISTRICT AND SCHOOL INFORMATION

DISTRICT AND SCHOOL INFORMATION

Section I contains the following tables: Table I, Operating and Non-Operating Public School Districts; Table II, Enrollment Size of New Jersey Public School Districts; and Table III, New Jersey Public Schools by Type of School.

Table I shows an increase in the number of districts from 617 in 1979-80 to 619 in 1980-81. The increase reflects the formation of educational agencies that provide services cooperatively to more than one basic local educational agency in an area or region. This growth continues to reflect efforts to organize educational services to meet changing needs of target populations. Throughout this publication, data will be reported only for those 596 districts that were in operation during 1980-81. Non-operating districts are school districts without schools. Pupils from the 21 non-operating districts are sent to other districts for their education.

Table II depicts school district enrollment size. Three-hundred and five (305) districts have enrollments greater than 1,000 students. That number is five (5) less than in 1979-80. Eleven (11) districts have enrollments greater than 12,000 students. That is one (1) less than in 1979-80. Two hundred and ninety-one (291) districts, (49 percent) had enrollments fewer than 1,000 students.

Table III is a summary of schools by school type. Column 12 shows a total of 2,396 public schools, a net decrease of 19 from the previous year. Of the total number of public schools (1980-81), 1,951 were elementary and 445 were secondary. Increases in school type (compared to 1979-80) were as follows: four (4) secondary schools for the handicapped; five (5) four-year high schools and five (5) middle schools. Decreases in school type were primarily in the elementary school category, high schools, three-year high schools and elementary schools for the handicapped.

Counties reporting increases in the number of schools were: Burlington, Gloucester, Hudson, Hunterdon, Ocean and Sussex. Three counties reported no change in the number of schools. Each of the remaining 12 counties reported one or more fewer schools.

SECTION II

STUDENT INFORMATION

STUDENT INFORMATION

This section contains data on student enrollments, dropouts, suspensions, expulsions and high school graduate follow-up information. Of the 15 tables, six contain enrollment data; four carry dropout suspension and expulsion data, and five contain high school graduate follow-up information. All of the data are reported as of September 30, 1980. The enrollment data are used to prepare 10 year enrollment projections and they are also used to develop lists of schools that have high concentrations of low income pupils.

ENROLLMENTS

Table IV is a membership table i.e., pupils on roll during the last school day of September 1980. The data are reported for day school students and were compiled from individual school reports submitted by each district. The special education pupils (Column 17) are students on roll in self-contained classrooms. "Mainstreamed" special education students have been reported with the regular students in their respective grade levels. There were 1,246,008 students on roll in the public schools as of September 30, 1980.

When compared to the last school year, enrollment declines occurred in all grades with the exception of grades five, six, pre-kindergarten, special education and the post-graduate group. Enrollment projections, indicate that the decline will continue into the middle of the decade. Cape May county reversed the trend of declining enrollments by reporting an increase of 120 over 1979-80.

Table V consolidates enrollments in the various counties into regions conterminous with the Educational Improvement Centers (EIC's). The table shows that enrollments ranged from a high of 420,526 in the Northeast Region to 209,471 in the Southern Region. The

Central Region serves 368,705 students and the Northwest Region serves 247,306 students at the elementary and secondary levels. All of the regions experienced enrollment declines ranging from 3.5 percent in the Northeast Region to 2.8 percent in the Southern Region. The Northwest Region declined by 3.2 percent and the Central Region declined by 3.4 percent.

Table VI is the first of two tables separating students on roll into elementary and secondary school tables. On September 30, 1980 there were 774,301 elementary students on roll--24,028 fewer than was reported during the fall of 1979. Additional elementary school enrollment trend data are available from Enrollment Trends 1963-64 to 1979-80, a publication of the New Jersey State Department of Education.

Table VII shows that in 1980, 471,707 secondary school students were on roll in grades seven through twelve, 18,223 fewer students than the number reported during the fall of 1979. However, at the close of the decade, Sussex and Ocean were still recording secondary school enrollment increases over the prior year. Additional secondary school enrollment trend data are available from Enrollment Trends, 1963-64 to 1979-80.

Secondary schools account for 22.8 percent of grade seven enrollments and 24.9 percent of grade eight enrollments. The remainder of enrollments in grades seven and eight are reported as elementary school enrollments.

Table VIII is the first of two tables reflecting data by sex and "Minority" classifications. The data are shown in county and state totals. Additional racial/ethnic data, by district, is available through New Jersey Public School Racial/Ethnic Data, 1980-81, a publication of the New Jersey State Department of Education.

"Minority" is a composite of the racial/ethnic groups contained in Table IX, Columns 4 to 11. Those groups are: Black (not Hispanic origin), Hispanic, American/Indian Alaskan Native, and Asian or Pacific Islander.

Of the total number of students on roll, 27.7 percent were reported as "Minority"--an increase of 1.0 percent over 1979. Eight (8) counties exceeded the state average of 27.7 percent minority: Hudson, 62.7 percent; Essex, 60.4 percent; Passaic, 42.2 percent; Cumberland, 38.4 percent; Union, 37.1 percent; Mercer, 35.2 percent; Atlantic, 34.4 percent and Camden, 29.2 percent.

School districts that did not report minority enrollments were located in Burlington, Cape May, Gloucester, Hunterdon, Monmouth, Ocean, Somerset, Sussex, Union and Warren counties.

According to the data in Columns 3 and 5 of Table VIII, male student enrollments continue to exceed female enrollment by 2.6 percent.

Table IX contains racial/ethnic data by county, however, data by school district are available in a publication of the New Jersey Department of Education, titled,

New Jersey Public School Racial/Ethnic Data, 1980-81. Of the total public school students enrolled statewide, 72.3 percent were White; 17.9 percent were Black; 8.0 percent were Hispanic; 0.1 percent were American Indian or Alaskan Native; and 1.7 percent were Asian or Pacific Islander.

School districts reporting 50 percent or more minority students were located in 15 counties.

DROPOUTS

Table X is the first of three tables reporting dropouts from both the elementary and secondary public schools. The data are reported by county, however, dropout data by district are available through a publication of the New Jersey State Department of Education, New Jersey Public School Racial/Ethnic Data, 1980-81. Table X data reports dropout "reasons" that are in conformity with Handbook V, Student and Pupil Accounting of the National Center for Education Statistics. Seventeen detailed explanations concerning "reasons" for discontinuing school have been consolidated into seven (7) "reasons" for reporting purposes. (See report form in the appendix for the detail of the 17 reasons).

From September 1979 to August 1980, 21,468 dropouts were reported by the public schools. This was 907 fewer than the number reported last year. The data element titled, "New Residence: School Status Unknown," accounted for 1,492 students who had moved from the district and their educational status (entry into another school) could not be determined. The category, "Moved, Status Unknown," decreased by 648 from the figure reported last year. Seven counties

accounted for 69 percent of the "unknowns": Essex, Mercer, Middlesex, Morris, Bergen, Salem, and Monmouth.

Three major areas (consolidated reasons) describe the reasons why students discontinue school: "behavioral or curricular," "economic or home influences" and a category titled, "other known or unknown reasons." The detailed explanations incorporated into the "behavioral or curricular" category (Col. 3) are items D5 to D10 on the survey instrument. (See appendix). "Economic or other home influences" (Col. 4) represents a consolidation of items D11 to D14. Column (5) "familial" is a combination of two items, married or pregnant. Column (7), "other known or unknown reasons" is a total of items D18 and D19.

Of the seven major reasons for discontinuing school, "behavioral or curricular" reasons were reported most frequently (8,995), followed by "economic or home influences" (6,055) and "other known or unknown reasons" (third with 5,545). "Physical Illness" (202) and "religious convictions" (21) reasons were given in approximately one percent of the cases. Column (4), "economic and home influences," includes 5,158 students who were reported as employed.

Table XI contains two basic dropout categories: dropouts by grade and by sex. Ninety-three percent of the dropouts were from high school grades nine to twelve. Three grades continued to account for the majority of dropouts: grades 11, 10 and 12 respectively. Of the 21,468 dropouts, 4,733 were twelfth graders. Male dropouts continued to outnumber female dropouts, and, the percent of

dropouts for each sex remained relatively the same as last year.

Cumberland County could not determine the status of three dropouts who had moved. Seven counties reported "status unknown" for 1,033 dropouts or 69 percent of the unknowns in column (20).

Table XII shows the state's public school dropouts by racial/ethnic origin. Compared to 1978-79, the White student dropout population dropped to 62.1 percent of all dropouts; the Black student population increased to 26.4 percent of all dropouts and the Hispanic dropout population remained the same at 10.9 percent. Statewide, American Indian or Alaskan Native dropouts were three-tenths of one percent. The Asian or Pacific Islander group also computed to three-tenths of one percent.

Table XII shows that when we classify dropouts as "Minority" we are describing primarily Black and Hispanic students. Of the 37.9 percent of "Minority" dropouts, 98 percent were Black and Hispanic students.

Table XIII, pupils suspended and expelled, appears for the third time in the Vital Educational Statistics series. Column 7 shows the total number of students suspended (92,929) between September 1979 and August 1980. Column 10 shows the number of students expelled (103) from school between September 1979 and August 1980.

Of the pupils suspended (each pupil was counted once) 59,767 (64.3 percent) were White and 33,162 (35.6 percent) were minority students. Male students were suspended more frequently than female students. Of all pupils suspended, 69.3

percent were male and 30.6 percent were female.

Ranking the counties in terms of suspension rates, places Cumberland first with 14.8 percent and Mercer second with 12.5 percent. At the other end of the array were: Hunterdon County with 3.5 percent and Bergen with 4.0 percent. Statewide, the suspension rate was 7.2 percent of the students on roll. Nine of the counties fell below the statewide suspension rate.

GRADUATES

The five tables in the "follow-up of graduates" series were developed from follow-up studies conducted by the public secondary schools during the fall of 1980. Table XIV is a basic table with data on those graduates who continued their education and those who were employed or engaged in some other endeavor. Table XV expands the "continuing education," "not continuing education" dichotomy to reflect gender. Table XVI is a composite of all graduates by sex and the location of graduates within or outside the state. The last two tables (17 and 18) contain the racial/ethnic composition of graduates and the racial/ethnic composition of those who continued education at a college or university.

Table XIV shows that 94,564 students graduated from New Jersey public high schools in 1980, a one-year decrease of 3,079. Approximately 63 percent of the graduates continued their education and 37 percent did not. The percentage of graduates continuing their education has increased from 60 percent in 1975-76 to approximately 62.9 percent in 1979-80.

The 1979-80 graduating class was the first class since 1974-75 to decline from the 97,000 levels reported during the last five years. The peak year for public high school graduates was 1974-75 when 97,985 graduates were reported. Projections indicate there will be several thousand fewer graduates, each year, well into the middle of the decade.

Approximately 76 percent of the graduates not continuing their education reported they were employed.

Table XV shows that, statewide, female graduates continued their education in numbers greater than males, and male graduates not continuing their education exceed the females. Fourteen (14) counties exceeded the statewide percent of graduates continuing with some form of education. That number (14) was eight more than the previous year.

Table XVI. Title and column headings in this table were revised this year. The previous reference to "location" was changed to "mobility" and the present column headings reflect the graduates remaining in New Jersey and the number of departures.

Of the 94,564 1980 graduates, 67,401 (71 percent) were located in New Jersey. Approximately 28.7 percent of the graduates were located out-of-state.

Statewide, female graduates exceeded male graduates by 902. County by county, the ratio of male and female graduates to the total of all graduates, was very similar to the statewide average of 49.5 percent male and 50.5 percent female.

Table XVII is a racial/ethnic distribution of New Jersey's public high school graduates. Of the

94,564 graduates 17.6 percent were classified as minority. Eight counties exceeded the statewide average of 17.6 percent of minority graduates. They were: Hudson 49.1 percent, Essex 40.5 percent, Atlantic 26.2 percent, Cumberland 27.9 percent, Passaic 23.8 percent, Union 23.8 percent, Mercer 23.8 percent, Salem 19.8 percent, and Camden 17.1 percent.

Twelve and one-half percent (12.5 percent) of the graduates were Black, 4.2 percent were Hispanic and the remaining minority groups accounted for approximately eight-tenths of one percent.

Table XVIII is the racial/ethnic distribution of public high school graduates who were enrolled at colleges or universities. Of the 51,433 graduates continuing their education at colleges or universities 5,598 (10.9 percent) were Black, 1,772 (3.4 percent) were Hispanic, 598 (1.2 percent) were Asian or Pacific Islander and 18 were American Indian or Alaskan Native.

Of the graduates attending colleges or universities, 29,253 were matriculating in New Jersey (a decrease of 1,626 from 1979). Graduates attending out-of-state colleges were 43.1 percent of the total or 22,180 in number.

Comparison of Selected High School Graduate Data

<u>Data Element</u>	<u>1979-80</u>	<u>1980-81</u>
Total High School Graduates	97,643	94,564
Continuing Education	60,440	59,510
Not Continuing Education	37,203	35,054
Graduates Located In-State	71,288	67,401
Graduates Located Out-of-State	26,355	27,163
Racial/Ethnic Composition:		
White	81,359	77,997
Black	11,821	11,845
Hispanic	3,819	3,936
American Indian, Alaskan Native or Pacific Islander	644	786

SECTION III

FACILITIES INFORMATION

SCHOOL FACILITIES

This section contains three tables related to school facilities with particular attention to instructional rooms. The first two tables show the net change (over the last year) in available instructional rooms and the instructional rooms available and needed in the public elementary and secondary schools. The third table addresses the cost of meeting the public school capital improvement needs and includes a projection showing the years in which bids will be received.

Table XIX: At the beginning of the fiscal or school year (1980-81)*, 69,763 instructional rooms were available to public school students. That number represented a decrease of 65 rooms, or a net decrease of approximately one-tenth of one percent. Ten counties reported an increase in the number of available instructional rooms. The greatest percentage gains (over last year) were made by Ocean, Cape May, Cumberland and Burlington counties, respectively.

Table XIX shows that the loss of 65 instructional rooms available at the close of the 1980 school year was a net figure, i.e., an increase of 26 secondary rooms deducted from a decrease of 91 elementary rooms. The total number of elementary instructional rooms was 45,807 and the total of secondary instructional rooms was 23,956. Approximately 65.7 percent of all instructional rooms was devoted to elementary education and 34.3 percent to secondary education.

Table XX separates available instructional rooms into two categories: rooms available and rooms needed. The available rooms are further separated into rooms in use and rooms not in use. The rooms "needed" section reports on the numbers needed to meet excess enrollments and the number needed to replace sub-standard instructional rooms.

Of the instructional rooms available (69,673), 660 were reported "not in use." This is a decrease of 66 compared to last year, however, of all available rooms, the number not in use, was reported to be one percent. Columns 5, 6 and 7 of Table XX show the additional instructional rooms needed for excess enrollments and those needed to replace sub-standard rooms. The total number of rooms needed (3,195) represents 628 more than were reported last year. Instructional rooms needed because of excess enrollments decreased by 281. Instructional rooms needed to replace sub-standard rooms increased by 909.

To alleviate excess enrollment, four counties reported needs in excess of 100 or more rooms: Ocean, Essex, Atlantic and Monmouth.

Instructional rooms needed for replacement of sub-standard rooms were reported by all of the counties. Ten counties reported needing 50 or more replacement rooms.

*NOTE: May also read: "end of school year 1979-80"

Table XXI reflects the estimated cost of all capital improvement projects for which bids will be received between the years 1980-81 and 1983-84. The table shows that statewide, between 1980-81 and 1983-84, boards of education will be soliciting bids for 2,297 projects with an estimated cost of \$369,025,000. The estimated cost of all capital improvement projects (Column 3) decreased 23 percent between 1979 and 1980.

Coincidentally, the number of additional instructional rooms needed (because of excess enrollments and sub-standard conditions) increased by 23 percent between 1976-77 and 1980-81 (see Introduction).

All counties reported capital improvement projects. Thirteen counties reported estimated capital improvement needs in excess of \$10,000,000 each.

Thirty-six (36) schools were reported as having split or curtailed sessions. Of that number 20 were secondary schools and 16 were elementary schools. Ocean County reported 13, Atlantic County 5, Monmouth County 5, Burlington County 4, Mercer, Gloucester and Somerset Counties 2 each; and Essex, Middlesex and Warren Counties 1 each.

GLOSSARY

Academic Difficulty: The student left school or was required to leave because of academic difficulty.

Additional Secondary School: Enrollment after graduation from high school (Grade 12) in a secondary school for additional school work.

Advanced Placement Program: A series of courses for upper grade secondary school students intended to provide college level instruction. Successful completion may enable the student (s) to bypass the usual initial college courses in the subject area and begin the student's college work with a more advanced course and possibly with college credit. (This category does not include students enrolled in special programs for the talented or gifted).

Alternate School: A school that offers a student a choice between it and the traditional school which most students in the district attend. The alternate school is frequently typified by modified curricular content, non-standard classrooms, and/or instructional techniques based on individual student needs.

Apprenticeship/On-the-Job Training: Supervised training program for a beginner who wishes to learn a semi-skilled or skilled trade. At the apprenticeship level, two or more years work experience on the job, supplemented by related classroom experience.

Art School: A non-degree granting, postsecondary institution offering courses of varying length in preparation for occupations related to drawing, painting, sculpture, design, and similar arts.

Behavioral Difficulty: The student was required to withdraw from school because of behavioral difficulty.

Bilingual Program: A state board of education approved instructional program conducted in English and a second language. Such programs are intended to meet the special needs of students who have a native language other than English or who have limited English speaking ability.

Business or Secretarial School: A non-degree granting, post-secondary institution offering courses of varying length in preparation for technical business occupations.

Capital Improvement: Expenditures which result in the acquisition of fixed assets, additions to fixed assets, and increases the value of property and/or buildings presently owned. For a complete definition, consult the Chart of Accounts published by the Division of Finance & Regulatory Services and Handbook II (Revised) Financial Accounting published by the United States Office of Education.

College (four-year): A postsecondary institution offering a four-year curriculum and empowered to confer a bachelor's degree.

College (two-year): A postsecondary institution offering a two-year curriculum and empowered to confer an associate's degree.

Community Service Program: Programs through which students gain insight and experience in the problems and operation of such community services as recreation programs, civic activities, public libraries and community welfare agencies.

Compensatory Education Program: A program approved by the State Board of Education to provide preventive and remedial activities and services, supplemental to the regular school program, to meet the special needs of students performing below minimum levels of student proficiency as required by NJAC 6:8-1.1 and 3.8.

Continuing Education: A program extending opportunities for reading, study and training to young persons and adults following completion of or withdrawal from full-time school or college programs.

Cosmetology or Barber School: A non-degree granting, postsecondary institution offering courses of varying length in preparation for qualifying examinations and licensing.

Course: An organization of subject matter and related learning experiences provided for the instruction of pupils on a regular or systematic basis, usually for a predetermined period of time. Credit toward graduation or completion of a program of studies is given pupils for the successful completion of a course.

Credits Required for Graduation: Units of value awarded to all or some pupils for the successful completion of the work of a course or series of courses. (The minimum number of credits to be established by each high school are set forth in NJAC 6:27-1.4).

Deceased: Died subsequent to graduation.

Dislike of School Experience: The student left school because of an active dislike or one or

more aspects of his or her school experience other than physical illness, behavioral difficulty, academic difficulty, lack of appropriate curriculum, poor student-staff relationships and poor relationships with fellow students.

District Priority: The priority number assigned to the named project by the local board of education.

Dropout: Defined as an elementary or secondary school student who has been in membership during the regular school term and who withdraws from membership before graduating from secondary school (Grade 12) or before completing an equivalent program of studies. Such an individual is considered as having discontinued schooling, whether this occurs before or after the student has passed the compulsory school attendance age and, where applicable, whether or not the student has completed a minimum required amount of school work.

Economic Reasons: The student left school because of economic reasons, including inability to pay school expenses and inability of parents to provide suitable clothing.

Employment: Working full-time or part-time in one of the following categories cited in the Dictionary of Occupational Titles: Professional, Technical or Managerial; Clerical-Sales; Service; Farming, Fishing, Forestry and Related; Processing; Machine Trades; Bench Work; Structural; Miscellaneous.

Estimated Project Cost: The value arrived at by rough calculation or assumed to be approximately correct on the basis of judgments acceptable to the local board of education.

Excess Enrollment: The total enrollment of students on roll in September subtracted from the number of students that can be adequately housed in a school building without overcrowding.

Expulsions: The action taken by a board of education compelling a student to withdraw from school for reasons such as extreme misbehavior, incorrigibility, or unsatisfactory achievement or progress in school work.

Family Income: The combined incomes of all members of the student's family. Possible sources for this information are: the School Lunch Programs, Title I, County Welfare Boards or local survey.

Government Service: Enlistment in the armed forces, the Job Corps or another government sponsored program.

Homemaking: Spending full-time establishing and managing a household.

Industrial Arts Program: A program of instructional and laboratory experiences which provide basic education related to the industrial and technological aspects of life through experiences with tools, materials and processes.

Industry Sponsored School: A technical, trade or vocational school sponsored by a private industrial firm, primarily to train prospective employees.

Instructional Rooms: (Area or Space) A "room" is the equivalent of a single teaching station.

Instructional Rooms Abandoned: Complete relinquishment of classrooms.

Instructional Rooms Added & Occupied: New construction, including additions and temporary instruction rooms.

Instructional Rooms Available: Includes all permanent and temporary rooms, whether used or not used.

Instructional Rooms Available and In Use: Rooms for which an "Occupancy Permit" has been issued by the state department of education.

Introduction to Vocations Program: A guidance program to enable students in Grades 7 through 10 to explore occupational opportunities. The program includes classroom instruction, "hands-on" activities, field trips, job visitation days and speakers from business and industry.

Lack of Appropriate Curriculum: The student left school because the curriculum was not appropriate for his or her needs.

Location Unknown: School has no records concerning graduate's whereabouts.

Marriage: The student left school because of marriage.

Need at Home: The student left school to help with work at home, including work on the family farm.

New Residence: School Status Unknown: The student left school upon moving to a new residence. It is not known if the student entered a new school.

Nursing School: A non-degree granting, postsecondary institution usually associated with a hospital which prepares students to be nurses.

Open Classroom: A relatively large instructional area or multiclassroom space not separated by walls as in a traditional classroom. More important than these physical aspects is the accompanying philosophy of an open curriculum cooperatively developed by teachers and students without the constraints inherent in the usual prescribed curriculum.

Operation of Plant Services: Directing and managing personnel care and upkeep of buildings care and upkeep of grounds and care and upkeep of equipment. This includes custodians or building service workers and security services.

Other Post-Secondary School: Any non-degree granting, postsecondary school other than the foregoing.

Other Type College: Any postsecondary degree granting institution other than the foregoing.

Parental Influence: The student left school as a result of parental encouragement to do so.

Physical Illness: The student left school because of a physical illness.

Poor Relationships with Fellow Students: The student left school because of poor relationships with fellow students.

Poor Student-Staff Relationships: The student left school because of poor relationships with members of the school staff.

Post-Graduate: Students who after graduating from high school (Grade 12) re-enroll in the same or another secondary school for additional high school level courses.

Post-Secondary: Students who after graduating from high school (Grade 12) enroll for advanced study at the Grade 13 level or higher.

Pregnancy: The student left school because of pregnancy.

Pre-Kindergarten: Students in a group or class organized to provide educational experiences for children during the year or years preceding the kindergarten which are part of the elementary school program and are under the direction of a professionally qualified teacher.

Program Completion: Curricular activities or program set by the local board of education as a pre-requisite for graduation. The activities or programs shall be based on specific instructional objectives for an individual and/or group of individuals. In New Jersey, often described as "Plan B."

Program for Gifted or Talented: A program for students identified by professionally qualified personnel as being advanced in mental development and/or capable of high performance in one or more areas of special competence. Among these areas of competence are creativity, leadership ability, social adeptness and facility in the productive and performing arts. (This category does not include students enrolled in enrichment courses leading to advance placement).

Program for Pregnant Students: A program for students who would otherwise drop out of school because of pregnancy. In addition to meeting all curricular requirements, such programs usually provide special personal and educational counseling services.

Program of Studies: A program is a combination of related courses and/or self-contained classes organized for the attainment of specific educational objectives, e.g., a program of special education for handicapped pupils or a program of occupational (vocational) education.

Project: Any work, construction or alteration undertaken that is single in character.

Project Code: Code number that best identifies project as either land, buildings or equipment and furniture selected from code list supplied with these instructions.

Project Title: The official title of the capital improvement project or a brief, but descriptive title of the nature of the capital improvement planned.

Racial/Ethnic Groups: A pupil may be included in the group to which he or she appears to belong, identifies with or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The categories are: White, Not Hispanic Origin, Black, Not of Hispanic Origin, Hispanic, American Indian or Alaskan Native and Asian or Pacific Islander.

Reason Unknown: The student left school for a reason which is not known.

Religion: The student left school due to religious convictions of the student and/or the student's parents.

Rooms Gained by Conversion: Non-instructional rooms converted to instruction rooms.

Rooms Lost by Conversion: Instruction rooms converted to non-instructional rooms.

School Functional Capacity: The number of students that can adequately be housed in a school building without overcrowding. Use "School Capacity Worksheets" published by the state department of education. Compute only for permanent facilities.

School Year: The "school year" begins on July 1 and ends on June 30.

Service Academy: An institution of higher education maintained by the federal government to prepare students for a professional career as officers in one of the armed services.

Shared Time Vocational: An arrangement whereby a student regularly and concurrently attends two schools which share direction and control of the student's studies. In this report, the time sharing relationship is between a public secondary school and an area vocational school.

Special Education: Students on roll in self-contained special education classes. (Special education students who are mainstreamed are reported in their respective grade levels).

Special Education Program: A special program for any student who is mentally retarded, visually handicapped, auditorily handicapped, communication handicapped, neurologically or perceptually impaired, orthopedically handicapped, chronically ill, emotionally disturbed, socially maladjusted or multiply handicapped.

Split or Curtailed Session: A school session with less than the minimum number of four hours prescribed by the State Board of Education. These hours are exclusive of recess or lunch periods. Such sessions are often described as double or half sessions.

Sub-Standard Rooms: A sub-standard classroom is one which never received state board of education approval for permanent use. Such spaces require a county superintendent's annual approval as a temporary facility before being used for instructional purposes.

Suspensions: Temporary dismissals (at least one school day) of students from school by a teacher or principal. These are official suspensions reported to the superintendent of schools or other chief school administrator (if there is no superintendent). Count each pupil once regardless of the number of times he or she was suspended.

Technical, Trade or Vocational School: A non-degree granting, postsecondary institution offering courses to prepare individuals for employment as skilled workers or draftsmen.

Technology for Children Program: A program to provide children with individualized, experimental learning and opportunities to develop interests and self-awareness. Technological world-of-work activities are integrated throughout the traditional curriculum with emphasis on the needs and interests of individual students.

Total Enrollment: A count of students on roll on the last school day of September. Should agree with number reported in Part A of Current School Enrollment Data.

Unemployed: Not employed at any paid work.

Ungraded: Students in a class which is not organized on the basis of grade and has no standard grade designation. (Students in special education classes should not be reported here, but in their respective grade levels).

Vandalism: Glass breakage, fire, arson, theft, property destruction (smashed furniture, graffiti, carved desks, etc.) through carelessness or displaced aggression.

Vocational Education Program: Programs offering education and training in such semi-skilled, skilled or technical occupations as agriculture, home economics, office occupations, distributive education and technical education.

Year Bids Will Be Received: The actual or estimated year in which bids will be received for the named project.
