JOHN McCUTCHEON
Comptroller

To All Departments and Institutions

This handbook of appropriations for the fiscal year beginning July 1, 1931, and ending June 30, 1932, is published for the benefit and information of all parties concerned.

The several items composing the act herein contained are hereby declared to be appropriations for the fiscal year above mentioned for the purposes therein expressed.

In order that some degree of flexibility in appropriations may be had, and to meet contingencies not apparent at the passage of the act, the Comptroller, by authority vested in him under section 8 of Chapter 140, Laws of 1930, will make such correction of titles or text, or both, of appropriations necessary to make them available for the purpose or purposes intended, at such time as the necessity for them may be presented to him by the various boards, institutions, commissions or officials of the State.

Attention is directed to section one of the act with reference to the availability of the appropriations for the period of three months after the close of each fiscal year. State officers are advised that by reason of the enactment of this clause all unexpended balances will arbitrarily lapse at the close of the three months' period, except it be reserved as provided therein.

Attention is also directed to section 12, which is a new departure of great benefit to all departments. The applications referred to therein should be forwarded promptly.

Heads of institutions coming under the control of the Department of Institutions and Agencies should direct their attention to section 7.

Department and institution heads are also directed to carefully read sections 9, 10 and 12.

All miscellaneous receipts must be forwarded monthly in accordance with the law as heretofore, and each institution will be

credited with the amount so received, but cannot use any sum in excess of the amount appropriated by the Appropriation Committee.

For the past two years or more every effort has been made by this Department to facilitate the payment of bills, and it appears that there should be no difficulty in each department and institution forwarding schedules of bills within five days after the close of each month. Schedules should not be held simply because some firm with whom the institution is doing business fails to send in their invoice at the proper time. It might be better to forward a supplemental schedule later in the month.

This Department is enabled at all times to pass bills to payment promptly, and it is sincerely hoped that bookkeepers of institutions will make every effort to forward their schedules as frequently as they desire, and that they call upon this Department whenever it is desirable for such assistance as may be needed to expedite payments.

Institutional bookkeepers are directed to pay strict attention to copies of requisitions forwarded by the Purchasing Agent, and debit same against their appropriation when received. They become debits against the appropriation notwithstanding the fact that the goods ordered under the requisition have not been received. A prompt compliance with this will make it impossible for bookkeepers to carry balances different from this Department, as has occurred frequently in the past.

Department heads are requested to familiarize themselves with the provisions of Chapter 254, P. L. 1920, for facilitating approval of bills; Chapter 66, P. L. 1920, concerning emergency appropriations, also Chapter 68, P. L. 1916, concerning purchases.

In submitting vouchers for reimbursement of personal expenditures hereafter, receipts will be required for hotel expenditures, Pullman car, and any miscellaneous expenditure for \$5.00 or excess thereof.

6. Upon the receipt of requests for appropriations, the Governor, or upon his order the State Budget Commissioner shall examine such requests in order to determine the necessity or advisability thereof and, for that purpose, may hold hearings thereon which shall be open to the public, and may summon and examine the request officers and any other witnesses and order the production of any State records, for his examination, and make any investigation which he deems necessary or advisable, for the purpose of making such determination.

(i) The itemized budget recommendations, stated in detail as to department and purpose. There shall also be set forth the following: In five columns to the left of

the purpose for which the recommended appropriation shall apply shall be set forth the following data relating to the purpose as to the last completed fiscal year: In the first column the amount expended; in the second column the total available appropriations; in the third column amount transferred to or from the purposes; in the fourth column the amount added by supplemental appropriation; in the fifth column the amount of the original appropriation.

In the first column to the right of the purpose to which the recommended appropriation shall apply shall be set forth the appropriation for the current fiscal year; in the second column the amount requested for the next fiscal year; in the third column the amount recommended by the Governor as the appropriation for the next fiscal year.

(j) In addition, such recapitulation of revenues and appropriations as may more fully show comparisons and costs of the several departments.

9. The Governor may recommend in connection with his budget message and under separate head new or additional sources of revenue and set forth in connection therewith his recommendation as to the purpose or purposes to which such proposed new or additional revenues may be appropriated. The total of the recommendations in the budget for the annual and supplemental appropriations shall not be in excess of the estimate of the free treasury funds (including funds classified in subsection (c), section 8) available for disbursements during the fiscal year to which such recommendations are applicable.

10. All applications for appropriations for purposes not included in the budget message shall be made in the first instance to the State Budget Commissioner, subject to such rules and regulations as he may from time to time prescribe. He shall certify and transmit forthwith such applications to the Governor and Chairman of the Joint Appropriation Committee, together with his findings, comments and recommendations thereon. The Governor shall transmit to the chairman of the Joint Appropriation Committee such applications as he shall approve in whole or in part with his recommendations thereon.

11. The Governor may, as occasion requires, transmit special messages recommending additional appropriations for purposes not anticipated at the time the budget message was transmitted to the Legislature.

12. The State Budget Commissioner shall cause copies of the Governor's budget message to be printed forthwith, and a copy thereof shall be presented to each member of the Legislature, each public library in the State, and each newspaper in the State, and shall be available for distribution to any citizen, on request. In the event that any request for appropriation is granted by the Legislature for an amount reduced from that requested, the State Budget Commissioner may assist the spending agency making such request, in devising new expenditure programs.

13. In order to afford reasonable flexibility, any spending agency receiving an appropriation may make written application to the State House Commission for leave to transfer a part of any item granted or allowed to such spending agency, to any other item in such appropriation. Such application shall be made only during the current year for which the appropriation was granted. No transfers shall be authorized or made after the close of any fiscal year. If the State House Commission shall consent to such application, it shall notify the Comptroller thereof in writing, whereupon the Comptroller shall place the amount so transferred to the credit of the item so designated; *provided, however*, that no sum appropriated for any permanent improvement shall be used for maintenance or for any other purpose; *provided, further*, that whenever a transfer is made the item, or any part thereof, from which the transfer has been made shall not be reimbursed from the emergency fund; *and provided, further*, that no such transfer of appropriation shall be authorized or made until the State Budget Commissioner shall have been served with a copy of the application and shall have had two days' opportunity within which to submit his written recommendation thereon, together with his reasons therefor, to the State House Commission.

14. No allotment from the State emergency fund shall be authorized or made until the State Budget Commissioner shall have been served with a copy of the application therefor and shall have had two days' opportunity within which to submit his written recommendation thereon, together with his reasons therefor, to the State House Commission.

15. A copy of every purchase requisition and of every detailed application and direct purchase order shall be served forthwith on the State Budget Commissioner.

16. In any case wherein it appears to the satisfaction of the Governor that any expenditure proposed to be made under any appropriation by any spending agency, is not in the best interests of the State, as in the case of extravagance, waste or mismanagement, then he shall be and hereby is authorized and empowered to prohibit and enjoin any such expenditure or any future expenditure under said appropriation and to prescribe the terms on which the same shall be made, if at all, by making and signing an order to that effect and serving it on the duly authorized request officer of such spending agency, and also serving a certified copy of such order on the Comptroller and the State Purchase Commissioner, whereupon said order shall immediately become operative. Upon such service, future expenditures under said appropriation shall be limited by the terms of said executive order. The Governor, in such cases, shall have power to make other and further orders as may be necessary or advisable in his discretion, which orders shall become operative upon such service.

17. The State Budget Commissioner shall prepare and publish a document to be known as Record of the Budget. Such report shall be published on or before October first of each year, setting forth a summary of the transactions in connection with the budget for the completed previous year, the status of the State debt, a summary of the dedicated funds and their dispositions for such budget period, together with such other statistical and other information which the State Budget Commissioner, under the direction of the Governor, may determine will be of value in order to fully present the financial and statistical

transactions of the several offices, boards, departments and agencies of the State.

18. (a) The State Highway Commission shall, on or before the first day of December in each year, submit to the Governor a report of the work and operations and financial condition of the department for the year (projecting same to December 31st), including itemized report of county and township aid allotments, in such form and in such detail as the Governor shall require.

(b) On or before the first day of December of each year the State Highway Commission shall submit to the Governor, in connection with its report for the then current year, a schedule of the estimated anticipated revenues available for highway purposes during the ensuing calendar year. The several items of dedicated revenues which are committed to the State Highway fund, together with the funds to be made available through the sale of bonds and all unappropriated balances shall be tabulated and shown as the total resources for the support of the Highway Department schedule and program for the ensuing calendar year.

(c) On or before the first day of December of each year the State Highway Commission shall submit to the Governor the schedule and program for which they propose to expend or use such funds for the ensuing calendar year, according to purposes, routes and sections of routes. Such program may include projects that may be substituted for other projects included in the program should it be found impossible or impractical to construct or carry on any one or more of the projects in the program.

(d) The Governor shall review the schedule of anticipated revenues and program as provided in subsections (b) and (c) hereof, and upon his approval, such program shall be the established program for the State Highway work and contribution for the ensuing calendar year, and shall control the administration of such funds. Should the State Highway Commission find it impossible or impractical to fulfill the obligations of its construction program, the Commission shall submit to the Governor such changes or amendments with the corresponding

reapportionment of such funds, which, upon the approval of the Governor, shall become the amended program for the year.

(e) The State Highway Commission shall make a report to the Governor quarterly, and at such other times as the Governor may direct, as to the progress of its work in connection with the program as adopted and upon any project carried over from the preceding year, together with the condition of its revenues and finances all in such detail as the Governor may direct.

(f) On or before December tenth of each year the State Highway Commission shall notify the clerk of the Board of Chosen Freeholders of each county as to the amount of county and township and borough aid which has been set up for the county and each municipality within the county applicable to the ensuing calendar year.

(g) The Governor shall include a synopsis of the Highway Commission's revenues and the schedule and program, as approved for the calendar year in his budget message.

19. The Governor is hereby authorized to inquire into and investigate the operations and administration of any department, board, commission, office or State agency, including such departments or agencies as operate on fees or fines collected by them, and any county or municipal corporation as to the expenditure and administration of State aid road or highway funds, but excluding any political subdivision of the State as to receipt or disbursement of other funds herein designated as dedicated funds, and all departments, boards, commissions, offices or State agencies which in any way collect funds on behalf of the State other than State taxes, and for such purpose, may employ such agents or agencies as he may deem proper. The Governor or such other person as the Governor shall appoint shall have power to administer oaths, examine witnesses, and shall have the same power as the Court of Common Pleas to issue subpoenas to compel the attendance of witnesses and the production of all necessary reports, books, papers, documents, correspondence, and other evidence, at any designated place of hearing. Such subpoenas shall be authenticated by the

signature of the Governor. Misconduct on the part of any person attending a hearing, or the failure of any witness, when duly subpoenaed to attend, give testimony or produce any records shall be punishable by the Court of Common Pleas in the same manner as such failure is punishable by such court in a case therein pending. Any person who, having been sworn or affirmed as a witness in any such proceeding, shall willfully give false testimony, shall be guilty of perjury. The fees for the attendance of witnesses shall be such as are now provided for the attendance of witnesses in civil cases.

20. All files and other records of the State Budget Commissioner shall be available at any time for the inspection and examination of any members of the Legislature and any committee thereof and to the newly elected incoming Governor and to any nominee designated by him.

21. This act shall be liberally construed, and if any section thereof shall be declared unconstitutional by any court of competent jurisdiction, it shall not thereby affect any other section thereof.

22. Chapter fifteen, laws of one thousand nine hundred and sixteen, being an act entitled "An act to provide a budget system and to provide a method of ascertaining the financial condition of the State and the appropriations necessary for the various departments, institutions and other agencies of the State," approved March first, nineteen hundred and sixteen, and any and all supplements thereto and amendments thereof, and all acts and parts of acts inconsistent with this act are hereby repealed.

23. This act shall take effect immediately.

Approved April 20, 1931.

CHAPTER 179.

An Act to establish a State Purchasing Department.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. There is hereby established a department, to be known as the State Purchasing Department, on which

department, exclusively, is hereby conferred the authority and imposed the duty to purchase any and all materials, supplies, furniture, equipment, printing, stationery, live stock and all other chattels, goods, wares and merchandise whatsoever, hereinafter called articles, used or needed by the State, and its institutions, boards, commissions and officers receiving legislative appropriations, hereinafter called using agencies.

2. The chief officer of said department, to be denominated the State Purchase Commissioner, shall be appointed by the Governor, by and with the advice and consent of the Senate, to serve for the term of five years, and until his successor shall be appointed and qualified, unless sooner removed by the Governor for cause. Said commissioner shall receive compensation at the rate of seven thousand dollars per annum. He shall have had at least three years' practical experience, in the ten years immediately preceding his appointment, as an executive in a regularly organized purchasing department, either municipal, State, federal, or in that of a private business corporation. He shall not in any manner whatsoever be connected, interested or otherwise concerned, directly or indirectly, with any person, partnership, firm, association, corporation or other vendor or agent or intermediary from or through whom any purchase or contract for purchase shall be made by the said department, during his incumbency. Before entering upon the **discharge of** his duties, he shall make and subscribe an oath to be filed in the office of the Secretary of State to the effect that he is not then nor will he be at any time during his incumbency, so connected, interested or otherwise concerned, as aforesaid, and he shall give bond, to be approved by the Governor, in the sum of fifty thousand dollars, made by any bonding company authorized to do business in the State, and conditioned for the faithful performance of his duties and for his compliance with all the provisions of this act. Neither expiration of term of office nor removal therefrom shall operate as a discharge of said bond, and it shall remain in full force and effect until its lawful term, to wit, sixteen years from the date thereof, shall have passed. The premium on said bond shall be paid by the State; *provided, however,*

that the term of the first State Purchase Commissioner under the provisions of this act shall be nineteen months.

3. All books, contracts, vouchers, requisitions, correspondence, blanks, papers, documents and other records whatsoever made, kept or maintained pursuant to chapter sixty-eight of the laws of one thousand nine hundred and sixteen now in the possession or custody of the State House Commission, and/or the State Purchasing Agent, shall, on demand, be delivered and transferred to the State Purchase Commissioner, when appointed, and thereafter remain in the State Purchasing Department, in the charge and custody of the State Purchase Commissioner.

4. No articles shall be contracted for or purchased by the State or any of its institutions, boards, commissions and officers receiving legislative appropriations, except in accordance with the provisions of this act.

5. Nothing herein contained shall apply to the erection or construction or original equipment of any building or addition thereto or alteration or repair thereof as distinguished from the furnishing or maintenance thereof, nor to the construction or repair of any road or bridge, nor to the performance of any like work.

6. The State Purchase Commissioner shall carry into effect and execute the provisions of this act. He shall appoint such clerical, technical and other assistants as may be necessary, fix their compensation and prescribe their duties, subject to existing laws and appropriations made therefor. He shall act, and execute all contracts, in the name of the State of New Jersey. The term of office and employment of the present State Purchasing Agent is hereby terminated and the office declared vacant. All other officers and employees now employed by the State House Commission and/or the State Purchasing Agent under or by virtue of or pursuant to chapter sixty-eight of the laws of one thousand nine hundred and sixteen shall be transferred to the said State Purchasing Department to hold the same offices or employments so far as the same may be practicable, and his or her status shall be as one continuing in the employment of the State with respect of all his rights and privileges under the civil service of this State or under any pension law or

retirement system, or any other law, and shall retain all such rights and privileges as may be pertinent to his status in the service of the State.

7. The State Purchase Commissioner may maintain and operate warehouses, and other storage places, and arrange with vendors for whole or partial deliveries to such warehouses or other storage places or directly to using agencies, as he may deem necessary or expedient.

8. The State Purchase Commissioner may combine or otherwise reorganize any or all of the existing laboratories, warehouses, other storage places and office divisions under his jurisdiction and control, in the State Purchasing Department, as he may deem advisable, subject to the approval of the Governor.

9. A Standards and Specifications Committee is hereby created. It shall consist of three (3) members, to wit: the State Purchase Commissioner, the Chairman of the State Highway Commission or his nominee, and the Commissioner of Institutions and Agencies or his nominee.

Said committee is authorized and directed to determine and establish and from time to time change standards and specifications according to the needs of all using agencies as far as their needs are in common and for groups of using agencies or for single using agencies so far as their needs differ; to fix physical or chemical formulæ and otherwise to determine the service, quality, fitness and suitability of any or all articles tendered or furnished; to make avail for such purposes of the existing laboratories maintained by the State; to establish a list of other public or private laboratories whose tests and analyses will be accepted, and to fix the fees required to be paid for tests or analyses made in any State laboratory. The fees required by any State or other laboratory for any analysis or test made by any prospective vendor, prior to the award of a contract, shall be paid by such prospective vendor. Inspection analyses or tests shall be at the expense of the State.

Each using agency shall be afforded hearings from time to time under rules and regulations prescribed by the said committee, to assist in formulating and establishing common suitable standards and specifications so

far as practicable. Said using agencies or any of them, however, may veto any standard or specification covering any article required by it to the end that the actual needs of the several using agencies shall be determined by each of them. Every veto shall be accompanied by a written statement of the reasons therefor.

In the event that any using agency shall veto any standard or specification as determined by said committee, it shall forthwith formulate and submit to said committee such written standard or specification as it shall adjudge proper for its needs, and thereupon the same shall be deemed to be the standard or specification for such article so far as the said using agency is concerned, *provided, however*, that all articles are to be purchased, nevertheless, in accordance with the provisions and requirements of this act.

The State Purchase Commissioner shall certify all vetoes and the reasons accompanying the same to the Governor.

In the purchase of all articles, the standards and specifications determined and established as aforesaid shall be adhered to and complied with, and no deviation shall be made or permitted, without the written consent of the Governor in each instance first had and obtained.

Any using agency may reject or refuse to accept any article delivered or tendered which fails to comply with the standards and specifications applicable to such article and to such using agency.

10. Each using agency shall, at the times and in the form and for the periods prescribed by the State Purchase Commissioner, present to him detailed applications and schedules for all articles to be purchased. He shall thereupon make a requisition upon the State Comptroller for the amount of money estimated to be necessary to defray the cost thereof, indicating the appropriations and/or authorizations to spend funds against which the proposed purchases will be charged. Such requisitions shall be approved by the Comptroller unless it shall appear that the free balance of any appropriation and/or authorization to spend is not sufficient to cover the charge proposed against it, and in that event the requisition shall be rejected as to such charges only, and approved

as to all others. The State Purchase Commissioner shall then arrange such schedules or parts thereof as are included in or covered by the approved requisition, for purchase and contract, and for advertising when, as, and if required, in the manner best calculated to attract competition and advantageous prices. He shall prescribe the terms and conditions for delivery, inspection, payment and all other detail whatsoever. The bills for such purchases shall be apportioned by the State Purchase Commissioner among the requisitioning agencies in proportion to the purchases made therefor, and certified as apportioned to the State Comptroller, to be charged against the respective appropriations and/or authorizations to spend as indicated by the certificate of the State Purchase Commissioner and the accompanying requisitions. The bills therefor shall be paid by the State Treasurer upon the Comptroller's warrant.

11. The State Purchase Commissioner shall have power, by written order, to permit purchases to be made by any using agency directly whenever it shall appear to his satisfaction that by reason of the excess of transportation cost, a lower price with equal quality can be obtained by the using agency, or as in the case of fresh vegetables, fish, eggs, milk and the like perishable articles, where the using agencies are widely scattered and there are nearby local markets. Such permission shall be revocable and shall be issued for a fixed amount only and not in excess of one thousand dollars and prescribe the articles to be purchased, and shall be operative for a period not exceeding one month from the date of issue. At the expiration of such time, the authority shall lapse and an additional direct purchase order shall be requisite for any such purchases. Such using agencies receiving such permission shall report in writing each month to the State Purchase Commissioner their acts and expenditures under such orders with proper evidence that competition has been secured.

12. The State Purchase Commissioner shall award contracts or orders for purchase to the lowest responsible bidder submitting a proposal for the same.

13. The State Purchase Commissioner, in the performance of his duties under this act, shall be subject

to the provisions of all laws of this State applicable to the expenditure of public moneys not inconsistent herewith and he shall make an annual detailed report to the Governor of his operations under this act and render such other reports to the Governor as he shall demand from time to time.

14. All purchase contracts now outstanding and unfilled shall pass to and be completed by the State Purchase Commissioner. No new contracts or purchases shall be made except in accordance with the provisions of this act.

15. The proceedings of the State Purchase Commissioner under this act shall be open to the citizens of the State and all records, contracts, orders and schedules shall be public records, open to the inspection of any citizen or interested person, firm or corporation, at all reasonable hours.

16. Agreements for purchases may be made in the form of contracts for the furnishing of specific articles at fixed prices, or for the furnishing of articles according to the specifications at a fixed rate with provision for a minimum amount subject to increase at the same rate or for the furnishing of articles according to specifications without a stated minimum or maximum at a rate stated, commonly known as the "price agreement" at the discretion of the State Purchase Commissioner.

17. Nothing herein contained shall be construed to alter, amend or repeal any provision of any law of this State relating to the purchase or use of the products of the labor of the inmates of any charitable, reformatory or penal institution of this State.

18. Chapter sixty-eight, laws of one thousand nine hundred and sixteen, being an act entitled "An act concerning the purchase of all furniture, equipment, material, supplies, printing and stationery, for the use of the State and the State institutions, boards, commissions and officers," approved March sixteenth, nineteen hundred and sixteen, and any and all supplements thereto and amendments thereof, and all acts and parts of acts, inconsistent with this act, are hereby repealed, and this act shall take effect July first, one thousand nine hundred and thirty-one.

Approved April 21, 1931.

CHAPTER 184.

An Act creating the State House Commission and defining its duties and powers.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. There is hereby created the State House Commission which shall consist of five members, to wit, the Governor, who shall be the presiding officer, the State Treasurer, the Comptroller of the Treasury, the Chairman of the Senate Appropriation Committee, and the Chairman of the House of Assembly Appropriation Committee, or of the persons upon whom shall devolve by law the powers, duties and emoluments of said offices, respectively, for the time being, and who shall serve without pay in connection with all such duties as are prescribed in this act. The said State House Commission is authorized and empowered to employ a secretary and to define and fix the duties of such official.

2. The commission shall formulate and adopt rules of procedure for the government of the commission in exercising its powers and fulfilling its duties under this act.

3. All meetings of the commission shall be open to the public and all the business of the commission shall be transacted at public meetings held in the State House at such time and place as the commission shall prescribe. The secretary shall transmit to each member of the commission a copy of the minutes of each meeting within twenty-four hours after the adjournment thereof. The minutes of the commission shall be open to inspection by any citizen of the State at all times during business hours.

4. The commission shall allot the State emergency fund to such departments, agencies or activities of the State or in support of matters of public concern as in their discretion shall be appropriate. The commission shall examine requests for transfers of appropriations within departments and if approved shall certify the transfers to the Comptroller of the Treasury and to the department requesting the same.

5. The commission shall have custody of the State House and the adjacent public grounds and all buildings

owned by the State, including the State barracks, which are used by the departments, agencies and officials of the State in connection with the conduct of the State's business and shall lease from time to time such office space as may be required for the conduct of the State's business at such terms and under such conditions as it may deem appropriate.

6. The commission shall appoint a custodian of the State House and a superintendent of the State office building and State House annex and shall have authority to assign to these officials the care and custody of the barracks, such other public buildings as may be acquired for State use, and the public grounds surrounding the State House and State buildings. The custodian of the State House shall be paid a salary as fixed by the commission not to exceed five thousand (\$5,000) dollars per year. The said custodian and superintendent shall hold their said offices during good behavior and shall not be removed therefrom, except for good cause, after hearing. The commission shall employ such assistants and help as may be necessary, prescribe their duties and fix their compensation in accordance with the civil service schedules established for such positions. The custodian of the State House, subject to the State House Commission, shall have charge of the distribution and have bound volumes of laws, law and equity reports, minutes of the House of Assembly, Senate Journal, legislative documents and other documents published under the authority of the State and shall distribute the same as is now or shall be provided by law. None of the provisions of this act shall be deemed to terminate or in other manner affect or change the rights or tenure of present custodian or any other present employees of the State House Commission as provided in the civil service laws and all appointments and removals hereafter made shall be in accordance with an act entitled "An act regulating the employment, tenure and discharge of certain officers and employees of this State and of the various counties and municipalities thereof, and providing for a Civil Service Commission and defining its powers and duties, approved April tenth, one thousand nine hundred and eight," and the several supplements and amendments thereof.

7. The State House Commission shall require a report from the Comptroller of the Treasury and the Treasurer on or before the first day of September in each year as to the condition of the State's financial affairs, as of the close of the preceding fiscal year including the unexpended balances of appropriations and the general treasury balance of the preceding fiscal year; and or before the first day of December the State House Commission shall fix and determine an estimate of the amount of the unexpended balances to be in the general treasury and of anticipated revenues which shall be available for the support of or subject to appropriations for the fiscal year commencing on the first day of July next following and further shall on or before the fifteenth day of February next revise such estimates and deliver such revised estimates to the chairman of the joint committee on appropriations of the Legislature.

8. The State House Commission is hereby authorized and empowered to acquire any property by gift, grant, purchase, condemnation or in any other lawful manner in the name of and for the use of the State, for the purpose of the administration of the State's business in the City of Trenton, in accordance with appropriations made therefor when moneys are required for the purchase.

9. When any new building or buildings are to be erected or substantial alteration or enlargement of existing buildings used or to be used by the State or any of its departments or agencies, for office purposes in the City of Trenton the State House Commission shall have charge of such erection, alteration, enlargement or improvement but shall not incur any debt or obligations therefor until the proposed new building, alteration or enlargement work has been submitted to the Legislature with the estimated cost thereof, and such other detail as may fully inform the Legislature as to the proposed erection, alteration, enlargement or improvement and the same is concurred in by the action of both Houses of the Legislature.

10. No work shall be done or obligation of the State incurred for any new building, alteration, enlargement or improvement of existing buildings except all such work shall be under definite plans and specifications first submitted to and approved by the State House Commission; and no obligations shall in any manner be created

in connection with such improvement until an appropriation for the part of the work to be contracted for in the budget period has been made by the Legislature. In case the appropriation to be made for a project does not contemplate the completion of the entire project, all requests for such appropriations shall set forth a complete description of the whole project, and the estimated and detailed cost thereof, and shall so separately state the part of the project which has been completed, if any, the actual cost thereof, and the part remaining to be completed and the estimated cost thereof, and the part proposed to be completed by the appropriation requested, together with the estimated cost of such portion of the work. All such work shall be by contract authorized and signed by the State House Commission on behalf of the State. The architect shall be selected by the State House Commission and his compensation determined by it under an agreement in writing.

11. The State House Commission may employ such clerical, professional or technical help or assistants as from time to time it shall determine, the compensation for such services to be included in an appropriation made by the Legislature.

12. The concurrence of four of the members of said commission shall be necessary to the validity of all acts of said commission except allotments from the emergency fund which shall require unanimous consent.

13. Said commission shall make an annual detailed report of its actions and operations to the Legislature and render such other reports to the Legislature as it shall require from time to time. It shall have such other and further powers and perform such other and further duties as may be conferred or imposed on it from time to time.

14. Any acts or parts of acts inconsistent with this act are hereby repealed.

15. Nothing in this act contained shall be construed to affect the power and the duty to execute such laws as have been submitted to the people at a general election and have received the sanction of a majority of all the votes cast for and against it at such election, nor to affect the personnel of the State House Commission as constituted by any such law.

Approved April 21, 1931.

4. Refunds.

Whenever by the conversion of a lease into a grant, or by the execution of a new lease, the rental that has been paid in advance to the State for land under water under riparian lease is in excess of the amount actually accruing and owing thereunder, and the same has been carried to the credit of the trustees of the school fund, the State Treasurer, upon warrant of the Comptroller, is hereby authorized and directed at any time upon application of the persons entitled to the same, to repay such excess from the income of the school fund.

3. No money shall be drawn from the treasury except for objects as hereinabove specifically appropriated, and except such sums which are by law devoted to specific purposes, namely, State school tax, United States appropriation to Agricultural College, and taxes for the use of taxing districts in this State, moneys received by the State from the taxation of railroad and canal property, which may be by law apportioned to the various counties

Nothing in this act contained shall be construed to repeal any of the appropriations made in an act entitled "An act making appropriations for construction purposes," enacted at the present session of the Legislature.

4. In order that some degree of flexibility in appropriations may be had, any department or other State agency receiving an appropriation by any act of the Legislature may apply to the State House Commission for leave to transfer a part of any item granted to such department or agency to any other item in such appropriation. Such application shall only be made during the current year for which the appropriation was made, and if the State House Commission shall consent thereto, it shall notify the Comptroller thereof in writing, whereupon the Comptroller shall place the amount so transferred to the credit of the item so designated; *provided*,

however, that no sum appropriated for any permanent improvement shall be used for maintenance or for any temporary purpose.

5. The Comptroller of the Treasury is hereby authorized, empowered, directed, and it shall be his duty to make such correction of the title or text, or both, of an appropriation, necessary to make such appropriation available for the purpose or purposes of its intention. Such correction shall be by written ruling, reciting in appropriate details the facts thereof, and the reasons therefor, attested by the signature of said Comptroller and filed in the Department of the Comptroller of the Treasury as an official record thereof, and any action thereunder, including disbursements and the audit thereof, shall be legally binding and of full force and virtue.

6. No provision having been made in the appropriations for personal service carried in this act for salary or wage advancements during the fiscal year July first, one thousand nine hundred and thirty-one, to June thirtieth, one thousand nine hundred and thirty-two, no increase in the compensation of any officer or employee in the State service beyond the rate received by him or her as the incumbent of any State office or position at the end of the fiscal year one thousand nine hundred and thirty-one shall be made or authorized during said fiscal year for which appropriations are herein provided while he or she continues in such office or position. Promotions during the said fiscal year shall be made only for the purpose of filling existing or occurring vacancies or new positions specifically provided in this act. Promotions shall not be authorized or made as a means of compensation advancement contrary to the policy herein expressed. The incumbents of offices or positions for which line item appropriations are made shall not receive compensation in excess of the amounts therein provided.

7. The Comptroller of the Treasury is hereby empowered, and it shall be his duty in the disbursement of funds available for the general uses of the State, to first provide for the maintenance of the administration of the government of the State, and of its courts, and of its penal, correctional and charitable institutions, and to

apply the remainder of such available funds in such manner and to such purpose for which appropriations may have been made as in his judgment may best conserve the interest of the State.

8. The State House Commission is hereby empowered, notwithstanding any other provision of the law, to transfer from the various appropriations for construction, reconstruction, additions to and betterments of State building and appurtenances thereto, herein contained, to the appropriation for the division of architecture and construction of the Department of Institutions and Agencies a sufficient sum to pay for the cost of all architectural work, superintendence and other expert services in connection with such work.

9. The Comptroller of the Treasury may, upon application therefor, allot from appropriations made to any official, department, commission or board a sum, not in excess of three hundred dollars, to establish a petty cash fund, for the payment of expenses not in excess of five dollars. The allotment thus made by the Comptroller shall be paid to such person as shall be designated as the custodian thereof by the official, department, commission or board making request therefor, and the money thus allotted shall be disbursed by such custodian, who shall require from all persons obtaining money from said fund a receipt therefor. Such receipts shall by such custodian be forwarded monthly to the Comptroller of the Treasury for audit, and the Comptroller of the Treasury shall likewise make regulations governing disbursements from petty cash funds.

10. The Comptroller of the Treasury is hereby empowered, and it shall be his duty in the disbursement of funds appropriated for the maintenance and operation of any department or branch thereof, the duties or responsibilities of which are or may hereafter be transferred to any other department, to transfer such appropriations to such department as shall be charged with the responsibility of administering the functions of such department so transferred as aforesaid.

11. In order that the Tax Department, created under Senate Bill 244, shall be in receipt of the necessary funds

to function as contemplated by the Legislature, the State House Commission is hereby vested with authority upon application of the Tax Department to divide, segregate, apportion, limit and transfer the whole or any part of any appropriation made herein to another department, board or officer for similar or kindred purposes, to the Tax Department to the extent reasonably necessary to enable the said department to function as contemplated by the Legislature. All action taken by the State House Commission, pursuant to this authorization, shall be certified forthwith to the Comptroller, who shall thereupon place the amount so transferred to the credit of the Tax Department and make such other entries as will truly reflect the action taken by the State House Commission. Said commission shall also forthwith certify such action to each department, board or officer whose appropriation under this act shall in any wise be affected by such action.

12. This act shall take effect on the first day of July, one thousand nine hundred and thirty-one.
