2015-2016 School Performance Reports

The New Jersey Department of Education (NJDOE) presents the 2015-16 School Performance Reports. These reports are designed to inform parents, educators and communities about how well a school is performing and preparing its students for college and careers. In particular, the School Performance Reports seek to:

- **Focus** attention on metrics that are indicative of college and career readiness.
- **Benchmark** a school's performance against other schools that are educating similar students, against district and state-wide outcomes, and against state targets to illuminate and build upon a school's strengths and identify areas for improvement.
- **Improve** educational outcomes for students by providing both longitudinal and growth data so that progress can be measured as part of an individual school's efforts to engage in continuous improvement.

While the New Jersey School Performance Reports seek to bring more information to educators and stakeholders about the performance of schools, they do not seek to distill the performance of schools into a single metric, a single score, or a simplified conclusion. Instead, the intention is that educators and stakeholders will engage in meaningful conversations about the full range of the data presented. While the School Performance Reports bring attention to important student outcomes, the NJDOE does not collect data about other essential elements of a school, such as the provision of opportunities to participate and excel in extracurricular activities; the development of non-cognitive skills; the pervasiveness of a positive school culture or climate; or the attainment of other employability and technical skills, as many of these data are beyond both the capacity and resources of schools to measure.

NJDOE welcomes feedback on the school performance reports: Survey
If you have any questions regarding Performance Reports, please contact njsmart@pcgus.com
This graph displays the percentages of students by ethnic/racial subgroup defined by the ESEA Waiver.

This table presents the main languages primarily spoken by students in their home.

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.

* 2013-2014 and 2014-2015 enrollment data reflects students who were 'on roll' in October of each school year. 2015-2016 enrollment data reflects students who were 'on roll' at the end of the school year.
The Academic Achievement section measures the content knowledge that students have in English Language Arts/Literacy (ELA/L) and Mathematics as demonstrated in Partnership for Assessment of Readiness for College and Careers (PARCC) assessments. The PARCC assessment has five Performance Levels. Students performing at levels 4 and 5 (met or exceeded expectations) have demonstrated readiness for the next grade level/course, and are on track for college and careers.

This section also measures Science as demonstrated in NJ ASK Science assessments.

### Met/Exceeded Expectations

This table presents the percentage of students who met or exceeded expectations as well as compares the school's performance to schools across the district (with more than 5 schools) and the state.

<table>

### Mathematics and English Language Arts/ Literacy

This table presents the total number of valid test scores, the percentage of students who met or exceeded expectations/standards and statewide percentiles (a comparison between the school’s performance and schools across the state) as well as the participation rates for the school and by ethnic/racial subgroup and special population. The participation goals is established as 95% by the United States Department of education. ¥= Met participation rate(participation averaging applied)

- 57% in Grade 4 (2015-2016)
- 58% in Grade 4 (2014-2015)
- 50% in Grade 5 (2014-2015)
- 72% in Grade 5 (2015-2016)

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
The Academic Achievement section also measures the content knowledge that students have in science as demonstrated in NJASK Science assessment. The assessment has three proficiency categories. Students performing at "Proficient" and "Advanced Proficient" have demonstrated readiness for the next grade-level/course.

### NJASK Results Science - Grade Level 04

This table presents the percentage of students in each proficiency category, as measured by NJASK, for the school and state and by ethnic/racial subgroup and special population.

### NJASK Proficiency Trends Science - Grade Level 04

This graph displays the percentage of students who scored in each category for the past three school years.
The national assessment of education progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth- and twelfth-grade students in subjects such as reading, mathematics, science and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight reading, math and science scores for New Jersey which are the last scores published.

For subgroup outcomes, visit:
- Reading Grade 4: [http://www.nj.gov/education/pr/1415/naep/naep4read.html](http://www.nj.gov/education/pr/1415/naep/naep4read.html)

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in Language Arts Literacy and in grades 4 through 7 in Math when compared to other students with a similar test score history. Low Growth is defined as a Student Growth Percentile of less than 35, Typical Growth between 35-65 and High Growth is a score higher than 65. A short video explaining the methodology can be found here: [http://www.state.nj.us/education/njsmart/performance/](http://www.state.nj.us/education/njsmart/performance/)

**Met/ Exceeded Expectations**

This table presents the schoolwide median growth score for all students in the school as well as the median for the district and the state.

**School Growth Indicators**

<table>
<thead>
<tr>

2015-2016 School Performance Reports
The New Jersey Department of Education (NJDOE) presents the 2015-16 School Performance Reports. These reports are designed to inform parents, educators and communities about how well a school is performing and preparing its students for college and careers. In particular, the School Performance Reports seek to:

- **Focus** attention on metrics that are indicative of college and career readiness.
- **Benchmark** a school's performance against other schools that are educating similar students, against district and state-wide outcomes, and against state targets to illuminate and build upon a school's strengths and identify areas for improvement.
- **Improve** educational outcomes for students by providing both longitudinal and growth data so that progress can be measured as part of an individual school's efforts to engage in continuous improvement.

While the New Jersey School Performance Reports seek to bring more information to educators and stakeholders about the performance of schools, they do not seek to distill the performance of schools into a single metric, a single score, or a simplified conclusion. Instead, the intention is that educators and stakeholders will engage in meaningful conversations about the full range of the data presented. While the School Performance Reports bring attention to important student outcomes, the NJDOE does not collect data about other essential elements of a school, such as the provision of opportunities to participate and excel in extracurricular activities; the development of non-cognitive skills; the pervasiveness of a positive school culture or climate; or the attainment of other employability and technical skills, as many of these data are beyond both the capacity and resources of schools to measure.

NJDOE welcomes feedback on the school performance reports: [Survey](#)
If you have any questions regarding Performance Reports, please contact [njsmart@pcgus.com](mailto:njsmart@pcgus.com)
This graph displays the percentages of students by ethnic/racial subgroup defined by the ESEA Waiver.

This graph displays the percentage of students by gender for the past three school years.

This table presents the main languages primarily spoken by students in their home.

This table presents the enrollment count of students by grade for the past three school years. Note: "UG" represents the count of students who were "on roll" but are educated in ungraded classrooms.

This graph displays the percentages of students by special population (Students with Disabilities, Economically Disadvantaged, and English Language Learners) for the past three school years.

* 2013-2014 and 2014-2015 enrollment data reflects students who were "on roll" in October of each school year. 2015-2016 enrollment data reflects students who were "on roll" at the end of the school year.

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
The Academic Achievement section measures the content knowledge that students have in English Language Arts/Literacy (ELA/L) and Mathematics as demonstrated in Partnership for Assessment of Readiness for College and Careers (PARCC) assessments. The PARCC assessment has five Performance Levels. Students performing at levels 4 and 5 (met or exceeded expectations) have demonstrated readiness for the next grade level/course, and are on track for college and careers.

### Met/Exceeded Expectations

This table presents the percentage of students who met or exceeded expectations as well as compares the school's performance to schools across the district (with more than 5 schools) and the state.

<table>
<thead>
<tr>

PARCC Math Performance Trends

This graph presents the percentage of students who met or exceeded expectations for the past two years.

- Algebra II: 43% (2015-2016)

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
The Academic Achievement section also measures the content knowledge that students have in biology as demonstrated in End-of-Course Biology assessment. The assessment has three proficiency categories. Students performing at “Proficient” and “Advanced Proficient” have demonstrated readiness for the next grade-level/course.

### Proficiency Outcomes - Biology

This table presents the percentage of students in each proficiency category for the school and state and by ethnic/racial subgroup and special population.

AP/ IB Test Performance

This graph compares the percentage of all AP/IB tests with scores of AP >= 3 or IB >= 4 for students enrolled in the school and across the state.

- Percent of AP Tests >=3 or IB Test >=4:
  - School Avg: 87.5%
  - State Avg: 71.8%

- Percent of Scores in AP >=3 or IB >=4 in English, Math, Social Studies or Sciences:
  - School Avg: 86.6%
  - State Avg: 69.4%

AP/ IB Courses Offered

This table presents the count of students enrolled in each AP/IB course and the count of tests taken in each AP/IB course. The last row provides the count of scores that met or exceeded the benchmark. For AP/IB Courses Offered, please note a student does not have to take a course to take the test OR take the test when enrolled in the course.

Absenteeism

The graph displays the percentage of students by five ranges of absences. An absence is defined as being ‘not present’ and includes both excused and unexcused absences.

Chronic Absenteeism Trend

This graph presents the percentage of the enrolled students who were chronically absent for the past three years at the school.

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
This table presents the “4-year Adjusted Graduation Rate” and statewide percentiles (a comparison between the school’s rate and schools across the state) for the school and by ethnic/racial subgroup and special population. The table also provides the state target. The state target is established as 81% for the 2015-2016 school year by the New Jersey Department of Education.

# Length of School Day

This table presents the amount of time a school is in session for a typical student on a normal school day.

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>6 Hrs. 52 Mins.</th>
</tr>
</thead>
</table>

# Instructional Time

This table presents the amount of time that a typical student is engaged in instructional activities under the supervision of a certified teacher. Shared Time students are educated elsewhere than at the school (Ex. vocational schools).

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>5 Hrs. 46 Mins.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Time</td>
<td>2015-16</td>
<td>5 Hrs. 46 Mins.</td>
</tr>
<tr>
<td>Shared Time</td>
<td>2015-16</td>
<td>3 Hrs. 0 Mins.</td>
</tr>
</tbody>
</table>

# Student to Staff Ratio

This table presents the count of students per faculty member or administrator in the school. All staff are counted in full-time equivalents.

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>12:1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Faculty</td>
<td>2015-16</td>
<td>12:1</td>
</tr>
<tr>
<td>Administrator</td>
<td>2015-16</td>
<td>497:1</td>
</tr>
</tbody>
</table>

# Student Suspension Rate

This table presents the percentage of students who were suspended one or more times during the school year.

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>5.8%</th>
</tr>
</thead>
</table>

# Student Expulsions

This table presents the number of students who were expelled from the school during the school year.

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>0</th>
</tr>
</thead>
</table>

# Faculty Attendance

This table presents the percentage of days the school faculty were present during the school year.

<table>
<thead>
<tr>
<th>School</th>
<th>2015-16</th>
<th>97%</th>
</tr>
</thead>
</table>

2015-2016 School Performance Reports
The New Jersey Department of Education (NJDOE) presents the 2015-16 School Performance Reports. These reports are designed to inform parents, educators and communities about how well a school is performing and preparing its students for college and careers. In particular, the School Performance Reports seek to:

- **Focus** attention on metrics that are indicative of college and career readiness.
- **Benchmark** a school's performance against other schools that are educating similar students, against district and state-wide outcomes, and against state targets to illuminate and build upon a school's strengths and identify areas for improvement.
- **Improve** educational outcomes for students by providing both longitudinal and growth data so that progress can be measured as part of an individual school's efforts to engage in continuous improvement.

While the New Jersey School Performance Reports seek to bring more information to educators and stakeholders about the performance of schools, they do not seek to distill the performance of schools into a single metric, a single score, or a simplified conclusion. Instead, the intention is that educators and stakeholders will engage in meaningful conversations about the full range of the data presented. While the School Performance Reports bring attention to important student outcomes, the NJDOE does not collect data about other essential elements of a school, such as the provision of opportunities to participate and excel in extracurricular activities; the development of non-cognitive skills; the pervasiveness of a positive school culture or climate; or the attainment of other employability and technical skills, as many of these data are beyond both the capacity and resources of schools to measure.

NJDOE welcomes feedback on the school performance reports: **Survey**
If you have any questions regarding Performance Reports, please contact njsmart@pcgus.com
This graph displays the percentages of students by ethnic/racial subgroup defined by the ESEA Waiver.

This table presents the main languages primarily spoken by students in their home.

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.

* 2013-2014 and 2014-2015 enrollment data reflects students who were ‘on roll’ in October of each school year. 2015-2016 enrollment data reflects students who were ‘on roll’ at the end of the school year.
The Academic Achievement section measures the content knowledge that students have in English Language Arts/Literacy (ELA/L) and Mathematics as demonstrated in Partnership for Assessment of Readiness for College and Careers (PARCC) assessments. The PARCC assessment has five Performance Levels. Students performing at levels 4 and 5 (met or exceeded expectations) have demonstrated readiness for the next grade level/course, and are on track for college and careers.

This section also measures Science as demonstrated in NJ ASK Science assessments.

### Met/Exceeded Expectations

This table presents the percentage of students who met or exceeded expectations as well as compares the school's performance to schools across the district (with more than 5 schools) and the state.

<table>
<thead>
<tr>
<th>Academic Achievement</th>
<th>Schoolwide Performance</th>

### Mathematics and English Language Arts/ Literacy

This table presents the total number of valid test scores, the percentage of students who met or exceeded expectations/standards and statewide percentiles (a comparison between the school’s performance and schools across the state) as well as the participation rates for the school and by ethnic/racial subgroup and special population. The participation goals is established as 95% by the United States Department of education. $\checkmark$ = Met participation rate(participation averaging applied)

The Academic Achievement section also measures the content knowledge that students have in science as demonstrated in NJASK Science assessment. The assessment has three proficiency categories. Students performing at "Proficient" and "Advanced Proficient" have demonstrated readiness for the next grade-level/course.

This table presents the percentage of students in each proficiency category, as measured by NJASK, for the school and state and by ethnic/racial subgroup and special population.

This graph displays the percentage of students who scored in each category for the past three school years.
The national assessment of education progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth- and twelfth-grade students in subjects such as reading, mathematics, science and writing. The reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight reading, math and science scores for New Jersey which are the last scores published.

For subgroup outcomes, visit:
- Reading Grade 4: [http://www.nj.gov/education/pr/1415/naep/naep4read.html](http://www.nj.gov/education/pr/1415/naep/naep4read.html)

# State of New Jersey

### MIDDLESEX

**HIGHLAND PARK BORO**

**HIGHLAND PARK MIDDLE SCHOOL**

330 WAYNE STREET

HIGHLAND PARK, NJ 08904

**Grade Span 06-08**
This section of the performance report presents data about student growth, utilizing the Student Growth Percentile Methodology (SGP). SGP creates a measure of how students progressed in grades 4 through 8 in Language Arts Literacy and in grades 4 through 7 in Math when compared to other students with a similar test score history. Low Growth is defined as a Student Growth Percentile of less than 35, Typical Growth between 35-65 and High Growth is a score higher than 65. A short video explaining the methodology can be found here: http://www.state.nj.us/education/njsmart/performance/

**Met/ Exceeded Expectations**

This table presents the schoolwide median growth score for all students in the school as well as the median for the district and the state.

<table>

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
Absenteeism

The graph displays the percentage of students by five ranges of absences. An absence is defined as being 'not present' and includes both excused and unexcused absences.

Visual and Performing Arts

This graph on the left displays the percentages of students who were enrolled in at least one of the four arts disciplines within the school and across the state. The graphs on the right show the percentage of students who were enrolled in any Visual and Performing Arts classes within the school and across the state.

**MUSIC**

- School: 76%

</thead>
</table>

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
The New Jersey Department of Education (NJDOE) presents the 2015-16 School Performance Reports. These reports are designed to inform parents, educators and communities about how well a school is performing and preparing its students for college and careers. In particular, the School Performance Reports seek to:

- **Focus** attention on metrics that are indicative of college and career readiness.
- **Benchmark** a school's performance against other schools that are educating similar students, against district and state-wide outcomes, and against state targets to illuminate and build upon a school's strengths and identify areas for improvement.
- **Improve** educational outcomes for students by providing both longitudinal and growth data so that progress can be measured as part of an individual school's efforts to engage in continuous improvement.

While the New Jersey School Performance Reports seek to bring more information to educators and stakeholders about the performance of schools, they do not seek to distill the performance of schools into a single metric, a single score, or a simplified conclusion. Instead, the intention is that educators and stakeholders will engage in meaningful conversations about the full range of the data presented. While the School Performance Reports bring attention to important student outcomes, the NJDOE does not collect data about other essential elements of a school, such as the provision of opportunities to participate and excel in extracurricular activities; the development of non-cognitive skills; the pervasiveness of a positive school culture or climate; or the attainment of other employability and technical skills, as many of these data are beyond both the capacity and resources of schools to measure.

NJDOE welcomes feedback on the school performance reports: [Survey](#)

If you have any questions regarding Performance Reports, please contact [njsmart@pcgus.com](mailto:njsmart@pcgus.com)
This graph displays the percentages of students by ethnic/racial subgroup defined by the ESEA Waiver.

This graph displays the percentage of students by gender for the past three school years.

This table presents the enrollment count of students by grade for the past three school years. Note: "UG" represents the count of student who were 'on roll' but are educated in ungraded classrooms.

This graph displays the percentages of students by special population (Students with Disabilities, Economically Disadvantaged, and English Language Learners) for the past three school years.

This table presents the main languages primarily spoken by students in their home.

* 2013-2014 and 2014-2015 enrollment data reflects students who were ‘on roll’ in October of each school year. 2015-2016 enrollment data reflects students who were ‘on roll’ at the end of the school year.

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.

## Student to Staff Ratio

This table presents the count of students per faculty member or administrator in the school. All staff are counted in full-time equivalents.

<table>
<thead>
<tr>
<th>Year</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>2015-16</td>
<td>Faculty</td>
</tr>
<tr>
<td></td>
<td>Administrator</td>
</tr>
</tbody>
</table>

## Student Suspension Rate

This table presents the percentage of students who were suspended one or more times during the school year.

<table>
<thead>
<tr>
<th>Year</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>2015-16</td>
<td>0.0%</td>
</tr>
</tbody>
</table>

## Student Expulsions

This table presents the number of students who were expelled from the school during the school year.

<table>
<thead>
<tr>
<th>Year</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>2015-16</td>
<td>0</td>
</tr>
</tbody>
</table>

## Faculty Attendance

This table presents the percentage of days the school faculty were present during the school year.

<table>
<thead>
<tr>
<th>Year</th>
<th>School</th>
</tr>
</thead>
<tbody>
<tr>
<td>2015-16</td>
<td>96%</td>
</tr>
</tbody>
</table>

* An "S" indicates that data doesn't meet suppression rules and an "N" indicates that there's no data to display.
