The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school’s test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.
- The arrow buttons at the top left of the screen can be used to move between pages of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section shows performance on the NJASK science test which measures students' ability to recall information and to solve problems by applying science concepts. The assessment is given to students in grades 4 and 8 and has three proficiency categories. Students performing at "Proficient" and "Advanced Proficient" have demonstrated readiness for the next grade-level/course.

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels:

Low Growth: Less than 35

Typical Growth: Between 35 and 65

High Growth: Greater than 65

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:

<http://www.state.nj.us/education/njsmart/performance/>

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This table also shows whether the school and each student group met the *ESSA* accountability target of 40 for the 2016-17 school year.

This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

Days Absent

The graph displays the percentage of K-12 students schoolwide by the number of days they were absent during the school year. An absence is defined as being 'not present' and includes both excused and unexcused absences.

Chronic Absenteeism by Grade

This graph shows the percentage of students in the school and across the state who were chronically absent for each grade level. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

This section contains information about staff that are assigned to the school and district. Here is an explanation of some of the **key terms used in the staff section**:

Faculty: All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

Full-Time Equivalent: In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

This table shows information about experience for teachers assigned to this school and across the state.

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	81.4	17.5%
Mathematics Proficiency	86.1	17.5%
English Language Arts Growth	50.9	25.0%
Mathematics Growth	59.8	25.0%
Chronic Absenteeism	82.1	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		69.3
Summative Rating: Percentile rank of Summative Score		79.2
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile		No

** Indicator scores are only calculated for inclusion in ESSA accountability if data is available for at least 20 students.

Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 Staff and Professional Learning:	<p>The school calendar has five full days for in-house staff development. These days provide the staff with professional development opportunities to improve their classroom instruction. Besides these full-day programs, the staff is encouraged to participate in workshops and seminars throughout the county and state. We also collaborate with other school districts with regard to professional development programs.</p>
 Student Supports and Services:	<p>Our school counselor is available to provide academic/emotional support to our students. In addition to group sessions, the counselor provides character education lessons to students in their classrooms. Our ESL teacher provides language arts replacement for those who need assistance with learning the English language. We also have basic skills instruction in reading, writing, and math, and a program for our gifted students. Children with special needs are served through specialized programs.</p>
 Student Health and Wellness:	<p>The school nurse (and select students) serve on a committee that meets yearly with our food service provider to provide input to help improve school lunch offerings. She also works with the middle school nurse and borough health department to ensure that students are up-to-date with vaccinations, health plans are current, and all health office procedures are followed. A before-school breakfast program is offered through our food service provider for those students who wish to participate.</p>
 Parent and Community Involvement:	<p>The PTO provides various academic and fun activities for the students and materials for the teachers. Teachers can put in a grant request at the end of each year for materials to benefit their classrooms/students. Through one of these grants, the principal and guidance counselor were able to secure a “buddy bench” for the students. The Municipal Alliance and rec. department provide many activities for our students and their parents. Additionally, the LPPD are frequent visitors to our school.</p>

Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Teachers

The District worked with the United Way to conduct a climate survey and analyze the data. During the last administration of the surveys, the data showed that both students and staff enjoyed coming to school/work and there was a feeling of safety amongst both staff and students. Parents responded favorably to their experiences with teachers, administrators, and other school staff members.

Facilities:

This summer the school gained two new classrooms due to a construction project. Both a large group and small group instruction room were added. In addition to these rooms having air conditioning, air conditioning was also added to our gymnasium. We have a Mac lab where students receive instruction once a week in their computer classes.

Other Information:

The Lincoln Park Elementary School serves pre-k – 4th grade students. We take pride in the fact that we offer a wide variety of opportunities to ensure the social, emotional, and academic development of our children. Our students are taught in traditional self-contained classrooms, and our pre-k program includes services for our preschool disabled population. At LPES we work together as a team—from our secretaries who tirelessly assist with myriad inquiries; to our custodians who always lend a helping hand; to our teachers who constantly go above and beyond to provide our students with enriching learning experiences, serve our community with pride and dedication, and are committed to excellence. Each month, two students from each grade level who exhibit a particular character trait are selected and recognized as our “Students of the Month.” The staff and student climate team works hard each year to help improve the climate/culture of our school. We promote a school climate based on acceptance and respect. Data such as test scores, STAR assessments, report cards, formal and informal assessments, attendance records, and teacher feedback is continually analyzed to determine areas of strength and weakness and to identify future directions for our school. We work closely with the middle school to ensure the continuity of the educational program, as well as to ensure the quality of the District’s curriculum, goals, and objectives. Our staff is enthusiastic and highly motivated and work together to maintain an environment conducive to academic excellence. Emphasis is placed on continual growth and development, and our faculty takes advantage of many professional development opportunities. Teachers consistently look for strategies and new instructional methodology to better meet the needs of each and every unique child.

The **2016-17 School Performance Reports** are designed to share school and district information collected by the New Jersey Department of Education directly with parents, educators, and communities. The Department believes that the greatest potential to improve school performance and student outcomes is through parents, educators, and community members working together. These reports seek to make that process easier by providing information that can help people to:

- **Learn more:** The School Performance Reports contain a wealth of data, going far beyond a school's test scores to include information about the staff working in a school, student discipline rates, and the sports and clubs offered.
- **Ask questions:** These reports can help start a conversation, but they cannot answer all the questions you might have about schools in your community. Use the contact information provided to engage with faculty and administrators at your schools to ask about the data you see in these reports.
- **Get involved:** Schools need help from parents and communities to help students succeed. Contact your school to find out about school board meetings or parent and community groups.

Navigating through the reports:

- Download this report to a PDF by clicking the  icon at the top of the page.
- Search for specific text or words in these reports by using the search box at the top of the page.
- The menu bar at the top of the page or the table of contents at the left of the screen can be used to move between sections of the report.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the *Partnership for Assessment of Readiness for College and Careers* (PARCC) assessment for the school and each student group. The PARCC assessment has five performance levels, where levels 4 and 5 (met or exceeded expectations) indicate students have demonstrated readiness for the next grade level/course and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the accountability proficiency rate, the annual target, and whether the school or student group met its annual target as required by the *Every Student Succeeds Act* (ESSA) accountability. Student groups with the annual target section grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

This section of the performance report shows information on student growth which measures how much students are learning each year. Each student receives a **Student Growth Percentile (SGP)** for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in the prior year.

A student's **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list. Watch a short video that explains how **median Student Growth Percentile (mSGP)** is calculated here:
<http://www.state.nj.us/education/njsmart/performance/>

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts/Literacy (ELA) and Mathematics for the school and each student group with comparisons to the district and the state. This table also shows whether the school and each student group met the *ESSA* accountability target of 40 for the 2016-17 school year.

This section shows information about student absences which provides important information about a school's culture and climate. In addition, research shows that student absences impact a child's ability to succeed in school. The New Jersey Department of Education selected chronic absenteeism as its measure of school quality and student success for the *ESSA* accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, excused, unexcused or for disciplinary action, is considered absent unless permitted by statute or regulation.

Chronic Absenteeism

This table shows the percentage of students in grades K-12 in the school and each student group who were chronically absent. This table also shows whether the school and each student group met the *ESSA* accountability targets for 2016-17.

Student Group	% Chronically Absent	2016-17 Target	Met 2016-17 Target

Technology Readiness

This table shows information that was collected through the optional NJTRAx survey to determine a school's technology readiness. The student to device ratio shows the number of students for every computer or tablet in the school. The internet speed is the internet bandwidth per 1000 students enrolled in the district measured in megabits per second. The connectivity between schools is a school's LAN network architecture. The NJTRAx survey is optional for schools, so data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device (BYOD) policy may have appear to have a very low Student to Device ratio due to this policy decision.

Faculty: All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

Full-Time Equivalent: In calculations, staff members are weighted based on the percentage of their time that they are assigned to a school or district. For example – a teacher assigned to a school half time would be weighted 50% in calculations, but a teacher assigned to a school full time would be weighted 100% in calculations.

Teachers – Experience

Accountability Indicator Scores and Summative Rating

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of comprehensive support. This table shows the indicator scores for each indicator included in the accountability system and the weights that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative rating below the 5th percentile or high schools with a 4-year graduation rate that is less than or equal to 67% are identified for Comprehensive Support. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Indicator Score	Indicator Weight
English Language Arts Proficiency	92.4	17.5%
Mathematics Proficiency	71.5	17.5%
English Language Arts Growth	81.8	25.0%
Mathematics Growth	93.4	25.0%
Chronic Absenteeism	74.4	15.0%
Progress Towards English Language Proficiency (coming 2018)	N/A	N/A
Summative Score: Sum of all indicator scores multiplied by indicator weights		83.6
Summative Rating: Percentile rank of Summative Score		94.0
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile		No

Accountability Summary by Student Group

New Jersey has developed a school accountability system as required by the *Every Student Succeeds Act (ESSA)* to identify schools that are in need of Targeted Support. Any student group where the summative score would be in the bottom 5% of schools (see previous page) is identified for Targeted Support for a Low-Performing Student Group. If any student group is identified for Targeted Support, this will be noted in the Schoolwide row in the table. Schools in which one or more student groups miss annual targets for all indicators two years in a row are identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups miss annual targets for all indicators are noted to be At Risk for being identified for Targeted Support for the 2017-18 school year. Annual targets for proficiency and graduation rate are set based on a school or student group’s performance in 2015-16. The target for chronic absenteeism is the statewide average for all students. For more details on accountability targets, see these [accountability resources](#).

 Courses, Curriculum, Instruction:	<p>Grades 6 - 8 are departmentalized in heterogeneously grouped classes, with the exception of advanced math and algebra. The 5th grade is taught in a self-contained setting, although students change classes for science and social studies as an introduction to middle school. All subjects are taught in 58 minute blocks on an A/B rotating schedule for all courses, except for the core subjects, which meet daily. Tablets are assigned in our 1:1 program, allowing access to all textbook electronically.</p>
 Sports and Athletics:	<p>Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Cross-Country (Boys & Girls), Field Hockey (Girls), Soccer (Boys & Girls), Softball (Girls)</p> <p>In addition to the above mentioned extra-curricular sports offered in the Gryphons Sports program, cheerleading is also offered during basketball season. Performing alongside our cheerleaders is a Gryphon mascot, occupied by students in grades 6 - 8. Boys as well as girls are eager to perform as the Gryphon mascot during home games.</p>
 Clubs and Activities:	<p>A number of clubs are available for the students of LPMS. The drama club puts on a musical each spring and is available to students in grades 5 - 8. Indoor soccer is a club that takes place each spring for students of all grades. The broadcast club records the daily announcements and broadcasts the daily via YouTube. We also offer a yearbook club, jazz band, select choir, Student Council, Green Team, Maker-Space Club and Climate Committee.</p>

 Staff and Professional Learning:	<p>The school calendar has five full-days days for in house staff development. These days provide the staff with professional development opportunities to improve their classroom instruction. Besides these full-day programs the staff is encouraged to participate in workshops and seminars throughout the County and State. We also collaborate with other school districts in professional development programs.</p>
 Student Supports and Services:	<p>The guidance counselor provides support for both academic and emotional issues with which students cope. Guidance is available throughout the day and helps to implement the extended homeroom character education program, in conjunction with the health & PE department. Teachers provide additional assistance for students whenever possible: before and after school hours.</p>
 Student Health and Wellness:	<p>The school nurse serves on a committee that meets yearly with the food service provider to improve school lunches. She also works with the borough health department to provide supplemental health instruction programs and workshops for the student of LPMS. She also supports the PE/health teachers as they provide health instruction throughout the year.</p>
 Parent and Community Involvement:	<p>LPMS partners with the borough police, recreation department and Municipal Alliance to provide many opportunities for our students and their parents. The police work with the school to ensure the best security is in place. The LP Schools PTO works with the middle school to improve the educational experience for students and teachers. Whenever possible, programs for parents are provided with the help of these groups.</p>

LPMS worked with the United Way to administer a climate survey and analyze the data. Last administered in 2015, the data showed both students and staff are happy coming to school at LPMS and there is a feeling of safety among both students and teachers. Parents responded favorably to their experiences with teachers and administrators.

Facilities:

Lincoln Park Middle School features the Rose M Patania Media Center which houses the Maker-Space lab. It is adjacent to the STEM lab & the computer lab where students gain experience with desktops, supplementing their daily use of tablets. The band room includes a soundproof room where small group lessons are provided. The gym boasts a forty-foot rock traverse wall used in our PE classes.

Other Information:

1.Lincoln Park Middle School is an educational community that serves approximately 400 students in grades five through eight and pre-K. We challenge our students with a curriculum that is academically rigorous in an environment that is nurturing and supportive. We also offer our students a wide variety of learning opportunities during their middle school experience. LPMS is divided into houses, ACC, SEC, PAC12 & BIG10. This encourages friendly competition while fostering a sense of community across grade levels via our annual House Day and Field Day. Our fundraisers and pep rallies are run through the houses as well. Every classroom has an interactive white board and has full Wi-Fi for our 1:1 initiative. Students in our 6th, 7th and 8th grades are able to bring a school-issued tablet home with them. Our 5th graders' tablets remain in school. Through continuous and open communication among the staff, we are able to keep abreast of all of our students' needs, both academically and emotionally. We also present lessons or programs addressing substance abuse awareness, anti-bullying and violence, as well as tolerance activities. Every Thursday and Friday our teachers provide a 40 minute extended HR program for students, where they can discuss their life experiences & perceptions and complete character building lessons. Cooperative efforts with our community enable our school to keep our students involved in the world around them. Our band and chorus perform at community events beyond our school. Our broadcast crew records the daily announcements and share them with the larger community via the internet. The broadcast crew also works with our climate committee to produce PSA's for our students. The staff of LPMS strives to create an environment that allows children to recognize and achieve their full potential. We work hard to teach our students to respect diversity and the rights of others, preparing them to become active citizens in a rapidly changing society.
