The common council or other board or body having control of the finances of such city shall provide each year in the tax levy for the payment of the interest falling due in that year upon any temporary loan bonds or certificates or permanent bonds so issued, and shall also provide for a sinking fund sufficient to meet and pay all permanent bonds issued under the provisions of this act at maturity.

7. This act shall not be construed to repeal, modify, supersede or take the place of any law or laws now in force, providing for a capital fund or funds for the opening, widening, vacating or otherwise improving of streets and highways, but is intended to be in addition thereto, and not to prevent or interfere with the raising or providing of capital fund or funds for street improvements and the making of street improvements under any law or laws now in force as well as under the provisions of this act.

An Act authorizing boroughs of this State to sell any public utility plant or system owned by such borough when the same cannot be operated other than at a loss to the borough.

Whenever a sewer plant, water plant, electric light plant, or other public utility plant or system owned by any borough in this State, and which is operated by said borough at a loss, and in the judgment of the council of said borough cannot be operated upon a profitable basis, and the benefits of such plant or system can be secured to the inhabitants of said borough by a sale of such plant or system to an individual or private corporation, it shall be lawful for the council to make sale of such plant or system for such price and upon such terms as said Council may determine, provided such sale shall be authorized by the legal voters of said borough. The Council shall, by resolution, determine that it is advisable to sell said plant, and fix the price and terms of such sale, and submit the same to the voters of the borough at a special election, of which special election and the object thereof at least two weeks' notice shall be given by advertisement, signed by the borough clerk, posted in at least ten public places in such borough, and printed

The polls shall be kept open for the time provided by law for general elections in said borough, and such election shall be in all respects conducted, and the vote canvassed in the manner provided by law for such general election. There shall be no registration for such election, but the board of elections shall procure and use at such special election a certified copy of the register of voters used at the last preceding general election, and no person shall be entitled to vote whose name does not appear on said register, unless such person shall appear before said board and satisfy said board by affidavit, which the said board is hereby authorized to take, that such person has acquired the right of suffrage in said election district since the last registration was made. If a majority of the ballots cast at such election shall contain the words “In favor of the sale of plant, according to resolution of council, dated” (inserting in said blank the name of the plant proposed to be sold, and the date of such resolution), it shall then be lawful for the council to make such sale, and the proceeds of said sale shall be paid to the commissioners of the sinking fund of said borough, to be used by them for the purpose of paying and discharging the bonded indebtedness of said borough, and any surplus after paying such bonded indebtedness and interest shall be paid to

An Act for the protection of woodlands.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Wherever in this State woodland, meaning thereby land or swamp upon which there is a growth of woods or brush, adjoins the right of way, or is less
CHAPTER 74, LAWS, SESSION OF 1909.

than one hundred and ten feet from the roadbed, of a railroad upon which are operated locomotives, using coal or wood for fuel, there shall be constructed a fire line in the following manner:

2. At a distance of not less than one hundred feet nor more than two hundred feet from the outer rail on each side of the track or tracks upon which trains pass, and extending practically parallel with it, a strip of land not less than ten feet wide shall be entirely cleared of trees, brush, grass, turf and other combustible matter, and the bare earth shall be exposed. Where the land is swampy a ditch not less than three feet wide, dug to the level of permanent water, may replace the bared strip. Between such bared strip or ditch, and the roadbed, all logs, fallen branches of trees, brush, grass and other combustible material shall be cut and removed or burned on the ground at some convenient time between the first day of November in each year and the first day of March next following; provided, however, that standing trees above three inches in diameter at the stump and not less than six feet apart need not be felled but must be pruned of branches to not less than six feet above the ground. Where the standing trees are close together enough must be removed to make those remaining not less than six feet apart; and provided further, that the Forest Park Reservation Commission, on application of the railroad company, may authorize the omission of a fire line, or of a reburning or reclearing of the same in such sections as in its judgment the making, reburning, or reclearing shall be unnecessary.

3. The Forest Park Reservation Commission shall each year determine the length and location of such fire lines as shall be constructed under the provisions of this act. It shall be the duty of the assessor of each and every township or other municipality in which such fire lines will lie to furnish to the Forest Park Reservation Commission, within ten days of receipt of request for the same, the names and post-office addresses of the owners of woodland on which such fire lines will lie, so far as they appear upon the tax books.
of said township or other municipality. The Forest Park Reservation Commission shall thereupon mail to each person whose name and address shall appear on said list, notice of its intention to order the construction of a fire line, and shall also give notice of its intention by advertisement inserted once in two papers of general circulation in the section in which said lands are situated.

4. If the owner of any woodland shall object to the construction of the proposed fire line upon his property he shall file within fifteen days of the date of said notice or of said advertisement, with the Forest Park Reservation Commission, an objection thereto, which objection shall contain such description of the property as shall be necessary to establish its location. The owner of any woodlands who shall not file, for any reason, an objection to the construction of the said fire line within the time specified, shall be deemed to have given his consent thereto. If the owner of any woodland file as above specified his objection to the proposed construction, the Forest Park Reservation Commission, if it deem the construction of the fire line through said property to be a public necessity, shall notify him by registered mail to show cause before the Commission at such time as it may appoint (which time shall be not less than ten days from the date of said notice) why the fire line should not be constructed as proposed. After said hearing, the Forest Park Reservation Commission may sustain the objection or may order the fire line cut as proposed, and its decision shall be final.

5. Each railroad company affected hereby shall construct each year until all has been completed, such length of fire line as may be ordered by the Forest Park Reservation Commission after notice and hearings given as above specified; provided, however, the total length of fire line required to be constructed shall not exceed in one year one-fifth of the total frontage of woodland along both sides of its main stem and branches extending therefrom. It shall also maintain by the necessary clearing or reburning each year all
that has been previously constructed. Before the first of October in each year the Forest Park Reservation Commission shall specify to the general manager or local superintendent of each railroad the location of that part of the said fire line to be constructed by the railroad under his charge during the following season; provided, however, that nothing in this act shall apply to any tract of woodland which is entirely isolated from any larger body of woodland by public roads or waterways at least twenty feet wide or by open fields, and which has an area less than five times the area of a fire line of the minimum width—namely, one hundred and ten feet—required to be constructed by section two of this act; and such tracts shall not be included in estimating the total frontage of woodland along any railroad line. After the issuance of said order said railroad company may enter upon said lands for such purpose, and no action of trespass shall lie in consequence thereof unless the employees of the railroad company in the construction of said fire lines shall do other damage to the property than that necessarily incident to the construction of the said fire lines as required by this act.

6. All marketable wood which shall be cut upon land not belonging to the railroad company in constructing the said fire line, in accordance with the provisions of this act, shall be piled at some point beyond the fire line, subject to removal by the owner.

7. Nothing in this act shall operate as a bar to any action against any railroad company for damages to woodland through fire started by locomotive or employees.

8. Any railroad company which shall have been notified to construct fire lines in accordance with section five hereof and which shall fail to do so, shall incur a penalty of two hundred dollars per mile or fraction thereof of fire line not constructed as required by this act, to be recovered in an action of debt at the suit of the Forest Park Reservation Commission, and
CHAPTER 75. LAWS, SESSION OF 1909.

CHAPTER 83.

An Act to extend and regulate the liability of employers for injury or death to employes in certain cases.

Be it enacted by the Senate and General Assembly of the State of New Jersey:

I. Where, after this act takes effect, personal injury or death results to an employe who is himself in the exercise of reasonable care at the time:

I. By reason of any defect in the condition of the place, ways, works, machinery or plant connected with or used in the business of the employer, which arose from, or had not been discovered or remedied, owing to the negligence of the employer or of any person in the service of the employer, and entrusted by him with the duty of seeing that the place, ways, works, machinery or plant were in proper condition; or

II. By reason of negligence of any person in the service of the employer entrusted with, and at the time of the injury exercising superintendence, whose sole or principal duty is that of superintendence, or in the absence of such superintendent of any person acting as superintendent, with the authority or consent of such employer; or

III. By reason of the negligence of any person in the service of the employer who has the charge or control of any signal, switch, locomotive engine or train upon a railroad; said employe, or in case the injury results in death, the executor or administrator of such deceased employe who has left surviving a husband, wife or next of kin, shall have the same right of compensation and remedies against the employer as if the employe had not been an employe of, nor in the service of the employer, nor engaged in his work. The provisions of law relating to actions for causing death by negligence, so far as the same are consistent with this act, shall apply to an action brought by an executor or administrator of such deceased employe suing under the provisions of this act.
CHAPTER 83, LAWS, SESSION OF 1909.

2. No action against an employer for recovery of compensation for injury or death of an employe under this act shall be maintained unless notice of the time, place and cause of injury is given to the employer within one hundred and twenty (120) days, and the action is commenced within one year after the occurrence of the accident causing the injury or death. The notice required by this section shall be in writing and signed by the person injured, or by someone in his behalf, but if from physical or mental incapacity it is impossible for the person injured to give notice within the time provided in said section, he may give the same within ten (10) days after such incapacity is removed. In case of his death without having given such notice his executor or administrator may give such notice within sixty (60) days after his appointment, but no notice under the provisions of this section shall be deemed to be invalid or insufficient solely by reason of any inaccuracy in stating the time, place, or cause of the injury if it be shown that there was no intention to mislead, and that the party entitled to notice was not, in fact, misled thereby. The notice required by this section shall be served on the employer, or if there is more than one employer, upon one of such employers, and may be served by delivering the same to, or at the residence or place of business of the person on whom it is to be served. The notice may be served by post by registered letter, addressed to the person on whom it is to be served, at his last known place of residence or place of business, and if served by post shall be deemed to have been served at the time when the letter containing the same would be delivered in the ordinary course of the post. When the employer is a corporation notice shall be served by delivering the same or by sending it by post by registered letter, addressed to the office or principal place of business of such corporation.

3. An employe by entering upon, or continuing in the service of an employer, shall be presumed to have assumed all risks necessarily incident to his occupation or employment. The necessary risks of the occupation
or employment shall, in all cases arising after this act takes effect, be considered as including those risks, and those only, which are inherent in the nature of the business, and which remain after the employer has exercised due care in providing for the safety of his employees, and has complied with the laws affecting or regulating such business or occupation for the greater safety of such employees. In an action maintained for the recovery of damages for personal injuries to an employe, received after this act takes effect, owing to any cause for which the employer would otherwise be liable, the fact that the employe continued in the service of the employer in the same place and course of employment after the discovery by such employe, or after he had been informed of the danger of personal injury therefrom, shall not, as a matter of law, be considered as an assent by such employe to the existence or continuance of such risks of personal injury therefrom, or as negligence contributing to such injury. The question whether the employe understood and assumed the risk of such injury, or was guilty of contributory negligence, by his continuance in the same place and course of employment with knowledge of the risk of injury, shall be one of fact, subject to the usual powers of the court in a proper case to set aside a verdict rendered contrary to the evidence. An employe, or his legal representative, shall not be entitled under this act to any right of compensation or remedy against the employer in any case where such employe knew of the defect or negligence which caused the injury, and failed, within a reasonable time to give, or cause to be given, information thereof to the employer, or to some person superior to himself in the service of the employer who had entrusted to him some general superintendence, unless it shall appear on the trial that such defect or negligence was known to such employer or superior person, or could have been discovered by reasonable and proper care or inspection by such employer or superior person prior to such injury to the employe.
4. An employer who shall have contributed to an insurance fund created and maintained for the mutual purpose of indemnifying an employe for personal injuries, for which compensation may be recovered under this act, or to any relief society or benefit fund, may prove in mitigation of damages recoverable by an employe under this act such proportion of the pecuniary benefit, which has been received by such employe from such fund or society on account of such contribution of employer, as the contribution of such employer to such fund or society bears to the whole contribution thereto.

5. Every existing right of action for negligence or to recover damages for injuries resulting in death is continued, and nothing in this act contained shall be construed as limiting any such right of action, nor shall the failure to give the notice provided for in section two (2) of this act be a bar to the maintenance of a suit upon any such existing right of action.

6. This act shall take effect September 1st, 1909.
Approved April 13, 1909.

1. Cities of this State are hereby empowered to establish and maintain suitable plants, works or stations for the treatment, disposal, or rendering of sewage. It shall be lawful for the municipal board, commission or body of any city having charge of the sewers therein, to adopt an ordinance or ordinances providing for the construction and maintenance of a plant or works for the treatment, disposal or rendering of the sewage of such city in accordance with a general plan in such ordinance or ordinances to be specified, which
plan shall first be approved by the Board of Health of the State of New Jersey as provided by Chapter seventy-two of the Session Laws of one thousand nine hundred, and the acts amendatory thereof and supplementary thereto. Whenever such ordinance shall be adopted as aforesaid, it shall be the duty of the board or commission having charge of the sewers in such city to proceed to carry the provisions of said ordinance into effect and to do and perform all such things as are necessary and proper for the establishment of such plant or works. Such plant or works may be located within or without the limits of such city at any place within this State; provided, however, it shall not be lawful to locate any such disposal plant or plants in any municipality other than the one desiring the same, unless the municipality in which said disposal plant is intended to be located shall consent thereto, said consent to be given by the governing body and board of health of the city, town, township or borough in which it is proposed to locate such disposal plant, upon application in writing for that purpose made; and in case of the refusal of the municipal authorities and local board of health to grant the same, then the city making such application may, after such refusal, apply to the State Board of Health, which shall have power to reverse the decision of the local authorities and grant the application for said disposal works; and in case the local authorities grant the permit to locate any such disposal plant or plants, and the same shall be deemed objectionable by the inhabitants of the city, town, township or borough where it is proposed to locate, then ten citizen freeholders thereof may, within thirty days after the granting of such permit, apply to the State Board of Health, which shall have power to reverse the decision of the local authorities and prohibit said location, and it is hereby specially provided that all cities making application as aforesaid for the location for any such disposal plant or plants shall accompany the same with a descriptive map of the premises they propose to occupy, a copy of which shall be also filed in the office of the State Board of Health.
2. Any city having adopted an ordinance for the purpose mentioned in the preceding section shall have power and authority to purchase and acquire lands and rights or interests in lands within and without the boundaries of such municipality, which may be deemed necessary for the construction of pipes, conduits, drains, buildings, disposal, pumping or other works, authorized by this act and by such ordinances. If in any case the city shall be unable to agree with the owner or owners of any lands or rights or interests in lands deemed necessary by said city in the construction and operation of the works in such ordinance provided for, or when, by reason of legal incapacity or absence of the owner or owners, no agreement can be made for the purchase thereof, the lands or rights or interests in lands so deemed necessary for the purposes aforesaid shall be acquired by condemnation by said city in the manner provided by the general laws of this State relating to the condemnation of lands for public uses; but no private property shall be taken for the purposes aforesaid unless compensation therefor shall have first been made or tendered to the owner or owners thereof, or, in lieu thereof, paid to the clerk of the county in which the lands taken are located, for the use of the person or persons entitled to receive the same; and in case such payment or tender to the owner or owners or payment into court is made by the city upon the award of commissioners, the city shall be entitled to take immediate possession of the property so condemned, notwithstanding any appeal.

3. The said city, through its engineers, officers and agents, shall have power to construct any conduit by it to be made or constructed under or over any water course, under or over or across or along any street, turnpike, railway, canal, highway or other way, and in or upon private or public lands, and in or upon lands of this State, and under highways of this State, in such manner, however, as not unnecessarily or unreasonably to obstruct or impede traffic or navigation; and may enter upon and dig up any street, road, highway or private or public lands for the purpose of con-
structing or laying conduits upon or beneath the surface thereof, and for maintaining and operating the same, and, in general, may do all other acts or things necessary, convenient and proper to carry out the general purposes expressed in the first section of this act. It shall be the duty of such city to restore any and all streets, roads, highways, turnpikes, railways or canals that may be disturbed or dug up in the course of such operations as nearly as possible to the same condition that they were in prior to such disturbance.

4. The said city may, by its officers, engineers, agents, servants and employes, enter at all times upon any lands or waters for the purpose of exploring, surveying, leveling and laying out the route of any conduit or the site of any works authorized under this act, and doing all necessary preliminary work, doing, however, no unnecessary injury or damage to private property.

5. Upon the completion of said plants and works, such city is authorized to convey and cause to be conveyed the sewage of such city to the said plant or works for treatment or disposal in accordance with the plan in said ordinance specified, and there to render, treat and dispose of the same. For this purpose such city shall have power and is hereby authorized, through the board or body having charge of its sewers, to make such regulations and rules governing the general system of sewers in the municipality and the use of the same by householders, manufacturers and others as shall be to the public interest, and by appropriate penalties to be prescribed by ordinance to compel obedience to the same. Such city is authorized to make all changes in its present system of sewers as may be necessary to adapt the same to the plan and scope of the said plant or works, and to prescribe the terms upon which householders, manufacturers and corporations may connect with said system and contribute their sewage thereto for treatment and disposal.

6. Every city operating under this act is hereby authorized to appoint such engineers, chemists, superintendents, clerks and other agents and officers as may
be necessary for the management, supervision and
maintenance of the said plant, both in its construction
and in its operation, and at pleasure to remove the
same; and to fix and pay to each of such appointees
such just salary or compensation as may be fixed. The
appointment of such officers and agents and the fixing
of their salary shall be done by the board or body hav­
ing charge of the public sewers of such city.

7. All work done and materials purchased for the
construction or operation of said work or works, the
cost of which shall exceed one thousand dollars, shall
be by contract awarded, after due advertisement, to the
lowest responsible bidder, and all contractors shall be
required to give bonds satisfactory in security and
amount.

8. To provide for the payment of the cost and ex­
penses incurred, or to be incurred, for the purchase
of lands, rights or interests in lands, or other property
or rights, and for the construction of said plant or
works, and for engineering, administrative and other
expenses connected therewith, such city shall have pow­
ner, from time to time, to issue corporate bonds in an
amount sufficient to pay for the cost of said construc­
tion and the purchase of said property. Such bonds
shall be payable at a time not exceeding fifty years
from date, and at such place as the said city may deter­
mine, shall bear interest at a rate not exceeding five
per centum per annum, payable semi-annually, and in
cities having no board or commission in charge of the
sewers therein shall be signed by the mayor of the
city and shall be sealed with the corporate seal of the
city and attested by the clerk, and in case of cities in
which there is a board of sewer commissioners shall
be executed in the name of such city by the president
and secretary of the board of sewer commissioners
and under the seal of said board. Said bonds may be
so issued as to make the same, or any part thereof,
fall due at stated periods less than fifty years from
date of issue, and may reserve therein the option to
redeem or pay the same, or any part thereof, at stated
periods at any time prior to the date at which they
would otherwise fall due. Such bonds may be either coupon or registered bonds, or partly coupon and partly registered bonds, and all such bonds may be negotiated, sold and disposed of at not less than their par value, and the proceeds thereof shall be used by such cities only for the purposes provided for in this act.

9. Every city having no board or commission in charge of the sewers therein through its board, commission or body having charge of the finances, and every city having a board or commission in charge of the sewers therein through its board of sewer commissioners may, in anticipation of the issuing of bonds, from time to time, as it may need money, borrow such sum or sums of money, not exceeding at any one time one-third the estimated cost of the whole work, and may issue certificates of indebtedness, promissory notes or other obligations therefor, retiring the same, from time to time, as the bonds hereinbefore authorized to be issued are sold; in order that the said bonds may be retired at maturity. In cities having no board or commission in charge of the sewers therein, the board, commission or body having charge of the finances, and in cities having a board or commission in charge of the sewers therein the board of sewer commissioners shall provide an appropriate and suitable sinking fund, not exceeding in amount to be raised in any one year one per centum of the face value of the bonds issued, which sum shall be raised annually, beginning with the third year after the issuing of the said bonds by a general tax upon the ratables of such city; the money so raised for sinking fund purposes shall be kept in a separate account, and shall in cities having no board or commission in charge of the sewers therein, under the direction of the board, commission or body having charge of the finances, and in cities having a board or commission in charge of the sewers therein under the direction of the board of sewer commissioners, be used or invested, from time to time, in the purchase or retirement of said bonds or in the purchase of securities in which savings banks of this State are authorized to invest.
10. In cities having no board or commission in charge of the sewers therein, the board, commission or body having charge of the finances, and in cities having a board or commission in charge of the sewers therein the board of sewer commissioners of such city shall annually ascertain the amount of money necessary to be raised for the interest upon such bonds and for such sinking fund, as well as for the operation and maintenance of said plant for the current fiscal year, and the amount thereof, shall be included in the tax levy for such fiscal year, and raised by taxation upon the ratables of the city as other taxes are raised therein. The amount of any bonds issued under this act shall not be included in any limitation now existing by law upon such municipality as to the amount of bonded indebtedness to be created thereunder, nor shall the annual tax imposed for the operation and maintenance of such plant be counted or included in the limitation as to the maximum tax rate prescribed by law for such city.

11. It shall be lawful for any city which has constructed a disposal plant or works under this act to contract with any other municipality for the disposal, treatment and rendition of the sewage of such other municipality upon such terms and conditions as such municipalities may mutually agree upon. It shall be lawful for any two or more municipalities to unite by mutual contract in the construction of one plant, or disposal works, for the joint benefit and use of such municipalities, and to that end agree upon, enter into and perform such terms and conditions, respectively, as the board or bodies of such municipalities, respectively, having charge of the sewers therein, may severally approve, and all the provisions of this act relative to powers, proceedings and operations of municipalities acting alone, including the powers of condemnation of lands or rights or interests in lands, are hereby applied to and made available for such municipalities as may unite in one system under mutual contract.

12. In any city in which there exists a board of sewer commissioners all the powers, rights, duties and
privileges of this act referred to as pertaining to such city, or the governing body thereof, together with the issuance of the bonds herein provided for, shall be vested in said board of sewer commissioners, and the plants for the treatment, disposal or rendering of sewage herein provided for shall be under the entire management and control of said board of sewer commissioners; provided, however, that no such bonds shall be issued except by the consent and approval of the board of aldermen, council, or other legislative body of said city, first manifest by a resolution of said board of aldermen, council, or other legislative body for that purpose.

13. This act shall not take away or impair any power now conferred by law upon any city, or any officers thereof, in relation to the establishment or maintenance of plants for the treatment, disposal or rendering of sewage, but the powers hereby conferred shall be deemed to be cumulative.

14. This act shall be deemed and taken to be a public act, and shall take effect immediately.

Approved April 14, 1909.

CHAPTER 107.

An Act to amend an act entitled "A further supplement to an act entitled 'An act to regulate elections' (Revision of 1898), approved April fourth, one thousand eight hundred and ninety-eight," approved April fourteenth, one thousand nine hundred and three.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section two of the act to which this act is an amendment is hereby amended to read as follows:

2. The general scheme and purpose of this act shall be as follows: The said primary elections shall hereafter be conducted at public expense; such primary elections for all political parties shall be held at the same time and place; the time shall be the first registry day, as hereinafter fixed, and the places shall be the places of holding the said registry in the fall of each year; and said primary elections shall be conducted by the boards of registry and election in a manner hereinafter provided, from one o'clock until nine o'clock P. M., and substantially as general elections for members of assembly are now conducted, with official ballots, ballot-boxes, registry lists and polling booths. The first registry day in cities having a population exceeding thirty thousand shall be held on the fourth Tuesday of September in each year, except that in each year when a governor is to be elected said first registry day shall be the second Tuesday in September, and in all election districts outside of cities having a population exceeding thirty thousand, the said boards of registry and election shall sit, for the purposes of this act, as primary election boards on the second or fourth Tuesday of September. The clerk of the city, town, township, borough or other municipality, as the case may be, shall prepare the primary ballots of all political parties from the petition filed in their respective offices as herein provided. Not less than ten (except as hereinafter provided) voters of any political party may file
with the municipal clerk of their municipality a petition endorsing any member of their political party as a candidate for the nomination of said party to public office, where such nomination is to be made at the primary election, or as a candidate for the position of delegate to a political convention of said party, where the party nomination is to be made by convention, and requesting that the name of the person so endorsed be printed upon the official primary ballot of such political party. The said municipal clerks shall prepare official ballots for each political party for the said primary elections from the names of the persons so endorsed, arranging them alphabetically, or in groups, as hereinafter provided. The municipal clerk shall also print upon the official ballot, opposite the name of any person endorsed as a candidate for the position of delegate, the name of the person who is the choice of such candidate for nomination at the ensuing convention of his political party, whenever said clerk is requested so to do by said candidate, except as hereinafter provided. The ballots so prepared for each political party shall be the only ballots permitted to be voted at the primary elections. At such primary election the voters registered, or who thereupon register for the ensuing general election, shall be qualified to vote at such primary. Each voter shall request the party ticket he desires to vote, and thereupon he shall receive from the board of registry and election an official ballot of said political party prepared as aforesaid, and no other. The voter shall then retire to the voting booth and there prepare his ballot so as to indicate his choice for the candidates of his party to be there nominated, or his choice for delegates to the political convention of his political party, as the case may be, by erasing all names thereon other than those voted for, and shall then deposit said ballot in the ballot-box of his party, unless challenged, and if challenged, make oath that he is a member of the said political party; that at the last election for members of assembly at which he voted he voted for a majority of the candidates whose names were printed upon the party ticket of the said party, and intends to support
the candidates of the said party at the ensuing election. In the case of any voter voting for the first time in this State the portion of the said oath or affirmation in reference to previous voting shall be dispensed with. Any voter who shall be shown by the primary book herein-after mentioned to have voted in the ballot-box of one political party at any primary election held under this act shall not be allowed to vote in the ballot-box of any other political party at the next thereafter succeeding primary election. In addition to the registry lists hereinbefore provided, there shall also be kept two books or lists, one for each political party, which shall be called and labeled Republican Primary Book, and Democratic Primary Book, or as the case may be; the board of registry and elections shall cause the name of each voter at said primary to be written in ink, in the primary book of the party in whose ballot-box his vote is deposited. Each of these primary books shall be signed by the members of the board of registry and elections and delivered by said board to the clerk of the municipality at the time of the delivery of the ballot-boxes; said primary books shall be kept by said clerk until the ensuing primary election, and then delivered by him to the board of registry and elections for use at such ensuing election. At any primary election the members of the board conducting the primary election for each political party shall refuse to receive the vote of any voter offering to vote in the ballot-box of their political party, if the name of such voter appears in the primary book of the other political party as made up at the next previous primary election. The said primary books shall be kept by the municipal clerk subject to public inspection, and any voter whose name appears therein may apply to the judge holding the circuit court for his county, at any time prior to the next primary election to have his name stricken from said book; and said judge shall have power to hear said application in a summary way, at such time and upon such notice to such persons as he may prescribe, and if satisfied that the applying voter's name has been improperly placed on said primary book, said judge
may make an order directing the municipal clerk to erase said name from said primary book, and said clerk shall thereupon erase the same.

2. Section thirteen of the act to which this act is an amendment is hereby amended to read as follows:

13. The boards of registry and election appointed by the county boards of registry to conduct the registry under the act to which this act is a supplement, and the poll clerks appointed by such boards of registry and election shall, in their respective election districts, hold and conduct the primary election herein provided for. Such primary elections shall be held annually on the fourth Tuesday in September preceding the annual election for members of Assembly, except that in each year when a Governor is to be elected said primary elections shall be held on the second Tuesday of September, and shall, as nearly as may be, except as herein provided, be in all respects held and conducted as elections for members of the General Assembly are held and conducted. The two members of such board appointed from the political party which at the last preceding general election cast the largest number of votes in their county shall conduct the primary election of such party, having sole charge of the ballot-boxes of said party, and delivering, receiving and depositing the official ballots voted by members of such party, and having the sole right to challenge the voters offering to vote the ticket of such party as in this act provided; and the members of said board appointed from the political party casting the next largest number of votes in said county at said election shall, in like manner, conduct the primary election of such political party. All of the members of said board of registry and election shall conduct the primary election of any other political party holding a primary election under this act, and shall also ascertain and certify to the result of the primary election of all political parties holding primary elections under this act in the manner herein provided in section fifteen; provided, that before proceeding with such election each of the four members of the board of registry and election shall take and subscribe an oath.
to be administered by any duly qualified person, or by one member of the board to the others, that they and each of them will, to the best of his understanding and ability, conduct such primary election honestly and in accordance with law; that they will challenge, in the manner provided in this act, the vote of any person offering to vote at such election whom they believe not entitled to vote thereat, and that they will also challenge the vote of any person at such election offering to vote in the ballot-box of one existing political party, whom they believe, or have reason to believe to belong to another existing political party, and that they will refuse to receive the vote of such person, in case such vote is challenged, until he shall have taken an oath or affirmation, to be administered by a member of the board in the form prescribed in section seventy-four (74) of the act to which this act is a further supplement, and also in the following form:

"You do solemnly swear (or affirm) that you are a member of the political party (specifying the political party to which the affiant claims to belong); that at the last election for members of the General Assembly at which you voted you voted for a majority of the candidates of said party whose names were printed on the ticket of said party, and that you intend to support the candidates of said party at the ensuing election." In the case of voters voting for the first time in this State the portion of said oath or affirmation in relation to voting at any previous election shall be dispensed with; and if the person so challenged shall refuse to take the oath or affirmation so tendered to him he shall be deemed not to be qualified or entitled to vote at such primary election. Any person making such oath or affirmation falsely shall be guilty of perjury. Any voter who shall be shown by the primary book hereinafter provided to have voted in the ballot-box of one political party at any primary election held under this act shall not be allowed to vote in the ballot-box of any other political party at the next thereafter succeeding primary election. In addition to the registry lists hereinbefore provided, there shall also be kept
two books or lists, one for each political party, which shall be called and labeled Republican Primary Book, and Democratic Primary Book, or as the case may be; the board of registry and elections shall cause the name of each voter at said primary to be written in ink, in the primary book of the party in whose ballot-box his vote is deposited; each of these primary books shall be signed by the members of the board of registry and elections and delivered by said board to the clerk of the municipality at the time of delivery of the ballot-boxes; said primary books shall be kept by said clerk until the ensuing primary election, and then delivered by him to the board of registry and elections for use at such ensuing election. At any primary election the members of the board conducting the primary election for each political party shall refuse to receive the vote of any voter offering to vote in the ballot-box of their political party, if the name of such voter appears in the primary book of the other political party as made up at the next previous primary election. The said primary books shall be kept by the municipal clerk subject to public inspection, and any voter whose name appears therein may apply to the judge holding the circuit court for his county, at any time prior to the next primary election to have his name stricken from said book; and said judge shall have power to hear said application in a summary way, at such time and upon such notice to such persons as he may prescribe, and if satisfied that the applying voter's name has been improperly placed on said primary book, said judge may make an order directing the municipal clerk to erase said name from said primary book, and said clerk shall thereupon erase the same. At said primary election the polls shall be open at one o'clock in the afternoon and close at nine o'clock in the evening. Notice of the time and place of holding such primary elections shall be given by the poll clerks by five or more advertisements posted at conspicuous places in the election district at least ten days before such primary elections.

The taking of an appeal shall not stay the operation of the order appealed from, but a stay may be granted by the court in its discretion upon or without terms and conditions. The form of procedure, except as herein outlined, shall be prescribed by said court by rule, but no new evidence shall be admitted on the hearing of the appeal without an order of the said court or a judge thereof, and the decision of the Supreme Court on the appeal shall be final. In default of compliance with said order when the same shall have become operative, said railroad company shall be subject to a penalty not exceeding one hundred dollars per day for violation thereof, to be recovered in an action of debt at the suit of the board.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. A tax shall be and is hereby imposed upon the transfer of any property, real or personal, of the value of five hundred dollars or over, or of any interest therein or income therefrom, in trust or otherwise, to persons or corporations, in the following cases:

First. When the transfer is by will or by the intestate laws of this State from any person dying seized or possessed of the property while a resident of the State.

Second. When the transfer is by will or intestate law, of property within the State, and the decedent was a non-resident of the State at the time of his death.

Third. When the transfer is of property made by a resident or by a non-resident, when such non-resident's property is within this State, by deed, grant, bargain, sale or gift made in contemplation of the death of the grantor, vendor or donor, or intended to take effect, in possession or enjoyment, at or after such death.

Fourth. When any person or corporation comes into the possession or enjoyment, by a transfer from a resident or non-resident decedent when such non-resident decedent's property is within this State, of an estate in expectancy of any kind or character which is contingent or defeasible, transferred by an instrument taking effect after the passage of this act, or of any property transferred pursuant to a power of appointment contained in any instrument taking effect after the passage of this act.

All taxes imposed by this act shall be at the rate of five per centum upon the clear market value of such property, to be paid to the Treasurer of the State of
New Jersey, for the use of said State, and all administrators, executors, trustees, grantees, donees or vendees, shall be personally liable for any and all such taxes until the same shall have been paid as hereinafter directed, for which an action of debt shall lie in the name of the State of New Jersey.

Property passing to churches, hospitals and orphan asylums, public libraries, Bible and tract societies, religious, benevolent and charitable institutions and organizations, or to a father, mother, husband, wife, child or children, or lineal descendant born in lawful wedlock, brother or sister, or the wife or widow of a son, or the husband of a daughter, shall be exempt from taxation under this act, but no other exemption of any kind shall be allowed.

2. When any persons shall bequeath or devise, convey, grant, sell or give any property or interest therein, or income therefrom, to any person or corporation for life or for a term of years, and a vested interest in the remainder or corpus of said property to any person, or to any body politic or corporate, the whole of said property, so transferred as aforesaid, shall be appraised immediately at its clear market value, and after deducting from such appraisement the value of the estate for life or estate for a term of years, the tax on such life estate or for a term of years, if taxable under this act, shall be immediately levied and assessed, and the tax on the remainder of the property so as aforesaid transferred, if such property is taxable under this act, shall be levied and assessed immediately, but such tax shall not become due or payable until the time or period arrives when said remainderman, or his representatives, shall become entitled to the actual possession or enjoyment of such property, and shall then become due and payable immediately, and, if not paid within thirty days, interest at the rate of ten per centum per annum shall be charged and collected from the time when said tax became due and payable. If the property passing to a remainderman, as hereinabove provided, be personal property, such remainderman, or the executor or trustee of the estate, shall give a bond to the State of New
Jersey in double the amount of the tax on the property of such remainderman, conditioned to pay said tax, and any interest which may fall due thereon, said bond to be approved as to the form and sufficiency thereof by the Attorney-General of this State, and any executor or trustee who shall assign or deliver to any such remainderman any personal property liable to a tax under this act, unless a bond be given as specified in this section, or said tax be paid, shall be personally liable for said tax and all interest due thereon, which liability may be enforced in an action of debt in the name of the State of New Jersey.

3. Where an instrument creates an executory devise, or an estate in expectancy of any kind or character which is contingent or defeasible, the property transferred in accordance with such executory devise or the property in which such contingent or defeasible interest is created by any such instrument, shall be appraised immediately at its clear market value, and after deducting from such appraisement the value of the life estate, or estate for a term of years, created by such instrument, the tax on such life estate or estate for a term of years, if taxable under this act, shall be immediately levied and assessed, but the tax on the balance of said appraised value of such estate shall not be levied or assessed until the person or corporation entitled to said property comes into the beneficial enjoyment, seizin or possession thereof, and if taxable, shall then be taxed. Where an instrument creates a power of appointment, the life estate, or estate for a term of years, created and transferred by such instrument, if taxable, shall be immediately appraised and taxed at its clear market value, but the appraisal and taxation of the interest or interests in remainder to be disposed of by the donee of power shall be suspended until the exercise of the power of appointment, and shall then be taxed, if taxable, at the clear market value of such property, which value of such property shall be determined as of the date of the death of the creator of the power.

A tax on an estate for life or on an estate for a term of years, levied and assessed as directed in this section,
shall be due and payable as provided in section five of this act. All other taxes levied and assessed as directed in this section and all taxes on any property which may be transferred to the residuary legatees, heir or next of kin of any decedent, or which may revert to the heir of any decedent by reason of the failure of any contingency upon which any remainder may be limited, shall be due and payable within two months after the person entitled to the property shall come into the enjoyment, seizin or possession thereof, and if not paid shall thenceforth bear interest at the rate of ten per centum per annum until paid. No executor or trustee shall turn over any property of an estate mentioned in this section until the tax due thereon, and interest, if any, shall have been paid to the Treasurer of this State, and any executor or trustee who shall turn over any property prior to the payment of the tax due thereon, together with interest, shall be personally liable for such tax and interest, which said liability may be enforced by an action of debt in the name of the State of New Jersey.

The Comptroller of the Treasury of this State, by and with the consent of the Attorney-General, expressed in writing, is hereby empowered and authorized to enter into an agreement with the executors or trustees of any estate in which remainders or expectant estates have been of such a nature, or so disposed and circumstance that the taxes therein were held not presently payable, or where the interest of the legatees or devisees were not ascertainable at the death of the testator, grantor, donor or vendor, and to compound such taxes upon such terms as may be deemed equitable and expedient; and to grant discharge to said executors and trustees upon the payment of the taxes provided for in such composition; provided, however, that no such composition shall be conclusive in favor of said executors or trustees as against the interest of such cestuis que trust as may possess either present rights of enjoyment, or fixed, absolute or indefeasible rights of future enjoyment, or of such as would possess such rights in the event of the immediate termination of particular
estates, unless they consent thereto, either personally, when competent, or by guardian or committee.

4. Whenever a decedent appoints or names one or more executors or trustees, and makes a bequest or devise of property to them in lieu of their commissions or allowances, which otherwise would be liable to said tax, or appoints them his residuary legatees, and said bequest, devise or residuary legacy exceeds what would be a reasonable compensation for their services, such excess shall be liable to said tax, and the Ordinary, or the Orphans’ Court, having jurisdiction in the case, shall fix such compensation.

5. All taxes imposed by this act shall be due and payable at the death of the testator, intestate, grantor, donor vendor, unless in this act otherwise provided, and if the same are paid within one year a discount of five per centum shall be allowed and deducted from such taxes; if not paid within one year from the date of the death of the testator, intestate, grantor, donor or vendor, such tax shall bear interest at the rate of ten per centum per annum, to be computed from the expiration of one year from the date of the death of such testator, intestate, grantor, donor or vendor, until the same is paid, and in all cases where the executors, administrators, grantees, donees, vendees or trustees do not pay such tax within one year from the death of the decedent they shall be required to give a bond, in the form and effect prescribed in section two of this act, for the payment of such tax, together with interest.

All taxes levied and assessed under this act on the transfer of any real property shall be and remain a lien on said real property until paid.

6. The penalty of ten per centum per annum imposed by section five hereof for the non-payment of said tax shall not be charged where in cases by reason of claims made upon the estate necessary litigation or other unavoidable cause of delay the estate of any decedent, or a part thereof, cannot be settled at the end of a year from the death of the decedent, and in such cases only six per centum per annum shall be charged upon the said tax from the ex-
piration of such year until the cause of such delay is removed.

7. Any administrator, executor or trustee having in charge or trust any legacy or property for distribution, subject to said tax, shall deduct the tax therefrom, or if the legacy or property be not money he shall collect the tax thereon upon the appraised value thereof from the legatee or persons entitled to such property, and he shall not deliver or be compelled to deliver any specific legacy or property subject to tax to any person until he shall have collected the tax thereon, and whenever any such legacy shall be charged upon or payable out of real estate, the heir or devisee, before paying the same, shall deduct said tax therefrom and pay the same to the executor, administrator or trustee, and the payment thereof shall be enforced by the executor, administrator or trustee in the same manner that the payment of such legacy might be enforced; if, however, such legacy be given in money to any person for a limited period he shall retain the tax upon the whole amount, but if it be not in money he shall make application to the court having jurisdiction of his accounts to make an apportionment, if the case require it, of the sum to be paid into his hands by such legatees, and for such further order relative thereto as the case may require.

8. All executors, administrators and trustees shall have full power to sell so much of the property of the decedent as will enable them to pay said tax in the same manner as they may be enabled by law to do for the payment of debts of their testators and intestates, and the amount of said tax shall be paid as hereinafter directed.

9. Any sum of money retained by an executor, administrator or trustee, or paid into his hands for any tax due under this act, shall be paid by him within thirty days thereafter, to the Treasurer of this State, and the person so paying shall be entitled to receive a receipt signed by the Treasurer of this State and countersigned by the Comptroller thereof, for such payment, which receipt shall be a proper voucher in the
settlement of the account of any such executor, administrator or trustee; such person so paying, in addition to the foregoing receipt, shall, if the tax paid be in part or in whole upon real property, be entitled to receive an additional receipt, signed by the Treasurer of this State and countersigned by the Comptroller thereof, in which shall be designated upon what real property, if any, said tax has been paid, and by whom paid, and whether or not it is in full of said tax on said real property, and said receipt may be recorded in the clerk's office of the county in which said real property is situated, in a book which shall be kept by said clerk for such purpose and labeled "collateral tax."

10. Whenever any of the real estate of which any decedent may die seized shall pass to any body politic or corporate, or to any person other than the father, mother, husband, wife, child, or lineal descendant born in lawful wedlock, brother or sister, wife or widow of a son, or husband of a daughter, or in trust for them, or some of them, it shall be the duty of the executors, administrators or trustees of such decedent to give information thereof in writing to the Comptroller of the Treasury of this State within six months after they undertake the execution of their respective duties, or, if the fact be not known to them within that period, then within one month after the same shall have come to their knowledge.

11. Whenever any debts shall be proven against the estate of the decedent, after the payment of the legacies or distribution of property from which the said tax has been deducted, or upon which it has been paid, and a refund is made by the legatee, devisee, heir, or next of kin, a proportion of the tax so paid shall be repaid to him by the executor, administrator or trustee, if the said tax has not been paid to the State Treasurer, or by the State Treasurer, if the same has been paid into the State treasury.

12. If a foreign executor, administrator or trustee shall assign or transfer any stock or obligations in this State standing in the name of a decedent, or standing in the joint names of such a decedent and one or more
persons, or in trust for a decedent, liable to any such tax, the tax shall be paid to the Treasurer of this State on the transfer thereof. No corporation of this State shall transfer any such stock, unless notice of the time of such intended transfer be served upon the Comptroller of the treasury of this State at least ten days prior to such transfer, nor until said Comptroller shall consent thereto in writing. Any corporation making such a transfer without first obtaining the consent of the Comptroller of the treasury as aforesaid shall be liable for the amount of any tax which may thereafter be assessed on account of the transfer of such stock, together with the interest thereon, and in addition thereto a penalty of one thousand dollars, which liability for such tax and interest and said penalty herein prescribed may be enforced in an action of debt in the name of the State of New Jersey.

On the transfer of property in this State of a non-resident decedent, if all or any part of the estate of such decedent wherever situated shall pass to persons or corporations who would have been taxable under this act, if such decedent had been a resident of this State, such property located within this State shall be subject to a tax, which said tax shall bear the same ratio to the entire tax which the said estate of such decedent would have been subject to under this act if such non-resident decedent had been a resident of this State, as such property located in this State bears to the entire estate of such non-resident decedent wherever situated; provided, that nothing in this clause contained shall apply to any specific bequest or devise of any property in this State.

13. The Comptroller of the Treasury of this State, either personally or by any of his employes, may investigate the question of the liability of any property to any tax due prior to the passage of this act, and if said Comptroller is satisfied that any taxes are due this State, he shall report such fact to the register of the prerogative court, or surrogate of the proper county, whereupon said register or surrogate shall cause said property to be taxed.
14. In determining the value of a life estate, annuity, or estate for a term of years, the American Experience Table of Mortality, with interest at the rate of five per centum per annum shall be used.

15. When any amount of said tax shall have been paid erroneously to the State Treasurer, it shall be lawful for the Comptroller of the Treasury, on satisfactory proof rendered to him of such erroneous payments, to draw his warrant on the State Treasurer, in favor of the executor, administrator, person or persons who have paid any such tax in error, or who may be lawfully entitled to receive the same, for the amount of such tax so paid in error; provided, that all such applications for the repayment of such tax shall be made within two years from the date of such payment.

16. The register of the Prerogative Court and every surrogate of any county in this State shall, within ten days after the probate of any will, either foreign or domestic, of the filing of a copy of any foreign will, or the taking out of letters of administration, notify, in writing, the Comptroller of the Treasury of this State of such probate or administration; and any surrogate or the register of the Prerogative Court failing to notify such Comptroller in writing of the probate of any will, or the filing of a copy of any foreign will, or the taking out of any letters of administration, shall be liable to a penalty of two hundred dollars, to be recovered in an action of debt in the name of the State of New Jersey.

17. The Comptroller of the Treasury of this State, either personally or by his assistant or other employee, is hereby empowered to examine any and all papers, documents and files which now are or hereafter may be filed or lodged with the register of the prerogative court, or with the surrogate of any county or with any other official of this State or of any municipality thereof, or with any person or corporation, for the purpose of ascertaining what, if any, property is, or shall be, liable to the payment of the tax provided for by this act. The sum of ten thousand dollars is hereby appropriated to the Comptroller of the Treasury of
this State for the purpose of enabling said Comptroller to carry out the provisions of this act.

18. In order to fix the value of property of persons whose estates shall be liable to the payment of a tax under this act, whether the same be in the ownership of a resident or non-resident decedent, the Comptroller of the Treasury of this State on the application of any interested party, or upon his own motion, shall appoint some competent person as appraiser as often as and whenever occasion may require. Every such appraiser shall forthwith give notice, by mail, to such persons as the Comptroller of the Treasury of this State shall direct, of the time and place when and where he will appraise such property. He shall at such time and place appraise the same at its fair market value, and for that purpose the said appraiser is authorized to issue subpoenas and to compel the attendance of witnesses, and to take the evidence of such witnesses under oath concerning such property and the value thereof, and he shall make report thereof, and of such value, in writing to said Comptroller of the Treasury, together with such other facts in relation thereto as the said Comptroller of the Treasury may, by order, require, which report and other data required by said Comptroller shall be filed in the office of such Comptroller, and from said report the said Comptroller of the Treasury shall forthwith assess and fix the cash value of such estate and levy the tax to which the same is liable, and shall immediately give notice thereof, by mail, to all parties known by said Comptroller of the Treasury to be interested therein. Any person or corporation dissatisfied with said appraisement or assessment may appeal therefrom to the Ordinary of this State within sixty days after the making and filing of such assessment, on giving a bond, approved by the Ordinary of this State, conditioned to pay said tax so as aforesaid levied by the said Comptroller of the Treasury, together with interests and costs, if the said tax be affirmed by the Ordinary. Any person failing to attend before an appraiser after service of a sub-
pena, or refusing to give evidence concerning any estate, shall be liable to a penalty of two hundred dollars, to be recovered in an action of debt by the Comptroller of the Treasury.

19. Any appraiser appointed pursuant to the provisions of this act who shall take any fee or reward, either directly or indirectly, from any executor or administrator, or any other person liable to pay any tax or any portion thereof, under the provisions of this act, shall be guilty of a misdemeanor, and, on conviction, shall be punished by a fine not exceeding one thousand dollars, or by imprisonment not exceeding one year, or both, at the discretion of the court, and, in addition thereto, the Comptroller of the Treasury of this State shall immediately dismiss such appraiser from his employment. The compensation of said appraisers shall be a sum not exceeding five dollars per day, to be fixed and determined upon by the said Comptroller of the Treasury, and to be paid out of the treasury of this State. Such appraisers shall also be reimbursed for all actual expenses incurred in the discharge of their duties.

20. The Ordinary of this State shall have jurisdiction to hear and determine all questions in relation to any tax levied under the provisions of this act.

21. If it shall appear to the Comptroller of the Treasury of this State that any tax which has accrued under this act has not been paid according to law said Comptroller shall report such fact, in writing, to the register of the Prerogative Court, and said register shall issue a citation citing the persons or corporations interested in the property liable to said tax to appear before the Ordinary on a certain day, not more than three months from the date of such citation, and show cause why such tax should not be paid; the service of such citation and the subsequent proceedings had thereon shall conform to the practice prevailing in the Prerogative Court. Upon the making of any decree the register of the Prerogative Court shall, upon the request of the Comptroller of the Treasury of this State
CHAPTER 228, LAWS, SESSION OF 1909.

furnish one or more copies of said decree, and the same shall be docketed and filed by the clerk of the Supreme Court, or by the county clerk of any county in this State, upon the request of the Comptroller of the Treasury of this State, and the same shall have the same effect as a lien by judgment, and execution shall issue thereon according to the rules and practice appertaining to other judgments docketed and filed with said respective clerks.

22. Whenever the Comptroller of the Treasury of this State shall have reason to believe that any tax is due and unpaid under this act, after the neglect and refusal of the persons or corporations interested in the property and liable to said tax to pay the same, he shall notify the Attorney-General of this State, in writing, of such failure to pay such tax, and the said Attorney-General, when so notified, if he have probable cause to believe that a tax is due and unpaid, shall prosecute the proceeding before the Ordinary of this State, as provided for in section twenty-one of this act, and the State Treasurer shall, on the warrant of the Comptroller, pay all the expenses of said proceeding.

23. The Comptroller of the Treasury of this State shall keep a record in his department of all returns made by appraisers, the cash value of annuities, life estates and term of years, and the amount of all taxes assessed by him; in addition to the foregoing the said Comptroller may enter in said books all other information and data which he may deem desirable or proper.

24. Whenever a resident of this State has died, or shall hereafter die, testate or intestate, seized or possessed of any property liable to the payment of a tax under the provisions of this act, and no letters testamentary or of administration have or shall have been taken out on such estate within one year from the date of the death of such person, or whenever there is property, real or personal, within this State owned by a non-resident decedent which is liable to
the payment of a tax under this act, and such non-resident decedent has been deceased for a period of three months without the tax due this State having been paid, it shall be lawful for the Comptroller of the Treasury of this State to enter into an agreement, in writing, with any person giving him information of the existence of property so liable to a tax, to pay to such person or persons out of any sum which may be collected from any such estate an amount not exceeding ten per centum thereof.

25. Every executor, administrator, trustee, grantee, donee or vendee who willfully and knowingly subscribes or makes any false statement of facts, or knowingly subscribes or exhibits any false paper or false report with intent to deceive any appraiser appointed pursuant to the provisions of this act, shall be guilty of a misdemeanor and punished accordingly.

26. The words "estate" and "property," wherever used in this act, except where the subject or context is repugnant to such construction shall be construed to mean the interest of the testator, intestate, grantor, bargainor or vendor, passing or transferred to the individual or specific legatee, devisee, heir, next of kin, grantee, donee or vendee, not exempt under the provisions of this act, whether such property be situated within or without this State. The word "transfer," as used in this act, shall be taken to include the passing of property, or any interest therein, in possession or enjoyment, present or future, by distribution by statute, descent, devise, bequest, grant, deed, bargain, sale or gift.

27. In case for any reason any section or any provision of this act shall be questioned in any court, and shall be held to be unconstitutional or invalid, the same shall not be held to affect any other section or provision of this act.

28. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed, but nothing in this repealer shall affect or impair the lien of any taxes heretofore assessed, or any tax due and payable,
or any remedies for the collection of the same, or to surrender any remedies, powers, rights or privileges acquired by the State under any act heretofore passed, or to relieve any person or corporation from any penalty imposed by said acts.

tion act for the fiscal year ending October thirty-first, one thousand nine hundred and ten, the plans, specifications and contracts necessary for the entire completion thereof shall, and each of them shall, be submitted to and approved by the Governor, and such contracts shall not be approved or entered into if the total expenditure under all of the contracts necessary to the entire completion of such building, buildings or work according to such plans and specifications shall exceed the amount appropriated by this act for such building, buildings or work; and in any and every case where it shall appear that the appropriation is insufficient to complete such building, buildings or work, the appropriation hereby made therefor shall not be applied toward the construction of such building or buildings, or prosecution of such work, but shall lapse and no payment shall be made therefrom.

3. No money shall be drawn from the treasury except for objects as hereinabove specifically appropriated in this act and in the act to which this act is a supplement, and except such sums which are by law devoted to specific purposes, namely, State school tax, United States appropriation to Agricultural College, United States appropriation for disabled soldiers, United States appropriation for disabled soldiers, sailors, marines and their wives, Agricultural College fund and taxes for the use of taxing districts in this State, moneys received pursuant to the laws relating to motor vehicles, provided a bill pending relating thereto becomes a law, moneys received by the State from the taxation of railroad and canal property, which may be by law apportioned to the various counties of the State for school purposes, and loans to “State School Fund,” which last-named sums shall be paid pursuant to the laws applicable thereto; this section shall not be construed to prohibit the payment due upon any contract made under an appropriation of the previous year, nor of any payments into the State Treasury by State institutions and commissions pursuant to an act entitled “An act regulating the receipt and disbursement of State moneys in certain cases,” approved Octo-

Approved; April 20, 1909; except as to the following item:

Item No. 16. “For maintenance and other expenses of the board of fish and game commissioners, ten thousand, two hundred and sixteen dollars and ninety-one cents.” This item of expenditure I disapprove; my reason being that in the annual appropriation bill of last year, which is now running, all the money was appropriated which was asked for by this commission, for the maintenance and expenses of this commission. I am informed that there are no contracts out against this item which I am now disapproving, and that this was a balance in the hands of the old commission at the time of its abolition, and I see no reason for this money being appropriated to the fish and game commission, particularly if some of the legislation passed at this session of the Legislature shall become operative, under which they will get large sums of money, in addition to their appropriation. Too much money is already being spent, in my judgment, by this commission,

5. A majority of all the members of the Supreme Court, to be presided over by the Chief Justice, shall constitute a quorum for the assignment of justices, and for the appointment of officers, and the enactment of rules.

6. The Supreme Court shall appoint one or more reporters, not exceeding three, to report the decisions of the Court, and shall by rule define his or their duties and powers. The reporters shall hold office for five years, subject, however, to removal at the discretion of the Court.

CHAPTER 269.

An Act for the creation of sewerage districts in townships of this State, and to provide for the maintenance thereof, and the election of sewerage commissioners for such districts.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. The township committee of any township of this State may, at any time, set off and designate by number from the territory of such township a sewerage district or districts, and any such resolution which shall be entered at length upon their minutes shall define and declare the limits, boundaries and numbers of such sewerage district or districts, and the same, when so defined and declared, shall become and be taken to be sewerage districts, and shall be known and designated by and under the corporate name of "Sewerage District No. .......... of the township of ............... , in the county of ............... "; and every such district, when so designated and declared, shall be a body corporate, and shall possess and have the power to sue and be sued, complain and defend in any court of law or equity in this State, make and use a common seal, and to have all other cor-
porate powers necessary for the carrying out of the object hereinafter specified; provided, that the incorporation of any such sewerage district shall be taken to be complete only after the filing with the township clerk of the township in which it is located of the result of the election held as hereinafter provided, and showing that the majority of legal voters at such election have voted in favor of the construction of a sewer or sewers, or system of sewerage.

2. It shall be the duty of the township committee, upon the adoption by it of a resolution defining and declaring a sewerage district or districts within its territory, in accordance with the provisions of this act, to appoint a time and place at which the legal voters of such district or districts so designated shall meet for the purposes hereinafter specified, and to cause the clerk of the township to give notice of such time and place by advertisement in a newspaper published or circulating in the township for at least two weeks prior to such time so advised, said advertisement to be inserted at least once each week, and by posting the same in five of the most public places within the district so designated at least ten days before the day of such meeting.

At said time and place the legal voters of the district shall determine by ballot, by the vote of the majority of those present and voting, whether or not there shall be constructed within such district a sewer or sewers, or system of sewerage, with the appurtenances, including a disposal plant within or without the limits of such district. Said voters, at the same time, shall vote for three of the residents, within the districts to serve as sewerage commissioners for such district, and the three residents receiving the highest number of votes shall be elected as such commissioners for such district; provided, however, in case the vote of the majority shall be against the construction of a sewer, sewers, or system of sewerage within said district, such commissioners shall be without power in the premises.
CHAPTER 269, LAWS, SESSION OF 1909.

It shall be the duty of the election officers conducting such election to make a certificate of the results of said election, and to certify the same under their hands, or the hands of the majority of them, and file the same with the clerk of the township within twenty-four hours after the closing of the polls at such election, which certificate shall forthwith be entered in full by said township clerk in the minute book of the township and file in his office.

3. In case the legal voters shall determine upon the construction of a sewer, or sewers, or system of sewerage, it shall be the duty of the sewerage commissioners, when elected, to take and file with the clerk of the township an oath faithfully and impartially to perform their duties as such commissioners, thereupon to organize by the election of one of their board as chairman, and by the appointment of a clerk, who need not be one of the commissioners. They shall then cause detailed maps, plans and specifications of such sewer, sewers, or system of sewerage, with the appurtenances, including a disposal plant, if deemed necessary, for such district, to be prepared, and shall appoint a time and place at which they will meet to consider the same, and shall give notice by advertisement set upon at least five of the most public places in said district of the time and place of such meeting, for the considering of such detailed maps, plans and specifications. It shall be the duty of said sewerage commissioners to submit a copy of the maps, plans and specifications for said sewers to the Board of Health of the State of New Jersey, and no sewer, drain or system of sewers, shall be constructed until such map, plans and specifications shall have first been approved by the Board of Health of the State of New Jersey.

Upon the consideration of such detailed maps, plans and specifications, said commissioners, by a majority vote, may adopt said detailed maps, plans and specifications, or such modifications thereof as they may deem best, and may thereafter enter into a contract for
the furnishing of the work and materials of said sewer, sewers, or system of sewerage, with the appurtenances, with such other agreements and covenants therein contained as shall be approved by them.

In case the said sewerage commissioners shall deem it necessary for the efficient sewerage of such district, or any part thereof, to construct an outlet sewer or sewers to tide or other waters, or to an outlet or disposal works, either within or outside of such sewerage district, or to connect any such outlet sewer or sewers with the sewerage system of any sewerage district or municipality, it shall be lawful for them to do so under the provisions of this section.

In case it shall be necessary to take and occupy lands either within or without the bounds of such sewerage district, it shall be lawful for the commissioners thereof to take and appropriate and use for this purpose, so far as may be necessary, any land, or interest in land, within or without the limits of said district, and to acquire by purchase or condemnation any land, or interest in land, in such district, or any other municipality needed for that purpose. And the said commissioners shall have power to contract with any other sewerage district or municipality in the State for the right to use the sewerage system, or disposal works of such sewerage district or municipality on such terms and conditions and at such cost to such sewerage district as may be agreed upon, and to the making and performance of such agreement or contract the said sewerage district or municipal corporations are hereby fully empowered; provided, however, that no disposal works of any kind shall be located beyond the territorial limits of such sewerage district without the consent of the governing body of the municipality in which the same is located, evidenced by a resolution duly entered on the minutes of such governing body.

4. In order to meet the cost of making the detailed maps, plans and specifications, the necessary engineering charges, the necessary legal expenses and the cost of the construction of any such sewer, sewers, or sys-
CHAPTER 269, LAWS, SESSION OF 1909.

5. Within six months after the final completion of any sewer, sewers, or system of sewerage built under the provisions of this act the sewerage commissioners for such district shall appoint a time and place for a meeting of the legal voters of such district for the purpose of determining by a vote of the majority of those present and voting whether the cost of such improvement shall be paid by taxing the taxable ratables within said district therefor, or whether there shall be levied...
upon the lands and real estate specially benefited by said improvement such part of the cost thereof as may represent the special benefits conferred upon such lands by such improvement.

In case it shall be determined by such vote that an assessment shall be levied upon the lands specially benefited by such improvement, the sewerage commissioners shall forthwith make application by petition to the Circuit Court of the county in which said district shall be located for the appointment of three commissioners of assessment, who shall be resident freeholders of the county, but shall not be interested in any land within said sewerage district, or otherwise interested in said improvement. They shall, before entering upon their duties, take and subscribe before some officer by law empowered to administer oaths, an oath in which they shall swear that they are not interested in any land within the sewerage district, and not otherwise interested in said improvement, and that they are resident freeholders of the county, and that they will faithfully execute the duties of their office. They shall then ascertain the cost of said improvement, including all damages and awards for the taking of property, the cost of any outlet obtained by purchase, if any, and all lawful expenses, and shall then assess such part of said cost and expenses so ascertained as shall represent the special benefits conferred upon the land and real estate specially benefited by such improvement, and in proportion to the benefit thereby received, and no lot or parcel of land shall be assessed more than it is specially benefited, and the excess, or any of such cost and expenses, over and above the amount so assessed upon such land, shall be assessed upon the district at large wherein such improvement shall lie, which assessment shall be manifested by a report in writing, signed by the said commissioners, or any two of them, accompanied by a map showing the lands assessed and the amount assessed upon each lot or parcel of land, the name of the owner or owners of such lots of land, so far as they have become known to said assessment.

commissioners, and the excess of such cost and expense, if any, assessed upon the district at large, but no assessment shall be deemed defective by reason of any mistake in the names of any of said owners, or by reason of the omission of the names of any of such owners.

6. The report and map of said assessment commissioners shall be filed with the clerk of such sewerage district, and thereafter said clerk shall, at the direction of the said sewerage commissioners, cause a notice to be posted for at least ten days in five of the most public places of the district, stating that the commissioners of assessment filed their map and report with the clerk of the district, and that the sewerage commissioners will meet at a time and place in said notice designated to consider any objections to said assessment report which may be presented in writing to the clerk of the district on or before the day named and fixed in said notice. After hearing any such objections, the sewerage commissioners may, by resolution, confirm such report and the assessments thereby levied or imposed, or they may return the same to the said commissioners of assessment with any such objections as may have been received for such amendment as may to the said assessment commissioners think reasonable and proper, and the sewerage commissioners may thereafter, without any further notice to any person, by resolution, confirm the report of assessment commissioners, whenever said report is again filed by said assessment commissioners with the clerk of the district. In the resolution confirming the report of the assessment commissioners, the sewerage commissioners shall provide whether assessments for benefits then payable under said report shall be paid in one payment or in equal annual installments not exceeding ten; all assessments shall draw interest from the time they become due and payable at the rate of six per centum per annum, and if made payable in installments there shall be due and payable with each installment thereon, and on the unpaid portion of such assessment,
interest at the same rate; but any assessment on any lot or parcel of land, or any and all installments thereof, may be paid at any time before the same become legally overdue, with all arrearages and interest to the time of payment, and all assessments shall become due and payable upon the adoption of the resolution confirming the report of the commissioners imposing the assessments.

7. Immediately upon the confirmation by the sewerage commissioners of any report of assessment commissioners imposing assessments for benefits, such assessment shall constitute a first and paramount lien on the property assessed for the amount so assessed against it, with interest and any costs of collection, and shall so remain until the said assessment, together with interest and costs of collection, if any, shall be paid, notwithstanding any devise, descent, alienation, mortgage or other encumbrance thereof.

8. Within five days after the adoption of the resolution confirming the report of the assessment commissioners, it shall be the duty of the clerk of the sewerage district to deliver to the collector of taxes in the township within which said district is situated, a certified copy of said resolution and of the report of such commissioners, and thereupon it shall be the duty of the collector of said township to collect all assessments then payable according to the terms of such resolution and in the manner therein provided with all due speed, and to report such collections from time to time to the sewerage commissioners of such district, and to pay over the money so collected under the direction of the sewerage commissioners of said district to the custodian of the sinking fund appointed as heretofore provided.

9. Whenever any assessment for benefits under the provisions of this act, or any installment thereof, shall remain due and unpaid for the period of one year after the same shall have become due and payable under the resolution confirming the report and imposing such assessment, said assessment, or installment thereof, shall
CHAPTER 269, LAWS, SESSION OF 1909.

be collected and enforced in the same manner and by
the officer as outstanding taxes are enforced and
collected in townships, and the land upon which the
same is a lien may be sold therefor in the same man­
ner as is now provided in the case of taxes in town­
ships.

10. For the purpose of providing moneys for the
payment of improvement certificates issued under the
provisions of this act, said sewerage commissioners of
any sewerage district shall have power to issue regis­
tered or coupon bonds, or coupon bonds with registry
privileges, in the name of said sewerage district, which
bonds shall be made payable in not less than twenty
years from their date, and not less than twenty years
nor more than fifty years from their date. In case the
voters of said district shall determine, as hereinbefore
provided, that no assessment for special benefits shall
be levied in said district, in which case a sinking fund
for the redemption of said bonds at maturity shall be
raised by taxation within said district equal to at least
three per centum of the total issue of such bonds; but
in case the legal voters shall determine that an assess­
ment for benefits shall be levied in said district, said
bonds shall be made payable in not less than ten years
and not more than twenty years from their date, and
in this case there shall be raised by taxation within said
district a sinking fund of one per centum per annum
of the total issue of said bonds, and there shall be
added to said sinking fund the amount of assessments
collected from time to time upon the lands specially
benefited by the improvement; and the sewerage com­
missioners shall designate and appoint some trust com­
pany authorized to act as trustee or administrator of
decedents' estates within the State of New Jersey as
custodian of such sinking fund, and thereupon such
trust company shall be empowered to receive and keep
invested such sinking fund in such securities as are au­
thorized by law for the investment of trust funds in
the State of New Jersey, and shall be entitled to re­
ceive for its services the same fee and commissions as
are allowed for the administration of decedents' estates. The net annual income from the sinking fund above provided for shall be added to the principal of such fund, and whenever the principal of such fund shall be equal to the principal of the bonds outstanding no further sums shall be raised by taxation in said district on account of the sinking fund, and the net income from such fund shall thereafter be devoted to paying annual interest on the bonds until the maturity and payment thereof. The custodian is expressly authorized at any time to purchase the bonds of the district for which the sinking fund may be established, out of the principal of the fund and to forthwith cancel the same.

11. In order to provide the funds to pay interest charges upon bonds issued pursuant to the provisions of this act, and of the cost of maintenance of any sewer, sewers or system of sewerage built in accordance herewith, the said sewerage commissioners shall determine by resolution and certify to the township assessor before the first day of July in each year, the amount of money deemed by them necessary for said purposes, and thereupon it shall be the duty of the assessor of said township to assess upon the ratables, real and personal, in said district, in the same manner in which township taxes are assessed, the amount so certified, and it shall be the duty of the township collector to collect the same, and when collected, to pay the same over to the custodian of the sinking fund designated by the sewerage commissioners, and thereupon such custodian shall out of such funds provide, first, for the payment of the interest on the bonds as the same may become due, and the surplus, if any, shall pay over, upon the order of the sewerage commissioners, for the maintenance of said sewer, sewers or system of sewerage.

12. In case of a vacancy in the office of the sewerage commission in any sewerage district, the same shall be filled by the vote of the legal voters in said district at a special election to be called by the sewerage
commissioners, of which at least ten days' notice shall be given by the clerk of the said district by posting the same in five of the most public places in the district.

13. At any meeting of the legal voters of any sewerage district, the vote shall be by ballot, and the judge, clerk and inspectors of election shall be elected, viva voce by the voters, present at the opening of the polls at the time and place mentioned in the notice of such election.

14. The sewerage commissioners of every sewerage district established under the provisions of this act shall serve without compensation. The clerk of any such district may receive such compensation as the commissioners may by resolution determine, not exceeding the sum of three hundred dollars per annum; such clerk shall be appointed for terms of one year and until his successors shall be appointed. The sewerage commissioners are further authorized to secure such legal advice and services as they may require.

15. No writ of certiorari to review any assessment made for benefits by reason of any improvement authorized by this act shall be allowed or granted unless application therefor shall be made within six months after the confirmation of the report imposing such assessment.

16. For the payment of the obligations, improvement certificates and bonds issued by the sewerage commissioners of any sewerage district created under the provisions of this act, all the property, real and personal, within the district, shall be liable.

17. Nothing in this act contained shall be construed as in any way repealing or modifying the provisions of any other act providing a method for the construction of sewers in townships, but the powers hereby granted shall be considered as powers granted in addition to any such powers.

18. This act shall take effect immediately.

Approved April 21, 1909.

The Senate at this session passed an act reducing the salaries of these commissioners to one thousand dollars. The bill was held in committee in the House of Assembly, and the House never had an opportunity to vote upon it. In my Message to the Legislature, I recommended a single headed commissioner for this department. The Legislature at its next session can either create a single headed department or reduce the salaries of these commissioners and fix the compensation at what they think right, to date from November 1st, of this year. The Joint Finance Committee, as well as the committee of the minority, recommended that the salaries of these commissioners should be reduced to one thousand dollars. The matter will be open to the next Legislature to continue the present salaries or to reduce them, or to appropriate on the present basis of salary.

PROCLAMATIONS.
Proclamations by the Governor.

The honor of being a citizen of this great republic would, of itself, be a sufficient cause for annually setting apart, in accordance with custom, a day for thanksgiving and prayer. But the people of New Jersey have much else to be thankful for. Their church relations, their free schools, their good roads, their unique situation, their clean State government, their picturesque hills, their unequalled sea coast; their efficient municipal governments; their vast mining, manufacturing and industrial interests, and their high average of intelligence, all give cause for unbounded gratitude to the Giver of all good. Beside all this, our fields have been fertile, our homes happy, our transportation facilities satisfactory, the wages of labor fair, and the price of the product of our farms and of the output of our factories remunerative. When to all this is added a splendid civic spirit, which is abroad in our public life, we can indeed be grateful for the Providence over-ruling it all. On every account our lot may, truly, be said to be cast in pleasant places.

Therefore, I, John Franklin Fort, Governor of the State of New Jersey, do designate Thursday, the twenty-sixth day of November, instant, as a day to be observed for general thanksgiving and prayer, and upon that day I recommend that all business cease and that the people gather in their respective churches, and other places, for public worship, or in their homes in private, to make fitting acknowledgment to Almighty God of his unbounded benefactions to us as Nation, State and individuals.

(555)
TO THE PEOPLE OF THE STATE OF NEW JERSEY:

The people of New Jersey in common with all humanity sympathize with the people of southern Italy in the desolation, destruction and death that has come to them. Two cities lie in ruins and fully one hundred thousand people are dead. Sympathy is of little avail unless it is timely and extended in a practical way. The people in New Jersey, aside from their interest in the inhabitants of Italy, have a further incentive to aid upon the fact that thousands of our citizens and residents are Italians, some of whose friends and kindred have gone to death or terrible loss or both in the great calamity.

I recommend that contributions be made through the New Jersey State Branch of the American National Red Cross which is in communication with the Italian Red Cross and has undertaken to receive and forward all sums for relief.

All moneys raised in New Jersey should be forwarded to Daniel S. Voorhees, State Treasurer, at
Trenton, who is Treasurer of the New Jersey State Branch of the Red Cross.

Let me express the hope that the generosity of all our people will find quick expression as there is terrible suffering and great need.

Given under my hand and the privy seal of the State of New Jersey, at Trenton, this thirty-first day of December, in the year of our Lord, one thousand nine hundred and eight, and of the independence of the United States, the one hundred and thirty-third.

(SEAL) JOHN FRANKLIN FORT.

By the Governor,

LESLIE R. FORT,
Secretary to the Governor.

ENDORSED:
"Filed Dec. 31, 1908.
S. D. DICKINSON,
Secretary of State."

S. D. DICKINSON,  
Secretary of State.
On the twelfth day of February next will occur the
One Hundredth Anniversary of the birth of Abraham
Lincoln.

By the law of our State his birthday has been made
an annual legal holiday; but, the coming anniversary
of his birth demands more than the customary obser­
vance.

Born in obscurity, when the place of his birth and
early manhood, that is now a part of the great middle
west, was on the frontier of the Republic; and reared
amidst privations and hardships, with few, if any, of
the advantages now obtainable by the youth of our day;
he surmounted all difficulties and rose by sheer per­
sonal merit to the Presidency of the Republic, and
died a martyr's death when but fifty-six years of age.

He stood for freedom and the equality of man. He
exemplified the pure in personal, domestic and public
life. He, as few others ever did, had the confidence
of the people. He sprang from them, was of them,
and they loved and honored him.

His life and work are unique in American history.
To recall his humble birth, his privations, sacrifices,
virtues, utterances, principles and public services, is to
encourage youth, strengthen the cause of truth and
right in all men, and to elevate our standards of poli­
tical honesty.

Therefore, I, John Franklin Fort, Governor of the
State of New Jersey, do hereby call upon all munici­
palities in the State, all public organizations, clubs,
Posts of the Grand Army of the Republic, public
schools, and all civic societies, to cause suitable exer­
cises to be arranged for on said twelfth day of Febru­
ary next, or near thereto, that the memory of this great
American may be suitable commemorated;
And I do further recommend that the clergy of the State shall, either upon the Sabbath preceding or succeeding the anniversary of his birth, devote one service in their respective places of worship to appropriate exercises.

Given under my hand and seal, at the Executive Chamber, in the city of Trenton, this eighteenth day of January, in the year of our Lord, one thousand nine hundred and nine, and of the Independence of the United States the one hundred and thirty-third.
